Cybercom chosen by Swedish Tax Agency, E-identification Board and Enforcement Authority

Cybercom has signed a framework agreement with the Swedish Tax Agency, Enforcement Authority and E-identification Board. The agreement runs for two years, and Cybercom is one of only six selected suppliers.

"This is an affirmation of our strength. The public sector is one of three strategic areas of focus for Cybercom's growth. We see great potential in this deal," says Niklas Flyborg, President and CEO, Cybercom Group.

The agreement covers resource and project consulting services in the fields of Applications, and Operation and Infrastructure. Four suppliers per field have been selected, and Cybercom is one of two companies awarded both. The contract is for two years, with an option to extend for a further two years.

"We are very proud and delighted to receive this extended business from the Tax Agency, Enforcement Authority and E-identification Board. It is a very exciting contract and a great opportunity for us," says Pär Abelson, Business Segment Manager in Sweden for the public sector.

The total value of the framework agreement with the Tax Agency, Enforcement Authority and E-identification Board is estimated to be approximately SEK 400 million per year.
