## First Order of C-RAD Catalyst from UK Customer

**C-RAD received an order for the James Cook University Hospital in Middlesbrough, UK. The customer decided for a Catalyst™ System including the software packages for Patient Positioning and Motion Monitoring.**

The James Cook University Hospital in Middlesbrough will focus the use of the Catalyst™ System on the treatment of breast cancer patients. The installation is scheduled for the fourth quarter of the fiscal year 2014. C-RAD products are distributed by the company Vertec Scientific Ltd. in the UK.

The Catalyst system is based on a new generation hardware and software platform for high performance optical surface scanning and augmented reality through re-projection. Advanced and highly optimized algorithms for non-rigid registration and deformable models enable real-time assessment of patient positioning errors before and during treatment delivery. The system calculates isocenter adjustments and interfaces to major vendors ensure a completely integrated workflow.

Tim Thurn, CEO, C-RAD AB:

“With the James Cook University Hospital we have a cutting-edge radiation therapy center as our first reference in the UK. The first system in a country is always an important milestone to further develop the local market.”
