

PRESS RELEASE
2014-12-12

Eurobet launches NetEnt's online casino games

In March this year, NetEnt, Net Entertainment NE AB (publ), announced that an agreement had been signed with platform supplier GameAccount Network, which enables NetEnt to offer its PC and mobile content to several well-known established operators in Italy. As a result of this agreement, NetEnt today announces that a selection of its best-in-class games is now live and available to Eurobet's player base in Italy.

Comments by Björn Krantz, Chief of GMO and MD at NetEnt Malta Ltd:

"I am very pleased that we now have our integration completed with GameAccount Network, and it has been a great team effort from both organizations. I am very excited that Eurobet is now live with a wide selection of our best-in-class games, and I am confident that Eurobet and its players will now be able to enjoy the very best player experience that exists on the market today. As we have previously announced, SNAI and SISAL are also waiting to go live with NetEnt's games over the GameAccount Network platform, and their commercial launch will be announced separately."
