Independent Auditor's Report

To the shareholders of APB APRANGA

Report on the financial statements

We have audited the accompanying stand-alone and consolidated financial statements of APB APRANGA ("the Company") and its subsidiaries ("the Group") set out on pages 5 to 37, which comprise the stand-alone and consolidated balance sheets as of 31 December 2013 and the stand-alone and consolidated statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes comprising a summary of significant accounting policies and other explanatory information ("the financial statements").

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards as adopted by the European Union, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company and the Group as of 31 December 2013, and their financial performance and their cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

Report on other legal and regulatory requirements

Furthermore, we have read the consolidated annual report for the year ended 31 December 2013 set out on pages 38 to 76 and have not noted any material inconsistencies between the financial information included in it and the audited financial statements for the year ended 31 December 2013.

The shareholders of the Company have a statutory right to approve or not these financial statements and to require preparation of a new set of the financial statements.

2. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The principle accounting policies applied in the preparation of these financial statements are set out below. These policies have been consistently applied to all the years presented, unless otherwise stated.

2.1 BASIS OF PREPARATION

The financial statements have been prepared in accordance with International Financial Reporting Standards as adopted by the European Union (IFRS).

These financial statements have been prepared under the historical cost convention, except for available for sale financial assets stated at fair value.

These financial statements comprise the Group's consolidated financial statements and the Company's separate financial statements.

2.2 CRITICAL ACCOUNTING ESTIMATES AND ASSUMPTIONS

International Financial Reporting Standards require that in preparing the financial statements, management of the Company and the Group make estimates and assumptions that affect the reported amounts of assets and liabilities and required disclosure at the date of the financial statements and the reported amounts of revenues and expenses during the reporting period. Actual results could differ from those estimates. There are no areas involving a higher degree of judgement or complexity, or areas where assumptions and estimates are significant to the financial statements, except for the following:

(a) Income taxes

Tax authorities have right to examine accounting records of the Company and its Lithuanian subsidiaries at anytime during the 5 year period after the current tax year (the Latvian and Estonian subsidiaries - 3 and 7 year period after the current year respectively) and account for additional taxes and fines. In the opinion of the Company's management, currently there are no circumstances which would raise substantial liability in this respect to the Company and to the Group.

(b) Related party transactions

In the normal course of business the Company and the Group enters into transactions with its related parties. These transactions, except for the Company's transactions with its subsidiaries, are priced predominantly at market rates. Judgement is applied in determining if transactions are priced at market or non-market rates, where there is no active market for such transactions. The basis for judgement is pricing for similar types of transactions with unrelated parties.

The Company's transactions with its subsidiaries are priced predominantly at cost. Annual management fees are charged to the subsidiaries for an estimated amount which adjusts pricing of all transactions carried out with subsidiaries during the year to the market rates.

(c) Revenue recognition

Management judgment is needed to determine whether revenue for certain sales transactions should be recorded on a gross basis or on a net basis. Revenue is recognised on a gross basis where the role is that of principal in a transaction. The gross basis represents the sales price after discounts, with any related costs charged to expenses. Where the Company or the Group would act on a consignment basis in a transaction, revenue would be recognised on the net basis and inventory held on consignment is not recognised in the balance sheet.

(d) Estimates concerning useful lives of tangible and intangible assets

The useful lives of tangible and intangible assets are determined by management at the time the asset is acquired and reviewed on an annual basis for appropriateness. The lives are based on historical experiences with similar assets as well as anticipation of future events, which may impact their life. If useful lives of tangible and intangible assets determined by management are longer by one year, then depreciation and amortization expenses of the Company and the Group would be lower by LTL 397 thousand and LTL 350 thousand respectively for the year ended 31 December 2013 (LTL 625 thousand and LTL 984 thousand in 2012).

(e) Impairment of property, plant and equipment

Each shop is considered to represent a separate cash generating unit for impairment test. The Group and Company has tested its leasehold improvements and other fixed assets whether those have suffered any impairment, in accordance with the accounting policies stated in note 2.9. The Group and Company has used "value in use" calculations to test for impairment as information on fair value less costs to sell was not available. These calculations require the use of estimates (note 12).

2.3 ADOPTION OF NEW AND REVISED INTERNATIONAL FINANCIAL REPORTING STANDARDS

In the current year, the Company and the Group has adopted all of the new and revised Standards and Interpretations that are relevant to its operations and effective for accounting periods beginning on 1 January 2013.

(a) The following new standards, amendments and interpretations are mandatory for accounting periods beginning on or after 1 January 2013:

- IFRS 13, Fair value measurement, (issued in May 2011 and effective for annual periods beginning on or after 1 January 2013), aims to improve consistency and reduce complexity by providing a revised definition of fair value, and a single source of fair value measurement and disclosure requirements for use across IFRSs. The price within the bid-ask spread that is most representative of fair value in the circumstances is used to measure fair value, which management considers is the last trading price on the reporting date. Prior to 1 January 2013, the quoted market price used for financial assets was the current bid price; the quoted market price for financial liabilities was the current asking price. The effect of these changes was recorded as a change in estimate in profit or loss for 2013. With application of this standard the Group and Company presented additional disclosure in Note 3 to Consolidated financial statements.
- Amendments to IAS 1, Presentation of Financial Statements (issued June 2011, effective for annual periods beginning on or after 1 July 2012), changes the disclosure of items presented in other comprehensive income. The amendments require entities to separate items presented in other comprehensive income into two groups, based on whether or not they may be reclassified to profit or loss in the future. The suggested title used by IAS 1 has changed to 'statement of profit or loss and other comprehensive income'. The amended standard resulted in changed presentation of financial statements, but did not have any impact on measurement of transactions and balances.
- Amended IAS 19, Employee Benefits (issued in June 2011, effective for periods beginning on or after 1 January 2013), makes significant changes to the recognition and measurement of defined benefit pension expense and termination benefits, and to the disclosures for all employee benefits. The standard requires recognition of all changes in the net defined benefit liability (asset) when they occur, as follows: (i) service cost and net interest in profit or loss; and (ii) remeasurements in other comprehensive income. This amendment had no significant impact on the Group's and Company's financial statements.
- Disclosures—Offsetting Financial Assets and Financial Liabilities - Amendments to IFRS 7 (issued in December 2011 and effective for annual periods beginning on or after 1 January 2013). The amendment requires disclosures that will enable users of an entity's financial statements to evaluate the effect or potential effect of netting arrangements, including rights of set-off. This amendment had no significant impact on the Group's and Company's financial statements.
- Improvements to International Financial Reporting Standards (issued in May 2012 and effective for annual periods beginning 1 January 2013). The improvements consist of changes to five standards. IFRS 1 was amended to (i) clarify that an entity that resumes preparing its IFRS financial statements may either repeatedly apply IFRS 1 or apply all IFRSs retrospectively as if it had never stopped applying them, and (ii) to add an exemption from applying IAS 23, Borrowing costs, retrospectively by first-time adopters. IAS 1 was amended to clarify that explanatory notes are not required to support the third balance sheet presented at the beginning of the preceding period when it is provided because it was materially impacted by a retrospective restatement, changes in accounting policies or reclassifications for presentation purposes, while explanatory notes will be required when an entity voluntarily decides to provide additional comparative statements. IAS 16 was amended to clarify that servicing equipment that is used for more than one period is classified as property, plant and equipment rather than inventory. IAS 32 was amended to clarify that certain tax consequences of distributions to owners should be accounted for in the income statement as was always required by IAS 12. IAS 34 was amended to bring its requirements in line with IFRS 8. IAS 34 will require disclosure of a measure of total assets and liabilities for an operating segment only if such information is regularly provided to chief operating decision maker and there has been a material change in those measures since the last annual financial statements. This amendment had no significant impact on the Group's and Company's financial statements.

(b) The following new standards, amendments to existing standards and interpretations have been issued and adopted by the European Union but are not yet effective and have not been early adopted by the Group and the Company:

- IFRS 10, Consolidated Financial Statements (issued in May 2011 and effective for annual periods beginning on or after 1 January 2013), replaces all of the guidance on control and consolidation in IAS 27 "Consolidated and separate financial statements" and SIC-12 "Consolidation - special purpose entities". IFRS 10 changes the definition of control so that the same criteria are applied to all entities to determine control. This definition is supported by extensive application guidance. The Group and Company is currently assessing the impact of the new standard on its financial statements.
- IFRS 12, Disclosure of Interest in Other Entities, (issued in May 2011 and effective for annual periods beginning on or after 1 January 2013), applies to entities that have an interest in a subsidiary, a joint arrangement, an

associate or an unconsolidated structured entity. IFRS 12 sets out the required disclosures for entities reporting under the two new standards: IFRS 10, Consolidated financial statements, and IFRS 11, Joint arrangements, and replaces the disclosure requirements currently found in IAS 28, Investments in associates. IFRS 12 requires entities to disclose information that helps financial statement readers to evaluate the nature, risks and financial effects associated with the entity's interests in subsidiaries, associates, joint arrangements and unconsolidated structured entities. To meet these objectives, the new standard requires disclosures in a number of areas, including significant judgments and assumptions made in determining whether an entity controls, jointly controls, or significantly influences its interests in other entities, extended disclosures on share of non-controlling interests in group activities and cash flows, summarised financial information of subsidiaries with material non-controlling interests, and detailed disclosures of interests in unconsolidated structured entities. The Group and Company is currently assessing the impact of the new standard on its financial statements.

- IAS 27, Separate Financial Statements, (revised in May 2011 and effective for annual periods beginning on or after 1 January 2013), was changed and its objective is now to prescribe the accounting and disclosure requirements for investments in subsidiaries, joint ventures and associates when an entity prepares separate financial statements. The guidance on control and consolidated financial statements was replaced by IFRS 10, Consolidated Financial Statements. The Group and Company is currently assessing the impact of the amended standard on its financial statements.
- Offsetting Financial Assets and Financial Liabilities - Amendments to IAS 32 (issued in December 2011 and effective for annual periods beginning on or after 1 January 2014). The amendment added application guidance to IAS 32 to address inconsistencies identified in applying some of the offsetting criteria. This includes clarifying the meaning of 'currently has a legally enforceable right of set-off' and that some gross settlement systems may be considered equivalent to net settlement. The Group and Company is considering the implications of the amendment on its financial statements.
- IFRIC 21 - Levies (issued on 20 May 2013 and effective for annual periods beginning 1 January 2014). The interpretation clarifies the accounting for an obligation to pay a levy that is not income tax. The obligating event that gives rise to a liability is the event identified by the legislation that triggers the obligation to pay the levy. The fact that an entity is economically compelled to continue operating in a future period, or prepares its financial statements under the going concern assumption, does not create an obligation. The same recognition principles apply in interim and annual financial statements. The application of the interpretation to liabilities arising from emissions trading schemes is optional. The Group and Company is currently assessing the impact of the amendments on its financial statements.
- Amendments to IAS 36 - Recoverable amount disclosures for non-financial assets (issued on 29 May 2013 and effective for annual periods beginning 1 January 2014; earlier application is permitted if IFRS 13 is applied for the same accounting and comparative period). The amendments remove the requirement to disclose the recoverable amount when a CGU contains goodwill or indefinite lived intangible assets but there has been no impairment. The Group and Company is currently assessing the impact of the amendments on the disclosures in its financial statements.

2.4 CONSOLIDATION

The consolidated financial statements incorporate the financial statements of the Company and entities controlled by the Company (its subsidiaries). Control is achieved when the Company has the power to govern the financial and operating policies of an entity so as to obtain benefits from its activities.

The existence and effect of potential voting rights that are currently exercisable or convertible are considered when assessing whether the Group controls another entity.

The Group uses the acquisition method of accounting to account for business combinations. The consideration transferred for the acquisition of a subsidiary is the fair values of the assets transferred, the liabilities incurred and the equity interests issued by the group. The consideration transferred includes the fair value of any asset or liability resulting from a contingent consideration arrangement. Acquisition-related costs are expensed as incurred. Identifiable assets acquired and liabilities and contingent liabilities assumed in a business combination are measured initially at their fair values at the acquisition date. On an acquisition-by-acquisition basis, the group recognises any non-controlling interest in the acquiree either at fair value or at the non-controlling interest's proportionate share of the acquiree's net assets.

The excess of the consideration transferred, the amount of any non-controlling interest in the acquiree and the acquisition-date fair value of any previous equity interest in the acquiree over the fair value of the group's share of the identifiable net assets acquired is recorded as goodwill. If this is less than the fair value of the net assets of the subsidiary acquired in the case of a bargain purchase, the difference is recognised directly in the statement of comprehensive income.

Inter-company transactions, balances and unrealised gains on transactions between group companies are eliminated. Unrealised losses are also eliminated but considered an impairment indicator of the asset transferred.

Accounting policies of subsidiaries have been changed where necessary to ensure consistency with the policies adopted by the Group.

2.5 SEGMENT REPORTING

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as General Director and other 6 Directors who make strategic decisions.

2.6 FOREIGN CURRENCY TRANSLATION

(a) Functional and presentation currency

The individual financial statements of each group entity are presented in the currency of the primary economic environment in which the entity operates (its functional currency). For the purpose of the consolidated financial statements, the results and financial position of each entity are expressed in Lithuanian Litas, which is the functional currency of the Company, and the presentation currency for the consolidated financial statements.

(b) Transactions and balances

In preparing the financial statements of the individual entities, transactions in currencies other than the entity's functional currency (foreign currencies) are recorded at the rates of exchange prevailing on the dates of the transactions. At each balance sheet date, monetary items denominated in foreign currencies are retranslated at the rates prevailing on the balance sheet date. Exchange differences arising on the settlements of monetary items, and on the retranslation of monetary items, are included in the statement of comprehensive income for the period.

(c) Group companies

For the purpose of presenting consolidated financial statements, the assets and liabilities of the Group's foreign operations (including comparatives) are expressed in Lithuanian Litas using exchange rates prevailing on the balance sheet date. Income and expense items (including comparatives) are translated at the average exchange rates for the period, unless exchange rates fluctuated significantly during that period, in which case the exchange rates at the dates of the transactions are used. Exchange differences arising, if any, are classified as other comprehensive income and transferred to the Group's translation reserve. Such translation differences are recognised in profit or loss in the period in which the foreign operation is disposed of.

The applicable rates used for the principal currencies as of 31 December 2013 and 2012 were as follows:

2013			2012		
1 EUR	=	3.4528 LTL	1 EUR	=	3.4528 LTL
1 LVL	=	4.9184 LTL	1 LVL	=	4.9520 LTL

2.7 INTANGIBLE ASSETS

Intangible assets expected to provide economic benefit to the Company and the Group in future periods are valued at acquisition cost less subsequent accumulated amortisation.

Amortisation is calculated on a straight-line basis to write off the cost of each asset over the estimated useful life as follows:

Software	3-5 years
Licences and rights acquired	5-9 years

Amortisation is accounted for as selling expense.

2.8 PROPERTY, PLANT AND EQUIPMENT

Property, plant and equipment is stated at historical cost, less accumulated depreciation and impairment losses.

APB APRANGA, company's code 121933274, Kirtimu 51, Vilnius
NOTES TO CONSOLIDATED AND COMPANY'S FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2013

(all tabular amounts are in LTL thousands unless otherwise stated)

Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate, only when it is probable that future economic benefits associated with the item will flow to the Company and the Group and the cost of the item can be measured reliably. The carrying amount of the replaced part is derecognised. All other repairs and maintenance are charged to the statement of comprehensive income during the financial period in which they are incurred.

Depreciation is charged so as to write-off the cost of fixed assets to their residual value over their estimated useful lives, using the straight-line method, on the following basis:

Buildings	15-50 years
Plant and equipment	5-20 years
Leasehold improvements	4-10 years
Other fixed assets	3-6 years

All depreciation of property, plant and equipment is recognised in the statement of comprehensive income and accounted for as selling expenses.

The assets' residual values and useful lives are reviewed, and adjusted if appropriate, at each balance sheet date.

Where the carrying amount of an asset is greater than its estimated recoverable amount, it is written down immediately to its recoverable amount (Note 2.9). Impairment of property, plant and equipment as well as reversals of impairment during the year are included into selling costs caption in the statement of comprehensive income.

The gain or loss arising on the disposal or retirement of an asset is determined as the difference between the sales proceeds and the carrying amount of the asset and is recognized in the statement of comprehensive income within operating profit.

The Group and the Company capitalise borrowing costs that relate to assets that take more than 12 months to get ready for use. Otherwise borrowing costs are recognised as expenses of the current reporting period. The policy is applied from 1 January 2009 prospectively.

2.9 IMPAIRMENT OF NON-FINANCIAL ASSETS

At each balance sheet date, the Company and the Group reviews the carrying amounts of its tangible and intangible fixed assets to determine whether there is any indication that those assets have suffered an impairment loss. If any such indication exists, the recoverable amount of the asset is estimated in order to determine the extent of the impairment loss (if any). Where it is not possible to estimate the recoverable amount of an individual asset, the Company and Group estimates the recoverable amount of the cash-generating unit to which the asset belongs.

Recoverable amount is the greater of fair value less costs to sell and value in use. In assessing value in use, the estimated future cash flows are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset.

If the recoverable amount of an asset (or cash-generating unit) is estimated to be less than its carrying amount, the carrying amount of the asset (cash-generating unit) is reduced to its recoverable amount. Impairment losses are recognized as an expense immediately.

Where an impairment loss subsequently reverses, the carrying amount of the asset (cash-generating unit) is increased to the revised estimate of its recoverable amount, but so that the increased carrying amount does not exceed the carrying amount that would have been determined had no impairment loss been recognized for the asset (cash-generating unit) in prior years. A reversal of an impairment loss is recognized as income immediately.

2.10 INVESTMENTS IN SUBSIDIARIES

In the separate Company's financial statements investments in subsidiaries are accounted for at cost less impairment. Cost is adjusted to reflect changes in consideration arising from contingent consideration amendments. Cost also includes direct attributable costs of investment.

Dividends received are credited to the Company's statement of comprehensive income.

2.11 NON-CURRENT ASSETS HELD FOR SALE

Non-current assets are classified as held for sale if their carrying amount will be recovered through a disposal rather than through continuing use. This condition is regarded as met only when the disposal is highly probable and the asset is available for immediate disposal sale in its present condition.

Non-current assets classified as held for sale are measured at the lower of the carrying value of assets and fair value less costs to sell.

2.12 INVENTORIES

Inventories are stated at the lower of cost and net realizable value. Cost is determined by the first-in, first-out method. Net realizable value represents the estimated selling price less all estimated costs to be incurred in selling.

2.13 FINANCIAL ASSETS AND LIABILITIES

Financial assets and financial liabilities are recognized on the Company's and Group's balance sheet when the Company or the Group becomes a party to the contractual provisions of the instrument.

The Group and the Company classifies all its financial assets into the category of loans and receivables and available for sale financial assets. The classification depends on the purpose for which the financial assets were acquired. Management determines the classification of its financial assets at initial recognition. Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. They are included in current assets, except for maturities greater than 12 months after the balance sheet date. These are classified as non-current assets. The Group's and the Company's loans and receivables comprise 'trade and other receivables' and 'cash and cash equivalents' in the balance sheet. All "regular way" purchases and sales of financial assets are recognised using settlement date accounting.

(a) Trade and other receivables

Trade and other receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment. A provision for impairment of trade receivables is established when there is objective evidence that the Group and the Company will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. The amount of the provision is the difference between the asset's carrying amount and the present value of estimated future cash flows, discounted at the original effective interest rate. The carrying amount of the asset is reduced through the use of an allowance account, and the amount of the loss is recognised in the statement of comprehensive income within 'general and administrative expenses'. When a trade receivable is uncollectible, it is written off against the allowance account for trade receivables. Subsequent recoveries of amounts previously written off are credited against 'general and administrative expenses' in the statement of comprehensive income.

(b) Available for sale financial assets

Available-for-sale financial assets are those non-derivative financial assets that are designated as available-for-sale or are not classified in any of the other financial assets categories.

After initial recognition available-for-sale financial assets are measured at fair value based on available market prices or quotes of brokers. For investments where there is no active market, fair value is determined using valuation techniques. Such techniques include using recent arm's length market transactions, reference to the current market value of another instrument, which is substantially the same, and discounted cash flow analysis. The result of revaluation of available-for-sale securities is recognised in revaluation reserve of financial assets, reported under equity.

Revaluation of available-for-sale debt securities is calculated as difference between market value and amortised cost calculated using the original effective interest rate. When the securities are disposed of, the related accumulated fair value revaluation is included in the statement of comprehensive income as gain (loss) from sale of available-for-sale securities. If there is objective evidence that the value of an investment has been impaired, the cumulative net loss that has been recognised directly in equity is charged to profit (loss) for the year. Interest earned while holding available-for-sale financial assets is reported as interest income.

The Group and the Company assess at each date of preparation of the statement of financial position whether there is objective evidence that a financial asset or a group of financial assets is impaired.

Available for sale financial assets are included in non-current assets unless the investment matures or management intends to dispose of it within 12 months of the end of the reporting period.

(c) Cash and cash equivalents

Cash and cash equivalents are carried at nominal value.

APB APRANGA, company's code 121933274, Kirtimu 51, Vilnius
NOTES TO CONSOLIDATED AND COMPANY'S FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2013

(all tabular amounts are in LTL thousands unless otherwise stated)

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, deposits held at call with banks and other short-term highly liquid investments with original maturities of three months or less, and bank overdrafts. Bank overdrafts are included in borrowings in current liabilities on the balance sheet.

(d) Bank and subsidiaries borrowings

Interest-bearing bank and subsidiaries loans and overdrafts are initially measured at fair value. Bank and subsidiaries borrowings are subsequently measured at amortised cost, using the effective interest rate method. Any difference between the proceeds (net of transaction costs) and the settlement or redemption of borrowings is recognised over the term of the borrowings in the statement of comprehensive income.

Borrowings are classified as current liabilities unless the Company or the Group has an unconditional right to defer settlement of the liability for at least 12 months after the balance sheet date.

(e) Trade and other payables

Trade payables are initially measured at fair value, and are subsequently measured at amortised cost, using the effective interest rate method.

2.14 SHARE CAPITAL

(a) Ordinary shares

Ordinary shares are stated at their par value. Consideration received for the shares sold in excess over their par value is shown as share premium. Incremental external costs directly attributable to the issue of new shares are accounted for as a deduction from share premium.

2.15 RESERVE

(a) Translation reserve

The translation reserve is used for translation differences arising on consolidation of financial statements of foreign subsidiaries. Exchange differences are classified as equity in the consolidated financial statements until disposal of the investment. Upon disposal of the corresponding assets, the cumulative revaluation of translation reserves is recognised as income or expenses in the same period when the gain or loss on disposal is recognised.

(b) Other reserves

Other reserves are established upon the decision of annual general meeting of shareholders on profit appropriation. These reserves can be used only for the purposes approved by annual general meeting of shareholders.

Legal reserve is included into other reserves. Legal reserve is compulsory under the Lithuanian regulatory legislation. Annual transfers of 5 per cent of net result are required until the reserve reaches 10 per cent of share capital. The legal reserve cannot be used for payment of dividends and it is established to cover future losses only.

2.16 INCOME TAX

(a) Current income tax

The Group companies are taxed individually irrespective of the overall results of the Group. Since 1st January 2010 the Group companies in Lithuania may transfer the estimated tax losses (or part thereof) to another Group company in Lithuania, which has a right to reduce the taxable profit with the respective amount of the tax losses transferred for the same taxable period. Such a procedure in 2012 and 2013 was in force for Latvian companies too. The Group companies have not used this option in 2012 and 2013, as the companies both in Lithuania and Latvia has earned a taxable profit (except, SIA Apranga SLV, which is planning to transfer tax losses to another Group company in 2014).

The charge for taxation included in these financial statements is based on the calculation made by the management in accordance with tax legislation of the respective country in which group entity operates.

The tax currently payable is based on taxable profit for the reporting period. Taxable profit differs from net profit as reported in the statement of comprehensive income because it excludes items of income or expense that are taxable or deductible in other years and it further excludes items that are never taxable or deductible. The Group's and the Company's liability for current tax is calculated using tax rates that have been enacted by the balance sheet date.

The income tax rate applied for the Company and subsidiaries operating in Lithuania was 15 per cent in 2012 and in 2013. Income tax rate on reporting period taxable profits in Latvia is 15 per cent and in Estonia nil. However, in Estonia profit tax is payable in the year of distribution of earnings at a rate of 21 per cent in 2012 and after.

(b) Deferred income tax

Deferred income tax is the tax expected to be payable or recoverable on differences between the carrying amounts of assets and liabilities in the financial statements and the corresponding tax basis used in the computation of taxable profit, and is accounted for using the balance sheet liability method. Deferred income tax liabilities are generally recognised for all taxable temporary differences and deferred income tax assets are recognised to the extent that it is probable that taxable profits will be available against which deductible temporary differences can be utilised. Such assets and liabilities are not recognised if the temporary difference arises from goodwill (or negative goodwill) or from the initial recognition (other than in a business combination) of other assets and liabilities in a transaction that affects neither the tax profit nor the accounting profit.

Deferred income tax is determined using tax rates (and laws) that have been enacted or substantially enacted by the balance sheet date and are expected to apply when the related deferred income tax asset is realised or the deferred income tax liability is settled. Deferred income tax is charged or credited in the statement of comprehensive income, except when it relates to items charged or credited directly to equity, in which case the deferred income tax is also dealt with in equity.

Deferred income tax liabilities are recognised for taxable temporary differences arising on investments in subsidiaries, except where the Group and the Company is able to control the reversal of the temporary difference and it is probable that the temporary difference will not reverse in the foreseeable future.

The carrying amount of deferred income tax assets is reviewed at each balance sheet date and reduced to the extent that it is no longer probable that sufficient taxable profits will be available to allow all or part of the asset to be recovered.

Deferred income tax assets and liabilities are offset when they relate to income taxes levied by the same taxation authority and the Group and the Company intends to settle its current tax assets and liabilities on a net basis.

2.17 LEASES

Leases are classified as finance leases whenever the terms of the lease transfer substantially all the risks and rewards of ownership to the lessee. All other leases are classified as operating leases.

(a) the Company or the Group as lessor

Payments received under operating leases (net of any incentives given to the lessee) are credited to the statement of comprehensive income on a straight-line basis over the period of the lease (Note 12).

(b) the Company or the Group as lessee

Finance leases are capitalised at the lease's commencement at the lower of the fair value of the leased property and the present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant rate on the finance balance outstanding. The corresponding rental obligations, net of finance charges, are included in long-term payables except for instalments due within 12 months which are included in current liabilities. The property, plant and equipment acquired under finance leases (when the ownership is not transferred to the Group at the end of the lease period) is depreciated over the shorter of the asset's useful life and the lease term.

If sale and leaseback transaction results in a finance lease, any excess or shortfall of sales proceeds over the carrying amount is not recognised immediately and is deferred and amortised over the lease term.

Payments made under operating leases (net of any incentives received from the lessor) are charged to the statement of comprehensive income on a straight-line basis over the term of the lease.

If a sale and leaseback transaction results in an operating lease, and it is clear that the transaction was established at fair value, any profit or loss is recognised immediately, except that if loss is compensated for by future lease payments over the period for which the asset is expected to be used. If the sale price is above fair value, the excess over fair value is deferred and amortised over the period for which the asset is expected to be used.

2.18 EMPLOYEE BENEFITS

(a) Social security contributions

The Company and the Group pays social security contributions to the state Social Security Fund (the Fund) on behalf of its employees based on the defined contribution plan in accordance with the local legal requirements. A defined contribution plan is a plan under which the Group and the Company pays fixed contributions into the Fund and will have no legal or constructive obligations to pay further contributions if the Fund does not hold sufficient assets to pay all employees benefits relating to employee service in the current and prior period. Social security contributions are recognised as expenses on an accrual basis and included in payroll expenses.

(b) Termination benefits

Termination benefits are payable whenever an employee's employment is terminated before the normal retirement date or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Company and the Group and the Company recognises termination benefits when it is demonstrably committed to either terminate the employment of current employees according to a detailed formal plan without possibility of withdrawal or to provide termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than 12 months after balance sheet date are discounted to present value.

(c) Bonus plans

The Company and the Group recognises a liability and an expense for bonuses where contractually obliged or where there is a past practice that has created a constructive obligation.

2.19 PROVISIONS

Provisions for restructuring costs and legal claims are recognised when: the Company or the Group has a present legal or constructive obligation as a result of past events; it is more likely than not that an outflow of resources will be required to settle the obligation; and the amount can be reliably estimated. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of the expenditures expected to be required to settle the obligation using a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the obligation. The increase in the provision due to passage of time is recognised as interest expense.

2.20 REVENUE RECOGNITION AND RELATED EXPENSES

Revenues are recognized as income on an accrual basis when earned. Expenses are charged to operations as incurred.

Revenue is measured at the fair value of the consideration received or receivable and represents amounts received of receivable for goods and services provided net of value-added tax, rebates and discounts.

Revenue is recognized as follows:

(a) Sales of goods – retail

Sales of goods are recognized when the Company or another Group entity sells a product to the customer. Retail sales are usually in cash or by credit card. The recorded revenue includes credit card fees payable for the transaction. Such fees are included in operating expenses. Revenue received under consignment where the Group and the Company is a consignee is recognised on a net basis.

(b) Sales of services

Revenue from services is recognised on performance of the services.

(c) Interest income

Interest income is accrued on a time basis, by reference to the principal outstanding and at the effective interest rate applicable.

(d) Dividend income

Dividend income is recognised when the right to receive payment is established.

(e) Rental income

Payments received under operating leases (net of any incentives given to the lessee) are credited to the statement of comprehensive income on a straight-line basis over the period of the lease.

2.21 DIVIDEND DISTRIBUTION

Dividend distribution to the Company's shareholders is recognised as a liability in the Company's and Group's financial statements in the period in which the dividends are approved by the Company's shareholders.

2.22 EARNINGS PER SHARE

Basic earnings per share are calculated by dividing net profit attributed to the shareholders of the Company and the Group from average weighted number of ordinary registered shares in issue, excluding ordinary registered shares purchased by the Group and the Company and held as treasury shares, if any.

2.23 RELATED PARTIES

A related party is a person or entity that is related to the entity that is preparing its financial statements:

- a) A person or a close member of that person's family is related to a reporting entity if that person:
 - i. has control or joint control over the reporting entity;
 - ii. has significant influence over the reporting entity; or
 - iii. is a member of the key management personnel of the reporting entity or of a parent of the reporting entity.
- b) An entity is related to a reporting entity if any of the following conditions applies:
 - i. The entity and the reporting entity are members of the same group (which means that each parent, subsidiary and fellow subsidiary is related to the others).
 - ii. One entity is an associate or joint venture of the other entity (or an associate or joint venture of a member of a group of which the other entity is a member).
 - iii. Both entities are joint ventures of the same third party.
 - iv. One entity is a joint venture of a third entity and the other entity is an associate of the third entity.
 - v. The entity is a post-employment benefit plan for the benefit of employees of either the reporting entity or an entity related to the reporting entity. If the reporting entity is itself such a plan, the sponsoring employers are also related to the reporting entity.
 - vi. The entity is controlled or jointly controlled by a person identified in (a).
 - vii. A person identified in (a)(i) has significant influence over the entity or is a member of the key management personnel of the entity (or of a parent of the entity).

3. FINANCIAL RISK MANAGEMENT

(a) Financial risk factors

The risk management function within the Group and the Company is carried out in respect of financial risks (credit, market (which consist of currency, interest rate and price) and liquidity), operational risks and legal risks. The primary objectives of the financial risk management function are to establish risk limits, and then ensure that exposure to risks stays within these limits. The operational and legal risk management functions are intended to ensure proper functioning of internal policies and procedures to minimize operational and legal risks.

The financial risks relate to the following financial instruments: available for sale financial assets, trade receivables, cash and cash equivalents, trade and other payables and borrowings. The accounting policy with respect to these financial instruments is described in previous section

Credit risk

Credit risk is managed on group basis. Credit risk arises from cash and cash equivalents and deposits with banks and financial institutions, available for sale financial assets as well as credit exposures to wholesale and retail customers, including outstanding receivables and committed transactions. For banks and financial institutions, only independently rated parties with high credit ratings are accepted. Sales to wholesale customers are rare and immaterial, therefore risk control only assesses the credit quality of the customer, taking into account its financial position, past experience and other factors. Sales to retail customers are settled in cash or using major credit cards.

Company's credit risk arising from trade receivables from subsidiaries and loans to subsidiaries is managed by controlling financial performance of subsidiaries on a monthly basis. All the subsidiaries have been profitable during the financial year (except, SIA Apranga SLV), therefore, in the management's opinion, the credit risk is not related to the aforementioned amounts. The loans granted to SIA Apranga SLV has changed little during the reporting period, the debt to the Company is relatively small, so this subsidiary, in the management's opinion, as well is avoiding the credit risk.

Available for sale financial assets is invested only to Lithuanian government bonds.

APB APRANGA, company's code 121933274, Kirtimu 51, Vilnius
NOTES TO CONSOLIDATED AND COMPANY'S FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2013

(all tabular amounts are in LTL thousands unless otherwise stated)

The Company and Group have no significant concentration of credit risk.

Liquidity risk

Liquidity risk management implies maintaining sufficient cash, the availability of funding through an adequate amount of committed credit facilities. Due to the dynamic nature of the underlying businesses, the Group and the Company treasury maintains flexibility in funding by maintaining availability under committed credit lines.

Management monitors rolling forecasts of the Group's and the Company's liquidity reserve (comprises undrawn borrowing facility (Note 24) and cash and cash equivalents (Note 21) on the basis of expected cash flow. This is generally carried out at local level in the operating companies of the Group in accordance with practice set by the group. In addition, the Group's and the Company's liquidity management policy involves projecting cash flows and considering the level of liquid assets necessary to meet these; and maintaining debt financing plans.

The table below analyses the Group's and the Company's financial liabilities into relevant maturity groupings based on the remaining period at the balance sheet to the contractual maturity date. The amounts disclosed in the table are the contractual undiscounted cash flows. Trade and other payables due within 12 months equal their carrying balances as the impact of discounting is not significant.

Market risk

Cash flow and fair value interest rate risk

As the Group and the Company most significant interest-bearing assets are available for sale financial assets, however, its income and operating cash flows are substantially independent of changes in market interest rates. The Company has loans to subsidiaries with floating interest rates, but the cash flow risk is mitigated by applying the same variable element of interest rate on those loans as the banks are charging the Company.

Borrowings issued at variable rates expose the Group to cash flow interest rate risk. Borrowings issued at fixed rates expose the Company to fair value interest rate risk, but this is not included in sensitivity analysis as the change in interest rates has no impact on profit or equity of the Group.

The Company's and Group's borrowings consist of loans with floating interest rate, which are related to VILIBOR and EONIA. The Company and the Group did not use any derivative financial instruments in order to control the risk of interest rate changes.

Trade and other receivables and payables are interest-free and have settlement dates within one year.

NOTES TO CONSOLIDATED AND COMPANY'S FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2013

(all tabular amounts are in LTL thousands unless otherwise stated)

The Group's and the Company's cash flow and fair value interest rate risk is periodically monitored by the Group's management. It analyses its interest rate exposure on a dynamic basis taking into consideration refinancing, renewal of existing positions, alternative financing. Based on these scenarios, the Group and the Company calculates the impact on profit and loss of a defined interest rate shift. The scenarios are run only for receivables and liabilities that represent the major interest-bearing positions.

Based on the simulations performed, the impact on post tax profit of a 1per cent shift in interest rates would be a maximum increase or decrease of LTL 39 thousand (2012: would not be incurred) for the Group and the maximum increase or decrease of LTL 147 thousand (2012: LTL 124 thousand) would be for the Company.

Foreign exchange risk

The Company and the Group has a policy to synchronize the cash flows from expected sales in the future with the expected purchases and other expenses in each foreign currency. Substantially all the Group's payables and receivables are short-term and in addition revenues and expenses in foreign currencies are insignificant (less than 10%) as compared to those in Litas and Euro (the exchange rate of Litas is pegged to the Euro at a rate of Litas 3.4528 = Euro 1). At the moment the Company and the Group doesn't use any derivative financial instruments in order to control foreign currencies exchange risk.

The Group operates in Lithuania, Latvia and Estonia and accordingly has three functional currencies that all are pegged with EUR (Estonia since 1st January 2011 has adopted the euro; Latvia – since 1st January 2014) and do not fluctuate significantly.

Price risk

The Group and Company is not exposed to the market risk with respect to financial instruments as it does not hold any equity securities.

(b) Capital risk management

The Group's and Company's objectives when managing capital are to safeguard the Group's and Company's ability to continue as a going concern in order to provide returns for shareholders and benefits for other stakeholders and to maintain an optimal capital structure to reduce the cost of capital. In order to maintain or adjust the capital structure, the Group and Company may adjust the amount of dividends paid to shareholders, return capital to shareholders, issue new shares or sell assets to reduce debt.

Consistent with others in the industry, the Group and Company monitors capital on the basis of the gearing ratio. This ratio is calculated as net debt divided by total capital. Net debt is calculated as total borrowings (including 'current and non-current borrowings' as shown in the consolidated balance sheet) less cash and cash equivalents. Total capital is calculated as 'equity' as shown in the consolidated balance sheet plus net debt.

Pursuant to the Lithuanian Law on Companies the authorised share capital of a public limited liability company must be not less than LTL 150 thousand and of a private limited liability company must be not less than LTL 10 thousand. In addition, for all entities the shareholders' equity should not be lower than 50 per cent of the company's registered share capital. As at 31 December 2012 and 31 December 2013, the Company and all its Lithuanian subsidiaries complied with these requirements.

Pursuant to the Latvian Commercial Law the authorised share capital of a private limited liability company must be not less than LVL 25 thousand. In addition, the losses of the company should not exceed 50 per cent of the company's share capital. As at 31 December 2012 and 31 December 2013, all of the Company's Latvian subsidiaries complied with these requirements.

Pursuant to the Estonian Commercial Code the authorised share capital of a private limited liability company must be not less than EUR 2.5 thousand. In addition, the shareholders' equity should not be lower than 50 per cent of the company's share capital. As at 31 December 2012 and 31 December 2013, all of the Company's Estonian subsidiaries complied with these requirements.

In addition, the Group and Company has to comply with the financial covenants imposed in the agreement with SEB Bank. The Group and Company was in compliance with the covenants as at 31 December 2012 and 2013.

(c) Fair value estimation

Fair value represents the amount at which an asset could be exchanged or liability settled on an arm's length basis. Fair value measurement is determined in following 3 levels:

Level 1. The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. The fair values of available for sale financial assets are estimated with reference to average of bid and ask quoted market prices.

APB APRANGA, company's code 121933274, Kirtimu 51, Vilnius
NOTES TO CONSOLIDATED AND COMPANY'S FINANCIAL STATEMENTS
FOR THE YEAR ENDED 31 DECEMBER 2013

(all tabular amounts are in LTL thousands unless otherwise stated)

Level 2. The fair value of financial instruments that are not traded in an active market is determined by using valuation techniques. These valuation techniques maximise the use of observable market data where it is available and rely as little as possible on entity specific estimates. The Group and Company does not have financial assets or liabilities assigned to this level.

Level 3. Fair value determined by such valuation methods which use one or more of the significant inputs is not based on observable market data. Fair value of all receivables and payables as well as borrowings are assigned to this level.

Where, in the opinion of the management, the fair value of financial assets and liabilities differs materially from their book value, such fair values are separately disclosed in the notes to the financial statements.

4. SEGMENT INFORMATION

Management has determined the operating segments based on the reports reviewed by the General Director and other 6 Directors (responsible for managing, marketing, human resources, purchases, development and finance) that are used to make strategic decisions.

The Directors consider the business from both a geographic and product perspective to certain extent. From product perspective Directors review only sales volume and gross margin by brand name. Gross margins of different brands are not significantly different, therefore can be aggregated into one reportable segment. Geographically, Directors separately consider operations in Lithuania, Latvia and Estonia depending on where the stores are located. Different legislation, consumer habits and economic situation substantially affect the average sales and expenses in each country, therefore Directors believe that each country represents a separate reportable segment.

All financial information, including the measure of profit and total assets, is analysed on a country basis.

The segment information provided to the Directors for the reportable segments for the year ended 31 December is as follows:

31 December 2013	Lithuania	Latvia	Estonia	Total	Inter-company eliminations	Total in consolidated financial statements

In 2013 and in 2012, the Group managed to operate profitably in all three countries. Gross profitability of the Group was around 47% in 2013 and remained at the same level as in 2012. In 2013, Lithuanian gross margin decreased slightly, but operating expenses grew not so rapidly as sales. Therefore profitability before taxes, compared with the previous period, has remained at the same level. Latvian gross margin increased during the reporting period (which was mostly due to closed outlet store at the beginning of 2013 and opened new stores during non-sales period). Estonia's gross margin in 2013 compared to the 2012, has not changed (comparing to other countries, Estonian higher gross profitability is influenced by outlet stores absent in this country). Operating profitability in 2013 in all countries amounted to 9-11%.

The total non-current assets other than financial instruments and deferred tax assets located in Lithuania is LTL 60 529 thousand (2012: LTL 57 403 thousand), and the total of these non-current assets located in other countries is LTL 23 135 thousand (2011: LTL 22 295 thousand).

5. EXPENSES BY NATURE

For the year ended 31 December cost of sales consisted of the following:

	Group		Company	
	2013	2012	2013	2012
Cost of goods sold	247 040	225 017	122 314	107 124
Write-down of inventories to net realisable value	3 462	2 800	2 717	2 103
Reversal of prior year write-down of inventories to net realisable value	(2 800)	(2 857)	(2 103)	(2 192)
Total cost of sales	247 702	224 960	122 928	107 035

A positive impact on inventory write-down to net realizable value was influenced by the sales of goods, which value was earlier wrote-down.

At 31 December 2013 the Group's and the Company's buildings with the carrying amount of LTL 23 600 thousand (2012: LTL 29 517 thousand) have been pledged as security for outstanding loans from financial institutions (Note 24).

The Company's buildings with the total carrying amount of LTL 1 158 thousand as of 31 December 2013 (2012: LTL 1 168 thousand) was leased to third parties.

At 31 December the acquisition cost of the fully depreciated property, plant and equipment still in use was as follows:

	Group		Company	
	2013	2012	2013	2012

FOR THE YEAR ENDED 31 DECEMBER 2013

(all tabular amounts are in LTL thousands unless otherwise stated)

Estimation of the value in use was based on the discounted pre-tax cash flows (DCF) of the latest available business plan. DCF was estimated over remaining useful life of leasehold improvements (vast majority of premises are leased). The weighted average cost of capital (further – WACC) of 10 per cent (2012: 10 per cent) was used for value in use estimation.

Based on the calculations performed the Management concluded that impairment charges of LTL 1 164 thousand for the Group (2012: LTL 1 315 thousand) and LTL 779 thousand for the Company (2012: LTL 1 172 thousand) should be recorded against the leasehold improvements and other fixed assets.

If the estimated pre-tax discount rate applied to the discounted cash flows for cash generating units had been 1% higher than management estimates (for example 11 per cent instead of 10 per cent), the Group and the Company would not have recognised higher impairment loss against leasehold improvements and other fixed assets nor in 2012, nor in 2013.

At the end of 2013, the Group consisted of 17 companies.

Structure of the Group at 31 December 2013:

For more information on subsidiaries refer to Note 14 to Consolidated financial statements.

2. OPERATING HIGHLIGHTS

In 2013, facing a significant increase in competition, Apranga group focused on maintenance of record results achieved last year, further development and modernization of the retail chain, increase in sales, strengthening the competitiveness of the Group.

The Group has managed not only to increase sales and profits in 2013, but also to accelerate the pace of development and modernization of the retail chain.

2.1 RETAIL MARKET OVERVIEW

The turnover of the retail chain operated by Apranga Group has made LTL 583.9 million (incl. VAT) in 2013, and increased by 10.2% comparing to the year 2012. Only because of the unusually adverse weather conditions (cold spring, warm autumn-winter season) the Group was just by 0.9% short of the planned volumes of retail trade turnover.

Over the past two years, the Group has achieved an impressive for the market leader 36% turnover growth.

Although during last year the total retail turnover of the Baltic countries has not yet reached year 2008 pre-crisis levels, the Group in 2013 exceeded the pre-crisis level of retail trade turnover by almost 15% (in 2008, turnover of the Group amounted to LTL 509.2 million).

In 2013, the Group opened 11 new stores, including three Desigual, two Massimo Dutti, two ALDO, one of each Ermenegildo Zegna, Nude, Mexx and Marella stores. Most of the new projects realized in Latvia (6 new stores).

In the spring of 2013, the Group started to develop a new chain in Latvia and Lithuania - another very successful Spanish brand Desigual stores.

In August 2013, the Group opened 335 sq.m. size Nude store, which introduced the famous luxury brands Gucci, Dolce & Gabbana, DSquared2, Ralph Lauren, and has entered into a so-called "first-line" clothes business.

In October 2013, the Group finalised the transaction of taking over 5 Mango stores in Estonia and Latvia. Within this transaction the overall area of stores increased by 1.4 thousand sq.m.. Mango chain in the Baltic countries has grown to 13 stores.

In order to maintain a high level of technology and the competitiveness of the chain, the Group has continued the program of retail chains' modernization. In 2013, 4 stores were completely reconstructed in the most successful in the Baltics trade center - Vilnius Akropolis (Zara, Pull&Bear, Bershka, Mexx), as well as 3 luxury stores in Vilnius Old Town (Emporio Armani, Ermenegildo Zegna, Mados linija), 2 stores in Klaipeda Akropolis (Apranga, City). The Group concentrated resources on the renovation of most important and most successful stores. In 2013, only to reconstruction of the stores LTL 12 million were invested.

The number of stores by countries was as follows:

Country	31 12 2013	31 12 2012	Change

3. OPERATING PLANS

Group plans to reach LTL 628 million retail chain turnover (including VAT) in 2014 or by 7.5% more, than actual the year 2013 turnover (LTL 584 million).

Group plans to open or reconstruct 25-30 stores during 2014. The investments are planned to amount to about LTL 22-25 million.

4. BUSINESS PHILOSOPHY

- We work and strive to work only with the fastest-growing, commercially the most successful global brands and chains operating in different markets and acceptable to our market;
- We never make compromises in the selection of the best locations for stores ("Location – more important than money", "We have to be where we can not not to be");
- We aim to install stores according to the highest European design and technology requirements;
- We strive to use in best the power of the obvious market leader, as well as rapid development opportunities in competitive environment.

5. RISKS

In its activities the Group is exposed to various risks (regulatory, operational, investment, market, competition, economic cycle, macroeconomic factors, etc.), but only some of which may significantly affect the Group's results.

The Group's activities are significantly influenced by overall *economic* situation (and especially by the economic cycles) in countries where the Group operates. In recent years, the Baltic economies are rapidly recovering from the economic crisis, but there is still uncertainty in the European Union and the global economy development trends. It is difficult to reliably assess the impact on the financial position of any further global macro-economic developments. However, management believes that even the minimum economic growth of the Baltic countries forms the basis for the Group's normal activity and steady growth.

The competition-related risk. In its activities the Group is exposed to increasingly intense competition in the clothing market. The Group, in order to manage this risk and to meet the customer service quality standard requirements, continuously carries out chain expansion and modernization, improves its sales and marketing strategies, carries out market research, improves customer service and implements a consistent business process optimization and cost reduction program. In its activities, the Group consistently follows the principles of transparency and fair competition.

Weather conditions influences the Group's activity and results to some extent as well. The Group's operating results are planned assuming that the weather conditions will be normal, i.e., usual for the Baltic region. Unfavorable weather conditions may negatively affect the Group's turnover, at the same time, financial performance and inventories level.

The main features of the Group's internal control and risk management systems related to preparation of consolidated financial statements.

The Group's consolidated financial statements are prepared in accordance with the International Financial Reporting Standards (IFRS) as adopted by the European Union. Chief financial officer (CFO) of the Company and the Audit Committee supervises preparation of the consolidated financial statements, systems of internal control and financial risk management and how the Company follows legal acts that regulate preparation of consolidated financial statements. CFO of the Company is responsible for the preparation supervision and the final revision of the consolidated financial statements. He constantly reviews International Financial Reporting Standards (IFRS) in order to implement in time IFRS changes, analyses Company's and group's significant transactions, ensures collecting information from the Group's companies and timely and fair preparation of this information for the financial statements. In order to ensure that the consolidated financial statements are prepared correctly and on time, the Group has established appropriate rules and the procedures which regulates the principles, methods, and rules of accounting and preparation and presentation of consolidated financial statements. More information on the principles of preparation of the consolidated financial statements is presented in Note 2.4 to the Consolidated financial statements and in part 7 to the Consolidated annual report.

The types of *financial risks* that Group faces and risk management are described in Note 3 to the Consolidated financial statements.

6. ENVIRONMENTAL PROTECTION

Group uses the latest technology and the latest technology processes that meet environmental standards and help reduce the negative impact on the environment (for example, the Group uses the paper packaging materials instead of plastic in most of its stores). In 2013 the Group decreased the water consumption by almost 5 percent, when the number of employees increased. The usage of electricity and heat energy increased proportionally to increase of store area.

7. CONSOLIDATION

In order to ensure the fairness of preparation consolidated financial statements and to reduce associated risks, the unified centralised accounting and business information management system has been implemented in all Group companies. All Group companies use the standard chart of accounts and apply unified accounting principles.

More information on the principles of preparation of the consolidated financial statements is presented in Note 2.4 to the Consolidated financial statements.

APB APRANGA report concerning the compliance with the Governance Code for the companies listed on NASDAQ OMX Vilnius stock exchange

The public trade company APRANGA (hereinafter Company), following Article 21 paragraph 3 of the Law on Securities of the Republic of Lithuania and item 24.5 of the Listing Rules of the AB NASDAQ OMX Vilnius, discloses its compliance with the Governance Code for the companies listed on NASDAQ OMX Vilnius, and its specific provisions:

PRINCIPLES/ RECOMMENDATIONS	YES/NO /NOT APPLI-CABLE	COMMENTARY
Principle I: Basic Provisions The overriding objective of a company should be to operate in common interests of all the shareholders by optimizing over time shareholder value.		
1.1. A company should adopt and make public the company's development strategy and objectives by clearly declaring how the company intends to meet the interests of its shareholders and optimize shareholder value.	Yes	Affirmed Company's development strategy and objectives are published in Company's annual report, in announcements on material events which are published in Company's website www.apranga.lt/investuotojams , in NASDAQ OMX Vilnius Stock Exchange information disclosure system, in Central Storage Facility, as well as in presentations to investors by chief executive officer and senior management.
1.2. All management bodies of a company should act in furtherance of the declared strategic objectives in view of the need to optimize shareholder value.	Yes	
1.3. A company's supervisory and management bodies should act in close co-operation in order to attain maximum benefit for the company and its shareholders.	Yes	The Company implements this recommendation insofar as it is concerned with the close cooperation of Company's management board and chief executive officer and senior management.
1.4. A company's supervisory and management bodies should ensure that the rights and interests of persons other than the company's shareholders (e.g. employees, creditors, suppliers, clients, local community), participating in or connected with the company's operation, are duly respected.	Yes	
Principle II: The corporate governance framework The corporate governance framework should ensure the strategic guidance of the company, the effective oversight of the company's management bodies, an appropriate balance and distribution of functions between the company's bodies, protection of the shareholders' interests.		
2.1. Besides obligatory bodies provided for in the Law on Companies of the Republic of Lithuania – a general shareholders' meeting and the chief executive officer, it is recommended that a company should set up both a collegial supervisory body and a collegial management body. The setting up of collegial bodies for supervision and management facilitates clear separation of management and supervisory functions in the company, accountability and control on the part of the chief executive officer, which, in its turn, facilitate a more efficient and transparent management process.	No	The bodies of the Company are general shareholders' meeting, management board and chief executive officer. Supervisory board is not constituted in the Company, whereas the accountability and control of the single management body - the chief executive officer - is ensured by Company's management board.
2.2. A collegial management body is responsible for the strategic management of the company and performs other key functions of corporate governance. A collegial supervisory body is responsible for the effective supervision of the company's management bodies.	Yes	Company's collegial management body – management board – is responsible for strategic management of the Company and performs other key functions of corporate governance. The management board is responsible for the effective supervision of the Company's management bodies insofar as it is concerned with the supervision of the activity of chief executive officer.
2.3. Where a company chooses to form only one collegial body, it is recommended that it should be a supervisory body, i.e. the supervisory board. In such a case, the supervisory board is responsible for the effective monitoring of the functions performed by the company's chief executive officer.	No	The Company has one collegial body and that is management board. See commentary of 2.1. recommendation.
2.4. The collegial supervisory body to be elected by	Yes/No	Recommendations defined in Principles III and

PRINCIPLES/ RECOMMENDATIONS	YES/NO /NOT APPLI-CABLE	COMMENTARY
the general shareholders' meeting should be set up and should act in the manner defined in Principles III and IV. Where a company should decide not to set up a collegial supervisory body but rather a collegial management body, i.e. the board, Principles III and IV should apply to the board as long as that does not contradict the essence and purpose of this body.		IV are not implemented in full extent, however the Company complies with all requirements prescribed by legal acts for formation of collegial management body, i.e. board. See commentaries of III and IV principles' recommendations.
2.5. Company's management and supervisory bodies should comprise such number of board (executive directors) and supervisory (non-executive directors) board members that no individual or small group of individuals can dominate decision-making on the part of these bodies.	Yes	Company's management board consists of 6 (six) members, 3 (three) of whom are representatives of shareholders and the other 3 (three) are chief executive officer and senior managers. In Company's opinion, the number of the management board members is sufficient considering Company's activity extent and number of shareholders.
2.6. Non-executive directors or members of the supervisory board should be appointed for specified terms subject to individual re-election, at maximum intervals provided for in the Lithuanian legislation with a view to ensuring necessary development of professional experience and sufficiently frequent reconfirmation of their status. A possibility to remove them should also be stipulated however this procedure should not be easier than the removal procedure for an executive director or a member of the management board.	Not applicable	Supervisory board is not constituted in the Company. See commentaries of 2.1. recommendation.
2.7. Chairman of the collegial body elected by the general shareholders' meeting may be a person whose current or past office constitutes no obstacle to conduct independent and impartial supervision. Where a company should decide not to set up a supervisory board but rather the board, it is recommended that the chairman of the board and chief executive officer of the company should be a different person. Former company's chief executive officer should not be immediately nominated as the chairman of the collegial body elected by the general shareholders' meeting. When a company chooses to depart from these recommendations, it should furnish information on the measures it has taken to ensure impartiality of the supervision.	Yes	The chairman of the management board and chief executive officer of the Company are different persons. The chairman of the management board has never been appointed as chief executive officer of the Company.
<p>Principle III: The order of the formation of a collegial body to be elected by a general shareholders' meeting</p> <p>The order of the formation of a collegial body to be elected by a general shareholders' meeting should ensure representation of minority shareholders, accountability of this body to the shareholders and objective monitoring of the company's operation and its management bodies.</p>		
3.1. The mechanism of the formation of a collegial body to be elected by a general shareholders' meeting (hereinafter in this Principle referred to as the 'collegial body') should ensure objective and fair monitoring of the company's management bodies as well as representation of minority shareholders.	Yes	The mechanism of the formation of Company's management board ensures objective and fair supervision of the Company's single management body, chief executive officer, and senior management as well as representation of minority shareholder's interests.
3.2. Names and surnames of the candidates to become members of a collegial body, information about their education, qualification, professional background, positions taken and potential conflicts of interest should be disclosed early enough before the general shareholders' meeting so that the shareholders would have sufficient time to make an informed voting decision. All factors affecting the candidate's independence, the sample list of which is set out in Recommendation 3.7, should be also disclosed. The collegial body should also be informed on any subsequent changes in the provided information. The collegial body should, on yearly	Yes/No	The information about management board members positions taken or participation in other companies activities is continually collected and on the expiration of each year this information is specified and renewed by querying each board member, and such information is disclosed in Company's annual and interim reports and Company's website. However this information was not submitted exclusively to general shareholder's meeting before their election. There was no necessity in the Company to disclose factors affecting candidate's

PRINCIPLES/ RECOMMENDATIONS	YES/NO /NOT APPLI-CABLE	COMMENTARY
basis, collect data provided in this item on its members and disclose this in the company's annual report.		independence.
3.3. Should a person be nominated for members of a collegial body, such nomination should be followed by the disclosure of information on candidate's particular competences relevant to his/her service on the collegial body. In order shareholders and investors are able to ascertain whether member's competence is further relevant, the collegial body should, in its annual report, disclose the information on its composition and particular competences of individual members which are relevant to their service on the collegial body.	No	See commentary of 3.2 recommendation
3.4 In order to maintain a proper balance in terms of the current qualifications possessed by its members, the desired composition of the collegial body shall be determined with regard to the company's structure and activities, and have this periodically evaluated. The collegial body should ensure that it is composed of members who, as a whole, have the required diversity of knowledge, judgment and experience to complete their tasks properly. The members of the audit committee, collectively, should have a recent knowledge and relevant experience in the fields of finance, accounting and/or audit for the stock exchange listed companies. At least one of the members of the remuneration committee should have knowledge of and experience in the field of remuneration policy.	Yes/No	See commentary of 4.7. recommendation.
3.5. All new members of the collegial body should be offered a tailored program focused on introducing a member with his/her duties, corporate organization and activities. The collegial body should conduct an annual review to identify fields where its members need to update their skills and knowledge.	No	There was no demand in Company to offer tailored programs to new board members focused on introducing a member with his/her duties, corporation organization and activities. Annual review of management board members' knowledge is not conducted whereas the management board members, i.e. chief executive officer and senior managers, are professionals and improve their skills and knowledge by conducting their duties in the Company. The skills and knowledge of management board members representing shareholders is reviewed by shareholders themselves before proposing candidates to Company's board.
3.6. In order to ensure that all material conflicts of interest related with a member of the collegial body are resolved properly, the collegial body should comprise a sufficient number of independent members.	No	The issue of election of independent management board members never been topical in the Company and the "sufficient" number of independent management board members was never assessed either.
3.7. A member of the collegial body should be considered to be independent only if he is free of any business, family or other relationship with the company, its controlling shareholder or the management of either, that creates a conflict of interest such as to impair his judgment. Since all cases when member of the collegial body is likely to become dependent are impossible to list, moreover, relationships and circumstances associated with the determination of independence may vary amongst companies and the best practices of solving this problem are yet to evolve in the course of time, assessment of independence of a member of the collegial body should be based on the contents of the relationship and circumstances rather than their form. The key criteria for identifying whether a	Not applicable	See commentary of 3.6 recommendation

PRINCIPLES/ RECOMMENDATIONS	YES/NO /NOT APPLI-CABLE	COMMENTARY
<p>member of the collegial body can be considered to be independent are the following:</p> <p>1) He/she is not an executive director or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) of the company or any associated company and has not been such during the last five years;</p> <p>2) He/she is not an employee of the company or some any company and has not been such during the last three years, except for cases when a member of the collegial body does not belong to the senior management and was elected to the collegial body as a representative of the employees;</p> <p>3) He/she is not receiving or has been not receiving significant additional remuneration from the company or associated company other than remuneration for the office in the collegial body. Such additional remuneration includes participation in share options or some other performance based pay systems; it does not include compensation payments for the previous office in the company (provided that such payment is no way related with later position) as per pension plans (inclusive of deferred compensations);</p> <p>4) He/she is not a controlling shareholder or representative of such shareholder (control as defined in the Council Directive 83/349/EEC Article 1 Part 1);</p> <p>5) He/she does not have and did not have any material business relations with the company or associated company within the past year directly or as a partner, shareholder, director or superior employee of the subject having such relationship. A subject is considered to have business relations when it is a major supplier or service provider (inclusive of financial, legal, counselling and consulting services), major client or organization receiving significant payments from the company or its group;</p> <p>6) He/she is not and has not been, during the last three years, partner or employee of the current or former external audit company of the company or associated company;</p> <p>7) He/she is not an executive director or member of the board in some other company where executive director of the company or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) is non-executive director or member of the supervisory board, he/she may not also have any other material relationships with executive directors of the company that arise from their participation in activities of other companies or bodies;</p> <p>8) He/she has not been in the position of a member of the collegial body for over than 12 years;</p> <p>9) He/she is not a close relative to an executive director or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) or to any person listed in above items 1 to 8. Close relative is considered to be a spouse (common-law spouse), children and parents.</p> <p>3.8. The determination of what constitutes independence is fundamentally an issue for the collegial body itself to determine. The collegial body may decide that, despite a particular member meets all the criteria of independence laid down in this Code, he cannot be considered independent due to</p>		

PRINCIPLES/ RECOMMENDATIONS	YES/NO /NOT APPLI-CABLE	COMMENTARY
special personal or company-related circumstances.		
3.9. Necessary information on conclusions the collegial body has come to in its determination of whether a particular member of the body should be considered to be independent should be disclosed. When a person is nominated to become a member of the collegial body, the company should disclose whether it considers the person to be independent. When a particular member of the collegial body does not meet one or more criteria of independence set out in this Code, the company should disclose its reasons for nevertheless considering the member to be independent. In addition, the company should annually disclose which members of the collegial body it considers to be independent.	Not applicable	See commentary of 3.6. recommendation. Moreover, thus far the assessment and disclosure of the independence of management board members, in accordance with the criteria established by this Code, was not applicable in Company.
3.10. When one or more criteria of independence set out in this Code has not been met throughout the year, the company should disclose its reasons for considering a particular member of the collegial body to be independent. To ensure accuracy of the information disclosed in relation with the independence of the members of the collegial body, the company should require independent members to have their independence periodically re-confirmed.	Not applicable	See commentary of 3.6. recommendation
3.11. In order to remunerate members of a collegial body for their work and participation in the meetings of the collegial body, they may be remunerated from the company's funds. The general shareholders' meeting should approve the amount of such remuneration.	Not applicable	See commentary of 3.6. recommendation.
<p>Principle IV: The duties and liabilities of a collegial body elected by the general shareholders' meeting The corporate governance framework should ensure proper and effective functioning of the collegial body elected by the general shareholders' meeting, and the powers granted to the collegial body should ensure effective monitoring of the company's management bodies and protection of interests of all the company's shareholders.</p>		
4.1. The collegial body elected by the general shareholders' meeting (hereinafter in this Principle referred to as the 'collegial body') should ensure integrity and transparency of the company's financial statements and the control system. The collegial body should issue recommendations to the company's management bodies and monitor and control the company's management performance.	Yes	This recommendation is implemented by Company's management board insofar as the management board issues recommendations to chief executive officer and to senior management and monitors and controls their activity.
4.2. Members of the collegial body should act in good faith, with care and responsibility for the benefit and in the interests of the company and its shareholders with due regard to the interests of employees and public welfare. Independent members of the collegial body should (a) under all circumstances maintain independence of their analysis, decision-making and actions (b) do not seek and accept any unjustified privileges that might compromise their independence, and (c) clearly express their objections should a member consider that decision of the collegial body is against the interests of the company. Should a collegial body have passed decisions independent member has serious doubts about, the member should make adequate conclusions. Should an independent member resign from his office, he should explain the reasons in a letter addressed to the collegial body or audit committee and, if necessary, respective company-not-pertaining body (institution).	Yes	According to the Company's available data, management board members act in good will in respect of Company, in the interests of the Company and its shareholders, thus maintaining independence of their decision making.
4.3. Each member should devote sufficient time and	Yes/No	According to the Company's data, all

<p>attention to perform his duties as a member of the collegial body. Each member of the collegial body should limit other professional obligations of his (in particular any directorships held in other companies) in such a manner they do not interfere with proper performance of duties of a member of the collegial body. In the event a member of the collegial body should be present in less than a half of the meetings of the collegial body throughout the financial year of the company, shareholders of the company should be notified.</p>		<p>management board members attended board meetings and devoted sufficient time to perform their duties as members of the board.</p>
<p>4.4. Where decisions of a collegial body may have a different effect on the company's shareholders, the collegial body should treat all shareholders impartially and fairly. It should ensure that shareholders are properly informed on the company's affairs, strategies, risk management and resolution of conflicts of interest. The company should have a clearly established role of members of the collegial body when communicating with and committing to shareholders.</p>	Yes	<p>Company's shareholders are informed about the Company's affairs, strategies, risk management and resolution of conflicts of interest in a manner prescribed by legal acts.</p>
<p>4.5. It is recommended that transactions (except insignificant ones due to their low value or concluded when carrying out routine operations in the company under usual conditions), concluded between the company and its shareholders, members of the supervisory or managing bodies or other natural or legal persons that exert or may exert influence on the company's management should be subject to approval of the collegial body. The decision concerning approval of such transactions should be deemed adopted only provided the majority of the independent members of the collegial body voted for such a decision.</p>	Yes/No	<p>The transactions are concluded in standard terms in pursuance of regular Company's activities. See commentary of 3.6. recommendation.</p>
<p>4.6. The collegial body should be independent in passing decisions that are significant for the company's operations and strategy. Taken separately, the collegial body should be independent of the company's management bodies. Members of the collegial body should act and pass decisions without an outside influence from the persons who have elected it. Companies should ensure that the collegial body and its committees are provided with sufficient administrative and financial resources to discharge their duties, including the right to obtain, in particular from employees of the company, all the necessary information or to seek independent legal, accounting or any other advice on issues pertaining to the competence of the collegial body and its committees. When using the services of a consultant with a view to obtaining information on market standards for remuneration systems, the remuneration committee should ensure that the consultant concerned does not at the same time advise the human resources department, executive directors or collegial management organs of the company concerned.</p>	Yes/No	<p>The Company does not implement this recommendation in so far as it is related with formation of Remuneration committee. See commentary of 4.7. recommendation.</p>
<p>4.7. Activities of the collegial body should be organized in a manner that independent members of the collegial body could have major influence in relevant areas where chances of occurrence of conflicts of interest are very high. Such areas to be considered as highly relevant are issues of nomination of company's directors, determination of directors' remuneration and control and assessment of company's audit. Therefore when the mentioned</p>	Yes/No	<p>Nomination and Remuneration committees indicated in 4.12-4.13 recommendations are not established in the Company, whereas, in Company's opinion, the management board by performing its functions partially performs functions of Nomination and Remuneration committees. <p>issues are attributable to the competence of the collegial body, it is recommended that the collegial body should establish nomination, remuneration, and audit committees. Companies should ensure that the functions attributable to the nomination, remuneration, and audit committees are carried out. However they may decide to merge these functions and set up less than three committees. In such case a company should explain in detail reasons behind the selection of alternative approach and how the selected approach complies with the objectives set forth for the three different committees. Should the collegial body of the company comprise small number of members, the functions assigned to the three committees may be performed by the collegial body itself, provided that it meets composition requirements advocated for the committees and that adequate information is provided in this respect. In such case provisions of this Code relating to the committees of the collegial body (in particular with respect to their role, operation, and transparency) should apply, where relevant, to the collegial body as a whole.</p>		<p>provides recommendations to chief executive officer regarding appointment of senior managers and their remuneration policy. Company's management board affirms Company's strategic plans and objectives and controls their implementation. Moreover, Company's management board affirms Company's budget plans and analyse and assess chief executive officer's and senior management's reports on budget plans' implementation and fund utilization. In pursuance of requirements of Law on Audit (Official Gazette, 2008, No. 82-53233) the Audit committee composed of two members is established in Company.</p>
<p>4.8. The key objective of the committees is to increase efficiency of the activities of the collegial body by ensuring that decisions are based on due consideration, and to help organize its work with a view to ensuring that the decisions it takes are free of material conflicts of interest. Committees should exercise independent judgement and integrity when exercising its functions as well as present the collegial body with recommendations concerning the decisions of the collegial body. Nevertheless the final decision shall be adopted by the collegial body. The recommendation on creation of committees is not intended, in principle, to constrict the competence of the collegial body or to remove the matters considered from the purview of the collegial body itself, which remains fully responsible for the decisions taken in its field of competence.</p>	Yes/No	<p>See commentary of 4.7. recommendation. The recommendation is implemented insofar as it is related with Audit committee activity in Company.</p>
<p>4.9. Committees established by the collegial body should normally be composed of at least three members. In companies with small number of members of the collegial body, they could exceptionally be composed of two members. Majority of the members of each committee should be constituted from independent members of the collegial body. In cases when the company chooses not to set up a supervisory board, remuneration and audit committees should be entirely comprised of non-executive directors. Chairmanship and membership of the committees should be decided with due regard to the need to ensure that committee membership is refreshed and that undue reliance is not placed on particular individuals. <p>4.11. In order to ensure independence and impartiality of the committees, members of the collegial body that are not members of the committee should commonly have a right to participate in the meetings of the committee only if invited by the committee. A committee may invite or demand participation in the meeting of particular officers or experts. Chairman of each of the committees should have a possibility to maintain direct communication with the shareholders. Events when such are to be performed should be specified in the regulations for committee activities.</p>	Yes/No	<p>See commentary of 4.7. recommendation. <p>4.12. Nomination Committee. 4.12.1. Key functions of the nomination committee should be the following: <ul style="list-style-type: none"> • Identify and recommend, for the approval of the collegial body, candidates to fill board vacancies. The nomination committee should evaluate the balance of skills, knowledge and experience on the management body, prepare a description of the roles and capabilities required to assume a particular office, and assess the time commitment expected. Nomination committee can also consider candidates to members of the collegial body delegated by the shareholders of the company; • Assess on regular basis the structure, size, composition and performance of the supervisory and management bodies, and make recommendations to the collegial body regarding the means of achieving necessary changes; • Assess on regular basis the skills, knowledge and experience of individual directors and report on this to the collegial body; • Properly consider issues related to succession planning; • Review the policy of the management bodies for selection and appointment of senior management. 4.12.2. Nomination committee should consider proposals by other parties, including management and shareholders. In such case a special consideration should be given to company's operations in offshore centers and/or activities carried out through special purpose vehicles (organizations) and justification of such operations.</p> <p>4.14.3. The audit committee should decide whether participation of the chairman of the collegial body, chief executive officer of the company, chief financial officer (or superior employees in charge of finances, treasury and accounting), or internal and external auditors in the meetings of the committee is required (if required, when). The committee should be entitled, when needed, to meet with any relevant person without executive directors and members of the management bodies present.</p> <p>4.14.4. Internal and external auditors should be secured with not only effective working relationship with management, but also with free access to the collegial body. For this purpose the audit committee should act as the principal contact person for the internal and external auditors.</p> <p>4.14.5. The audit committee should be informed of the internal auditor's work program, and should be furnished with internal audit's reports or periodic summaries. The audit committee should also be informed of the work program of the external auditor and should be furnished with report disclosing all relationships between the independent auditor and the company and its group. The committee should be timely furnished information on all issues arising from the audit.</p> <p>4.14.6. The audit committee should examine whether the company is following applicable provisions regarding the possibility for employees to report alleged significant irregularities in the company, by way of complaints or through anonymous submissions (normally to an independent member of the collegial body), and should ensure that there is a procedure established for proportionate and independent investigation of these issues and for appropriate follow-up action.</p> <p>4.14.7. The audit committee should report on its activities to the collegial body at least once in every six months, at the time the yearly and half-yearly statements are approved.</p>		
<p>4.15. Every year the collegial body should conduct the assessment of its activities. The assessment should include evaluation of collegial body's structure, work organization and ability to act as a group, evaluation of each of the collegial body member's and committee's competence and work efficiency and assessment whether the collegial body has achieved its objectives. The collegial body should, at least once a year, make public (as part of the information the company annually discloses on its management structures and practices) respective information on its internal organization and working procedures, and specify what material changes were made as a result of the assessment of the collegial body of its own activities.</p>	No	There is no practice in Company on internal assessments of management board activities and notification on it.

between the company's bodies.		
5.1. The company's supervisory and management bodies (hereinafter in this Principle the concept 'collegial bodies' covers both the collegial bodies of supervision and the collegial bodies of management) should be chaired by chairpersons of these bodies. The chairperson of a collegial body is responsible for proper convocation of the collegial body meetings. The chairperson should ensure that information about the meeting being convened and its agenda are communicated to all members of the body. The chairperson of a collegial body should ensure appropriate conducting of the meetings of the collegial body. The chairperson should ensure order and working atmosphere during the meeting.	Yes	Company's management board is conducted by chairman of the management board.
5.2. It is recommended that meetings of the company's collegial bodies should be carried out according to the schedule approved in advance at certain intervals of time. Each company is free to decide how often to convene meetings of the collegial bodies, but it is recommended that these meetings should be convened at such intervals, which would guarantee an interrupted resolution of the essential corporate governance issues. Meetings of the company's supervisory board should be convened at least once in a quarter, and the company's board should meet at least once a month.	Yes/No	Company's management board meetings are convened depending on the necessity.
5.3. Members of a collegial body should be notified about the meeting being convened in advance in order to allow sufficient time for proper preparation for the issues on the agenda of the meeting and to ensure fruitful discussion and adoption of appropriate decisions. Alongside with the notice about the meeting being convened, all the documents relevant to the issues on the agenda of the meeting should be submitted to the members of the collegial body. The agenda of the meeting should not be changed or supplemented during the meeting, unless all members of the collegial body are present or certain issues of great importance to the company require immediate resolution.	Yes	
5.4. In order to co-ordinate operation of the company's collegial bodies and ensure effective decision-making process, chairpersons of the company's collegial bodies of supervision and management should closely co-operate by co-ordinating dates of the meetings, their agendas and resolving other issues of corporate governance. Members of the company's board should be free to attend meetings of the company's supervisory board, especially where issues concerning removal of the board members, their liability or remuneration are discussed.	No	The Company does not implement this recommendation whereas only management board is constituted in the Company.
Principle VI: The equitable treatment of shareholders and shareholder rights The corporate governance framework should ensure the equitable treatment of all shareholders, including minority and foreign shareholders. The corporate governance framework should protect the rights of the shareholders.		
6.1. It is recommended that the company's capital should consist only of the shares that grant the same rights to voting, ownership, dividend and other rights to all their holders.	Yes	The Company's capital consists of ordinary registered shares which grant equal rights to their owners.
6.2. It is recommended that investors should have access to the information concerning the rights attached to the shares of the new issue or those issued earlier in advance, i.e. before they purchase	Yes	The Company informs about the rights attached to the shares of the new issue or those issued earlier in prospects of the shares of new issue, in annual and interim reports and

6.3. Transactions that are important to the company and its shareholders, such as transfer, investment, and pledge of the company's assets or any other type of encumbrance should be subject to approval of the general shareholders' meeting. All shareholders should be furnished with equal opportunity to familiarize with and participate in the decision-making process when significant corporate issues, including approval of transactions referred to above, are discussed.	No	The management board of the Company adopts resolutions for transactions regarding transferring, investment, pledge or other type of the encumbrance of the tangible long-term assets the book value whereof exceeds 1/20 of the share capital of the Company.
6.4. Procedures of convening and conducting a general shareholders' meeting should ensure equal opportunities for the shareholders to effectively participate at the meetings and should not prejudice the rights and interests of the shareholders. The venue, date, and time of the shareholders' meeting should not hinder wide attendance of the shareholders.	Yes	
6.5. If is possible, in order to ensure shareholders living abroad the right to access to the information, it is recommended that documents on the course of the general shareholders' meeting should be placed on the publicly accessible website of the company not only in Lithuanian language, but in English and /or other foreign languages in advance. It is recommended that the minutes of the general shareholders' meeting after signing them and/or adopted resolutions should be also placed on the publicly accessible website of the company. Seeking to ensure the right of foreigners to familiarize with the information, whenever feasible, documents referred to in this recommendation should be published in Lithuanian, English and/or other foreign languages. Documents referred to in this recommendation may be published on the publicly accessible website of the company to the extent that publishing of these documents is not detrimental to the company or the company's commercial secrets are not revealed.	Yes	Company's general shareholders' meeting draft resolutions are published in pursuance of applicable legal acts, i.e. not later than 21 (twenty one) days before shareholders' meeting. General shareholders' meeting draft resolutions and its adopted resolutions are published throughout NASDAQ OMX Vilnius Stock Exchange information disclosure system and are placed on publicly accessible Company's website, in Lithuanian and English. General shareholders' meeting draft resolutions are also placed in Central Storage Facility.
6.6. Shareholders should be furnished with the opportunity to vote in the general shareholders' meeting in person and in absentia. Shareholders should not be prevented from voting in writing in advance by completing the general voting ballot.	Yes	The Company's shareholders are furnished with the opportunity to vote in general shareholders' meeting both personally and throughout duly authorized representatives. On demand of shareholders, the Company may furnish the opportunity to vote in general shareholders' meeting in writing in advance, pursuant to the Article 30 of the Law on Companies.
6.7. With a view to increasing the shareholders' opportunities to participate effectively at shareholders' meetings, the companies are recommended to expand use of modern technologies by allowing the shareholders to participate and vote in general meetings via electronic means of communication. In such cases security of transmitted information and a possibility to identify the identity of the participating and voting person should be guaranteed. Moreover, companies could furnish its shareholders, especially shareholders living abroad, with the opportunity to watch shareholder meetings by means of modern technologies.	No	In Company's opinion, thus far there was no necessity to use modern technologies in general shareholders' meeting participation and voting process via electronic means of communication.
Principle VII: The avoidance of conflicts of interest and their disclosure		

PRINCIPLES/ RECOMMENDATIONS	YES/NO /NOT APPLI-CABLE	COMMENTARY
The corporate governance framework should encourage members of the corporate bodies to avoid conflicts of interest and assure transparent and effective mechanism of disclosure of conflicts of interest regarding members of the corporate bodies.		
7.1. Any member of the company's supervisory and management body should avoid a situation, in which his/her personal interests are in conflict or may be in conflict with the company's interests. In case such a situation did occur, a member of the company's supervisory and management body should, within reasonable time, inform other members of the same collegial body or the company's body that has elected him/her, or to the company's shareholders about a situation of a conflict of interest, indicate the nature of the conflict and value, where possible.	Yes	
7.2. Any member of the company's supervisory and management body may not mix the company's assets, the use of which has not been mutually agreed upon, with his/her personal assets or use them or the information which he/she learns by virtue of his/her position as a member of a corporate body for his/her personal benefit or for the benefit of any third person without a prior agreement of the general shareholders' meeting or any other corporate body authorized by the meeting.	Yes	
7.3. Any member of the company's supervisory and management body may conclude a transaction with the company, a member of a corporate body of which he/she is. Such a transaction (except insignificant ones due to their low value or concluded when carrying out routine operations in the company under usual conditions) must be immediately reported in writing or orally, by recording this in the minutes of the meeting, to other members of the same corporate body or to the corporate body that has elected him/her or to the company's shareholders. Transactions specified in this recommendation are also subject to recommendation 4.5.	Yes	
7.4. Any member of the company's supervisory and management body should abstain from voting when decisions concerning transactions or other issues of personal or business interest are voted on.	Yes	
Principle VIII: Company's remuneration policy Remuneration policy and procedure for approval, revision and disclosure of directors' remuneration established in the company should prevent potential conflicts of interest and abuse in determining remuneration of directors, in addition it should ensure publicity and transparency both of company's remuneration policy and remuneration of directors.		
8.1. A company should make a public statement of the company's remuneration policy (hereinafter the remuneration statement) which should be clear and easily understandable. This remuneration statement should be published as a part of the company's annual statement as well as posted on the company's website.	No	The Company does not prepare and publish remuneration statement. In Company's opinion, such information commercially is not published. Pursuant to law requirements, the Company publishes in Company's annual report information regarding total sums counted to management board members, chief executive officer and chief financial officer during reporting period.
8.2. Remuneration statement should mainly focus on directors' remuneration policy for the following year and, if appropriate, the subsequent years. The statement should contain a summary of the implementation of the remuneration policy in the previous financial year. Special attention should be given to any significant changes in company's remuneration policy as compared to the previous financial year.	No	See commentary of 8.1. recommendation.

<p>8.3. Remuneration statement should leastwise include the following information:</p> <ul style="list-style-type: none"> • Explanation of the relative importance of the variable and non-variable components of directors' remuneration; • Sufficient information on performance criteria that entitles directors to share options, shares or variable components of remuneration; • An explanation how the choice of performance criteria contributes to the long-term interests of the company; • An explanation of the methods, applied in order to determine whether performance criteria have been fulfilled; • Sufficient information on deferment periods with regard to variable components of remuneration; • Sufficient information on the linkage between the remuneration and performance; • The main parameters and rationale for any annual bonus scheme and any other non-cash benefits; • Sufficient information on the policy regarding termination payments; • Sufficient information with regard to vesting periods for share-based remuneration, as referred to in point 8.13 of this Code; • Sufficient information on the policy regarding retention of shares after vesting, as referred to in point 8.15 of this Code; • Sufficient information on the composition of peer groups of companies the remuneration policy of which has been examined in relation to the establishment of the remuneration policy of the company concerned; • A description of the main characteristics of supplementary pension or early retirement schemes for directors; • Remuneration statement should not include commercially sensitive information. 	No	See commentary of 8.1. recommendation.
<p>8.4. Remuneration statement should also summarize and explain company's policy regarding the terms of the contracts executed with executive directors and members of the management bodies. It should include, inter alia, information on the duration of contracts with executive directors and members of the management bodies, the applicable notice periods and details of provisions for termination payments linked to early termination under contracts for executive directors and members of the management bodies.</p>	No	See commentary of 8.1. recommendation.
<p>8.5. Remuneration statement should also contain detailed information on the entire amount of remuneration, inclusive of other benefits, that was paid to individual directors over the relevant financial year. This document should list at least the information set out in items 8.5.1 to 8.5.4 for each person who has served as a director of the company at any time during the relevant financial year.</p> <p>8.5.1. The following remuneration and/or emoluments-related information should be disclosed:</p> <ul style="list-style-type: none"> • The total amount of remuneration paid or due to the director for services performed during the relevant financial year, inclusive of, where relevant, attendance fees fixed by the annual general shareholders meeting; • The remuneration and advantages received from any undertaking belonging to the same group; 	No	See commentary of 8.1. recommendation.

to the non-variable component of remuneration.		
8.9. Contractual arrangements with executive or managing directors should include provisions that permit the company to reclaim variable components of remuneration that were awarded on the basis of data which subsequently proved to be manifestly misstated.	Not applicable	See commentary of 8.1. recommendation.
8.10. Termination payments should not exceed a fixed amount or fixed number of years of annual remuneration, which should, in general, not be higher than two years of the non-variable component of remuneration or the equivalent thereof.	Not applicable	See commentary of 8.1. recommendation.
8.11. Termination payments should not be paid if the termination is due to inadequate performance.	Not applicable	See commentary of 8.1. recommendation.
8.12. The information on preparatory and decision-making processes, during which a policy of remuneration of directors is being established, should also be disclosed. Information should include data, if applicable, on authorities and composition of the remuneration committee, names and surnames of external consultants whose services have been used in determination of the remuneration policy as well as the role of shareholders' annual general meeting.	Not applicable	See commentary of 8.1. recommendation.
8.13. Shares should not vest for at least three years after their award.	Not applicable	See commentary of 8.1. recommendation. Company's directors are not remunerated in shares.
8.14. Share options or any other right to acquire shares or to be remunerated on the basis of share price movements should not be exercisable for at least three years after their award. <p>prior approval of shareholders' annual general meeting by way of a resolution prior to their adoption. The approval of scheme should be related with the scheme itself and not to the grant of such share-based benefits under that scheme to individual directors. All significant changes in scheme provisions should also be subject to shareholders' approval prior to their adoption; the approval decision should be made in shareholders' annual general meeting. In such case shareholders should be notified on all terms of suggested changes and get an explanation on the impact of the suggested changes.</p>		
<p>8.20. The following issues should be subject to approval by the shareholders' annual general meeting:</p> <ul style="list-style-type: none"> • Grant of share-based schemes, including share options, to directors; • Determination of maximum number of shares and main conditions of share granting; • The term within which options can be exercised; • The conditions for any subsequent change in the exercise of the options, if permissible by law; • All other long-term incentive schemes for which directors are eligible and which are not available to other employees of the company under similar terms. Annual general meeting should also set the deadline within which the body responsible for remuneration of directors may award compensations listed in this article to individual directors. 	Not applicable	
<p>8.21. Should national law or company's Articles of Association allow, any discounted option arrangement under which any rights are granted to subscribe to shares at a price lower than the market value of the share prevailing on the day of the price determination, or the average of the market values over a number of days preceding the date when the exercise price is determined, should also be subject to the shareholders' approval.</p>	Not applicable	
<p>8.22. Provisions of Articles 8.19 and 8.20 should not be applicable to schemes allowing for participation under similar conditions to company's employees or employees of any subsidiary company whose employees are eligible to participate in the scheme and which has been approved in the shareholders' annual general meeting.</p>	Not applicable	
<p>8.23. Prior to the annual general meeting that is intended to consider decision stipulated in Article 8.19, the shareholders must be provided an opportunity to familiarize with draft resolution and project-related notice (the documents should be posted on the company's website). The notice should contain the full text of the share-based remuneration schemes or a description of their key terms, as well as full names of the participants in the schemes. Notice should also specify the relationship of the schemes and the overall remuneration policy of the directors. Draft resolution must have a clear reference to the scheme itself or to the summary of its key terms. Shareholders must also be presented with information on how the company intends to provide for the shares required to meet its obligations under incentive schemes. It should be</p>	Not applicable
