Sales

Sales excluding VAT for the H&M Group for the financial year amounted to SEK 78,346 m (68,400), an increase of 15 percent. In local currencies the increase was 17 percent and 5 percent in comparable stores. Sales including VAT amounted to SEK 92,123 m (80,081).

Sales excluding VAT in the fourth quarter amounted to SEK 22,817 m (19,512), an increase of 17 percent. In local currencies the increase was 18 percent and 5 percent in comparable stores. Sales including VAT amounted to SEK 26,836 m (22,819).

During the financial year, the Group opened 193 stores (168) and 16 (16) stores were closed. Of the openings 6 (4) stores were franchise stores. This corresponds to a net contribution of 177 stores (152). During the fourth quarter 94 (86) stores were opened and 4 (5) were closed. The total number of stores in the Group thus amounted to 1,522 (1,345).

Results for the financial year

Gross profit for the financial year amounted to SEK 47,847 m (40,664), which corresponds to 61.1 percent (59.5) of sales.

The operating profit after deducting selling and administrative expenses was SEK 18,382 m (15,298). The result corresponds to an operating margin of 23.5 percent (22.4).

Operating profit for the financial year has been charged with depreciation amounting to SEK 1,814 m (1,624).

Consolidated net interest income was SEK 788 m (510).

All figures within parenthesis refer to the corresponding period or point of time previous year.

Comments on the full year

The financial year has been characterised by a very good sales development with well received collections. This also applies for countries where the retail sector in general has been weaker. Especially pleasing is the strong sales development in Germany, H&M's largest market. New customer offerings such as the expansion of H&M's online and catalogue sales, the launch of the shoe assortment in a number of H&M-stores as well as the start of the COS-stores have contributed positively to Group sales.

The number of new and refurbished stores during the year has been record high. In addition the standard of these stores has been raised to increase the attraction and thereby further strengthen H&M's competitiveness.

The establishments in the new markets Shanghai, Hong Kong, Greece, Slovakia as well as the new franchise market Qatar have been successful, mainly due to very extensive preparations.

The expansion of the online and catalogue sales has been very successful. The start of the online sales in Germany and Austria as well as the distribution of the catalogue as a complement to the online sales in the Netherlands have exceeded the company's expectations. The potential for expansion of the online and catalogue sales to new markets is deemed to be great.

To support the expansion within the online and catalogue sales and the stores, the logistics chain has been developed and further improved. Among other things, the new, large logistics centre in Poznan, Poland has started to serve the stores in Eastern Europe and the online and catalogue sales outside the Nordic region. The construction of a new, larger logistics centre has started in Hamburg that will serve the stores in Germany, the Netherlands and Austria.

The activity in the Group has been high and the organisation has been adjusted accordingly, creating good conditions for further growth.

The tax rate for the financial year has decreased to 29.1 percent from 31.7 percent due to changed transfer pricing, lowered corporate tax rates in Denmark, the Netherlands and Slovenia and a non-recurring effect of a tax repayment in the Netherlands of SEK 130 m concerning pervious financial year.

The result before tax for the financial year was negatively affected by currency translation effects of about SEK 199 m (+127) compared with a recalculation of the result at last year's average exchange rates. These currency translation effects arise because of the development in the exchange rates between the foreign subsidiaries' local currencies and the Swedish Krona.

Results for the fourth quarter

Gross profit for the fourth quarter amounted to SEK 14,174 m (12,059) which corresponded to a gross margin of 62.1 percent (61.8).

Operating profit was SEK 5,996 m (5,278) for the fourth quarter corresponding to an operating margin of 26.3 percent (27.1).

Profit after financial items was SEK 6,221 m (5,440), an increase of 14 percent.

Comments on the fourth quarter

Sales during the quarter have been very positive with an increase of 18 percent in local currencies compared to the same period last year.

The gross margin of 62.1 percent is the highest ever and has been positively affected by a lower US dollar rate and more efficient buying operations. The margin increase has been possible despite a continued focus on higher quality in the assortment, more strategic price offerings and a marginally higher price reduction level. The gross profit has also been affected by a non-recurring charge of SEK 95 m due to a changed valuation of the stock-in-trade in all subsidiaries in connection with the refinement of the Group structure.

The selling and administrative expenses in relation to sales have increased slightly more than one percentage unit compared to the same quarter last year as a consequence of the high activity in the organisation mainly due to the ongoing expansion.

The stock-in-trade is deemed to be very good both in terms of contents and size.

Financial position and cash flow

Consolidated total assets as of 30 November 2007, increased by 17 percent and amounted to SEK 41,734 m (35,555).

During the financial year the Group generated a cash flow of SEK 6,010 m (-201). The running operation generated a positive cash flow of SEK 15,381 m (12,055). Cash flow was among other things affected by dividends of SEK -9,515 m (-7,861), investments in fixed assets of SEK -3,608 m (-1,982), and by financial investments with a duration of three to twelve months of SEK 3,848 m (-2,398). Liquid funds and short-term investments amounted to SEK 20,964 m (18,625).

The stock-in-trade increased by 10 percent compared to the same time last year and amounted to SEK 7,969 m (7,220). This corresponds to 10.2 percent (10.6) of sales excluding VAT. The stock-in-trade was 19.1 percent (20.3) of total assets.

The equity/assets ratio was 76.9 percent (78.1) and the share of risk-bearing capital was 78.5 percent (80.0).

Shareholders' equity apportioned on the outstanding 827,536,000 shares on 30 November 2007 was SEK 38.78 (33.57).

Expansion

The outlook for the future expansion and the development opportunities remains positive. The main focus for the expansion in 2008 will continue to be in established markets which are considered to have great long-term growth potential. For the financial year 2007/2008 a net contribution of 190 stores (177) is planned. Most of the stores are planned to open in the USA, Spain, the United Kingdom, France, Germany and Italy.

The proportion of refurbished existing stores will remain on the same level as in 2006/2007. The investments and costs per unit are expected to be on the same level as last year.

In January 2008 the online sales in Germany and Austria were supplemented by catalogue sales.

In collaboration with the franchisee Alshaya store openings are planned in four new markets in 2008; Egypt, Saudi Arabia, Bahrain and Oman.

Preparations for the opening in Tokyo, Japan during the autumn 2008 are ongoing.

H&M is preparing for the establishment in Russia. The first stores is planned to open in 2009 in Moscow. The Russian market is deemed to be very interesting with great potential for long-term growth. The initial focus will be Moscow and its surroundings.

H&M's target is to increase the number of stores with 10-15 percent each year and at the same time increase sales in existing stores.

Taxes

The effective tax rate for the Group for the financial year 2007/2008 is estimated to decline further compared to 29.1 percent for 2006/2007. The expected 2007/2008 Group tax rate is estimated to 27.5 percent as the changed transfer pricing will have full effect and the corporate tax rates will decline in some countries.

Employees

The average number of employees in the Group was 47,029 (40,855), of which 4,456 (4,142) in Sweden.

The Parent Company

The parent company achieved sales excluding VAT during the financial year of SEK 9,629 m (6,221) with an estimated result before balance sheet appropriations of SEK 10,938 m (9,236), of which SEK 8,465 m (7,219) consisted of dividends from subsidiaries. Investments in fixed assets amounted to SEK 114 (-117).

Events after the end of the financial year

In local currencies, the sales in December increased by 10 percent compared to the same month last year. Sales in comparable stores decreased by 1 percent.

Up to and including 29 January 2008 sales in local currencies have increased by 16 percent compared to the same period previous year.

Dividend proposal

H&M's financial goal is to enable the company to continue enjoying good growth and to be prepared to exploit business opportunities. It is essential that the expansion, as in the past, proceeds with the same high degree of financial strength and continued freedom of action.

Based on this policy, the Board of Directors has determined that the total dividend should equal about half of the profit after tax. In addition, the Board may propose that the surplus liquidity can also be distributed. The Board of Directors will propose to the Annual General Meeting a dividend of SEK 14.0 per share (11.50).

Annual General Meeting 2008

The Annual General Meeting 2008 will be held on Thursday 8 May, at 3 pm in the Victoria Hall, International Fairs, in Stockholm.

Annual Report 2007

The Corporate Governance Report for 2007 will be included in the Annual Report for 2007. The Annual Report is expected to be published on 25 March 2008, when it will also be placed on www.hm.com. The printed Annual Report will be sent out by post to shareholders that have requested this and will also be available from the company's office.

Accounting principles

The Group applies International Financial Reporting Standards (IFRS). This report has been prepared applying the rules on interim financial reporting in IAS 34 Interim Financial Reporting and the Swedish Annual Accounts Act.

The accounting principles applied in this report are described in the Annual Report and Consolidated Financial Statements for 2005/2006, in Note 1 – Accounting principles.

The parent company applies the Swedish Annual Accounts Act and Recommendation RR 32, Accounting for Legal Entities, which essentially means that IFRS is applied. In accordance with Recommendation RR 32:06, IAS 39 is not applied in the parent company.

Risks and uncertainties

A number of factors may affect H&M's results and business. Most of these can be dealt with through internal routines, while certain others are affected more by external influences. There are risks and uncertainties related to fashions, weather situations, quota systems and exchange rates, but also in connection with expansion into new markets, the launch of new concepts, changes in consumer behaviour or handling of the brand.

SEGMENT REPORTING

Internal follow-up is carried out by country. To present the information by segments in a comprehensive way the countries are divided into three regions: the Nordic Region, the Eurozone excluding Finland and the Rest of the World. There is no internal division into different lines of business and hence reporting in secondary segments is not relevant.

In 2007 the Group structure was reviewed and refined in order to facilitate the division of the logistics function into regions and to support the expansion in progress. As a result of this, the central functions of design, logistics, stock management and buying were transferred into a separate subsidiary that is included in the Nordic segment. A great deal of the Group's value added is created in this segment. The internal pricing model was adapted in accordance with this with effect from 1 June, with the result that the operating profit and operating margin in individual segments for the current financial year are not comparable with previous years. Internal sales of goods within the Group during the financial year amounted to SEK 23,364 m (SEK 0 m). This has been eliminated in full in the segment reporting.

Slovenia has changed its currency from SIT to EUR and has therefore been moved from Rest of the World to Eurozone countries for both years.

Up to and including 31 May 2007 the Swedish stores were operated within the parent company.

Since this date they have been operated by a separate subsidiary.

The departments for design, logistics and buying that were previously part of the parent company were also transferred to a separate subsidiary as of 1 June 2007.
