

Press release

Mölnadal, Sweden, December 31, 2014

## Order for two EBM systems

Arcam, listed on NASDAQ Stockholm, today received two separate orders for EBM systems for clients in Italy and in China.

"With these two orders we close 2014 with a total order intake of 42 EBM systems, an increase of about 55% compared to the order intake in 2013. The increase in order intake confirms the strong interest in our EBM systems for additive manufacturing and lays a solid foundation for continued growth in 2015 and onwards", says Magnus René, CEO of Arcam.
