Leading automotive manufacturer selects IFS Applications in € 1.9 million deal

IFS Applications to streamline maintenance and enhance manufacturing in one centralized solution

IFS, the global enterprise applications company, announces that a leading European manufacturer of components for the **automotive** industry has selected **IFS Applications™** to enhance productivity across its international organization. The agreement includes licenses and services worth approximately € 1.9 million.

The company will implement IFS functionality supporting enterprise asset management (EAM), manufacturing, distribution, human resources, and financials. The solution will be deployed for some 1,500 users.

“IFS offers a fully-integrated process management system that meets all the requirements in this sector,” IFS automotive industry director Stefan Issing said. “By collaborating with our world-renowned customers in the global automotive industry, IFS has established itself as a leading business software provider in this space.”

IFS’s automotive solution is used by automotive dealers, automotive OEMs, automotive suppliers and their subcontractors. IFS offers a flexible, component-based business solution that supports all business-critical processes in the automotive sector and fulfils the requirements of the international automotive associations—fully integrated with financials and human resources.

IFS’s automotive customers include Volvo, BMW, Kendrion, Linamar, Borgstena, HUF Hülsbeck & Fürst, Toyota, and Shiloh Industries.
