Quarterly report Q1 2014

As at 24 April 2013, Solar A/S sold the subsidiary Aurora Group Danmark A/S. Hence, the stated figures for 2013 and 2014 in this announcement relate to the continuing activities.

The Solar Group's Q1 2014 revenue and EBITA matched our expectations. We maintain our expectations for revenue and EBITA for 2014.

CEO Anders Wilhjelm says:

"Most of our enterprises generated positive organic growth in the first quarter except the enterprises in Denmark and the Netherlands, and we maintain our financial expectations for the year. We continue to focus on improving operations and increasing customer focus."

| Select financial highlights | | €million ~ DKK million | | n | | |
|-------------------------------|------------|------------------------|--------------|------------|------------|--------------|
| | Q1 2014 | Q1 2 013 | Year 2013 | Q1 2014 | Q1 2013 | Year 2013 |
| Revenue | 378.4 | 375.5 | 1,531.5 | 2,824 | 2,801 | 11,422 |
| EBITA | 2.9 | -3.9 | 21.7 | 22 | -29 | 162 |

| Cash flow from operating act. | -21.5 | -31.6 | 35.1 | -160 | -236 | 262 |
| Select key figures | | % | | | % | |
| Organic growth | 3.9 | -10.5 | -5.9 | 3.9 | -10.5 | -5.9 |
| EBITA margin | 0.8 | -1.0 | 1.4 | 0.8 | -1.0 | 1.4 |
| Net working capital/revenue* | 13.0 | 14.1 | 13.5 | 13.0 | 14.1 | 13.5 |

^{*} Calculated as an average of the last four quarters' inventories, debtors and creditors.

Revenue in Q1 2014:

- Group revenue matched our expectations.
- Adjusted for the number of working days, organic growth in Q1 2014 was 2.3%.

EBITA in Q1 2014:

- Group EBITA matched our expectations.
- In Q1 2014, a €-0.4m adjustment was made to the variable part of the selling price of Aurora Group. This amount was recognised under other operating income and costs.
- In addition, EBITA was as expected negatively affected by Solar 8000 costs of € 0.7m against € 0.9m in Q1 2013.
- In Q1 2014, no restructuring costs were recognised, whereas Q1 2013 EBITA was affected by restructuring costs of €4.2m.

Net working capital:

- Net working capital was reduced to 12.7% of revenue, down from 13.7% in Q1 2013.
 When stated as an average of four quarters, net working capital was reduced to 13.0% of revenue from 14.1% in Q1 2013.
- Efforts to reduce net working capital will continue. Stated as an average of four quarters, our target for 2014 is to get net working capital to 13% of revenue. Moreover, we expect net working capital of 11% of revenue at year-end 2014.

Expectations for 2014:

- For 2014, we still expect revenue of €1,465-1,510m and EBITA of €25-32m.
- Expectations for 2014 EBITA include restructuring costs and Solar 8000 implementation costs totalling approximately € 3m. Adjusted for these, normalised EBITA is expected at €28-35m.
- The lower expectation levels equal negative growth of approximately 2.5%, while the upper levels equal positive growth of approximately 0.5%.
- We will continuously implement improvement measures in several group enterprises to adjust cost levels to the current market situation as a result of our expectations for continued low market growth.
- We still expect to roll out SAP in Solar Sverige in Q2 2014.

Q1 presentation - audio webcast and teleconference today

The presentation of Quarterly Report Q1 2014 will be transmitted online in English from NASDAQ OMX Copenhagen today at 11.00 CET and will be accessible via www.solar.eu. It will be possible to participate via teleconference – see phone numbers below:

OUTLINE

Most of Solar's enterprises generated positive growth in Q1 2014. The group's Q1 revenue and EBITA matched our expectations.

Our expectations for 2014 remain revenue at \in 1,465-1,510m and EBITA at \in 25-32m.

Net working capital was reduced to 12.7% of revenue, down from 13.7% in Q1 2013. Moreover, net working capital was reduced to 13.1% of revenue, down from 13.0% in Q1 2013, when stated as an average of the past four quarters.

Financial ratios are calculated in accordance with the Danish Society of Financial Analysts' "Recommendations & Financial Ratios 2010".

In general, restatements have been made of 2013 income statements, cash flows and key ratios to compensate for the divestment of Aurora Group Danmark A/S. In accordance with IFRS recommendations the balance sheet has not been restated.

Management's review Financial review

Most of Solar's enterprises generated positive growth in Q1 2014 except those in Denmark and the Netherlands.

An unfavourable customer and product mix had a negative impact on gross profit, but we still managed to improve the group's EBITA by \in 6.8m from the Q1 2013 level, mainly due to cost and bad debt reductions.

Revenue

Revenue from continuing activities was up at € 378.4m from € 375.5m in Q1 2013. Organic growth was 3.9% but saw a positive impact from the placement of Easter compared to Q1 2013. Organic growth was 2.3% in Q1 2014 when adjusted for number of working days.

Revenue matched our expectations.

EBITA

EBITA from continuing activities was up at € 2.9m, or 0.8% of revenue, from € -3.9m, i.e. -1.0% of revenue in Q1 2013.

Gross profit was under pressure in several markets due to our customer and product mix. Consequently, group-level gross profit dropped to 20.9% from 21.5% in Q1 2013.

In Q1 2013, staff costs adjusted for restructuring costs totalled 14.9% of revenue. Actually, staff costs dropped to 14.2% of revenue in Q1 2014 owing to restructuring measures implemented in Q1 2013.

Bad debts dropped to 0.3% of revenue from 0.5% in Q1 2013.

In Q1 2014, a \in -0.4m adjustment was made to the variable part of the selling price of Aurora Group. This amount was recognised under other operating income and costs.

In addition, Q1 2014 EBITA was affected by Solar 8000 costs of \in 0.7m. In Q1 2013, EBITA saw the effect of restructuring and Solar 8000 costs of \in 4.2m and \in 0.9m, respectively.

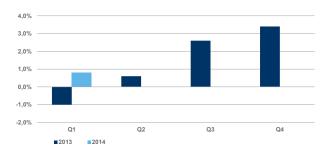

Normalised EBITA amounted to \in 4.0m in Q1 2014, up from \in 1.2m in Q1 2013.

EBITA matched our expectations.

FINANCIAL REVIEW Quarterly report Q1 2014 5

EBT, income tax and net profit or loss for the period

EBT from continuing activities was improved by \in 6.8m and totalled \in -1.0m, up from \in -7.8m in Q1 2013.

In Q1 2014, income tax amounted to an expense of \in 0.5m. A change in deferred tax assets in the Netherlands resulted in income tax for Q1 2013 representing income of \in 1.0m.

Net profit or loss for the period for continuing activities totalled \in -1.5m, up from \in -6.8m in Q1 2013.

Investments

In Q1 2014, \in 0.7m were invested in Solar 8000 (SAP) and this brings total investments so far to \in 53.5m. We expect overall investments in Solar 8000 of approximately \in 54m, and by the end of Q1 2014, a total of \in 36.2m of this had been capitalised with \in 14.5m amortised.

Net investments in property, plant and equipment totalled \in 2.1m in Q1 2014.

Cash flows

Net working capital totalled € 194.8m, down from € 249.7m in Q1 2013 when Aurora Group was recognised with € 13.7m.

Net working capital was reduced to 12.7% of revenue, down from 13.7% in Q1 2013. When stated as an average of four quarters, net working capital was reduced to 13.0% of revenue from 14.1% in Q1 2013.

In Q1 2014, trade receivables were reduced due to revenue growth and Easter's occurrence in Q2, unlike 2013 when most of Easter was in Q1.

Development in trade payables in the quarter was affected by the fact that Solar Danmark had temporarily been allowed extended credit from some of the enterprise's suppliers in connection with the Solar 8000 roll-out. The resulting effect was estimated at approximately \in 4.0m at year-end 2013.

Consequently, cash flow from operating activities totalled \in -21.5m, up from \in -31.6m in Q1 2013.

Cash flow from investing activities amounted to € -2.7m against € -3.3m in Q1 2013, while cash flow from financing activities remained unchanged at € -2.4m.

Overall, cash flow from continuing activities totalled € -26.6m against € -37.3m in Q1 2013.

Net interest-bearing debt was down € 44.7m compared to Q1 2013. This meant a drop in gearing to 1.5 from 3.3 times EBITDA at the end of Q1 2013.

As at 31 March 2014, Solar had unutilised credit facilities worth € 87.5m. Solar's agreement with its main bankers is not subject to any covenants.

Events after the end of the accounting period

In April, Solar Group distributed dividend of € 12.6m, equalling € 1.61 (DKK 12.00) per share.

As planned, Flemming H. Tomdrup left Solar at the end of April, and Anders Wilhjelm took over the role as CEO as of 1 May.

Jakob Thyregod took up the position as Corporate HR Director as at 1 April.

Anders Koppel joined Solar Sverige as new CED on 1 April.

GFI Gesellschaft für Installationstechnik mbH and GFI Elektro GmbH were integrated into Solar Deutschland GmbH as of 1 April.

Key risks

Solar's Annual Report 2013 details the commercial and financial risks related to our activities. The key risks remain that Solar, like other international companies, is affected by both global trends and local conditions in the markets where we operate.

Management's review Markets

Solar saw positive growth in Q1, partly because the quarter held more working days and partly due to a mild winter which moved the spring season up. We find that the group maintained its market position.

Several enterprises are working to implement more improvements to adjust costs to the still challenging market conditions.

In Denmark construction activities remain at a low level. The extent of new construction projects initiated dropped to the lowest level in many years with both construction of housing and commercial property at historically low levels. However, industry is showing more promise but this is only a small part of our business.

Following the successful Solar 8000 implementation, the Danish organisation is now focused on its customers and on continuing to reduce the complexity of their business.

In Sweden we are seeing market growth while focusing on a profitable development of our business. We are currently seeing a shift in the customer mix towards large customers.

In Q1, Sweden had great internal expenses in relation to the Solar 8000 implementation preparations. Moreover, management is dedicating considerable focus and commitment to ensure a successful go-live. This trend will continue until after the implementation and subsequent stabilisation period.

Anders Koppel joined Solar Sverige as their new CED as of 1 April 2014.

In Norway we saw positive market growth and Solar performed just as well if not better, among other things, due to contracts made in 2013. At the same time, Solar strengthened earnings compared to Q1 2013.

Boasting customers in the contractor trade, industry, infrastructure and utilities, the Norwegian business is widespread.

In the Netherlands the market was flat compared to 2013, confirming our belief that the market is on its way to a stabilisation. We are seeing improved consumer confidence and an upward trend in the sale of houses, however up from a very low level.

The Dutch organisation continues to focus on stabilising its business and creating the basis for future profitable growth.

Other markets - see tables.

Quarterly report Q1 2014

Management's review Expectations 2014

Market expectations

Although winter was mild this year, the Danish market saw negative growth in Q1 2014. New construction remains at a very low level – especially within housing. Overall, we expect moderately negative organic growth for Solar in 2014, even if we are still seeing a high number of requests for projects.

The Swedish market grew in Q1 2014. We expect this trend to continue for the remainder of the year and to apply to Solar as well.

In the Norwegian market, we expect growth to decline in 2014, partly due to a decrease in housing investments. For 2014 on the whole, we see market growth around zero, while we expect Solar to generate positive growth.

In the Netherlands, we are seeing budding optimism for the second half of 2014. In the first half of 2014, we only expect a stable to slightly decreasing market, while the second half-year is shaping up to a stable to slightly positive market. Overall, we expect Solar to generate slight negative organic growth in 2014.

As anticipated, trends in the German market were positive. In our opinion, this market has stabilised, and market trends for the year 2014 will continue to be positive. We also expect Solar to generate positive growth.

On the whole, we expect growth of around nil in the remaining markets.

Business expectations

The business areas renewable energy, lighting, energy supply and infrastructure as well as security are all expected to generate positive growth rates. More traditional and major areas related to new construction, such as installation equipment and cables, will generate negative growth.

The market for energy optimisation of existing buildings, including lighting projects, and renovations and upgrades of public buildings in particular, is still expected to show positive growth.

Financial expectations

For 2014, we still expect revenue of \in 1,465-1,510m and EBITA of \in 25-32m.

Expectations for 2014 EBITA include restructuring costs and Solar 8000 implementation costs totalling approximately \in 3m. Adjusted for these, normalised EBITA is expected at \in 28-35m.

The lower expectation levels equal negative growth of approximately 2.5%, while the upper levels equal positive growth of approximately 0.5%.

We will continuously implement improvement measures in several group enterprises to adjust cost levels to the current market situation as a result of our expectations for continued low market growth.

Improving profitability, the conclusion of our Solar 8000 project with the implementation in Sweden in Q2 2014, and improved operations and more customer focus will take centre stage.

Also, efforts to reduce net working capital will continue. Stated as an average of four quarters, our target for 2014 is to get net working capital to 13% of revenue. Moreover, we expect net working capital of 11% of revenue at year-end 2014.

Management's review Shareholder information

Solar's shares

Solar's share capital is divided into nominally € 12.1 million A shares and nominally € 94.1 million B shares.

The A shares are not listed. The B shares are listed on NASDAQ OMX Copenhagen under the ID code DK0010274844 with the short designation SOLAR B and form part of the MidCap index and MidCap on NASDAQ OMX Nordic.

Share capital includes 900,000 A shares and 7,020,607 B shares.

A shares have 10 votes per share amount of DKK 100, while B shares have 1 vote for each share amount of DKK 100.

The following shareholders had registered ownership shares or voting rights of 5% or more of the total share capital as at 31 March 2014:

Shares

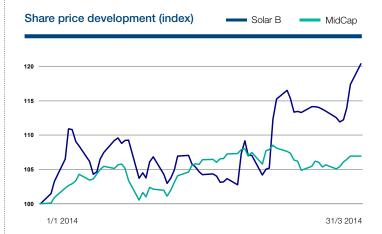

| The Fund of 20th December, Kolding | 15.6% |

Definitions

Organic growth: Revenue growth adjusted for enterprises acquired and disposed of and any exchange rate changes. No adjustments have

been made for number of working days.

Net working capital: Inventories and trade receivables less trade payables.

Gearing: Interest-bearing liabilities, net, relative to EBITDA. EBITDA has not been adjusted for enterprises and operations acquired.

ROIC: Return on invested capital calculated on the basis of operating profit or loss before special items less calculated tax.

Financial ratios are calculated in accordance with the Danish Society of Financial Analysts' "Recommendations & Financial Ratios 2010".

In general, restatements have been made of the 2012 and 2013 income statements, cash flows and key ratios to compensate for the divestment of Aurora Group Danmark A/S. In accordance with IFRS recommendations the balance sheet has not been restated.

Each share option entitles the holder to purchase one Solar B share.

Both plans make it possible to make payment as a cash settlement.

The liability in relation to share options is recognised in the balance sheet under other payables.

^{*} As at 31 March 2013, 8,717 share options from the 2009 granting remained outstanding. The exercise period for these was prolonged, and the options were exercised in Q2 2013. Share price at the exercise date was DKK 281.88.

^{**} In Q1 2014, 7,541 share options were exercised. Share price at the exercise date was DKK 380.64. The exercise period for the 9,370 share options that remain from the 2010 granting has been prolonged.

Quarterly report Q1 2014

Consolidated

Accounting policies

Accounting policies

The quarterly report for Solar A/S has been prepared in accordance with IAS 34 "Presentation of interim reports" as approved by the EU and additional Danish disclosure requirements for quarterly reports of listed companies.

Apart from the effect of new IAS/IFRS standards implemented during the period, accounting policies remain unchanged from Annual Report 2013, which holds a full description of these on pages 49-55.

Key items in the accounts are based on annual contracts etc. A prudent assessment of the current year's activities was undertaken during the preparation of the quarterly report.

In the quarterly report, income tax has been calculated on the basis of pre-tax profits at the expected average tax rate. No calculations of taxable income for the period have been made.

New accounting standards implemented during the period

On 1 January 2014, Solar implemented IFRS 10-12 on consolidated financial statements, joint arrangements and disclosure of interests in other entities. Also, we have implemented new interpretations on existing standards. These changes have no impact on Solar.

New accounting standards to be implemented in coming accounting periods

For information on new accounting standards, reference is made to note 31 on page 85 in Annual Report 2013. No new or amended standards have been issued in 2014 other than those stated in the annual report.

On audit

The quarterly report has not been audited or reviewed.

Management's statement

The group's supervisory and executive boards have discussed and approved the Q1 2014 quarterly report of Solar A/S today.

The quarterly report, which has not been audited or reviewed by the company's auditor, is presented in accordance with IAS 34 "Interim Financial Reporting" as approved by the EU and additional Danish disclosure requirements for quarterly reports of listed companies.

In our opinion, the quarterly report gives a fair presentation of the group's assets, equity and liabilities and financial position as at 31 March 2014 as well as of the results of the group's activities and cash flow for Q1 2014.

Further, in our opinion, the management's review gives a true and fair statement of the development of the group's activities and financial situation, net profit or loss for the period and of the group's overall financial position. It describes the most significant risks and uncertainties pertaining to the group.
