Independent Auditor's Report

To the shareholders of Vilniaus Baldai AB

Report on the financial statements

We have audited the accompanying stand-alone and consolidated financial statements of Vilniaus Baldai AB ("the Company") and its subsidiary ("the Group") set out on pages 42 to 80, which comprise the stand-alone and consolidated balance sheets as of 31 December 2013 and the stand-alone and consolidated statements of comprehensive income, changes in equity and cash flows for the year then ended, and notes comprising a summary of significant accounting policies and other explanatory information ("the financial statements").

Management's responsibility for the financial statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with International Financial Reporting Standards as adopted by the European Union, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's responsibility

Our responsibility is to express an opinion on these financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements present fairly, in all material respects, the financial position of the Company and the Group as of 31 December 2013, and their financial performance and their cash flows for the year then ended in accordance with International Financial Reporting Standards as adopted by the European Union.

Report on other legal and regulatory requirements

Furthermore, we have read the consolidated annual report for the year ended 31 December 2013 set out on pages 5 to 41 and have not noted any material inconsistencies between the financial information included in it and the audited financial statements for the year ended 31 December 2013.

1. REVIEW OF THE COMPANIES GROUP'S POSITION, ACTIVITY AND DEVELOPMENT, CHARACTERISATION OF THE MAIN TYPES OF RISKS AND UNCERTAINTIES, FACED BY THE COMPANY

Vilniaus Baldai AB is a leading manufacturer of flat-pack furniture. The public company Vilniaus Baldai is the company that cherishes time-honoured traditions, applies modern technologies and enjoys a stable and continuous business growth.

In 2013 changes were introduced with respect to nearly half of the products produced by the Company. In the first quarter of 2013 the Company finished producing Expedit group of products, which used to represent the major share of the production volume, and started producing child's room furniture Flaxa and other new products. These changes have led to the acquisition of new equipment, introduction of advanced technologies assuring the compliance with quality standards. The introduction of a wide range of products for production over a rather short period of time showed a strong ability of the Company to compete for orders. The mentioned changes caused a reduction in the Company's sales revenue which amounted to LTL 166 million. Over the course the Company continued reorganizational processes that were started earlier focusing on cost reduction, increase of production output, improvement of production planning, enhancement of competitive features and increase of sales orders. We expect that the continued developments will help to implement the strategy of the Company. Furthermore, the rational use of the resources of the Company, increase of productivity aiming for the European standards and strict control of the quality will ensure better operating results of the Company in the future.

Main risks faced by the Group:

Economic risk factors. The sales of Vilniaus Baldai AB to the main customer Swedish concern IKEA made about 98 % of all the sales of the Company in the year 2013 (in 2012 – 98 %, in 2011 – 98 %). In 2013, the Company's sales revenue comprised sales of furniture which account for 99 % of total sales (in 2012 – 98 %) and sales of raw materials and waste of raw materials.

The Company competes with the world furniture producers.

Political risk factors. Critical changes in the business environment are related to the unstable economic situation in the world. This has a direct impact on the net profit and cash flows of the Company. There are no requirements and restrictions established by the State to the issuer's activity.

Social risk factors. The unstable situation of business in Lithuania affects the Company as well, and this results in the need for changes to be introduced in the Company's organisational structure, the need for higher labour productivity, introduction of an effective system of the purchase of raw materials and services, improvement of technological processes. The Company pays great attention to the improvement of operating conditions and training and qualification improvement of the employees, implementation of LEAN management principles and methods. In the year 2013, the average monthly remuneration per employee decreased by 5 per cent at the Company. Trade Union, representing the interests of the employees, operates actively in the Company.

Supply. Vilniaus Baldai AB has introduced an effective system of the purchase of raw materials and services. The Company maintains strong strategic relations with suppliers and constantly searches for new opportunities in the markets of raw materials and services. Vilniaus Baldai AB signs long-term contracts with the suppliers of the raw materials.

Technical and technological risk factors. The modern production equipment is introduced in the Company. The manufacturing processes should be further modernised. The physical and moral condition of the main facilities is good and does not cause any risk to the activity of the Company. Vilniaus Baldai AB focuses on maintenance of production facilities, optimisation of technological processes, and increase in labour productivity. The Company invests LTL 15.8 million in renovation of facilities and introduction of the latest technologies (LTL 12.3 million in 2012).

Ecological risk factors. There is an environment protection management system introduced in the Company, corresponding to the ISO 14001 requirements. The core of this system is the management and permanent improvement of the environment protection. The Company works purposefully seeking to make the production ecological, to control the impact that the materials and raw materials have on the environment, to ensure that the suppliers of the products and services correspond to the environment protection management requirements. Company was granted FSC production line certificate. The annual audit of quality management system and environmental management system according EN ISO 9001 and EN ISO 14001 was performed in June 2013. There aren't identified any non - conformances. In 2013 Vilniaus Baldai AB paid LTL 11 thousand of the environment pollution taxes, as well as LTL 130 thousand for the waste utilisation services. There were no manufacturing restrictions because of the environment pollution.

Vilniaus Baldai AB disclosure form concerning the compliance with the Governance Code for the companies listed on the regulated market

Following the Article 21 paragraph 3 of the Law on Securities of the Republic of Lithuania and the paragraph 24.5. of the Listing Rules of the NASDAQ OMX Vilnius AB, Vilniaus Baldai AB discloses its compliance with the Governance Code, approved by the NASDAQ OMX Vilnius for the companies listed on the regulated market, and its specific provisions.

PRINCIPLES/ RECOMMENDATIONS	YES/ NO/ NOT APP- LICAB- LE	COMMENTARY
Principle I: Basic Provisions		
The overriding objective of a company should be to operate in common interests of all the shareholders by optimizing over time shareholder value.		
1.1. A company should adopt and make public the company's development strategy and objectives by clearly declaring how the company intends to meet the interests of its shareholders and optimize shareholder value.	Yes	In the next financial year, the Company will focus on the increase of productivity and improvement of quality. The Company expects to achieve these objectives through the introduction of the LEAN methodology in the areas of manufacturing processes, operational management, improvement of professional skills of employees and their involvement in a process of continuous development. In 2014, the Company expects to see a consistent growth of sales revenue and production volumes, earn profit and create over 80 new workplaces.
1.2. All management bodies of a company should act in furtherance of the declared strategic objectives in view of the need to optimize shareholder value.	Yes	The activity of the Company's management bodies is concentrated on the implementation of the main goals and tasks.
1.3. A company's supervisory and management bodies should act in close co-operation in order to attain maximum benefit for the company and its shareholders.	Yes	The Board of the Company adopts the decisions on all the most important matters. The ordinary meetings of the Board of the Company are held at least once in a month. Extraordinary – upon the suggestion of Chairman of the Board or Board member for the discussion and decision making of the important matters. The Board of the Company cooperates with the Chief Executive Officer.
1.4. A company's supervisory and management bodies should ensure that the rights and interests of persons other than the company's shareholders (e.g. employees, creditors, suppliers, clients, local community), participating in or connected with the company's operation, are duly respected.	Yes	The Company respects the rights and the interests of all main concerned groups.

Principle II: The corporate governance framework		
The corporate governance framework should ensure the strategic guidance of the company, the effective oversight of the company's management bodies, an appropriate balance and distribution of functions between the company's bodies, protection of the shareholders' interests.		
2.1. Besides obligatory bodies provided for in the Law on Companies of the Republic of Lithuania – a general shareholders' meeting and the chief executive officer, it is recommended that a company should set up both a collegial supervisory body and a collegial management body. The setting up of collegial bodies for supervision and management facilitates clear separation of management and supervisory functions in the company, accountability and control on the part of the chief executive officer, which, in its turn, facilitate a more efficient and transparent management process.	No	Management bodies of the Company are General Meeting, Board and Chief Executive Officer. The Company does not have a supervisory board. Control of the Board of the Company is performed by General Meeting, the Board reports to the General Meeting of Shareholders.
2.2. A collegial management body is responsible for the strategic management of the company and performs other key functions of corporate governance. A collegial supervisory body is responsible for the effective supervision of the company's management bodies.	Yes	The Company has a collegial management body – the Board.
2.3. Where a company chooses to form only one collegial body, it is recommended that it should be a supervisory body, i.e. the supervisory board. In such a case, the supervisory board is responsible for the effective monitoring of the functions performed by the company's chief executive officer.	No	The Company does not follow this recommendation. It has just one collegial body – the Board.
2.4. The collegial supervisory body to be elected by the general shareholders' meeting should be set up and should act in the manner defined in Principles III and IV. Where a company should decide not to set up a collegial supervisory body but rather a collegial management body, i.e. the board, Principles III and IV should apply to the board as long as that does not contradict the essence and purpose of this body.	No	The Company follows the majority of the provisions defined in Principle III. It does not follow the provisions defined in Principle IV on the establishment of committees.
2.5. Company's management and supervisory bodies should comprise such number of board (executive directors) and supervisory (non-executive directors) board members that no individual or small group of individuals can dominate decision-making on the part of these bodies.	Yes	The Board of the Company consists of 3 members. All the 3 members represent the interests of the shareholders' and aim for the benefit of the Company.
2.6. Non-executive directors or members of the supervisory board should be appointed for specified terms subject to individual re-election, at maximum intervals provided for in the Lithuanian legislation with a view to ensuring necessary development of professional experience and sufficiently frequent reconfirmation of their status. A possibility to remove them should also be stipulated however this procedure should not be easier than the removal procedure for an executive director or a member of the management board.	No	Members of the Supervisory Board and the directors' consultants are not appointed by the Company.
2.7. Chairman of the collegial body elected by the general shareholders' meeting may be a person whose current or past office constitutes no obstacle to conduct independent and impartial supervision. Where a company should decide not to set up a supervisory board but rather the board, it is recommended that the chairman of the board and chief executive officer of the company should be a different person. Former company's chief executive officer should not be immediately nominated as the chairman of the collegial body elected by the general shareholders' meeting. When a company chooses to depart from these recommendations, it should furnish information on the measures it has taken to ensure impartiality of the supervision.	Yes	Chief Executive Officer of the Company is not a Board member. Chairman of the Board of the Company is not and was not the chief executive officer of the Company. There is no obstacles in independent and fair supervision.

Principle III: The order of the formation of a collegial body to be elected by a general shareholders' meeting		
The order of the formation a collegial body to be elected by a general shareholders' meeting should ensure representation of minority shareholders, accountability of this body to the shareholders and objective monitoring of the company's operation and its management bodies.		
3.1. The mechanism of the formation of a collegial body to be elected by a general shareholders' meeting (hereinafter in this Principle referred to as the 'collegial body') should ensure objective and fair monitoring of the company's management bodies as well as representation of minority shareholders.	Yes	The Board formation mechanism allows to ensure proper monitoring of the Company. Only a person, having the proper qualification can become a Board member. The Board of the Company consists of the members not working at the Company.
3.2. Names and surnames of the candidates to become members of a collegial body, information about their education, qualification, professional background, positions taken and potential conflicts of interest should be disclosed early enough before the general shareholders' meeting so that the shareholders would have sufficient time to make an informed voting decision. All factors affecting the candidate's independence, the sample list of which is set out in Recommendation 3.7, should be also disclosed. The collegial body should also be informed on any subsequent changes in the provided information. The collegial body should, on yearly basis, collect data provided in this item on its members and disclose this in the company's annual report.	Yes	Information about current Board members is presented in the Company's periodic reports.
3.3. Should a person be nominated for members of a collegial body, such nomination should be followed by the disclosure of information on candidate's particular competences relevant to his/her service on the collegial body. In order shareholders and investors are able to ascertain whether member's competence is further relevant, the collegial body should, in its annual report, disclose the information on its composition and particular competences of individual members which are relevant to their service on the collegial body.	Yes	The information on the composition of the Board is published in the annual report.
3.4. In order to maintain a proper balance in terms of the current qualifications possessed by its members, the collegial body should determine its desired composition with regard to the company's structure and activities, and have this periodically evaluated. The collegial body should ensure that it is composed of members who, as a whole, have the required diversity of knowledge, judgment and experience to complete their tasks properly. The members of the audit committee, collectively, should have a recent knowledge and relevant experience in the fields of finance, accounting and/or audit for the stock exchange listed companies.	Yes	Members of the Company's Board and Audit Committee have significant experience in Companies' management, diversity of knowledge and experience to complete their tasks properly.
3.5. All new members of the collegial body should be offered a tailored program focused on introducing a member with his/her duties, corporate organization and activities. The collegial body should conduct an annual review to identify fields where its members need to update their skills and knowledge.	Yes	Members of the Company's Board have significant experience in companies' management. The Company's Board members are acquainted with Company's organisation, its activity and management specifics.
3.6. In order to ensure that all material conflicts of interest related with a member of the collegial body are resolved properly, the collegial body should comprise a sufficient number of independent members.	No	The independence of the elected Board members was not evaluated in the Company as well as the content of the notion of the sufficiency of independent members.
3.7. A member of the collegial body should be considered to be independent only if he is free of any business, family or other relationship with the company, its controlling shareholder or the management of either, that creates a conflict of interest such as to impair his judgment. Since all cases when member of the collegial body is likely to become dependent are impossible to list, moreover, relationships and circumstances associated with the determination of independence may vary amongst companies and the best practices of solving this problem are yet to evolve in the course of time, assessment of independence of a member of the collegial body should be based on the contents of the relationship and circumstances rather than their form. The key criteria for identifying whether a member of the collegial body	No	At the General Meeting of the shareholders the persons were elected to the members of the Board, who are independent and acting with an aim for the benefit of the Company, however they do not correspond to the recommendation on independence of this code.

<p>can be considered to be independent are the following:</p> <p>1) He/she is not an executive director or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) of the company or any associated company and has not been such during the last five years;</p> <p>2) He/she is not an employee of the company or some any company and has not been such during the last three years, except for cases when a member of the collegial body does not belong to the senior management and was elected to the collegial body as a representative of the employees;</p> <p>3) He/she is not receiving or has been not receiving significant additional remuneration from the company or associated company other than remuneration for the office in the collegial body. Such additional remuneration includes participation in share options or some other performance based pay systems; it does not include compensation payments for the previous office in the company (provided that such payment is no way related with later position) as per pension plans (inclusive of deferred compensations);</p>		
<p>4) He/she is not a controlling shareholder or representative of such shareholder (control as defined in the Council Directive 83/349/EEC Article 1 Part 1);</p> <p>5) He/she does not have and did not have any material business relations with the company or associated company within the past year directly or as a partner, shareholder, director or superior employee of the subject having such relationship. A subject is considered to have business relations when it is a major supplier or service provider (inclusive of financial, legal, counselling and consulting services), major client or organization receiving significant payments from the company or its group;</p> <p>6) He/she is not and has not been, during the last three years, partner or employee of the current or former external audit company of the company or associated company;</p> <p>7) He/she is not an executive director or member of the board in some other company where executive director of the company or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) is non-executive director or member of the supervisory board, he/she may not also have any other material relationships with executive directors of the company that arise from their participation in activities of other companies or bodies;</p> <p>8) He/she has not been in the position of a member of the collegial body for over than 12 years;</p> <p>9) He/she is not a close relative to an executive director or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) or to any person listed in above items 1 to 8. Close relative is considered to be a spouse (common-law spouse), children and parents.</p> <p>3.8. The determination of what constitutes independence is fundamentally an issue for the collegial body itself to determine. The collegial body may decide that, despite a particular member meets all the criteria of independence laid down in this Code, he cannot be considered independent due to special personal or company-related circumstances.</p>		

<p>3.9. Necessary information on conclusions the collegial body has come to in its determination of whether a particular member of the body should be considered to be independent should be disclosed. When a person is nominated to become a member of the collegial body, the company should disclose whether it considers the person to be independent. When a particular member of the collegial body does not meet one or more criteria of independence set out in this Code, the company should disclose its reasons for nevertheless considering the member to be independent. In addition, the company should annually disclose which members of the collegial body it considers to be independent.</p>	<p>No</p>	<p>The Company did not use Board members' independence evaluation and disclosure practice.</p>
<p>3.10. When one or more criteria of independence set out in this Code has not been met throughout the year, the company should disclose its reasons for considering a particular member of the collegial body to be independent. To ensure accuracy of the information disclosed in relation with the independence of the members of the collegial body, the company should require independent members to have their independence periodically re-confirmed.</p>	<p>No</p>	<p>The Company did not use Board members' independence evaluation and disclosure practice.</p>
<p>3.11. In order to remunerate members of a collegial body for their work and participation in the meetings of the collegial body, they may be remunerated from the company's funds. The general shareholders' meeting should approve the amount of such remuneration.</p>	<p>No</p>	<p>The remuneration is not paid to the Board members of the Company.</p>
<p>Principle IV: The duties and liabilities of a collegial body elected by the general shareholders' meeting</p>		
<p>The corporate governance framework should ensure proper and effective functioning of the collegial body elected by the general shareholders' meeting, and the powers granted to the collegial body should ensure effective monitoring of the company's management bodies and protection of interests of all the company's shareholders.</p>		
<p>4.1. The collegial body elected by the general shareholders' meeting (hereinafter in this Principle referred to as the 'collegial body') should ensure integrity and transparency of the company's financial statements and the control system. The collegial body should issue recommendations to the company's management bodies and monitor and control the company's management performance.</p>	<p>Yes</p>	<p>The Chief Executive Officer of the Company at least once in a month reports to the company's Board and receives its recommendations. The Board of the Company confirms the annual report prepared by the Chief Executive Officer.</p>
<p>4.2. Members of the collegial body should act in good faith, with care and responsibility for the benefit and in the interests of the company and its shareholders with due regard to the interests of employees and public welfare. Independent members of the collegial body should (a) under all circumstances maintain independence of their analysis, decision-making and actions (b) do not seek and accept any unjustified privileges that might compromise their independence, and (c) clearly express their objections should a member consider that decision of the collegial body is against the interests of the company. Should a collegial body have passed decisions independent member has serious doubts about, the member should make adequate conclusions. Should an independent member resign from his office, he should explain the reasons in a letter addressed to the collegial body or audit committee and, if necessary, respective company-not-pertaining body (institution).</p>	<p>Yes</p>	<p>Members of the Company's Board act in good faith for the benefit and in the interests of the Company. They try to maintain own independence in making decisions.</p>
<p>4.3. Each member should devote sufficient time and attention to perform his duties as a member of the collegial body. Each member of the collegial body should limit other professional obligations of his (in particular any directorships held in other companies) in such a manner they do not interfere with proper performance of duties of a member of the collegial body. In the event a member of the collegial body should be present in less than a half of the meetings of the collegial body throughout the financial year of the company, shareholders of the company should be notified.</p>	<p>Yes</p>	<p>Board members perform their functions properly: actively participate in the Board meetings and devote sufficient time and attention to perform their duties. Board meetings are attended by all members.</p>

<p>4.4. Where decisions of a collegial body may have a different effect on the company's shareholders, the collegial body should treat all shareholders impartially and fairly. It should ensure that shareholders are properly informed on the company's affairs, strategies, risk management and resolution of conflicts of interest. The company should have a clearly established role of members of the collegial body when communicating with and committing to shareholders.</p>	<p>Yes</p>	<p>The Company follows this recommendation.</p>
<p>4.5. It is recommended that transactions (except insignificant ones due to their low value or concluded when carrying out routine operations in the company under usual conditions), concluded between the company and its shareholders, members of the supervisory or managing bodies or other natural or legal persons that exert or may exert influence on the company's management should be subject to approval of the collegial body. The decision concerning approval of such transactions should be deemed adopted only provided the majority of the independent members of the collegial body voted for such a decision.</p>	<p>Yes</p>	<p>The transactions between the Company and its shareholders, Supervisory Board or management bodies or other bodies that may have influence on management of the Company are confirmed according to the Articles of the Association of the Company.</p>
<p>4.6. The collegial body should be independent in passing decisions that are significant for the company's operations and strategy. Taken separately, the collegial body should be independent of the company's management bodies. Members of the collegial body should act and pass decisions without an outside influence from the persons who have elected it. Companies should ensure that the collegial body and its committees are provided with sufficient administrative and financial resources to discharge their duties, including the right to obtain, in particular from employees of the company, all the necessary information or to seek independent legal, accounting or any other advice on issues pertaining to the competence of the collegial body and its committees.</p>	<p>Yes</p>	<p>The Company's Board has financial resources and does not depend on the Company's management.</p>
<p>4.7. Activities of the collegial body should be organized in a manner that independent members of the collegial body could have major influence in relevant areas where chances of occurrence of conflicts of interest are very high. Such areas to be considered as highly relevant are issues of nomination of company's directors, determination of directors' remuneration and control and assessment of company's audit. Therefore when the mentioned issues are attributable to the competence of the collegial body, it is recommended that the collegial body should establish nomination, remuneration, and audit committees. Companies should ensure that the functions attributable to the nomination, remuneration, and audit committees are carried out. However they may decide to merge these functions and set up less than three committees. In such case a company should explain in detail reasons behind the selection of alternative approach and how the selected approach complies with the objectives set forth for the three different committees. Should the collegial body of the company comprise small number of members, the functions assigned to the three committees may be performed by the collegial body itself, provided that it meets composition requirements advocated for the committees and that adequate information is provided in this respect. In such case provisions of this Code relating to the committees of the collegial body (in particular with respect to their role, operation, and transparency) should apply, where relevant, to the collegial body as a whole.</p>	<p>No</p>	<p>Due to the simple structure of the Company the nomination and remuneration committees are not carried out. Question regarding establishment of nomination and remuneration committees will be solved in future after analyzing situation, evaluating financial expenses and other factors, implementing best practices in the market. The compliance with the requirements for the preparation of the set of the consolidated financial statements, internal control and financial risk management systems, legal acts regulating the preparation of the set of the consolidated financial statements is supervised by the Audit Committee established on 16 September 2013.</p>

<p>4.8. The key objective of the committees is to increase efficiency of the activities of the collegial body by ensuring that decisions are based on due consideration, and to help organize its work with a view to ensuring that the decisions it takes are free of material conflicts of interest. Committees should present the collegial body with recommendations concerning the decisions of the collegial body. Nevertheless the final decision shall be adopted by the collegial body. The recommendation on creation of committees is not intended, in principle, to constrict the competence of the collegial body or to remove the matters considered from the purview of the collegial body itself, which remains fully responsible for the decisions taken in its field of competence.</p>	<p>No</p>	<p>The Committees of Nomination and Remuneration are not established. The compliance with the requirements for the preparation of the set of the consolidated financial statements, internal control and financial risk management systems, legal acts regulating the preparation of the set of the consolidated financial statements is supervised by the Audit Committee established on 16 September 2013.</p>
<p>4.9. Committees established by the collegial body should normally be composed of at least three members. In companies with small number of members of the collegial body, they could exceptionally be composed of two members. Majority of the members of each committee should be constituted from independent members of the collegial body. In cases when the company chooses not to set up a supervisory board, remuneration and audit committees should be entirely comprised of non-executive directors. Chairmanship and membership of the committees should be decided with due regard to the need to ensure that committee membership is refreshed and that undue reliance is not placed on particular individuals.</p>	<p>No</p>	<p>The Committees of Nomination and Remuneration are not established because of the structural simplicity of the Company's management. The Audit Committee of Vilniaus baldai AB consists of 3 members, one of them is independent.</p>
<p>4.10. Authority of each of the committees should be determined by the collegial body. Committees should perform their duties in line with authority delegated to them and inform the collegial body on their activities and performance on regular basis. Authority of every committee stipulating the role and rights and duties of the committee should be made public at least once a year (as part of the information disclosed by the company annually on its corporate governance structures and practices). Companies should also make public annually a statement by existing committees on their composition, number of meetings and attendance over the year, and their main activities. Audit committee should confirm that it is satisfied with the independence of the audit process and describe briefly the actions it has taken to reach this conclusion.</p>	<p>No</p>	<p>The Committees of Nomination and Remuneration are not established because of the structural simplicity of the Company's management.</p>
<p>4.11. In order to ensure independence and impartiality of the committees, members of the collegial body that are not members of the committee should commonly have a right to participate in the meetings of the committee only if invited by the committee. A committee may invite or demand participation in the meeting of particular officers or experts. Chairman of each of the committees should have a possibility to maintain direct communication with the shareholders. Events when such are to be performed should be specified in the regulations for committee activities.</p>	<p>No</p>	<p>The Committees of Nomination and Remuneration are not established because of the structural simplicity of the Company's management.</p>

<p>4.12. Nomination Committee. 4.12.1. Key functions of the nomination committee should be the following:</p> <ul style="list-style-type: none"> • Identify and recommend, for the approval of the collegial body, candidates to fill board vacancies. The nomination committee should evaluate the balance of skills, knowledge and experience on the management body, prepare a description of the roles and capabilities required to assume a particular office, and assess the time commitment expected. Nomination committee can also consider candidates to members of the collegial body delegated by the shareholders of the company; • Assess on regular basis the structure, size, composition and performance of the supervisory and management bodies, and make recommendations to the collegial body regarding the means of achieving necessary changes; • Assess on regular basis the skills, knowledge and experience of individual directors and report on this to the collegial body; • Properly consider issues related to succession planning; • Review the policy of the management bodies for selection and appointment of senior management. <p>4.12.2. Nomination committee should consider proposals by other parties, including management and shareholders. When dealing with issues related to executive directors or members of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) and senior management, chief executive officer of the company should be consulted by, and entitled to submit proposals to the nomination committee.</p>	<p>No</p>	<p>The Committees of Nomination and Remuneration are not established because of the structural simplicity of the Company's management.</p>
<p>4.13. Remuneration Committee. 4.13.1. Key functions of the remuneration committee should be the following:</p> <ul style="list-style-type: none"> • Make proposals, for the approval of the collegial body, on the remuneration policy for members of management bodies and executive directors. Such policy should address all forms of compensation, including the fixed remuneration, performance-based remuneration schemes, pension arrangements, and termination payments. Proposals considering performance-based remuneration schemes should be accompanied with recommendations on the related objectives and evaluation criteria, with a view to properly aligning the pay of executive director and members of the management bodies with the long-term interests of the shareholders and the objectives set by the collegial body; • Make proposals to the collegial body on the individual remuneration for executive directors and member of management bodies in order their remunerations are consistent with company's remuneration policy and the evaluation of the performance of these persons concerned. In doing so, the committee should be properly informed on the total compensation obtained by executive directors and members of the management bodies from the affiliated companies; • Make proposals to the collegial body on suitable forms of contracts for executive directors and members of the management bodies; • Assist the collegial body in overseeing how the company complies with applicable provisions regarding the remuneration-related information disclosure (in particular the remuneration policy applied and individual remuneration of directors); • Make general recommendations to the executive directors and members of the management bodies on the level and structure of remuneration for senior management (as defined by the collegial body) with regard to the respective information provided by the executive directors and members of the management bodies. <p>4.13.2. With respect to stock options and other share-based incentives which may be granted to directors or other employees, the committee should:</p>	<p>No</p>	<p>The Committees of Nomination and Remuneration are not established because of the structural simplicity of the Company's management.</p>

<ul style="list-style-type: none">• Consider general policy regarding the granting of the above mentioned schemes, in particular stock options, and make any related proposals to the collegial body;• Examine the related information that is given in the company's annual report and documents intended for the use during the shareholders meeting;• Make proposals to the collegial body regarding the choice between granting options to subscribe shares or granting options to purchase shares, specifying the reasons for its choice as well as the consequences that this choice has. <p>4.13.3. Upon resolution of the issues attributable to the competence of the remuneration committee, the committee should at least address the chairman of the collegial body and/or chief executive officer of the company for their opinion on the remuneration of other executive directors or members of the management bodies.</p>	
---	--

<p>4.14. Audit Committee.</p> <p>4.14.1. Key functions of the audit committee should be the following:</p> <ul style="list-style-type: none"> • Observe the integrity of the financial information provided by the company, in particular by reviewing the relevance and consistency of the accounting methods used by the company and its group (including the criteria for the consolidation of the accounts of companies in the group); • At least once a year review the systems of internal control and risk management to ensure that the key risks (inclusive of the risks in relation with compliance with existing laws and regulations) are properly identified, managed and reflected in the information provided; • Ensure the efficiency of the internal audit function, among other things, by making recommendations on the selection, appointment, reappointment and removal of the head of the internal audit department and on the budget of the department, and by monitoring the responsiveness of the management to its findings and recommendations. Should there be no internal audit authority in the company, the need for one should be reviewed at least annually; • Make recommendations to the collegial body related with selection, appointment, reappointment and removal of the external auditor (to be done by the general shareholders' meeting) and with the terms and conditions of his engagement. The committee should investigate situations that lead to a resignation of the audit company or auditor and make recommendations on required actions in such situations; • Monitor independence and impartiality of the external auditor, in particular by reviewing the audit company's compliance with applicable guidance relating to the rotation of audit partners, the level of fees paid by the company, and similar issues. In order to prevent occurrence of material conflicts of interest, the committee, based on the auditor's disclosed inter alia data on all remunerations paid by the company to the auditor and network, should at all times monitor nature and extent of the non-audit services. Having regard to the principals and guidelines established in the 16 May 2002 Commission Recommendation 2002/590/EC, the committee should determine and apply a formal policy establishing types of non-audit services that are (a) excluded, (b) permissible only after review by the committee, and (c) permissible without referral to the committee; • Review efficiency of the external audit process and responsiveness of management to recommendations made in the external auditor's management letter. 	<p>Yes</p>	<p>The compliance with the requirements for the preparation of the set of the consolidated financial statements, internal control and financial risk management systems, legal acts regulating the preparation of the set of the consolidated financial statements is supervised by the Audit Committee established on 16 September 2013.</p> <p>The main functions of the Audit Committee are:</p> <ol style="list-style-type: none"> 1. to advice for the Board about the reliability, assignment, repeated assignment and dismissal of the external audit company and about the conditions of the agreement with external audit company; 2. to observe the process of external audit; 3. to observe if external audit company and its auditors keep the principles of independency and objectivity; 4. to observe the process of preparation of financial statements; 5. to observe the efficiency of internal control and risk management systems and to evaluate the need of internal audit functions once per financial year.
--	------------	--

<p>4.14.2. All members of the committee should be furnished with complete information on particulars of accounting, financial and other operations of the company. Company's management should inform the audit committee of the methods used to account for significant and unusual transactions where the accounting treatment may be open to different approaches. In such case a special consideration should be given to company's operations in offshore centers and/or activities carried out through special purpose vehicles (organizations) and justification of such operations.</p> <p>4.14.3. The audit committee should decide whether participation of the chairman of the collegial body, chief executive officer of the company, chief financial officer (or superior employees in charge of finances, treasury and accounting), or internal and external auditors in the meetings of the committee is required (if required, when). The committee should be entitled, when needed, to meet with any relevant person without executive directors and members of the management bodies present.</p> <p>4.14.4. Internal and external auditors should be secured with not only effective working relationship with management, but also with free access to the collegial body. For this purpose the audit committee should act as the principal contact person for the internal and external auditors.</p> <p>4.14.5. The audit committee should be informed of the internal auditor's work program, and should be furnished with internal audit's reports or periodic summaries. The audit committee should also be informed of the work program of the external auditor and should be furnished with report disclosing all relationships between the independent auditor and the company and its group. The committee should be timely furnished information on all issues arising from the audit.</p> <p>4.14.6. The audit committee should examine whether the company is following applicable provisions regarding the possibility for employees to report alleged significant irregularities in the company, by way of complaints or through anonymous submissions (normally to an independent member of the collegial body), and should ensure that there is a procedure established for proportionate and independent investigation of these issues and for appropriate follow-up action.</p> <p>4.14.7. The audit committee should report on its activities to the collegial body at least once in every six months, at the time the yearly and half-yearly statements are approved.</p>		
<p>4.15. Every year the collegial body should conduct the assessment of its activities. The assessment should include evaluation of collegial body's structure, work organization and ability to act as a group, evaluation of each of the collegial body member's and committee's competence and work efficiency and assessment whether the collegial body has achieved its objectives. The collegial body should, at least once a year, make public (as part of the information the company annually discloses on its management structures and practices) respective information on its internal organization and working procedures, and specify what material changes were made as a result of the assessment of the collegial body of its own activities.</p>	No	There was no such practice.

Principle V: The working procedure of the company's collegial bodies		
The working procedure of supervisory and management bodies established in the company should ensure efficient operation of these bodies and decision-making and encourage active co-operation between the company's bodies.		
5.1. The company's supervisory and management bodies (hereinafter in this Principle the concept 'collegial bodies' covers both the collegial bodies of supervision and the collegial bodies of management) should be chaired by chairpersons of these bodies. The chairperson of a collegial body is responsible for proper convocation of the collegial body meetings. The chairperson should ensure that information about the meeting being convened and its agenda are communicated to all members of the body. The chairperson of a collegial body should ensure appropriate conducting of the meetings of the collegial body. The chairperson should ensure order and working atmosphere during the meeting.	Yes	This provision is adopted in the Company by collegial management – the Board.
5.2. It is recommended that meetings of the company's collegial bodies should be carried out according to the schedule approved in advance at certain intervals of time. Each company is free to decide how often to convene meetings of the collegial bodies, but it is recommended that these meetings should be convened at such intervals, which would guarantee an interrupted resolution of the essential corporate governance issues. Meetings of the company's supervisory board should be convened at least once in a quarter, and the company's board should meet at least once a month.	Yes	Meetings of the Company's Board are arranged at least once in a month.
5.3. Members of a collegial body should be notified about the meeting being convened in advance in order to allow sufficient time for proper preparation for the issues on the agenda of the meeting and to ensure fruitful discussion and adoption of appropriate decisions. Alongside with the notice about the meeting being convened, all the documents relevant to the issues on the agenda of the meeting should be submitted to the members of the collegial body. The agenda of the meeting should not be changed or supplemented during the meeting, unless all members of the collegial body are present or certain issues of great importance to the company require immediate resolution.	Yes	The Company follows provisions listed in this recommendation.
5.4. In order to co-ordinate operation of the company's collegial bodies and ensure effective decision-making process, chairpersons of the company's collegial bodies of supervision and management should closely co-operate by co-coordinating dates of the meetings, their agendas and resolving other issues of corporate governance. Members of the company's board should be free to attend meetings of the company's supervisory board, especially where issues concerning removal of the board members, their liability or remuneration are discussed.	No	The Company cannot implement this principle, because Company has just collegial management – the Board.
Principle VI: The equitable treatment of shareholders and shareholder rights		
The corporate governance framework should ensure the equitable treatment of all shareholders, including minority and foreign shareholders. The corporate governance framework should protect the rights of the shareholders.		
6.1. It is recommended that the company's capital should consist only of the shares that grant the same rights to voting, ownership, dividend and other rights to all their holders.	Yes	The Company's capital consists only of the ordinary shares that grant the same rights to all their holders.
6.2. It is recommended that investors should have access to the information concerning the rights attached to the shares of the new issue or those issued earlier in advance, i.e. before they purchase shares.	Yes	The Company follows provisions listed in this recommendation.
6.3. Transactions that are important to the company and its shareholders, such as transfer, investment, and pledge of the company's assets or any other type of encumbrance should be subject to approval of the general shareholders' meeting. All shareholders should be furnished with equal opportunity to familiarize with and participate in the decision-making process when significant corporate issues, including approval of transactions referred to above, are discussed.	No	The Company does not follow this provision because of the developed routine practice, which was resulted by the quicker and timely decision-making process. The Company's Board adopts the decisions on these matters.

<p>6.4. Procedures of convening and conducting a general shareholders' meeting should ensure equal opportunities for the shareholders to effectively participate at the meetings and should not prejudice the rights and interests of the shareholders. The venue, date, and time of the shareholders' meeting should not hinder wide attendance of the shareholders. Prior to the shareholders' meeting, the company's supervisory and management bodies should enable the shareholders to lodge questions on issues on the agenda of the general shareholders' meeting and receive answers to them.</p>	<p>Yes</p>	<p>All the shareholders of the Company are informed about date, venue and time of the General Meeting. Prior to the General Meeting of Shareholders all the shareholders have possibility to receive information, related to the agenda of General Meeting.</p>
<p>6.5. It is recommended that documents on the course of the general shareholders' meeting, including draft resolutions of the meeting, should be placed on the publicly accessible website of the company in advance. It is recommended that the minutes of the general shareholders' meeting after signing them and/or adopted resolutions should be also placed on the publicly accessible website of the company. Seeking to ensure the right of foreigners to familiarize with the information, whenever feasible, documents referred to in this recommendation should be published in English and/or other foreign languages. Documents referred to in this recommendation may be published on the publicly accessible website of the company to the extent that publishing of these documents is not detrimental to the company or the company's commercial secrets are not revealed.</p>	<p>Yes</p>	<p>The Company discloses the documents prepared for the General Meeting, including the drafts of the resolutions of the meetings via the information disclosure system of AB NASDAQ OMX Vilnius Stock Exchange. The information is e-mailed to each shareholder, requesting it. This information is not publicly accessible on the website of the Company.</p>
<p>6.6. Shareholders should be furnished with the opportunity to vote in the general shareholders' meeting in person and in absentia. Shareholders should not be prevented from voting in writing in advance by completing the general voting ballot.</p>	<p>Yes</p>	<p>Shareholders of the Company can implement the right to participate at the General Meeting of Shareholders either in person, or through the representative, if a person has the duly issued Power of Attorney. The Company also provides the possibilities for the shareholders to vote by completing the general voting ballot.</p>
<p>6.7. With a view to increasing the shareholders' opportunities to participate effectively at shareholders' meetings, the companies are recommended to expand use of modern technologies in voting processes by allowing the shareholders to vote in general meetings via terminal equipment of telecommunications. In such cases security of telecommunication equipment, text protection and a possibility to identify the signature of the voting person should be guaranteed. Moreover, companies could furnish its shareholders, especially foreigners, with the opportunity to watch shareholder meetings by means of modern technologies.</p>	<p>Not applicable</p>	<p>Up till now the Company has not had any need to implement this recommendation. Shareholders of the Company can vote through the authorized person or completing the general voting ballot.</p>
<p>Principle VII: The avoidance of conflicts of interest and their disclosure</p>		
<p>The corporate governance framework should encourage members of the corporate bodies to avoid conflicts of interest and assure transparent and effective mechanism of disclosure of conflicts of interest regarding members of the corporate bodies.</p>		
<p>7.1. Any member of the company's supervisory and management body should avoid a situation, in which his/her personal interests are in conflict or may be in conflict with the company's interests. In case such a situation did occur, a member of the company's supervisory and management body should, within reasonable time, inform other members of the same collegial body or the company's body that has elected him/her, or to the company's shareholders about a situation of a conflict of interest, indicate the nature of the conflict and value, where possible.</p>	<p>Yes</p>	<p>The Company follows provisions listed in this recommendation.</p>
<p>7.2. Any member of the company's supervisory and management body may not mix the company's assets, the use of which has not been mutually agreed upon, with his/her personal assets or use them or the information which he/she learns by virtue of his/her position as a member of a corporate body for his/her personal benefit or for the benefit of any third person without a prior agreement of the general shareholders' meeting or any other corporate body authorized by the meeting.</p>	<p>Yes</p>	

<p>7.3. Any member of the company's supervisory and management body may conclude a transaction with the company, a member of a corporate body of which he/she is. Such a transaction (except insignificant ones due to their low value or concluded when carrying out routine operations in the company under usual conditions) must be immediately reported in writing or orally, by recording this in the minutes of the meeting, to other members of the same corporate body or to the corporate body that has elected him/her or to the company's shareholders. Transactions specified in this recommendation are also subject to recommendation 4.5.</p>	<p>Yes</p>	<p>The Company follows provisions listed in this recommendation.</p>
<p>7.4. Any member of the company's supervisory and management body should abstain from voting when decisions concerning transactions or other issues of personal or business interest are voted on.</p>	<p>Yes</p>	<p>The Company's Board members are acquainted with these principles and must follow these recommendations.</p>
<p>Principle VIII: Company's remuneration policy</p>		
<p>Remuneration policy and procedure for approval, revision and disclosure of directors' remuneration established in the company should prevent potential conflicts of interest and abuse in determining remuneration of directors, in addition it should ensure publicity and transparency both of company's remuneration policy and remuneration of directors.</p>		
<p>8.1. A company should make a public statement of the company's remuneration policy (hereinafter the remuneration statement). This statement should be part of the company's annual accounts. Remuneration statement should also be posted on the company's website.</p>	<p>No</p>	<p>The Company does not establish a statement of the remuneration policy. There is no confirmed remuneration policy in the Company. The Company publishes in the annual information the amount of the remuneration of chief management and the averages of the remuneration of the Company's administration and workers. The above mentioned information is presented in compliance with the practice common in the Company and the Republic of Lithuania.</p>
<p>8.2. Remuneration statement should mainly focus on directors' remuneration policy for the following year and, if appropriate, the subsequent years. The statement should contain a summary of the implementation of the remuneration policy in the previous financial year. Special attention should be given to any significant changes in company's remuneration policy as compared to the previous financial year.</p>	<p>No</p>	<p>The Company's remuneration policy is not confirmed at the Company. The Company does not establish the remuneration statement, because the majority of the points of Principle VIII are not relevant to the present structure of the Company.</p>
<p>8.3. Remuneration statement should leastwise include the following information:</p> <ul style="list-style-type: none"> • Explanation of the relative importance of the variable and non-variable components of directors' remuneration; • Sufficient information on performance criteria that entitles directors to share options, shares or variable components of remuneration; • Sufficient information on the linkage between the remuneration and performance; • The main parameters and rationale for any annual bonus scheme and any other non-cash benefits; • A description of the main characteristics of supplementary pension or early retirement schemes for directors. 	<p>No</p>	<p>The Company's remuneration policy is not confirmed at the Company. The Company does not establish the remuneration statement, because the majority of the points of Principle VIII are not relevant to the present structure of the Company.</p>
<p>8.4. Remuneration statement should also summarize and explain company's policy regarding the terms of the contracts executed with executive directors and members of the management bodies. It should include, inter alia, information on the duration of contracts with executive directors and members of the management bodies, the applicable notice periods and details of provisions for termination payments linked to early termination under contracts for executive directors and members of the management bodies.</p>	<p>No</p>	<p>The Company's remuneration policy is not confirmed at the Company. The Company does not prepare the remuneration statement, because the majority of the points of Principle VIII are not relevant to the present structure of the Company.</p>

<p>8.5. The information on preparatory and decision-making processes, during which a policy of remuneration of directors is being established, should also be disclosed. Information should include data, if applicable, on authorities and composition of the remuneration committee, names and surnames of external consultants whose services have been used in determination of the remuneration policy as well as the role of shareholders' annual general meeting.</p>	<p>No</p>	<p>The Company's remuneration policy is not confirmed at the Company. The Company does not prepare the remuneration statement, because the majority of the points of Principle VIII are not relevant to the present structure of the Company.</p>
<p>8.6. Without prejudice to the role and organization of the relevant bodies responsible for setting directors' remunerations, the remuneration policy or any other significant change in remuneration policy should be included into the agenda of the shareholders' annual general meeting. Remuneration statement should be put for voting in shareholders' annual general meeting. The vote may be either mandatory or advisory.</p>	<p>No</p>	<p>The Company's remuneration policy is not confirmed at the Company. The company does not prepare the remuneration statement, because the majority of the points of Principle VIII are not relevant to the present structure of the Company.</p>
<p>8.7. Remuneration statement should also contain detailed information on the entire amount of remuneration, inclusive of other benefits, that was paid to individual directors over the relevant financial year. This document should list at least the information set out in items 8.7.1 to 8.7.4 for each person who has served as a director of the company at any time during the relevant financial year.</p> <p>8.7.1. The following remuneration and/or emoluments-related information should be disclosed:</p> <ul style="list-style-type: none"> • The total amount of remuneration paid or due to the director for services performed during the relevant financial year, inclusive of, where relevant, attendance fees fixed by the annual general shareholders meeting; • The remuneration and advantages received from any undertaking belonging to the same group; • The remuneration paid in the form of profit sharing and/or bonus payments and the reasons why such bonus payments and/or profit sharing were granted; • If permissible by the law, any significant additional remuneration paid to directors for special services outside the scope of the usual functions of a director; • Compensation receivable or paid to each former executive director or member of the management body as a result of his resignation from the office during the previous financial year; • Total estimated value of non-cash benefits considered as remuneration, other than the items covered in the above points. <p>8.7.2. As regards shares and/or rights to acquire share options and/or all other share-incentive schemes, the following information should be disclosed:</p> <ul style="list-style-type: none"> • The number of share options offered or shares granted by the company during the relevant financial year and their conditions of application; • The number of shares options exercised during the relevant financial year and, for each of them, the number of shares involved and the exercise price or the value of the interest in the share incentive scheme at the end of the financial year; • The number of share options unexercised at the end of the financial year; their exercise price, the exercise date and the main conditions for the exercise of the rights; • All changes in the terms and conditions of existing share options occurring during the financial year. <p>8.7.3. The following supplementary pension schemes-related information should be disclosed:</p> <ul style="list-style-type: none"> • When the pension scheme is a defined-benefit scheme, changes in the directors' accrued benefits under that scheme during the relevant financial year; • When the pension scheme is defined-contribution scheme, detailed information on contributions paid or payable by the company in respect of that director during the relevant financial year. 	<p>No</p>	<p>The Company's remuneration policy is not confirmed at the Company. The Company does not prepare the remuneration statement, because the majority of the points of Principle VIII are not relevant to the present structure of the Company.</p>

<p>8.7.4. The statement should also state amounts that the company or any subsidiary company or entity included in the consolidated annual financial statements of the company has paid to each person who has served as a director in the company at any time during the relevant financial year in the form of loans, advance payments or guarantees, including the amount outstanding and the interest rate.</p>		<p>The Company's remuneration policy is not confirmed at the Company. The Company does not prepare the remuneration statement, because the majority of the points of Principle VIII are not relevant to the present structure of the Company.</p>
<p>8.8. Schemes anticipating remuneration of directors in shares, share options or any other right to purchase shares or be remunerated on the basis of share price movements should be subject to the prior approval of shareholders' annual general meeting by way of a resolution prior to their adoption. The approval of scheme should be related with the scheme itself and not to the grant of such share-based benefits under that scheme to individual directors. All significant changes in scheme provisions should also be subject to shareholders' approval prior to their adoption; the approval decision should be made in shareholders' annual general meeting. In such case shareholders should be notified on all terms of suggested changes and get an explanation on the impact of the suggested changes.</p>	<p>Not applicable</p>	<p>Schemes anticipating remuneration of directors in shares, share options or any other right to purchase shares or be remunerated on the basis of share price movements should are not used in the Company.</p>
<p>8.9. The following issues should be subject to approval by the shareholders' annual general meeting:</p> <ul style="list-style-type: none"> • Grant of share-based schemes, including share options, to directors; • Determination of maximum number of shares and main conditions of share granting; • The term within which options can be exercised; • The conditions for any subsequent change in the exercise of the options, if permissible by law; • All other long-term incentive schemes for which directors are eligible and which are not available to other employees of the company under similar terms. Annual general meeting should also set the deadline within which the body responsible for remuneration of directors may award compensations listed in this article to individual directors. 		
<p>8.10. Should national law or company's Articles of Association allow, any discounted option arrangement under which any rights are granted to subscribe to shares at a price lower than the market value of the share prevailing on the day of the price determination, or the average of the market values over a number of days preceding the date when the exercise price is determined, should also be subject to the shareholders' approval.</p>		
<p>8.11. Provisions of Articles 8.8 and 8.9 should not be applicable to schemes allowing for participation under similar conditions to company's employees or employees of any subsidiary company whose employees are eligible to participate in the scheme and which has been approved in the shareholders' annual general meeting.</p>		

<p>8.12. Prior to the annual general meeting that is intended to consider decision stipulated in Article 8.8, the shareholders must be provided an opportunity to familiarize with draft resolution and project-related notice (the documents should be posted on the company's website). The notice should contain the full text of the share-based remuneration schemes or a description of their key terms, as well as full names of the participants in the schemes. Notice should also specify the relationship of the schemes and the overall remuneration policy of the directors. Draft resolution must have a clear reference to the scheme itself or to the summary of its key terms. Shareholders must also be presented with information on how the company intends to provide for the shares required to meet its obligations under incentive schemes. It should be clearly stated whether the company intends to buy shares in the market, hold the shares in reserve or issue new ones. There should also be a summary on scheme-related expenses the company will suffer due to the anticipated application of the scheme. All information given in this article must be posted on the company's website.</p>	<p>Not applicable</p>	<p>Schemes anticipating remuneration of directors in shares, share options or any other right to purchase shares or be remunerated on the basis of share price movements should are not used in the Company.</p>
<p>Principle IX: The role of stakeholders in corporate governance</p>		
<p>The corporate governance framework should recognize the rights of stakeholders as established by law and encourage active co-operation between companies and stakeholders in creating the company value, jobs and financial sustainability. For the purposes of this Principle, the concept "stakeholders" includes investors, employees, creditors, suppliers, clients, local community and other persons having certain interest in the company concerned.</p>		
<p>9.1. The corporate governance framework should assure that the rights of stakeholders that are protected by law are respected.</p>	<p>Yes</p>	<p>The Company follows all the requirements provided by the laws, ensuring the rights of stakeholders. The Company's employees make an influence on the Company's management through the Trade Union; the relationships with the creditors, suppliers and clients are stipulated in the contracts established with them.</p>
<p>9.2. The corporate governance framework should create conditions for the stakeholders to participate in corporate governance in the manner prescribed by law. Examples of mechanisms of stakeholder participation in corporate governance include: employee participation in adoption of certain key decisions for the company; consulting the employees on corporate governance and other important issues; employee participation in the company's share capital; creditor involvement in governance in the context of the company's insolvency, etc.</p>		
<p>9.3. Where stakeholders participate in the corporate governance process, they should have access to relevant information.</p>		

Principle X: Information disclosure and transparency		
The corporate governance framework should ensure that timely and accurate disclosure is made on all material information regarding the company, including the financial situation, performance and governance of the company.		
<p>10.1. The company should disclose information on:</p> <ul style="list-style-type: none"> • The financial and operating results of the company; • Company objectives; • Persons holding by the right of ownership or in control of a block of shares in the company; • Members of the company's supervisory and management bodies, chief executive officer of the company and their remuneration; • Material foreseeable risk factors; • Transactions between the company and connected persons, as well as transactions concluded outside the course of the company's regular operations; • Material issues regarding employees and other stakeholders; • Governance structures and strategy. <p>This list should be deemed as a minimum recommendation, while the companies are encouraged not to limit themselves to disclosure of the information specified in this list.</p> <p>10.2. It is recommended that consolidated results of the whole group to which the company belongs should be disclosed when information specified in item 1 of Recommendation 10.1 is under disclosure.</p> <p>10.3. It is recommended that information on the professional background, qualifications of the members of supervisory and management bodies, chief executive officer of the company should be disclosed as well as potential conflicts of interest that may have an effect on their decisions when information specified in item 4 of Recommendation 10.1 about the members of the company's supervisory and management bodies is under disclosure. It is also recommended that information about the amount of remuneration received from the company and other income should be disclosed with regard to members of the company's supervisory and management bodies and chief executive officer as per Principle VIII.</p> <p>10.4. It is recommended that information about the links between the company and its stakeholders, including employees, creditors, suppliers, local community, as well as the company's policy with regard to human resources, employee participation schemes in the company's share capital, etc. should be disclosed when information specified in item 7 of Recommendation 10.1 is under disclosure.</p>	Yes	<p>The information about the Company, indicated in these recommendations, is disclosed only in the following sources: in the annual report of the Company, financial statements, reports on the purchase/loss of blocks of shares, the reports on the essential events, announcing this information in the information disclosure system of NASDAQ OMX Vilnius AB Stock Exchange and on the Company's website too.</p>
<p>10.5. Information should be disclosed in such a way that neither shareholders nor investors are discriminated with regard to the manner or scope of access to information. Information should be disclosed to all simultaneously. It is recommended that notices about material events should be announced before or after a trading session on the Vilnius Stock Exchange, so that all the company's shareholders and investors should have equal access to the information and make informed investing decisions.</p>	Yes	<p>The information on the information disclosure of NASDAQ OMX Vilnius AB Stock Exchange is presented in the Lithuanian and English languages simultaneously. The Stock Exchange announces the received information on its website and in the trading system, in this way ensuring the simultaneous presentation of the information to everybody. The Company strives to announce the information before or after a trading session of Stock Exchange. The Company does not disclose the information, which might have impact on the value of its shares, in any comments, interviews or other ways till such information is announced officially through the information system of the Stock Exchange.</p>

<p>10.6. Channels for disseminating information should provide for fair, timely and cost-efficient access to relevant information by users. It is recommended that information technologies should be employed for wider dissemination of information, for instance, by placing the information on the company's website. It is recommended that information should be published and placed on the company's website not only in Lithuanian, but also in English, and, whenever possible and necessary, in other languages as well.</p>	<p>Yes</p>	<p>The company sends the reports simultaneously to the Bank of Lithuania and NASDAQ OMX Vilnius AB Stock Exchange. In this way the independent and timely accessibility of the information is ensured. The information on the major events is presented in the Lithuanian and English languages.</p>
<p>10.7. It is recommended that the company's annual reports and other periodical accounts prepared by the company should be placed on the company's website. It is recommended that the company should announce information about material events and changes in the price of the company's shares on the Stock Exchange on the company's website too.</p>	<p>Yes</p>	<p>The Company announces on its website annual financial information and other periodic reports prepared by the Company, announcements about material events and changes of the Company's share prices on the Stock Exchange.</p>
<p>Principle XI: The selection of the company's auditor</p>		
<p>The mechanism of the selection of the company's auditor should ensure independence of the firm of auditor's conclusion and opinion.</p>		
<p>11.1. An annual audit of the company's financial statements and report should be conducted by an independent firm of auditors in order to provide an external and objective opinion on the company's financial statements.</p>	<p>No</p>	<p>The independent firm of auditors conducts the audit of the annual financial statements and reviews the annual report that there would be no any material inconsistencies between the financial information included in it and the audited Financial statements. The audit of the interim financial statement is not conducted.</p>
<p>11.2. It is recommended that the company's supervisory board and, where it is not set up, the company's board should propose a candidate firm of auditors to the general shareholders' meeting.</p>	<p>Yes</p>	<p>Company follows this principle. A candidate firm of auditors to the General Meeting is proposed by Board of the Company.</p>
<p>11.3. It is recommended that the company should disclose to its shareholders the level of fees paid to the firm of auditors for non-audit services rendered to the company. This information should be also known to the company's supervisory board and, where it is not formed, the company's board upon their consideration which firm of auditors to propose for the general shareholders' meeting.</p>	<p>No</p>	<p>The audit company didn't provide any non – audit services.</p>

VILNIAUS BALDAI AB

CONSOLIDATED AND COMPANY'S FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2013

(all amounts are in LTL thousand unless otherwise stated)

2 Accounting principles

The principal accounting policies adopted in preparing the Group and the Company's financial statements for the year ended 31 December 2013 are as follows:

2.1. Basis of preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards (hereinafter the IFRS), as adopted by the European Union (hereinafter the EU). The financial statements have been prepared under the historical cost convention.

The preparation of financial statements in conformity with IFRS requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2.28. Although these estimates are based on management's best knowledge of current events and actions, actual results ultimately may differ from those estimates.

New standards, amendments and interpretations

- (a) *Standards, amendments and interpretations to existing standards effective in 2013 and relevant to the Group and the Company*

IFRS 13, 'Fair value measurement' (issued in May 2011 and effective for annual periods beginning on or after 1 January 2013), aims to improve consistency and reduce complexity by providing a revised definition of fair value, and a single source of fair value measurement and disclosure requirements for use across IFRS. The standard did not have any material effect on the Group's and the Company's financial statements.

Amendments to IAS 1, 'Presentation of financial statements' (issued in June 2011 and effective for annual periods beginning on or after 1 July 2012), changes the disclosure of items presented in other comprehensive income. The amendments require entities to separate items presented in other comprehensive income into two groups, based on whether or not they may be reclassified to profit or loss in the future. The suggested title used by IAS 1 has changed to 'statement of profit or loss and other comprehensive income'. The amended standard resulted in changed presentation of the financial statements of the Group and the Company, but did not have any impact on measurement of transactions and balances.

IAS 19, 'Employee benefits' (issued in June 2011 and effective for periods beginning on or after 1 January 2013), makes significant changes to the recognition and measurement of defined benefit pension expense and termination benefits, and to the disclosures for all employee benefits. The standard requires recognition of all changes in the net defined benefit liability (asset) when they occur, as follows: (i) service cost and net interest in profit or loss; and (ii) remeasurements in other comprehensive income. The retrospective application impact was not material to these financial statements and the Group and the Company reclassified accumulated amount of these remeasurements from 'Employee benefits' to 'Other comprehensive income that will not be reclassified to profit or loss' (Note 14).

- (b) *New or revised standards and interpretations that are mandatory for the Group's and the Company's accounting periods beginning on or after 1 January 2014 and which the Group and the Company have not early adopted*

IFRS 10, Consolidated Financial Statements, (effective for annual periods beginning on or after 1 January 2014), replaces all of the guidance on control and consolidation in IAS 27 "Consolidated and separate financial statements" and SIC-12 "Consolidation - special purpose entities". The Group and the Company is currently assessing the impact of the standard on the financial statements.

IFRS 12, Disclosure of Interest in Other Entities, (effective for annual periods beginning on or after 1 January 2014), applies to entities that have an interest in a subsidiary, a joint arrangement, an associate or an unconsolidated structured entity. The Group and the Company is currently assessing the impact of the standard on the financial statements.

IAS 27, Separate Financial Statements, (revised in May 2011 and effective for annual periods beginning on or after 1 January 2014). The Group and the Company is currently assessing the impact of the standard on the financial statements.

2 Accounting principles (cont'd)

2.1. Basis of preparation (cont'd)

There are no other new or revised standards or interpretations that are not yet effective that would be expected to have a material impact on the Group and the Company.

2.2. Functional and presentation currency

Items included in the financial statements are measured using the currency of the primary economic environment in which the entity operates ('the functional currency'). The financial statements are presented in a local currency, the litas (LTL), which is the Company's functional and presentation currency.

Starting from 2 February 2002, Lithuanian litas is pegged to euro at the rate of 3.4528 litas for 1 euro, and the exchange rates in relation to other currencies are set daily by the Bank of Lithuania.

2.3. Principles of consolidation

The consolidated financial statements of the Group include Vilniaus Baldai AB and its subsidiary. The control is normally evidenced when the Group owns, either directly or indirectly, more than 50 percent of the voting rights of a company's share capital and/or is able to govern the financial and operating policies of an enterprise so as to benefit from its activities.

Subsidiaries are consolidated from the date from which effective control is transferred to the Company and cease to be consolidated from the date on which control is transferred out of the Company. All intercompany transactions, balances and unrealized gains and losses on transactions among the Group companies have been eliminated.

Consolidated financial statements are prepared on the basis of the same accounting principles applied to similar transactions and other events under similar circumstances. Financial statements of Subsidiary were prepared for the same period as that of the Company.

2.4. Intangible assets

Intangible assets are measured initially at cost. Intangible assets are recognized if it is probable that future economic benefits that are attributable to the asset will flow to the enterprise and the cost of asset can be measured reliably. After initial recognition, intangible assets are measured at cost less accumulated amortization and any accumulated impairment losses. Intangible assets are amortized on a straight-line basis over the best estimate of their useful lives.

Software

The costs of acquisition of new software are capitalized and treated as an intangible asset if these costs are not an integral part of the related hardware. Software is amortized over a period not exceeding 3 years.

Costs incurred in order to restore or maintain the future economic benefits that the Group and the Company expects from the originally assessed standard of performance of existing software systems are recognized as an expense when the restoration or maintenance work is carried out.

2 Accounting principles (cont'd)

2.5. Property, plant and equipment

Property, plant and equipment is stated at cost less accumulated depreciation and impairment losses.

When assets are sold or retired, their cost and accumulated depreciation are eliminated from the accounts and any gain or loss resulting from their disposal is included in the statement of comprehensive income.

The initial cost of property, plant and equipment comprises its purchase price, including non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the property, plant and equipment have been put into operation, such as repair and maintenance costs, are normally charged to the statement of comprehensive income in the period the costs are incurred.

Depreciation is computed on a straight-line basis over the following estimated useful lives:

Buildings	10 - 66 years
Machinery and equipment	6 - 10 years
Vehicles	5 - 10 years
Other property, plant and equipment	2 - 6 years.

The assets' residual values and useful lives are reviewed periodically to ensure that the period of depreciation is consistent with the expected pattern of economic benefits from items in property, plant and equipment.

Construction-in-progress is stated at cost. This includes the cost of construction, plant and equipment and other directly attributable costs. Construction-in-progress is not depreciated until the relevant assets are completed and available for use.

Borrowing costs directly attributable to the acquisition, construction or production of assets that necessarily take a substantial time to get ready for intended use or sale (qualifying assets) are capitalised as part of the costs of those assets.

Capitalisation of borrowing costs continues up to the date when the assets are substantially ready for their use or sale.

The Group capitalises borrowing costs that could have been avoided if it had not made capital expenditure on qualifying assets. Borrowing costs capitalised are calculated at the group's average funding cost (the weighted average interest cost is applied to the expenditures on the qualifying assets), except to the extent that funds are borrowed specifically for the purpose of obtaining a qualifying asset. Where this occurs, actual borrowing costs incurred less any investment income on the temporary investment of those borrowings are capitalised.

2.6. Financial assets

Financial assets are classified as either financial assets at fair value through profit or loss, held-to-maturity investments, loans and receivables, and available-for-sale financial assets, as appropriate. The Company determines the classification of its financial assets based on its nature and purpose at initial recognition.

Financial assets are recognised on a trade date basis where the purchase or sale process is under a contract, which terms require delivery of the financial assets within the timeframe established by the market concerned. Financial assets are recognised initially at fair value, plus, in the case of investments are not carried at fair value through profit or loss, directly attributable transaction costs.

The Group's/ Company's financial assets include cash, time deposits, trade receivables and other receivables and loans are classified in the category of loans and receivables.

The subsequent measurement of financial assets depends on their classification as follows:

2 Accounting principles (cont'd)

2.6. Financial assets (cont'd)

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortized cost using the effective interest method. Gains or losses are recognized in the statement of comprehensive income when the loans and receivables are derecognized or impaired, as well as through the amortization process. Receivables are initially recorded at the fair value of the consideration given. Current receivables are subsequently carried at cost less impairment, and non-current receivables and loans granted - at amortised cost, less impairment.

Loans and receivables are included in current assets, except for maturities greater than 12 months after the end of the reporting period. These are classified as non-current assets.

Effective interest rate method

Effective interest rate method is used to calculate amortised cost of financial assets and allocate interest income over the relevant period. The effective interest rate exactly discounts estimated future cash flows through the expected life of the financial asset.

Derecognition of financial assets

A financial asset (or, where applicable a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired;
- the Group/ Company retains the right to receive cash flows from the asset, but has assumed an obligation to pay them in full without material delay to a third party under a "pass through" arrangement; or
- the Group/ Company has transferred their rights to receive cash flows from the asset and either (a) has transferred substantially all the risks and rewards of the asset, or (b) has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

2.7. Investments into subsidiaries in the Company's separate financial statements

Investments in subsidiaries and associated companies are accounted at cost in the Company's separate financial statements. Cost of investment is decreased by impairment losses. An assessment of recoverable amount of investment is performed for each investment individually.

Impairment is determined by assessing the recoverable amount of the cash-generating unit, to which the goodwill relates. Where the recoverable amount of the cash-generating unit is less than the carrying amount in the Company's statements of financial position, an impairment loss is recognized.

2.8. Inventories

Inventories are initially recorded at acquisition cost. Subsequent to initial recognition, inventories are valued at the lower of cost or net realizable value, after impairment evaluation for obsolete and slow - moving items. Net realizable value is the selling price in the ordinary course of business, less the costs of completion and applicable variable marketing and distribution costs. Cost is determined by the first-in, first-out (FIFO) method. The cost of finished goods and work in progress includes the applicable allocation of fixed and variable overhead costs based on a normal operating capacity. Unrealizable inventory is fully written-off.

2 Accounting principles (cont'd)

2.9. Trade receivables

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as noncurrent assets.

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method, less provision for impairment.

2.10 Cash and cash equivalents

Cash includes cash on hand and cash with banks and bank overdrafts. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less and that are subject to an insignificant risk of change in value.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand, time deposits held at call with banks with original maturities of 3 months or less and other short-term highly liquid investments.

2.11. Share capital

Ordinary shares are classified as equity. Ordinary shares are stated at their par value.

2.12. Dividends distribution

Dividend distribution to the Company's shareholders is recognised as a liability in the group's financial statements in the period in which the dividends are approved by the Company's shareholders. Dividends paid are classified as financing cash flows in the statement of cash flows.

2.13. Borrowings

Borrowing costs are expensed as incurred, unless they are directly attributable to acquisition, construction or production of a qualifying asset.

Borrowings are initially recognized at fair value of proceeds received, less the costs of transaction. They are subsequently carried at amortized cost, the difference between net proceeds and redemption value being recognized in the net profit or loss over the period of the borrowings using the effective interest method.

Interest paid is classified as investing activities cash flows in the statement of cash flows.

2 Accounting principles (cont'd)

2.14. Leases

The Company and the Group are the lessees

(a) Finance lease

Leases of property, plant and equipment where the Company or the Group has substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's commencement at the lower of the fair value of the leased property and the estimated present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant interest rate on the finance balance outstanding. The corresponding rental obligations, net of finance charges, are included in long-term payables except for instalments due within 12 months which are included in current liabilities.

The property, plant and equipment acquired under finance leases is depreciated over the shorter of the asset's useful life and the lease term.

(b) Operating lease

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to the statement of comprehensive income on a straight-line basis over the period of the lease.

The Company and the Group are the lessors

(c) Operating lease

Payments received under operating leases (net of any incentives given to the lessee) are credited to the statement of comprehensive income on a straight-line basis over the period of the lease.

2.15. Trade payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers. Accounts payable are classified as current liabilities if payment is due within one year or less (or in the normal operating cycle of the business if longer). If not, they are presented as non-current liabilities.

Trade payables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest method.

2.16. Employee benefits

(a) Social security contributions

The Company and the Group pay social security contributions to the state Social Security Fund (the Fund) on behalf of its employees based on the defined contribution plan in accordance with the local legal requirements. A defined contribution is a plan under which the Company/ Group pays fixed contributions into the Fund and will have no legal or constructive obligations to pay further contributions if the Fund does not hold sufficient assets to pay all employees benefits relating to employee service in the current and prior period. Social security contributions are recognised as expenses on an accrual basis and are included in payroll expenses.

(b) Termination benefits

Termination benefits are payable whenever an employee's employment is terminated before the normal retirement date or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group or the Company recognises termination benefits when it is demonstrably committed to either: terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal; or providing termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than 12 months after balance sheet date are discounted to their present value.

(c) Bonus plans

The Company recognises a liability and an expense for bonuses where contractually obliged or where there is a past practice that has created a constructive obligation.

2 Accounting principles (cont'd)

(d) Provisions for pensions and jubilee payments

According to the terms of the collective employment agreement effective at the Company, each employee is entitled to a jubilee benefit and a pension benefit amounting to 2 or 3 months' salary payment when leaving the Company after reaching the pension age. Actuarial calculations are made to determine liability for such payments. The liability is recognised at present value discounted using market interest rate.

The Company recognises remeasurements of the pension benefit obligation in 'Other comprehensive income that will not be reclassified to profit or loss', while service cost and net interest in recognised within profit or loss. Jubilee benefits and long-service benefits are accounted for by the Company within profit or loss.

2.17. Provisions

Provisions are recognized when the Group and the Company has a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The provisions are reviewed at each statement of financial position date and adjusted in order to present the most reasonable current estimate. If the effect of the time value of money is material, the amount of provision is equal to the present value of the expenses, which are expected to be incurred to settle the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a borrowing cost.

2.18. Income tax

Income tax charge is based on profit for the year and considers deferred taxation. Income tax is calculated based on the Lithuanian tax legislation.

The income tax rate in Lithuania was 15 % in 2013 (15 % in 2012).

Since 2008 tax losses can be carried forward for indefinite period, except for the losses incurred as a result of disposal of securities and/or derivative financial instruments. Such carrying forward is disrupted if the Company changes its activities due to which these losses incurred except when the Company does not continue its activities due to reasons which do not depend on Company itself. The losses from disposal of securities and/or derivative financial instruments can be carried forward for 5 consecutive years and only be used to reduce the taxable income earned from the transactions of the same nature. Starting from 2010, tax losses can be transferred at no consideration or in exchange for certain consideration between the group companies if certain conditions are met.

Deferred taxes are calculated using the statement of financial position liability method. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Deferred tax assets and liabilities are measured using the tax rates expected to apply to taxable income in the years in which those temporary differences are expected to reverse based on tax rates enacted or substantially enacted at the statement of financial position date.

Deferred tax asset has been recognized in statement of financial position to the extent the management believes it will be realized in the foreseeable future, based on taxable profit forecasts. If it is believed that part of the deferred tax asset is not going to be realized, this part of the deferred tax asset is not recognized in the financial statements.

Investment tax credit, that arises from tax benefit amount carried forward, qualifies for the initial recognition exception. Therefore, no deferred tax asset is recognised at the time the tax credit arises, but recognition occurs as a reduction of current tax as the credit is realised.

Deferred tax assets and liabilities are offset when they are related to profit taxes levied by the same tax authority and when there is a legally enforceable right to set off current tax assets against current tax liabilities.

Income tax and deferred tax for the accounting period

Income tax and deferred income tax are charged or credited to profit or loss, except when they relate to items included directly to equity, in which case the deferred income tax is also accounted for in equity.

2 Accounting principles (cont'd)

2.19. Revenue recognition

a) Sales of goods

Revenue is recognized when it is probable that the economic benefits associated with the transaction will flow to the enterprise and the amount of the revenue can be measured reliably. Sales are recognized net of VAT and discounts.

Revenue from sales of goods is recognized when delivery has taken place and transfer of risks and rewards has been completed.

b) Interest income

Interest income is recognised using the effective interest method. When a loan and receivable is impaired, the Group and the Company reduces the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loan and receivables are recognised using the original effective interest rate. Interest income is classified as financing cash flows in the statement of cash flows.

2.20. Expense recognition

Expenses are recognized on the basis of accrual and revenue and expense matching principles in the reporting period when the income related to these expenses was earned, irrespective of the time the money was spent. In those cases when the costs incurred cannot be directly attributed to the specific income and they will not bring income during the future periods, they are expensed as incurred.

The amount of expenses is usually accounted for as the amount paid or due, excluding VAT. In the cases when a long period of payment is established and the interest is not distinguished, the amount of expenses shall be estimated by discounting the amount of payment using the market interest rate.

2.21. Foreign currencies

Foreign currency transactions are accounted for at the exchange rates prevailing at the date of the transactions. Gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies on the statement of financial position date are recognized in the statement of comprehensive income. Such balances are translated at period-end exchange rates.

2.22. Impairment of assets

Financial assets

Financial assets are reviewed for impairment at each statement of financial position date.

For financial assets carried at amortized cost, whenever it is probable that the Group and the Company will not collect all amounts due according to the contractual terms of loans or receivables, an impairment or bad debt loss is recognized in the statement of comprehensive income. A provision for impairment of trade receivables is established when there is objective evidence that the group will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired. The reversal of impairment losses previously recognized is recorded when the decrease in impairment loss can be justified by an event occurring after the write-down. Such reversal is recorded in the statement of comprehensive income. However, the increased carrying amount is only recognized to the extent it does not exceed the amortized cost that would have been had the impairment not been recognized.

2 Accounting principles (cont'd)

2.22. Impairment of assets (cont'd)

Non-financial assets

Non-financial assets are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized in the statement of comprehensive income. Reversal of impairment losses recognized in prior years is recorded when there is an indication that the impairment losses recognized for the asset no longer exist or have decreased. Reversal is accounted for in the same caption of the statement of comprehensive income as impairment losses. For evaluation of impairment of assets the entire Group is considered one cash generating unit.

2.23. Segment information

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of directors that makes strategic decisions.

2.24. Related parties

Related parties are defined as shareholders, employees, members of the Board, their close relatives and companies that directly or indirectly (through the intermediary) control or are controlled by, or are under common control with, the Group and the Company, provided the listed relationship empowers one of the parties to exercise the control or significant influence over the other party in making financial and operating decisions.

2.25. Contingencies

Contingent liabilities are not recognized in the financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

A contingent asset is not recognized in the financial statements but disclosed when an inflow or economic benefits is probable.

2.26. Subsequent events

Post-statement of financial position events that provide additional information about the Group's and the Company's position at the statement of financial position date (adjusting events) are reflected in the financial statements. Post-statement of financial position events that are not adjusting events are disclosed in the notes when material.

2.27. Offsetting and comparative figures

When preparing the financial statements, revenue and expenses are not set off, except the cases when certain IFRS specifically require such set-off. Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

Where necessary, comparative figures have been reclassified to conform with changes in the current year presentation (Note 14).

2 Accounting principles (cont'd)

2.28. Use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with IFRS requires management to make estimates and assumptions that affect the reported amounts of assets, liabilities, income and expenses and disclosure of contingencies, at the reporting date and within the next financial year. Estimates and judgements are continually evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances.

Management also makes certain judgements, apart from those involving estimations, in the process of applying the accounting policies. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

Estimates and assumptions

The main areas where management is required to make significant and critical judgements and areas where estimates and assumptions might have significant impact for the preparation of financial statements are described below:

Property, plant and equipment – useful life

The key assumptions concerning determination the useful life of property, plant and equipment are as follows: expected usage term of the asset, expected technical or commercial obsolescence arising from changes or improvements in the production on legal or similar limits on the use of the asset, such as the expiry dates of related leases. Further details are given in Note 2.5.

Tax liabilities

The tax authorities have a right to examine the Company's books and accounting records at any time during the 5 years' period after the current tax year and account for additional taxes and fines. In the opinion of the Company's management currently there are no circumstances which would raise substantial liability in this respect.

Related-party transactions

In the normal course of business the Company enters into transactions with its related parties. These transactions are priced predominantly at market rates. Judgement is applied in determining if transactions are priced at market or non-market interest rates, where there is no active market for such transactions. The basis for judgement is pricing for similar types of transactions with unrelated parties.

Pension and jubilee benefits

Key assumptions used in determining the provision for pension and jubilee benefits are as follows: employee turnover rate by age group, discount rate, and wage and salary growth. The Company's management makes judgements in relation to these assumptions. See Note 14 for more details.

3 Segment information

Management of the Company has determined the operating segments based on the reports reviewed by the board of directors that are used to make strategic decisions.

The board of directors considers the business from both a geographic and product perspective to certain extent. Geographically, management considers sales volume to Lithuania, the European Union countries and the rest of the world depending on where the production is delivered. From product perspective management considers only the product quantities delivered by product type. All financial information, including the measure of profit and total assets, is analysed as single reportable segment – furniture production and trade, therefore is not further disclosed in these financial statements.

2016	-	50	-	50
2017	-	59	-	59
	-	5,827	-	5,827

Actual interest rates are close to the effective interest rates. As of 31 December 2013 the weighted average annual interest rate on outstanding balances of the Group's and the Company's borrowings was 1.28 % (3.13 % as of 31 December 2012). In 2013 and 2012, the period of repricing variable interest rates on borrowings was 3 and 6 months.

The fair value of current borrowings approximates their carrying amount as the impact of discounting is not material. The Company's management did not measure the fair value of non-current borrowings as the difference between the carrying amount and the fair value would be immaterial.

Weighted average interest rates of borrowings outstanding at the year-end:

VILNIAUS BALDAI AB**CONSOLIDATED AND COMPANY'S FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2013**
(all amounts are in LTL thousand unless otherwise stated)**14 Provisions for employee benefits (cont'd)**

Provision for pension and jubilee benefits comprises amounts calculated in line with the collective employment agreement effective at the Company. Each employee is entitled to a jubilee benefit and a pension benefit amounting to 2 or 3 months' salary payments on leaving the Company after reaching the retirement age. Key assumptions used in determining the provision for pension and jubilee benefits are as follows: employee turnover rate by age group, discount rate, and wage and salary growth.

The main actuarial assumptions used for the calculation of provisions for pension and jubilee benefits were as follows:

	<u>2013</u>	<u>2012</u>
Discount rate	5 %	6,5 %
Salary growth rate	3 %	3 %
Rate of employee turnover by age group:		
younger than 25 years	30 – 50 %	30 – 50 %
from 25 to 45 years	10 – 25 %	10 – 25 %
from 45 to 59 years	10 %	10 %
from 59 to 75 years	0 %	0 %

The following table demonstrates the sensitivity of the Group's and the Company's pre-tax profit and comprehensive income to possible changes in actuarial assumptions with all other variables held constant:

	<u>Increase / decrease, %</u>	<u>Impact on pre-tax profit and comprehensive income</u>
2013		
Discount rate	+0.5%	(51)
Salary growth rate	+0.5%	55
Discount rate	-0.5%	55
Salary growth rate	-0.5%	(51)

Taking into account the amendments to IAS 19, 'Presentation of financial statements' which resulted in significant changes in the disclosure requirements for remeasurements of provisions for pension benefits, the Group and the Company adjusted the amounts relating to 2012 reported in profit or loss and comprehensive income and restated earnings per share.

The movement in the provision for pension benefits is as follows:

	<u>2013</u>	<u>2012</u>
At 1 January	687	467
Current service cost and interest expense	81	84
Payments	(24)	(25)
Remeasurements of pension benefits	(58)	161

In 2013, the Group and the Company implemented the investment project by allocating new property, plant and equipment intended for the increase of output and labour productivity, expansion of the range of goods produced with new products and major change of the manufacturing process. The investment project covered investments of LTL 14,511 thousand related to the acquisition and installation of new production technological lines intended for the modernisation of existing production technological lines. The Group and the Company reduced taxable income for 2013 by the investment tax credit of LTL 8,119 thousand (the unused tax deductible benefit amount carried forward amounted to LTL 6,392 thousand).

Income tax expense disclosed in the statement of comprehensive income may be reconciled to income tax expense that would arise using an enacted income tax rate applicable to profit before income tax.

22 Earnings per share

Basic and diluted earnings per share are calculated by dividing the net profit attributable to shareholders by the weighted average number of ordinary shares in issue during the year.

	Group	
	2013	2012
Net profit for the year	14,311	26,996
Weighted average number of shares in issue (thousand)	3,886	3,886
Basic earnings per share (in LTL)	3.68	6.95

Taking into account the amendments to IAS 19, 'Presentation of financial statements' which resulted in significant changes in the disclosure requirements for items of profit or loss and other comprehensive income, the Group and the Company reclassified the amounts relating to 2012 reported in profit or loss and other comprehensive income and accordingly restated earnings per share (Note 14).

As there were no changes in the share capital of the Company during 2013 and 2012, therefore the weighted average number of shares equals to the total number of shares.

23 Financial assets and liabilities and risk management (cont'd)Credit risk

The Group and the Company has significant concentration of trading counterparties. The main customer of the Group and the Company – IKEA Supply AG – as of 31 December 2013 accounts for approximately 96 % of the total Group's and Company's trade receivables (as of 31 December 2012 approximately 99 %). Also the major part of the Company's sales is with this customer (Note 16).

The Group and the Company do not guarantee obligations of other parties. The maximum exposure to credit risk is represented by the carrying amount of each financial asset in the statement of financial position. Consequently, the Management of the Group and the Company considers that its maximum exposure is reflected by the amount of trade receivables, net of allowance for doubtful accounts recognised at the statement of financial position date.

With respect to trade receivables and other receivables that are neither impaired nor past due, there are no indications as of the reporting date that the debtors will not meet their payments obligations since receivables balances are monitored on an ongoing basis.

The maximum exposure to credit risk of Group's and Company's cash and cash equivalents and term deposits is equal to fair value of cash and cash equivalents and term deposits at the date of financial position statements preparation. The management of the Group and the Company considers that risk arising from investments of cash and cash equivalents into short term financial instruments are not significant, as investments are made only in commercial banks in Lithuania which have high credit ratings.

Foreign exchange risk

Major currency risks of the Group and the Company occur due to the fact that the Group and the Company borrows foreign currency denominated funds as well as is being involved in imports and exports. The Group's and the Company's policy is to match cash flows arising from highly probable future sales and purchases in each foreign currency. The Group and the Company does not use any financial instruments to manage its exposure to foreign exchange risk other than aiming to borrow in EUR, to which LTL is pegged.

Monetary assets and liabilities stated in various currencies as of 31 December 2013 were as follows (stated in LTL):

	Group		Company

Interest rate risk

The major part of the Group's and the Company's borrowings is with variable interest rates, related to EURIBOR, which creates an interest rate risk. There are no financial instruments designated to manage the exposure to fluctuation in interest rates outstanding as of 31 December 2013 and 2012.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the Group's and the Company's profit before tax (through the impact on floating rate borrowings). There is no impact on the Group's and the Company's equity except for the impact of the current portion of net income.

Fair value of financial instruments

The Group's and the Company's principal financial instruments accounted for at amortised cost are trade and other current and non-current receivables, trade and other payables, long-term and short-term borrowings. The net book value of these amounts approximates their fair value.

Fair value is defined as the amount at which the instrument could be exchanged between knowledgeable willing parties in an arm's length transaction, other than in forced or liquidation sale. Fair values are obtained from quoted market prices, discounted cash flow models and option pricing models as appropriate.

VILNIAUS BALDAI AB**CONSOLIDATED AND COMPANY'S FINANCIAL STATEMENTS FOR THE YEAR ENDED 31 DECEMBER 2013**

(all amounts are in LTL thousand unless otherwise stated)

23 Financial assets and liabilities and risk management (cont'd)

The following methods and assumptions are used to estimate the fair value of each class of financial instruments:

- The carrying amount of current trade accounts receivable, current trade accounts payable, other receivables and other payables and short-term borrowings approximates fair value.
- The fair value of non-current debt is based on the quoted market price for the same or similar issues or on the current rates available for debt with the same maturity profile. The fair value of non-current borrowings with variable interest rates approximates their carrying amounts.

Credit quality of financial assets

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to historical information about counterparty default rates:

	Group		Company	
	Category - Loans and receivables		Category - Loans and receivables	
	2013	2012	2013	2012
Trade and other receivables with no history of counterparty defaults	11,604	10,015	11,566	9,975

Total	13,686	34,563	13,628	34,469

* Credit rate A provided by Fitch Ratings Agency

The Group and the Company held cash and make investments only in the short term financial instruments of commercial banks in Lithuania with high credit ratings.

24 Capital management

The Group's and the Company's capital includes share capital, legal reserves and retained earnings. The primary objective of the capital management is to ensure that the Group and the Company comply with externally imposed capital requirements.

The Group and the Company manage their capital structure and make adjustments to it in the light of changes in economic conditions and the risk characteristics of its activities. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes during the year end 31 December 2013.

The Company is obliged to keep its equity at no less than 50 % of its share capital, as imposed by the Law on Companies of the Republic of Lithuania.

The Group and the Company have externally imposed capital requirements from the banks. The following requirements are imposed to secure the repayment of bank borrowings and settlement of finance lease obligations:

- ratio of equity (less amounts payable to Invalda AB) to total assets (less amounts payable to Invalda AB) should not be lower than 0.50;
- ratio of financial liabilities to equity (less amounts payable to Invalda AB) should not be higher than 0.65;
- ratio of net debt to EBITDA should not be higher than 1.5 for the past 12 months.

The management monitors that the Company is in line with the both above mentioned capital requirements. No other capital management instruments are used.
