

GCF and FDS – Source: INET – Removal of personal trader information in *BasicDataTrader* (BDTr) message

Nasdaq Nordic and Baltic have decided to remove personal trader information currently available from INET source (id:8). This means that the *BasicDataTrader* (BDTr) message currently containing personal information will have no content from INET.

Implementation schedule

- GCF4/INET Test (OTF) – December 19, 2014
- GCF Production/INET Production – January 19, 2015
