### ÅF wins major project from brewery Åbro Bryggerier

ÅF has signed two orders with Åbro Bryggerier. The orders are primarily concerned with expansion of the beverage factory in Vimmerby. Processing projects in the food industry comprise one of ÅF's strong areas of expertise in Food & Pharma. The project will run for about a year.

The order value is in total over SEK 30 million for ÅF, and the project will largely be carried out from ÅF's operation in Malmö. ÅF will develop and deliver two automated processing systems and will plan a new building for Åbro Bryggerier.

“ÅF is consolidating its position as a strong independent provider of contractual projects in the process industry, which is one of the division's focus areas,” says Per Magnusson, head of ÅF's Industry Division and its 2,000 consultants.

“We're pleased to be entrusted with this project and are proud to have won it amongst international competitors,” says Jan-Ola Andersson, head of ÅF's Industrial Projects business area.

Corporate Information

ÅF AB

The ÅF Group is a leader in technical consulting, with expertise founded on more than a century of experience. We offer highly qualified services and solutions for industrial processes, infrastructure projects, and the development of products and IT systems. ÅF currently has more than 7,000 employees.
