Aarsleff adjusts the expectations upwards

At the board meeting today, the company has changed the expectations for the total annual results for the financial year 2007/2008 from a profit before tax of DKK 170 million to a profit before tax of DKK 190 million.

The results of the first quarter are expected to be significantly higher than provided for in the budget. The ongoing major projects are progressing well, and so far the mild winter has influenced the activities positively. For the remaining part of the financial year, the development is not expected to differ significantly from previous expectations.
