Aarsleff adjusts its expectations to the annual results upwards

The financial year 2013/2014 which ended on 30 September 2014 is now expected to generate profit before tax of approx. DKK 330 million against the previous expectations of DKK 290 million.

However, we strongly emphasise that the financial statements have not yet been revised, and thus are subject to amendments until the final adoption at the ordinary general meeting on 19 December 2014 when the preliminary announcement of financial statements 2013/2014 will be sent to NASDAQ OMX Copenhagen.

The improvement as compared to the previous expectations is a result of a positive development in all three business segments in the last quarter of the financial year.
