Studsvik Waste Treatment organisational alignment

Studsvik has decided to implement a redundancy program in the Waste Treatment operation as efficiency at the sites is increasing while supply of material for treatment is temporarily declining as a consequence of delayed dismantling of nuclear facilities across Europe.

The program will include a number of redundancies in Sweden and in the UK. The details will be established in consultation with employees and employee representatives.

Studsvik will continue to play a full part in the European waste treatment market from both its Swedish and UK facilities.

For further information please contact:

For Sweden and other markets:

Arne Degerman, Managing Director Studsvik Nuclear AB, +46 760 02 10 18

Mats Fridolfsson, President of Waste Treatment, +46 760 02 10 64

For the UK market:

Ms Vicky Cooke, Marketing Manager at Studsvik UK Ltd, +44 788 793 5129
