Order for five Arcam Q10 systems from Lima Corporate

Arcam, listed on NASDAQ Stockholm, today received an order for five Arcam Q10 systems from Lima Corporate in Italy.

Lima Corporate is a customer to Arcam since 2007 and has a comprehensive program of orthopaedic products manufactured in Arcam EBM systems. The product program is based on Lima Corporate's proprietary Trabecular Titanium technology. Lima Corporate currently has the largest number of Electron Beam Melting machines, for additive manufacturing, in the world dedicated to the medical device sector.

"This investment will help us grow our production for Trabecular Titanium even faster. Arcam is the leading supplier of titanium additive manufacturing systems and we turned to them with confidence, having used several of their products for serial production for years", says Luigi Ferrari, CEO of Lima Corporate.

"This deal confirms the potential of the Arcam Q10 as a volume production system for the medical implant industry. We truly look forward to help Lima Corporate further grow their production of implant products", says Magnus René, CEO of Arcam.

The above information has been made public in accordance with the Securities Market Act and/or the Financial Instruments Trading Act. The information was published on December 4, 2014.
