

## Company announcement from Vestas Wind Systems A/S

Aarhus, 28 June 2014  
Company announcement No. 28/2014  
Page 1 of 1

### Vestas receives orders for a total of 450 MW in the USA

Vestas has received two firm and unconditional orders comprising a total of 225 wind turbines under the EDF master supply agreement.

Additional information about the project:

Customer:	EDF Renewable Energy
Project names:	Roosevelt and Slate Creek
Location/Country:	New Mexico and Kansas, USA
Number of MW:	450 MW
Number of turbines/turbine types:	150 x V100-2.0 MW + 75 x V110-2.0 MW
Contract type:	Supply-only
Contract scope:	Both orders comprise supply and commissioning of the wind turbines as well as a three-year Active Output Management (AOM 5000) service agreement.
Time of delivery:	Delivery of the Roosevelt project is expected to take place in the second quarter of 2015 and the Slate Creek project is expected delivered in the third quarter of 2015. Both projects are expected commissioned in the fourth quarter of 2015.

Total year-to-date announced order intake in MW: 2,538 MW, (see overview at [vestas.com/investor](http://vestas.com/investor)).
