### **ÅF signs agreement for Vrinnevi Hospital in Norrköping**

ÅF has been awarded a significant four-year contract by the County Council of Östergötland for reconstruction, extension, and new construction in about 40 sub-projects to renovate Vrinnevi Hospital in Norrköping. The order value is about SEK 30 million.

The project is part of Vrinnevi Hospital's Vision 2020: creating a hospital with low energy costs and the lowest environmental impact possible. Energy use in the reconstructed, extended sections and in the parts of the hospital that will be modernized but not reconstructed will decrease by about 15 percent.

"We're very pleased to have been chosen for this project," says Björn Qvist, Business Area Manager, Buildings. "ÅF has leading expertise and strong references in smart healthcare buildings. We're involved in most major hospital projects in Sweden at the moment."

Corporate Information
