(1) General information on the Company

AS "Siguldas ciltslietu un mākslīgās apsēklošanas stacija" (hereinafter - the Company) was registered in the Register of Enterprises of the Republic of Latvia on 26 July 1991 and was reregistered in the Commercial Register of the Republic of Latvia on 19 June 2004.

The Company's basic activities are agriculture and the types of business are as follows:

- Production and sale of agricultural products high-quality breeding animals semen,
- making of milk analyses,
- evaluation of cow exterior.
- artificial insemination of cows,
- milk recording data processing,
- animals breeding organization.

(2) Significant accounting principles

Underlying principles of preparation of the Financial Statements

The Company's Financial Statements have been prepared according to the Law *On Annual Reports* of the Republic of Latvia. The Profit or Loss Account was prepared based on the period costs method. The Cash Flow Statement was prepared according to the direct method.

Accounting principles used

The items of the Financial Statements have been evaluated according to the following accounting principles:

- It is assumed that the Company will be a going concern;
- The same evaluation methods have been used, which were used in the previous year;
- Evaluation was done with sufficient prudence:
 - The Financial Statements include solely the profit gained until the balance sheet date,
 - All expected risk amounts and losses have been taken into account, which occurred during the reporting
 year or in previous years, also if they were known during a certain period of time between the balance
 sheets date and the day of preparing the Financial Statements,
 - All value decreasing and depreciation amounts have been taken into account irrespective whether the reporting year was closed with profit or loss;
- reporting year related income and costs were recognized irrespective of the payment date and the date of receipt or issuance of invoice. Costs have been agreed with the income in the reporting period;
- components of asset and liabilities items have been recognized separately;
- the opening balance of the reporting year agrees with the closing balance of the previous year;
- all items have been recognized, which materially influence assessment or decision-making process of the users of the annual report, insignificant items are merged and they are detailed in the Appendix;
- operating transactions in the reporting year have been recognized in the Financial Statements by taking into account their economic substance and contents, rather than legal form.

Financial instruments

Fair value of financial assets and liabilities

Fair value of financial assets and liabilities reflect the amount, for which it is possible to exchange assets or perform liabilities in a deal between well informed, interested and financially independent persons. If in the Company's management opinion, fair value of financial assets and liabilities materially differs from the value recognized in the balance sheet, then the fair value of these assets and liabilities is recognized in the Notes to the Financial Statements.

Financial risks management

Credit risk

The Company's management has developed credit policy, which is constantly controlled. Client evaluation is done for all customers above a fixed amount. The Company cooperates with clients who have proper credit assessment.

Currency risk

Based on the current structure of Company's financial assets and liabilities held in foreign currencies, the currency risk is not material.

Reporting period

The reporting period is 3 months from 1 January to 31 March 2014.

Revaluation of foreign currencies

The Company's functional currency and the currency used in the Financial Statements is euro (EUR) – the sole legal mean of payment in the Republic of Latvia since January 1, 2014. All transactions in foreign currencies are converted into euro according to the euro foreign exchange reference rate published by the European Central Bank on the day of particular transaction being performed.

All showings of the year 2013 have been converted into euro according to the fixed foreign exchange rate for converting lats into euro (1 EUR = 0.702804 LVL) determined by the Council of the European Union.

Monetary assets and liabilities, which are shown in foreign currencies, are converted into euro according to the fixed euro foreign exchange reference rate published by the European Central Bank on the last day of the reporting period.

	31.03.2014	31.03.2013
USD	1.37880	1.28484

Currency exchange rate differences arising from settlements in currencies or when recognizing assets and liabilities by using currency exchange rates, which differ from the initial currency exchange rates used for accounting of transactions, are recognized in the profit or loss account in net value.

Recognition of income

Income is recognized according to the conviction about the Company's possibility to gain economic benefit and in the amount, in which it is possible to state it, less value added tax and sales-related discounts. When recognizing income, also the following provisions are taken into account.

Sale of goods

Income is recognized when the Company has transferred to the purchaser major risks and indemnities related to the title of goods.

Provision of services

Income from services is recognized in the period when the services are provided.

Penalty and delay charges

Income from penalty and delay charges is recognized at the moment of their receipt.

Interest

Income is recognized according to the respective period of time.

Long-term and short-term items

Long-term items include amounts whose receipt, payments or write-off terms are due later after the end of the respective reporting year. Amounts, which are receivable, payable or written off during the year, are recognized in short-term items.

Leasing transactions

Financial leasing

In cases when fixed assets are purchased on the conditions of financial leasing and the related risks and return are taken over, these fixed assets are recognized in the value, for which they could be purchased with immediate payment. Leasing interest payments and similar payments are included in the profit or loss account of that period when they occurred.

Intangible assets and fixed assets

In the balance sheet, all intangible assets and fixed assets are reflected at their purchase prices, less depreciation. Depreciation is calculated from the first date of the next month after their commissioning and finished on the first date of the subsequent month after it is excluded from fixed assets. Depreciation is calculated according to the straight line method and is written off during the useful life time of respective fixed assets by choosing the following annual depreciation rates as fixed by the management:

Intangible assets:

Licenses 5 years

Fixed assets:

Buildings and constructions

10, 20, 25, 40 and 59 years

Equipment and machinery

5, 6 and 7 years

Computer hardware and communication
equipment

Inventory and tools

3 and 5 years

Other fixed assets

2 and 3 years

Balances of fixed assets have been counted in the annual count of fixed assets.

Investment properties

Investment properties – land in possession of the stock company, which market value is expected to grow. Investment properties have been filed according to their purchase value. No later than on the end of the year of account the investments properties are being revalued according to their real market value considering any other activities related to particular property. Any changes in the market value of the investments properties are being shown in the profit and loss account.

Biological assets

Biological assets are assets, which are characterized by regeneration and changes in value as a result of growth. The Company in biological assets includes breeding animals – bulls, which are kept for getting agricultural products for sale. Biological assets are recognized in the purchase value.

Stock

Stock is recognized in the lowest cost or net sales value. All stock is assessed by using the average weighted method.

Net sales value is the sales price of stock fixed during normal Company's operations, less the stock completion and selling costs. In cases when the stock net selling value is lower than their cost price, provisions are made for these stocks for decrease of their value down to the net sales value.

All direct costs, which are related to production of breeding animals - bull semen, during the year are booked in the profit or loss account and are adjusted at the end of the year when evaluating stocks according to the lowest sales value or cost price and including them in stocks as "Ready-made goods and goods for sale".

Trade receivables and other receivables

Receivables are recognized in the balance sheet in the amortized value, less provisions for doubtful and bad debts. Provisions for doubtful and bad debts are made in cases when there is objective evidence to the fact that the Company will not be able to receive the debts in full value according to the initially fixed repayment dates. Provisions for doubtful and bad debts are the difference between the amortized purchase value of receivables and the recoverable value. The recoverable value of receivables is the current value of planned cash flow.

Provisions

Provisions are recognized when the Company has liabilities (legal or substantial) due to some past event and there is a probability that the performance of these liabilities will require outflow of economic resources from the Company, and the amount of liabilities can be fairly assessed.

Corporate income tax

Corporate income tax for the reporting period consists of the tax calculated for the reporting period and deferred tax. Corporate income tax is recognized in the profit or loss account.

Calculated tax

The tax calculated for the reporting period has been calculated in compliance with the requirements of the Law "On Corporate Income Tax" by fixing the taxable income and applying the statutory rate of 15%.

Deferred tax

Deferred corporate income tax is calculated for temporary time differences, which are caused due to differences in the value of assets and liabilities in the financial statements (book-keeping) and its value for tax purposes. The mentioned differences are mainly due to different fixed assets depreciation rates applied in tax and financial accounting, provisions made and losses transferred according to the Company's income tax declaration. Deferred tax is calculated by applying the statutory tax rate 15%.

Subsidies

Amounts, which are received as a state support for agricultural, i.e., for covering of expenses for maintaining high-quality breed bulls, are included in the income of that reporting period when they are received.

Use of assumptions

When preparing the financial statements, the Company's management has to make calculations and assumptions, which impact recognition of assets and liabilities included in the financial statements as at the day of preparing the financial statements, as well as the income and expenses recognized in the specific reporting period. Management has made profit or loss assessment and considers that the financial statements reflect the true financial condition based on all currently available information.

(3) Net sales

Sales include income gained during the year from the Company's basic activities – sales of products and provision of services without value added tax and less discounts.

(22) Share capital

The Company's shares are quoted on NASDAQ OMX Riga Stock Exchange's second listing. The Company's share capital consists of shareholders' investments. The total number of shares is 422 440, the nominal value per share is 1 Lat (1.42 euro).

	2014 EUR	2013 EUR
Ordinary common shares with voting rights	599 655	599 655
Shares owned by the Board without voting rights	1 423	1 423
	601 078	601 078

421440 shares or 99.8% of the share capital are bearer shares, which give equal rights to receive dividends, receipt of liquidation quota and voting rights in the Shareholders' Meeting.

1000 shares or 0.2% of the share capital, which are not included in the regulated market, are personnel registered shares, which may be obtained only by Members of the Board, and they give equal rights only to receipt of dividend and liquidation quota.

There are no share alienation restrictions, nor the necessity to receive the Company's or other shareholders' consent for alienation of shares.

There are no restrictions on voting rights, nor any other similar restrictions.

Profit per share

Profit per one share is calculated by dividing the profit of the reporting period with the average weighted number of shares during the year.

	2014 EUR	2013 EUR
Profit of the reporting period	29 245	11 824
Average weighted number of shares during the year	422 440	422 440
