- Operating profit excluding non-recurring items increased during the quarter by 62 per cent and for the full year by 46 per cent.
- Net sales increased by 3.2 per cent for the quarter and decreased by 0.2 per cent for the full year.
- Sales in comparable stores increased during the quarter by 2.9 per cent and for the full year by 0.3 per cent.
- The gross margin improved by 2.3 per centage points for the quarter and 1.6 per centage points for the full year.
- Restructuring costs of SEK 23 million relating to the closure of unprofitable stores in Finland and Poland strain the fourth quarter.
- The Board of Directors proposes a dividend of SEK 0.75 per share

*“KappAhl has delivered a good year...
With a more stable and effective
organisation our gross margin is stronger,
our cost level is lower and the
equity/assets ratio has improved.”*

Johan Åberg, President and CEO

The information in this year-end report is disclosed by KappAhl AB (publ) pursuant to the Securities Market Act and/or the Financial Instruments Trading Act. The information was released for public disclosure on 9 October 2014 at 07.30.

• JOHAN ÅBERG, PRESIDENT AND CEO, ANSWERS QUESTIONS •

Johan Åberg
President and CEO

How do you sum up the past financial year?

KappAhl has delivered a good year, in line with the ambition that in a few years achieve an operating margin of ten per cent. With a more stable and effective organisation our gross margin is stronger, our cost level is lower and the equity/assets ratio has improved.

Two major provisions affect net profit for the year. These are interest swaps of SEK 29 million that were expensed in the third quarter, and SEK 23 million for rationalisations in the number of stores in Finland and Poland in the fourth quarter.

All in all, our positive trend is continuing with a full-year operating margin of 6.2 per cent.

Are you satisfied with KappAhl's performance in the fourth quarter?

Customers are now buying their garments closer to the time of use than before. Sales in the fourth quarter showed that our efforts to have the right product in stores at the right time has produced results. Both summer products and the important school start campaign sold very well.

KappAhl delivered very strong key figures overall during the quarter, partly driven by a lower percentage of clearance sales than in the previous year.

What activities have contributed to this year's good performance?

KappAhl has a strong brand and a contributory factor in this is that we have achieved greater success with marketing to consumers and in the in-store customer meeting. The strengthened gross margin shows that our range is accepted, all business areas have improved their profitability during the year.

Collections that were well received by our main customers, women in the prime of life, included the best-selling lightweight down jackets and the Hampton Republic 27 collection that is now for the whole family, as well as the much-discussed underwear collection Fifty Shades of Grey, to mention a few. It is also worth mentioning that during the year we sold close to eight million pairs of trousers which is 5,7 per cent more than last year.

During the year we have been successful with purchasing and logistics and have had sound cost control. We worked specifically with each store's profitability. As a result of this our measures for increased profitability in Poland paid off and operations in the Czech Republic were discontinued. Evaluations of store profitability will continue.

Will next year be as good for KappAhl?

We have much left to do. It is gratifying that we are taking on coming challenges with a more solid organisation behind us. Going forward our most important challenges are continued cost control and improved sales in comparable stores.

Several major investments in our brand work becomes visible throughout the coming year. Shortly Shop Online will be launched in all our markets and we are rolling out our new store concept in high tempo. With a marketing campaigns such as "Wear it like a star" and as main sponsor of the TV show "She's Got The Look", to name a couple, we are ensuring that KappAhl will be visible next year too. The customer's experience of KappAhl is also formed by attractive and well-functioning stores. During the autumn we start rolling out our new store concept at a high pace.

Internally we continue to improve effectiveness of the supply chain, from supplier to sales space in stores. We also have high sustainability ambitions; in 2020 all cotton at KappAhl is to be sustainably grown and all energy renewable. We will also soon be launching textile collection in our Swedish stores.

KappAhl will continue to deliver fashion that attracts our most important customers; women in the prime of life. And we do it backed by a stable organisation and continued high ambitions for the future.

Johan Åberg
President and CEO

KappAhl, founded in 1953, is one of the leading Nordic fashion chains with nearly 400 stores in Sweden, Norway, Finland and Poland as well as Shop Online. KappAhl offers value-for-money fashion with its own design to the many – women, men and children, with special focus on women in the prime of life. 18 per cent of the range has sustainable fashion labelling. In 2013/2014 sales were SEK 4.7 billion and the number of employees about 4 500. KappAhl is listed on NASDAQ Stockholm. For more information, visit www.kappahl.com.

• COMMENTS ON THE FOURTH QUARTER •

2.9%

Sales in comparable stores

Net sales and profit

KappAhl's net sales for the quarter were SEK 1,185 (1,148) million, an increase of 3.2 per cent. This is explained by the effect of new and closed stores, -1.0 per cent; growth in comparable stores, 2-9 per cent; and currency translation differences totalling 1.3 per cent.

The gross profit for the quarter was SEK 703 (654) million, corresponding to a gross margin of 59.3 (57.0) per cent. A good balance in inventories combined with a strong range has contributed to the stronger gross margin.

Selling and administrative expenses for the quarter amounted to SEK 611 (597) million, excluding non-recurring items. The non-recurring item of SEK 23 (14) million charged to the quarter refers to close-down costs for stores in Finland and Poland. Including non-recurring items selling and administrative expenses amounted to SEK 634 (611) million in the fourth quarter.

The operating profit was SEK 92 (57) million, excluding non-recurring items of SEK 23 (14) million. This corresponds to an operating margin excluding non-recurring items of 7.8 (5.0) per cent or 5.8 (3.7) per cent including non-recurring items.

Depreciation according to plan amounted to SEK 33 (37) million. Net financial income for the quarter was SEK -10 (-7) million. Profit/loss after financial items was SEK 59 (36) million and the profit after estimated tax was SEK 32 (7) million. Earnings per share after dilution for the quarter were SEK 0.42 (0.09).

61.4%

Increased operating profit excluding non-recurring items

Inventories

Inventories at the end of the period were SEK 733 (772) million. In total the size and composition of the inventories is assessed to be satisfactory.

Cash flow

KappAhl's cash flow from operating activities for the quarter was SEK 0 (15) million and the cash flow after investments was SEK -29 (-1) million. The cause of the negative cash flow is that working capital has increased since the previous quarter and the volume of investment is higher compared to the same period last year.

35.4 %

Decreased net debt compared with the previous year

56.1 %

Current equity/assets ratio

Funding and liquidity

Net interest-bearing liabilities at the end of the period were SEK 427 (661) million. At the close of the period net interest-bearing liabilities/EBITDA amounted to 1.0, compared with 1.9 as at 31 August 2013. The equity/assets ratio increased to 56.1 (49.4).

Cash and cash equivalents amounted to SEK 43 (58) million on 31 August 2014. At the close of the period there was about SEK 650 (400) million in unutilised credit.

Store network and expansion

At the close of the period the total number of stores was 377 (390). Of these there are 166 in Sweden, 101 in Norway, 63 in Finland and 47 in Poland. No store opened during the quarter, two were closed. Operations in the Czech Republic were

completely discontinued as at 31 December 2013.

An internal project aimed at improving profitability in unprofitable stores was launched in the previous quarter and has continued during the financial year. As a result of this, in the fourth quarter provision was made for a non-recurring item of SEK 23 million for rationalisation of the number of stores in Finland and Poland.

The work of seeking attractive store locations in existing markets and expanding eCommerce is proceeding according to plan. Apart from the stores in operation on 31 August 2014 at present there are contracts for seven new stores. Shop Online will expand to Norway and Finland at the end of 2014.

Parent company

Parent company sales in the quarter were SEK 5 (14) million and the profit after financial items was SEK 135 (106) million. The parent company did not make any investments during the period.

• COMMENTS ON THE FULL YEAR •

0.3%

Increased sales in comparable stores

Net sales and profit

KappAhl's net sales were SEK 4,743 (4,751) million for the full year. This is a change of -0.2 (3.6) per cent compared with the previous year. The development is explained by: new and closed stores, -0.1 per cent, change in comparable stores, 0.3 per cent and exchange differences totalling -0.4 per cent.

1.6%

Increased gross margin

For the full year the gross profit was SEK 2,886 (2,814) million, corresponding to a gross margin of 60.8 (59.2) per cent.

Selling and administrative expenses for the full year amounted to SEK 2,614 (2,638) million. Non-recurring items of SEK 23 (26) million referring to closing down stores are included in the year's selling and administrative expenses. Thus the costs excluding non-recurring items amounted to SEK 2,591 (2,612) million, which is a decrease of SEK 21 million, or 0.8 per cent.

46.0%

Increased operating profit, excluding non-recurring costs

The operating profit before non-recurring items was SEK 295 (202) million and including non-recurring items it was SEK 272 (252) million. The operating profit for the previous year includes a non-recurring item referring to a capital gain of SEK 76 million, attributable to the sale of the company's real property. SEK -12 million was for costs in connection with staff cuts and SEK -14 million referred primarily to impairment loss on non-current assets. The operating margin for the financial year before non-recurring items is 6.2 (4.3) per cent or 5.7 (5.3) per cent including non-recurring items.

Depreciation according to plan was SEK 128 (141) million, which was impacted by restraint in new investment in recent years.

Net financial income was SEK -68 (-87) million for the full year. During the year net financial income was reduced by negative market values of SEK 33 million referring to all interest swaps, see Note 2. Profit/loss after financial items was SEK 204 (165) million and the profit after estimated tax was SEK 129 (91) million. Earnings per share after dilution for the full year were SEK 1.71 (1.32).

Taxes

The Group has net deferred tax assets of SEK 22 (90) million. The change is due to a reduction in untaxed reserves, utilised loss carry-forwards and a changed tax rate.

Deferred tax assets related to losses in Poland, the Czech Republic and Finland are not currently valued, resulting in a high effective tax rate of the Group.

Investments

Investments of SEK 98 (95) million were made during the year and mainly refer to investments in existing and newly opened stores, process and system development for a more digital customer meeting and eCommerce solutions for all countries.

Cash flow

KappAhl's cash flow from operating activities during the year was SEK 345 (230) million and the cash flow after investments was SEK 247 (622) million. The improved cash flow from operating activities was primarily due to increased earnings potential. Last year, cash flow was positively affected from investing activities by proceeds received on the sale of property.

KappAhl

Parent company

Parent company sales during the year were SEK 19 (23) million and the profit after financial items was SEK 95 (110) million. The parent company did not make any investments during the period.

• OTHER INFORMATION •

Related party transactions

There were no transactions with related parties in the fourth quarter.

Risks and uncertainties

The most important strategic and operative risks that affect KappAhl's operations and industry are described in detail in the annual report for 2012/2013. The risks include competition in the fashion industry, economic fluctuations, fashion trends, store location and store expansion. The company's risk management is also described in the corporate governance report in the same annual report, under the section "Report on internal controls". The same applies to the Group's management of financial risks, which are described in the annual report for 2012/2013, Note 17. The reported risks are otherwise deemed to be unchanged in all essentials.

Events after the balance sheet date

From November 3, 2014 KappAhl's new bank agreement will apply, which is expected to significantly lower financing costs. The three-year loan agreement covers a total credit of 1 000 MSEK and gives KappAhl good operating freedom for investments, particularly in the new store concept.

Otherwise, there has been no significant events after the balance sheet date to the date on which this report was signed.

Annual General Meeting

The Annual General Meeting will be held at the company's head office in Mölndal on 3 December at 10.00 am. The annual report will be available on the company's website on 5 November.

The Board of Directors proposes a dividend of SEK 0.75 per share

Accounting policies

The Group applies International Financial Reporting Standards, IFRS, as adopted by the EU.

The accounting policies applied are consistent with what is stated in the annual report of 31 August 2013, apart from IFRS 13 Fair value measurement and IAS 19R Employee benefits.

IFRS 13 has not had any impact on the valuation of the Group's financial instruments, although the standard requires enhanced disclosures.

IAS 19R has not had any material impact on the Group's earnings and financial position on the basis that the Group already recognises actuarial gains and losses related to defined benefit plans in other comprehensive income. For further information please refer to the annual report.

This report was prepared in accordance with IAS 34. The report for the parent company was prepared in accordance with the Annual Accounts Act and the Swedish Financial Reporting Board recommendation RFR 2, Accounting for Legal Entities.

The company has no outstanding convertible debt instruments. There are 6 744 000 warrants. These can be exercised in January-February 2015. One warrant gives the right to subscribe for 0.27 shares at the price of SEK 28.80.

Note 1 Calculation of earnings per share

Earnings per share are restated for comparison periods. The number of shares has been adjusted to allow for the year's rights issue and reverse split.

Note 2 Financial assets and liabilities measured at fair value

The Group's financial instruments consist of trade receivables, other receivables, cash and cash equivalents, trade payables, interest-bearing liabilities and currency and interest derivatives. The derivatives are recognised at fair value based on level 2 inputs in the fair value hierarchy. The carrying amounts of trade receivables and trade payables represent a reasonable estimate of their fair values. Group loans are measured at amortised cost.

The Group uses derivative financial instruments to manage interest rate and currency risks. Hedge accounting is applied when there is an effective link between hedged flows and financial derivatives. During the year a transfer of SEK 33 million was made between other comprehensive income and the income statement. These are no longer part of an effective hedging relationship. The fair value of financial derivative instruments was SEK 16 (19) million for currency forwards and SEK -33 (-20) million for interest swaps. The Group hedges currency flows in USD, EUR, NOK and PLN for which currency forwards have maturities of up to 12 months.
