<b>Securities centre</b>	VP Securities A/S, Weidekampsgade 14, P.O. Box 4040, 2300 Copenhagen S
<b>Interest</b>	The bonds carry a floating rate of interest.

Interest is paid with one fourth of the yearly interest on 1 January, 1 April, 1 July and 1 October for the preceding quarter. Interest payments end on the term day when the bonds are drawn.

The rate of interest on the bonds is determined quarterly with effect from 1 January, 1 April, 1 July or 1 October. The interest is calculated as the daily recording of the 3-month CIBOR rate stated with four decimals on the last banking day but four in December, March, June and September, respectively, multiplied by 365/360, after which a fixed margin is added and the rate of interest rounded to two decimals. In the event that Nasdaq OMX stops registering the said CIBOR rate, interest will be calculated as stated on the basis of a corresponding 3-month money market rate.

For the interest period ending on 31 December 2014 the interest rate on the bonds is set at 0.24% per annum.

<b>Amortisation</b>	The bonds are amortised by drawing at par parallel to the ordinary repayment of the funded loans. Repayments may be made upon the choice of the borrower under the annuity loan principle or the bullet loan principle; the latter method may, however, be used for no longer than 10 years of the lifetime of the loan. The bonds will be fully amortised not later than on their date of maturity.
---------------------	--

Please note that item 4.8.9 in the base prospectus applies.

<b>Failed refinancing trigger</b>	For an ISIN code, where the table below shows that the bonds may be subject to the provisions of failed refinancing trigger at maturity, BRFkredit may decide that the maturity date of all or part of the bonds in that ISIN code will be extended by 12 months at a time from their final maturity date with reference
-----------------------------------	--

to the absence of buyers for new bonds to refinance maturing bonds in that ISIN code. Cf. Base prospectus item 4.8.15 section iv.

At the first extension of the maturity date with reference to this provision the rate of interest on the bonds is calculated as the bonds most recently fixed interest rate plus 5 percentage points. Cf. Base prospectus item 4.8.15 section vii.

In case of further extensions with reference to this provision the interest rate set at the first extension applies. Cf. Base prospectus item 4.8.15 section vii, fourth sentence.

Extension decisions may be taken until one business day prior to the bonds' regular maturity date and shall be notified by a company announcement.
