#### NYKREDIT BANK GROUP RESULTS

The Group recorded a profit before tax of DKK 1,013m against DKK 877m in 2006, up 15.5%.

Performance was satisfactory and exceeded the DKK 700m-800m forecast at the beginning of the year. The improvement derived mainly from higher earnings in the areas of Corporate Banking and Markets & Asset Management.

Earnings from securities not allocated to the business areas also exceeded expectations, while Retail Banking, excluding impairment losses, matched expectations. Profit before tax was in line with the Bank's upgraded forecast of DKK 0.9bn-1.0bn announced at 30 June 2007.

Profit equalled a return on equity of 19.6% compared with 22.3% in 2006.

Relative to 2006, the Bank's core income (net interest and fee income, value adjustments and other operating income) increased by DKK 318m to DKK 1,896m, while investment portfolio income was DKK 11m down on 2006.

The increased core income was delivered by Corporate Banking and Markets & Asset Management, up by DKK 175m and DKK 82m, respectively. Retail Banking was DKK 12m below the level of 2006, while income from group items (non-allocated securities) rose by DKK 73m to DKK 186m. The rise in core income from securities was partly due to the equity increase of DKK 1.1bn in 2007 and higher interest rates.

Net interest income was up from DKK 776m to DKK 1,018m. The rise reflected growing activities in the three business areas of the Bank, of which Corporate Banking in particular saw considerable growth. Earnings from non-

allocated securities also exceeded the level of 2006.

Dividends and fees netted an increase from DKK 256m to DKK 305m. The rise derived in particular from increased activity levels in both Corporate Banking and Markets & Asset Management.

Value adjustments increased from DKK 522m to DKK 542m, mainly because of a negative value adjustment of bonds of DKK 453m and a positive value adjustment of derivatives of DKK 845m. Net interest income and value adjustments should be considered in context, as the Bank to a large extent uses combinations of interest-bearing financial assets, liabilities and derivatives as part of its day-to-day operations, including swaps for interest rate hedges.

Other operating income came to DKK 17m against DKK 21m in 2006. The amount related partly to the Bank's leasing activities.

Staff, administrative and other operating costs grew by DKK 141m to DKK 883m – up 19% on 2006.

Staff expenses rose 16% from DKK 444m in 2006 to DKK 514m in 2007. The rise is attributable to increased recruitment resulting from the generally enhanced business volume, including nearly 30 staff transferred from Nykredit Realkredit A/S to Corporate Banking in Q1/2007 to cover the growing activity level. Furthermore, the development reflected a rise in performance-related pay. The number of staff grew by 20% from an average of 492 in 2006 to 588 in 2007.

Administrative expenses rose by 21% from DKK 295m in 2006 to DKK 357m. The rise stemmed from a wide range of the Bank's cost

items in general and IT and transactiondependent expenses in particular.

Amortisation, depreciation and impairment losses for intangible assets and property, plant and equipment amounted to DKK 10m compared with DKK 2m in 2006. The increase of DKK 8m was mainly attributable to goodwill impairment associated with LeasIT A/S, in which Nykredit Bank acquired all shares at 1 October 2007.

Impairments equalled an income of DKK 14m against an income of DKK 44m in 2006. The amount derived from an income of DKK 16m in the Retail Banking area and an expense of DKK 2m in Corporate Banking. In the course of 2007, the Bank conducted a series of tests and adjustments of the models behind the Bank's group-based impairment provisions. As a result, the prerequisites for "impairment" were changed, and fewer customers/types of accounts therefore fall within the impairment criteria than previously. Consequently, the Bank's group-based impairment provisions changed from DKK 61m at end-2006 to DKK 11m at end-2007. Apart from impairments of DKK 30m in the subsidiary LeasIT A/S, individual impairment provisions remained low because of continued favourable economic trends

Tax for the period has been calculated at DKK 255m, or 25.3% of profit before tax. Tax for the year includes income of DKK 10m relating to the reduction of the tax rate in Denmark from 28% to 25% and deferred tax concerning previous years. In 2006 the tax charge came to DKK 250m, or 28.5% of profit before tax.

Profit for the year was DKK 758m against DKK 627m in 2006.

It will be recommended for approval by the annual general meeting that no dividend be distributed for 2007.

#### **BUSINESS AREAS**

The Nykredit Bank Group is organised into three intercompany business areas: Retail Banking, Corporate Banking and Markets & Asset Management.

Retail Banking serves households and small agricultural customers who typically require the same product range as retail customers.

Corporate Banking serves business, agricultural and rental housing customers, including housing society and non-profit housing customers.

Markets & Asset Management handles the activities of the Nykredit Group within trading in securities and derivatives, debt capital, asset management and pension products. In addition, the business area conducts own trading activities.

#### **Retail Banking**

The Retail Banking area supplies Nykredit Bank products through the distribution channels of the Nykredit Group, including 48 retail centres, the website nykredit.dk and the centralised sales centre.

Retail Banking recorded a profit before tax of DKK 125m against DKK 185m in 2006. This development was mainly due to changes in loan impairment from an income of DKK 62m in 2006 to an income of DKK 16m in 2007. Excluding this change, results decreased from DKK 123m to DKK 109m.

Core income fell by DKK 12m, of which interest income came to DKK 11m, fees netted DKK 2m, while value adjustments and other operating income decreased by around DKK 25m particularly as a result of decreased income from mortgage trading activities.

Operating costs of DKK 167m were on a level with 2006. A lower staff number reduced expenses for wages and salaries, while other expenses rose moderately. The staff number decreased from 116 at end-2006 to 103 at end-2007 as a consequence of a reorganisation of the Nykredit Group leading to the transfer of a number of staff members to Nykredit Realkredit.

Loan impairments were closer to the normal level compared with 2006, when especially reversal of individual impairment provisions delivered a significant income. The provisioning need remained low, reflecting the sound Danish economy and not least the favourable financial position of homeowners, as a consequence of the fact that loans are, to a wide extent, secured by owner's mortgages.

In total, profit for the year equalled an average return on the business capital before tax of 12.9% against 23% in 2006. The income:cost ratio decreased from DKK 2.8 to DKK 1.8.

#### Balance sheet

Lending increased by 23% from DKK 6,348m in 2006 to DKK 7,829m in 2007, primarily as a result of equity release accounts (Friværdikonto®). Deposits were up from DKK 9,670m to DKK 10,036m as a result of continued growth in the number of customers opening wage accounts, which rose by 13,000 net to some 95,000 customers.

#### **Corporate Banking**

Corporate Banking serves agricultural, public sector, business and rental housing customers, including housing society and non-profit housing customers. Products are distributed through 26 commercial centres offering all of the Group's products within banking, mortgage banking, insurance, investment and debt management.

Corporate Banking generated a profit of DKK 290m in 2007 – up DKK 133m (85%) on 2006.

Core income increased from DKK 295m in 2006 to DKK 470m in 2007, and the business area continued its positive development with increased lending and a generally high activity level. Growth in earnings from domestic and international corporate customers was substantial, just as sales through the commercial centres of the Nykredit Group increased.

Corporate Banking generally saw a remarkable development and succeeded in using the Group's distribution powers to create a wider sales platform. The success proved most notable within products for managing interest rate risk such as interest rate swaps. By contrast, the business area's leasing activities generated a loss of approx DKK 36m in 2007.

Operating costs including impairment of intangible assets rose by DKK 58m to DKK 178m in 2007, partly due to higher expenses for wages and salaries, which increased from DKK 65m to over DKK 105m because of a rise in the staff number from 103 at end-2006 to 165 at end-2007. Furthermore, costs were affected by impairment in the amount of approximately DKK 6m resulting from an impairment test of goodwill in relation to LeasIT A/S.

Loan impairment amounted to DKK 2m in 2007 against DKK 18m in 2006. Special events included impairments in the amount of around DKK 30m in Q4 in the subsidiary LeasIT A/S. On balance, loan impairment remained extremely low, reflecting the continued stability of the Danish economy.

Profit for the year equalled an average return on the business capital of 11.4% before tax against 8.9% in 2006. The income:cost ratio increased from DKK 2.1 to DKK 2.6.

#### Balance sheet

Lending saw a highly satisfactory lift from DKK 22.6bn at end-2006 to DKK 31.8bn at end-2007. Deposits went up from DKK 12.8bn in 2006 to DKK 21.4bn in 2007.

#### Markets & Asset Management

This business area handles the activities of the Nykredit Group within securities and financial instruments trading, asset management and pension advice.

The trading and capital market activities of the business area are handled by Nykredit Markets and Debt Capital Markets, while asset management, portfolio administration and long-term savings are handled through Nykredit Asset Management and Nykredit Portefølje Administration A/S. Own trading activities are handled by Proprietary Trading.

To reinforce the structure and distribution power of the business area, Nykredit Portefølje Bank A/S was merged with Nykredit Bank A/S in 2007, and all asset management activities were gathered in the Nykredit Asset Management area. Portfolio administration is undertaken by the investment management company Nykredit Portefølje Administration A/S.

The business area recorded a profit of DKK 429m for 2007 against a profit of DKK 428m in 2006. It equalled an average return on the business capital of 46% against 53% in 2006. The profit is considered highly satisfactory in the light of the considerable turmoil in financial markets in the last six months of the year.

Core income was DKK 964m equal to a rise of DKK 82m compared with 2006. 2007 saw satisfactory growth in the customer-oriented activities of both Nykredit Markets, Debt Capital Markets and the asset management areas, which all made a positive earnings contribution compared with 2006. By contrast, core income from Proprietary Trading fell from DKK 160m in 2006 to DKK 105m, partly because of the international financial crisis in H2/2007. Considering the market climate, earnings were satisfactory.

Costs increased by DKK 81m to DKK 535m as a result of increased business volumes, which led to higher expenses for staff, including performance-related pay, and for IT. The number of staff increased from 293 at end-2006 to 349 at end-2007.

#### **BALANCE SHEET, EQUITY AND CAPITAL** ADEQUACY OF THE NYKREDIT BANK **GROUP**

#### **Balance sheet**

The Group's balance sheet at end-2007 totalled DKK 135.0bn against DKK 107.0bn at end-2006, up DKK 28bn.

Receivables from credit institutions rose by DKK 2.6bn to DKK 21.0bn, while loans and advances increased from DKK 32.4bn to DKK 45.2bn. Of the increase, repo transactions accounted for DKK 2.1bn, retail lending DKK 1.5bn and corporate lending DKK 9.2bn.

Bonds and equities totalled DKK 55.5bn, or 15.7% above the level at end-2006. The size of the portfolio should be seen in the context of the Bank's substantial repo activities.

Other assets and prepayments totalled DKK 13.5bn against DKK 8.2bn at end-2006. The item mainly consisted of interest and commissions receivable, including "positive market value of derivative financial instruments".

Payables to credit institutions rose from DKK 63.1bn at end-2006 to DKK 76.8bn at end-2007.

Deposits went up by DKK 9.0bn to DKK 31.7bn, primarily driven by corporate banking deposits.

Issued bonds totalled DKK 1.6bn against DKK 1.7bn at end-2006. Two new bond issues were made in 2007, while bonds worth around DKK 179m matured or were redeemed. The majority of the bonds are listed on the OMX Nordic Exchange Copenhagen.

Other non-derivative financial liabilities at fair value came to DKK 5.4bn against DKK 7.0bn at end-2006. The item consists mainly of liabilities relating to repo activities, including "negative securities portfolios".

Other payables and deferred income amounted to DKK 11.4bn against DKK 6.9bn at end-2006. The item mainly consists of interest and commissions payable, including "negative market value of derivative financial instruments".

Subordinate loan capital increased by DKK 1.1bn to DKK 2.4bn in 2007. The capital was contributed by Nykredit Realkredit A/S to further the favourable development in the Bank's business areas.

#### Equity

Equity stood at DKK 6,099m at 31 December 2007 equal to an increase of DKK 1,858m. The increase covers profit for the period of DKK 758m and new paid-up capital of DKK 1,100m. DKK 550m of the paid-up capital represented a premium.

#### Capital adequacy

The capital adequacy ratio of the Nykredit Bank Group landed at 11.7% against 10.6% at end-2006, and the core capital ratio was 8.4% against 8.2% at end-2006.

#### Nykredit Bank and the financial crisis

Like the financial sector in general, Nykredit Bank incurred increasing funding costs as a result of the financial crisis in H2/2007. The Bank has had no positions in financial instruments based on US subprime loans.

### **EVENTS OCCURRED AFTER THE END OF**

In the period up to the presentation of the Annual Report, no material events have occurred.

### THE FINANCIAL YEAR

#### **OUTLOOK FOR 2008**

The business areas of the Nykredit Bank Group are generally expected to generate growth compared with 2007, albeit at more moderate rates.

Income is expected to rise in 2008, but increasing expenses are also expected – not merely because of the growing activities, but also as a result of substantial expenses for IT projects implemented to support future earnings and Bank risk management.

Against this backdrop, the Nykredit Bank Group expects a profit before tax in the range of DKK 1,050m-1,150m.

#### The Nykredit Bank Group **Summary balance sheet**

#### OTHER

#### Management and organisational changes

The Nykredit Group implemented a number of management and organisational changes on 1 October 2007 in connection with the planned retirement of Henning Kruse Petersen as Group Managing Director. Karsten Knudsen, Group Managing Director, succeeded Henning Kruse Petersen as Chairman of Nykredit Bank A/S and resigned from the Executive Board of the Bank. Bjørn Damgaard Mortensen, Senior Vice President, joined the Executive Board, which now consists of Kim Duus and Bjørn Damgaard Mortensen, both Managing Directors.

#### Merger of Nykredit Bank and Nykredit Portefølje Bank

Nykredit Bank A/S and its wholly-owned subsidiary Nykredit Portefølje Bank A/S merged with effect from 1 January 2007 with Nykredit Bank A/S as the surviving company. For further information on the merger, please refer to the Bank's H1 Interim Report 2007. Nykredit Portefølje Bank A/S's subsidiary, Nykredit Portefølje Administration A/S, is now a wholly-owned subsidiary of Nykredit Bank A/S.

#### LeasIT A/S

As at 1 October 2007, Nykredit Bank A/S acquired 77.35% of the shares in LeasIT A/S, which is now a wholly-owned subsidiary. Nykredit Bank acquired the company as the Management expects lease financing to be a growing market in Denmark, just as it sees increased business potential as a result of the new legislation on Danish covered bonds. LeasIT A/S has around 40 staff, and total assets amounted to approximately DKK 2.1bn at the acquisition date, of which the lease portfolio was approximately DKK 1.9bn.

#### **Capital injection**

The Bank received additional capital in 2007 from the Parent Company Nykredit Realkredit A/S in the amount of DKK 2.2bn. Of this amount, DKK 1.1bn was subordinate loan capital.

#### MiFID

On 1 November 2007, a new set of rules and executive orders entered into force in the field of securities trading. The new rules are based on EU directives and go by the popular title MiFID – short for the Markets in Financial Instruments Directive.

In relation to customers of the Nykredit Bank Group, the most important new provisions are laid down in the Executive Order on investor protection in connection with securities trading. The purpose of the executive order is to improve the protection of customers trading in a number of financial instruments.

#### Basel II

In December 2007, Nykredit Bank obtained the approval of the Danish FSA to apply the internal ratings-based approach under Basel II for the determination of capital requirements for credit risk from 1 January 2008. For further details, please refer to the section on risk and capital management.

#### Rating

In Q2/2007 Nykredit Bank was assigned a Aa3 rating by Moody's Investors Service. The rating has facilitated an expansion of the Bank's business and customer volumes, and the Bank will furthermore use it to establish funding programmes in the international capital market.

#### **ACCOUNTING POLICIES**

The Consolidated Financial Statements of the Nykredit Bank Group have been prepared in accordance with the International Financial Reporting Standards (IFRS) as adopted by the EU. The Parent Financial Statements of Nykredit Bank A/S have been prepared in accordance with the Danish Financial Business Act. The Annual Report has furthermore been prepared in accordance with additional Danish disclosure requirements for the presentation of annual reports of issuers of listed bonds.

The accounting policies are unchanged from the Annual Report for 2006. The accounting policies appear in full from the Annual Report published today.
