

Mycronic adjusts the outlook upwards for full year sales in 2014

Täby, 22 December, 2014 - Mycronic AB (publ), today adjusts the outlook upwards for full year sales in 2014.

The current assessment for sales in 2014 has been in the span of SEK 1,150 – 1,250 million. Sales within both business areas, SMT and PG, is developing above expectations and the company is now making an adjustment upwards of full year sales in 2014.

The company's new assessment is that sales in 2014 will be approximately SEK 1,440 million.

"In September, 2014 we received an order for a Pexision-80 mask writer for cost-effective manufacturing of the most advanced photomasks for display applications. At the time of the order, delivery was expected during the first quarter in 2015", says Lena Olving, President and CEO of Mycronic AB. "Completion of the newly developed machine has been faster than planned and we have agreed to send the machine to our customer already by the end of this year. The P-80 delivery is the main reason for the upwards adjustment of 2014 full year sales assessment."
