

Nederman acquires downdraught bench technology.

Nederman has acquired the design and technology for the production of downdraught benches from Air Cleaning Systems Ltd (ACS).

As part of Nederman strategy, to provide workplace fume and dust extraction systems Nederman has been providing downdraught benches manufactured by ACS for some years. With the closure of ACS, Nederman has acquired the design technology for the range of benches and will continue to produce and develop these products for the growing market. The downdraught benches will be produced in one of Nederman's existing production facilities.
