In their decision-making and corporate governance, OP Financial Group and its central cooperative, OP Cooperative, Financial Group, comply with the laws of Finland and standards issued by virtue of them. OP Financial Group's operations are specifically governed by the Act on the Amalgamation of Deposit Banks (*Laki talletuspankkien yhteenliittymästä*), the Act on Cooperative Banks and Other Cooperative Institutions, the Act on Credit Institutions, the Insurance Companies Act and the Cooperatives Act.

Taking into account the specific characteristics of the cooperative system, this Corporate Governance conforms, whenever applicable, with the Finnish Corporate Governance Code approved by the Securities Market Association in June 2010.

In addition, OP Financial Group follows the Code of Business Ethics in its operations.

2 Structure of OP Financial Group and the Group, and administrative bodies

Structure of OP Financial Group

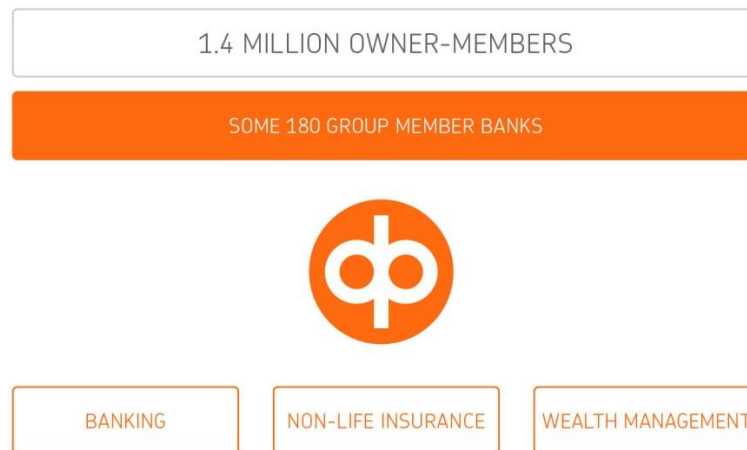

OP Financial Group

Established in 1902, OP Financial Group is a cooperative financial services group formed by independent cooperative banks and the Group's central cooperative with its subsidiaries operating under the principle of joint and several liability. The Group's success lies in a strong foundation of promoting the prosperity, well-being and security of its owner-members, customers and business partners. Being a Finnish Group is an important part of its identity.

OP Financial Group consists of 181 independent member cooperative banks as of 31 December 2014 and the central cooperative they own, OP Cooperative, with its subsidiaries and affiliates. The Group's operations are based on the cooperative principle – cooperation and sharing the fruits of success with everyone. OP's mission is to promote the prosperity, well-being and security of its owner-members, customers and

operating regions through our local presence. Its long-term customer-driven approach also enables continuous renewal. The Group develops its services and products to meet customer needs.

The Group has three business segments: Banking, Non-life Insurance, and Wealth Management.

OP Financial Group consists of the following two parts:

1. Amalgamation of OP Financial Group cooperative banks
2. Other entities and organisations of OP Financial Group.

Legal structure of OP Financial Group:

The amalgamation of OP Financial Group member cooperative banks is formed by OP Cooperative (central cooperative), companies belonging to its consolidation group, the central cooperative's member credit institutions and companies belonging to their consolidation groups, and credit institutions, financial institutions and service companies in which the abovementioned institutions jointly hold more than half of the voting rights form the amalgamation.

OP Financial Group is comprised of the amalgamation of member cooperative banks and those companies outside the amalgamation of which entities belonging to the amalgamation hold more than half of the total votes. The extent of OP Financial Group differs from that of the amalgamation of the member cooperative banks in that OP Financial Group subsumes companies other than credit and financial institutions or service companies. The most important of these are the insurance companies with which the amalgamation forms a financial and insurance conglomerate. In addition, the Omasairaala Oy hospital belongs to the Group.

More detailed information on the legal structure of OP Financial Group and the amalgamation of the member cooperative banks can be found in the financial statements of OP Financial Group. The amalgamation of the member cooperative banks does not form a corporate group, as referred to in the Accounting Act, or a consolidation group, as referred to in the Act on Credit Institutions. The central cooperative of the amal-

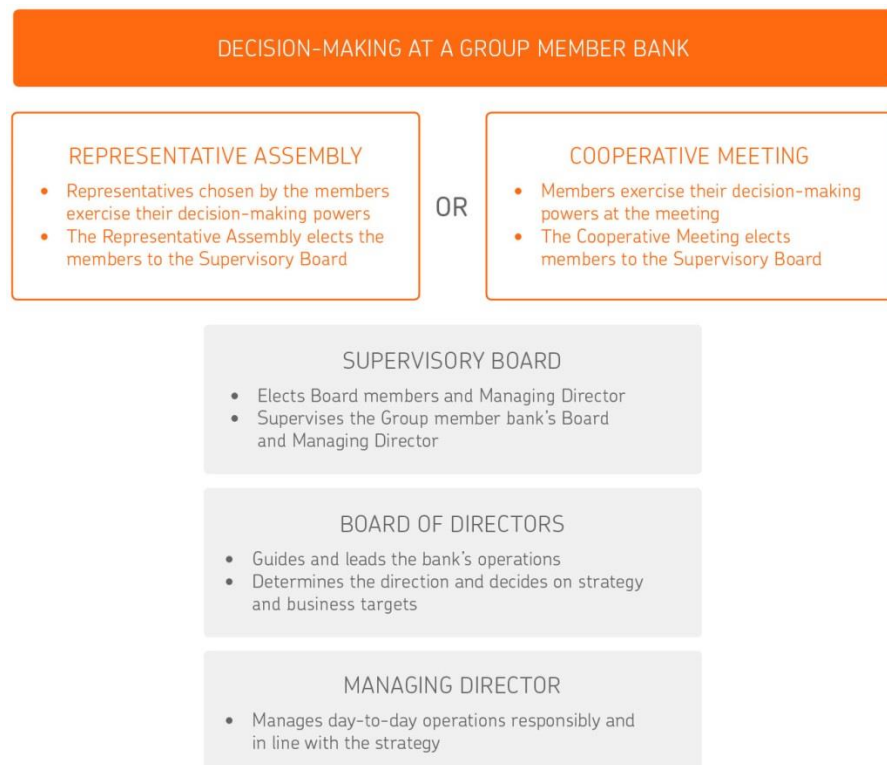

gamation prepares consolidated financial statements as referred to in Section 9 of the Act on the Amalgamation of Deposit Banks.

OP Financial Group member cooperative banks

Group member cooperative banks are independent, local deposit banks engaged in retail banking. They provide modern and competitive banking services to households, SMEs, agricultural and forestry customers and public-sector entities. Helsinki OP Bank Plc, the central cooperative's wholly owned subsidiary, is responsible for providing corresponding retail banking services in the Helsinki Metropolitan Area.

In terms of the type of their business organisation, the member cooperative banks are cooperatives whose basic values underlying decision-making include the one member, one vote principle. Within the member cooperative banks, the highest decision-making body is the cooperative meeting or assembly comprising owner-members, which elects a Supervisory Board for the bank. The Supervisory Board in turn elects an Executive Board for the bank.

The central cooperative's Supervisory Board has approved recommendations for good corporate governance for the member banks, covering eg a bank's administrative bodies and executive management, internal control and remuneration.

Cooperative bank federations

The cooperative bank federations are regional cooperation bodies for the member cooperative banks. Finland is divided into 16 federations of cooperative banks and the boundaries of the federations essentially follow those of provinces.

The federations nominate candidates in their region for the OP Cooperative Supervisory Board. In addition, the cooperative bank federations cooperate eg in projects related to marketing, corporate social responsibility and internal training.

The meeting of a cooperative bank federation comprising member cooperative banks shall elect the Executive Board to represent the federation and attend to its affairs.

According to corporate governance recommendations, the Executive Board consists of a minimum of three (3) and a maximum of nine (9) members elected annually.

OP Cooperative and its responsibilities

The central cooperative of OP Financial Group is OP Cooperative and OP Andelslag in Swedish and is domiciled in Helsinki.

Within the central cooperative, the highest decision-making powers rest with the Cooperative Meeting and the Supervisory Board elected by it and operational decision-making powers are exercised by the Executive Board elected by the Supervisory Board and being made up of management executives. The central cooperative's member banks own OP Cooperative.

The central cooperative's members may include credit institutions, as referred to in the Act on the Amalgamation of Deposit Banks, whose Bylaws or Articles of Association have been approved by the central cooperative. The Supervisory Board takes decisions on admitting new members.

The purpose of the central cooperative as the central cooperative of the amalgamation and as the company heading the financial and insurance conglomerate formed by OP Financial Group is to equitably contribute to and support the development of, and cooperation between, its member credit institutions, other OP Financial Group companies and entities and the entire OP Group. To that end, the central cooperative controls the Group's centralised services, develops the Group's business, manages the Group's strategic control and lobbying and manages control and supervision duties belonging to the central cooperative of the amalgamation and the company heading the financial and insurance conglomerate. Furthermore, the central cooperative acts as OP Financial Group's strategic owner institution.

Changes in OP Financial Group's structure in 2014

In 2014, the number of OP Financial Group member cooperative banks decreased from 183 to 181 as a result of mergers with one another.

OP-Pohjola renewed its brand and became simply OP. In the future, the banking, non-life insurance and wealth management businesses will all operate under the OP brand. The new name of OP-Pohjola Group, OP Financial Group, was adopted on 1 January 2015. On the same date, the central cooperative, OP-Pohjola Group Central Cooperative, was renamed OP Cooperative.

OP has also decided to open four new private hospitals in Finland. Its hospital business will also branch out into new fields of specialised medicine and occupational healthcare. The nationwide hospital network is being built under the Pohjola brand. Omasairaala will change its name to Pohjola Health Ltd in the autumn of 2015.

OP Financial Group has bought all Checkout Finland Oy shares, a company providing payment transaction services for Finnish online shops.

Koillis-Savon Seudun Osuuspankki merged into Pohjois-Savon Osuuspankki on 28 February 2014. Juuan Osuuspankki merged into Joensuu Seudun Osuuspankki on 31 March 2014, changing its name to Pohjois-Karjalan Osuuspankki.

Itä-Uudenmaan Osuuspankki and Porvoon Osuuspankki accepted a merger plan on 9 December 2014, according to which Itä-Uudenmaan Osuuspankki will be merged into Porvoon Osuuspankki, taking the name Itä-Uudenmaan Osuuspankki. The planned date for the merger is 31 July 2015.

Osuuspankki Poppia, Laihian Osuuspankki and Multian Osuuspankki, which are part of POP Group, have decided to join OP Financial Group as independent cooperative

banks. Osuuspankki Poppia's Cooperative Meeting decided on the matter on 18 November 2014, Laihian Osuuspankki's Cooperative Meeting on 15 January 2015 and Multian Osuuspankki's Extraordinary Cooperative Meeting on 29 January 2015.

Keiteleen Osuuspankki, which is part of POP Group, and Pielaveden Osuuspankki of OP Financial Group accepted on 15 October 2014 a merger plan, according to which Keiteleen Osuuspankki will merge into Pielaveden Osuuspankki, changing its name of Nilakan Seudun Osuuspankki. The planned date for the merger is 31 May 2015.

The process of planning and examination of different options regarding the restructuring of OP Financial Group Central Cooperative and the implementation of legal structures of the organisation is still underway. In the context of further planning of the restructuring, the separation of OP Financial Group's central banking operations, being presently part of Pohjola Bank plc, as a detached subsidiary wholly owned by OP Cooperative, is also under consideration. OP Financial Group's banking operations in their entirety will continue to fall within the scope of joint liability as laid down in the applicable law. The specific manner to implement these changes or schedule have not yet been decided.

Pohjola Group is planning to carry out structural changes in accordance with the tender offer made by OP Financial Group's central cooperative, in practice, for example, by transferring the Non-life Insurance and Asset Management segments from Pohjola Group to direct ownership of the central cooperative. The transfer of Asset Management is scheduled during 2015. In addition, the businesses of Helsinki OP Bank Plc and Pohjola Bank plc will be combined under the shared management.

The Cooperative Meeting is OP Cooperative's highest decision-making body.

Meeting duties and items on the agenda

The Annual Cooperative Meeting deals with issues mentioned in Section 7 of the central cooperative's Bylaws, such as the adoption of the parent and consolidated income statement and balance sheet for the previous financial year, and the election of members of the Supervisory Board and an auditor.

Notice of Meeting and attendants

Member cooperative banks with a good financial standing have additional votes as stipulated in greater detail in the central cooperative's Bylaws. However, no single member may cast more than two per cent of the votes represented at the Meeting. At the Annual Cooperative Meeting, a member has only one vote if, due to its own financial difficulties, it has received financial support based on a resolution passed by OP Cooperative, which fulfils the characteristics specified in Section 8 of the central cooperative's Bylaws.

OP Cooperative held its Annual Cooperative Meeting in Helsinki on 30 March 2014. The Meeting adopted the financial statements for 2013, discharged those accountable from liability and elected persons as required.

Remuneration Committee work in 2014

On 24 April 2014, the central cooperative's Supervisory Board decided on a change in the structure of OP Financial Group's remuneration committees as part of the management system reorganisation. OP Financial Group previously had the following two Group-level remuneration committees that prepared, steered and supervised remuneration issues: OP-Pohjola Group's Remuneration Committee and the Supervisory Board's Remuneration Committee. Based on a decision made on 24 April 2014, the two Remuneration Committees were combined to form one OP-Pohjola Group's Remuneration Committee, currently called OP Financial Group's Remuneration Committee.

The Supervisory Board's Remuneration Committee had two meetings in 2014 before the structural change of the committees. Committee members included the Supervisory Board Chairman, Vice Chairman as his first deputy and three other members appointed by the Supervisory Board from among its members who in 2014 were Marita Marttila, Tapani Eskola and Timo Parmasuo. In addition to Committee members, the Chairman and Vice Chairman of the central cooperative's Executive Board and OP Financial Group's Executive Vice President, Human Resources participated in Remuneration Committee meetings.

OP-Pohjola Group's Remuneration Committee had five meetings in 2014 before the structural change of the previous two committees. The Committee comprised the Chairman of the Supervisory Board and the Vice Chairman as his first deputy. In addition to Committee members, the Chairman and Vice Chairman of the central cooperative's Executive Board and OP Financial Group's Executive Vice President, Human Resources participated in Remuneration Committee meetings.

The new OP Financial Group's Remuneration Committee based on the Supervisory Board's decision on 24 April 2014 had three meetings in 2014. In addition to Committee members, the Vice Chairman of the central cooperative's Executive Board and OP Financial Group's Executive Vice President, Human Resources participated in Remuneration Committee meetings. The average attendance rate of its members stood at 93%.

During 2014, the work of OP Financial Group's and its predecessors, OP-Pohjola Group Remuneration Committee and the Supervisory Board's Remuneration Committee, focused on controlling and assessing the development of remuneration schemes in view of EU-level remuneration regulation and of changes occurred in the Group structure. The Remuneration Committee's key aim was to ensure that remuneration policies and practices are in line with the Group's long-term interests

and that they are consistent with good and effective risk management and promote it. In 2014, the Committee prepared for changes caused by the delisting of Pohjola shares in the long-term management incentive schemes and specified procedures for identifying jobs involving a risk position to take account of legislative amendments.

Risk Management Committee

The Supervisory Board elects from among its members four Risk Management Committee members for a one-year term, who have adequate risk management competence in the financial sector, and appoints from among the Committee members a Chairman and Vice Chairman. The Chairman and Vice Chairman and one member are managing directors of Group member cooperative banks and one member must represent Group cooperative bank's administrative staff.

The Risk Management Committee assists the Supervisory Board in matters related to the central cooperative's and Group's risk-taking and risk management and risk-based supervision to ensure that the executive management conforms to the risk-taking policy laid out in the Group strategy and the risk limits determined by the Supervisory Board.

The Risk Management Committee assists the Supervisory Board to ensure that a sufficient risk management system is in place and that no exposure is so large that it can jeopardise the continuation of operations, capital adequacy, liquidity and strategy implementation. The Risk Management Committee, for example:

- considers the principles of the Group's risk management and capital adequacy management principles to be submitted to the Supervisory Board for approval, the principles of the control system required by mutual liability and the Group's risk limits;
- supervises compliance of the risk policy with the Group strategy and risk limits, the amount and quality of capital held by the Group and its entities, profit performance, risk exposure and compliance with the risk policy, risk limits and control limits;
- assesses the adequacy of the Group's risk limit system, the Group's risk exposure on the basis of risk analyses and the quality and sufficiency of the Group's risk management and capital adequacy management on the basis of various reports;
- monitors Group member cooperative banks' risk categories, the performance of the Executive Board's ALM and Risk Management Committee, risk assessments issued by the regulator, the development of the regulatory framework related to the Group in respect of risk management.

The year-end saw a decision to update the Group's brand in visual terms and in terms of corporate name change. The entire Group was renamed OP. The new brand differentiates the Group and builds on the history and values of the Group's various elements. At the same time, it gives the Group's bearings as it makes a new start.

At its meetings, the Executive Board also discussed, for instance, the annual plan, risk management and capital adequacy management principles and risk policies, and regularly analysed the financial performance of capital adequacy and risk exposure of the Group and its business segments. It also monitored the financial performance of the central cooperative consolidated and the implementation of key measures. At its meetings in 2014, the Executive Board regularly discussed and reviewed issues on an extensive basis related to competence development and remuneration.

Core values and the role of the Code of Ethics

OP Financial Group has defined core values guiding its operations, which, for their part, also serve as the Group's code of ethics. The Group's core values are as follows: People-first Approach, Responsibility, and Prospering together. In its operations, OP Financial Group also applies its Code of Business Ethics. The Code of Business Ethics provides an ethical framework for the conduct of all employees and members of governing bodies of OP Financial Group. In addition, ethics is guided by the general principles and guidelines governing the management of conflict-of-interest cases updated every year. These principles contain more detailed regulations and guidelines governing, for example, the identification and management of conflict-of-interest situations, compliance with good practice, acceptance of gratuities related to business, commitments and extramural activities of management and personnel, personal and related-party transactions and decisions, and measures required in a conflict-of-interest situation.

OP Financial Group's core values are presented in greater detail on OP Financial Group's website at www.op.fi > Group > Strategy and Values > Values.

OP Cooperative's structure and management system

The Supervisory Board confirms the division of responsibilities between the Executive Board's members while the Executive Board confirms the operational organisation of the central cooperative. Operational decision-making combines with legal decision-making through the Executive Board, whose control and supervisory responsibility covers the entire Group.

Management system of the central cooperative consolidated and central cooperative subsidiaries

In the entire central cooperative consolidated, decisions are made as extensively as possible at Group level by the central cooperative's Executive Board. The board of directors of each subsidiary discusses issued related to them primarily on the basis of the policy guidelines issued by the central cooperative's Executive Board or after hearing the Executive Board. In subsidiaries, board work is more technical in nature and the boards discuss issues required by laws.

The central cooperative's Executive Board decides on candidates for the subsidiaries' boards of directors, after which the board of directors is elected in a manner specified in the Articles of Association and laws in force from time to time. Basically, the subsidiaries' boards of directors comprise members of the central cooperative's Executive Board. Board members must demonstrate adequate knowledge of financial issues and the company's business or other qualifications required in the position as well as to have the opportunity to allow sufficient time to perform his duties.

The rules of procedures of the subsidiaries' boards of directors describe the tasks that each board carries out. They also describe the key decision-making levels. The boards of directors also annually draw up an action plan showing a meeting schedule and the most important items on each meeting's agenda. The boards of directors assess their performance and working methods on a regular basis.

The operations manager of the subsidiary's Managing Director chairs the subsidiary's board of directors.

OP Financial Group's operational organisation:

- 7 Internal and external control
- 7.1 Internal control

Effective and reliable internal control forms the basis for compliance with sound and prudent business practices.

Internal control refers to procedures or practices within the organisation to ensure that the organisation achieves the targets set in the strategy, uses resources economically and the information in support of management decisions is reliable. Internal control also ensures that risk management, custody of client assets and asset protection are adequately organised. Internal controls also ensure compliance with regulations and approved ethical principles.

OP Financial Group's internal control principles shall be approved by the central cooperative's Supervisory Board.

Internal controls cover all operations, involving all Group entities and sites. The nature and extent of operations and, whenever necessary, special characteristics related to international operations are taken into consideration in specifying internal controls. Internal control covers all organisational levels. Internal control in its most extensive form primarily takes place at the operational level, characterised by continuous processes and forming part of daily routines.

Internal control is complemented by the opportunity of anyone employed by OP Financial Group to report through an independent channel if they suspect that rules or regulations have been violated.

Internal control responsibilities and organisation

The board of directors of each OP Financial Group entity is tasked with ensuring that internal control is duly organised, taking account of the Group-wide internal control principles and the supplementary central cooperative guidelines. Each entity's managing director and executive management are responsible for ensuring internal control in practice and that duties are duly segregated among employees.

The centralised Compliance, Risk Management and Finance and Treasury functions assist Group entities in ensuring internal control effectiveness. In addition, Internal Audit assists in ensuring internal control effectiveness. Moreover, external auditors in particular ensure that financial information is correct in this respect.

Internal control in 2014

The executive management assessed the effectiveness of good corporate governance and internal control and identified areas in need of improvement. Internal guidelines are used to support operational management and compliance with these guidelines is subject to continuous supervision. In particular, the Audit Committee plays a major role in ensuring regulatory compliance with respect to the effectiveness and performance of internal control.

Autumn 2014 saw the introduction of a new corporate governance system. The OP Cooperative's Supervisory Board confirmed Group-level documents that are used to steer the Group's good corporate governance and internal control. In respect of the central cooperative consolidated, the current year has seen measures to harmonise and streamline the Fit & Proper process.

Internal audit

Internal Audit is responsible for Group-level internal auditing within OP Financial Group. Internal audit is aimed at assisting senior and operations management by performing audits to assess the achievement of the strategic and operational goals, the quality of risk management, the reliability of reporting, compliance with laws and instructions and the efficiency and appropriateness of operations. Internal audit is conducted in compliance with good internal auditing practice. The International Standards for the Professional Practice of Internal Auditing, issued by the Institute of Internal Auditors, and professional standards, issued by the Information Systems Audit and Control Association, and the code of ethics, among other things, provide the conceptual framework for good internal auditing practice. Audit planning, implementation and reporting form independent activities.

The Supervisory Board of OP Cooperative shall confirm the operating principles of OP Financial Group's Internal Audit. The Supervisory Board's Audit Committee shall confirm the Internal Audit action plan. The Chief Audit Executive shall regularly report his/her audits and any resulting observations to the Supervisory Board's Audit Committee and the central cooperative's Executive Board.

Internal audit in 2014

Approved by the central cooperative's Supervisory Board, the internal audit action plan for 2014 covered audits performed in both the central cooperative consolidated and Group member cooperative banks. The audits focused on the identification of risk factors and the assessment of the performance of internal control processes. In its reports, Internal Audit issues recommendations for remedying any defects discovered. Internal Audit performed audits according to the action plan and re-

ported the audits to the Audit Committee of the Supervisory Board, the management of the central cooperative consolidated and, with respect to Group member cooperative bank audits, to the banks' management.

Internal Audit regularly monitored the progress of the implementation of the recommendations issued on a half-yearly basis and regularly reported its monitoring observations to the Supervisory Board's Audit Committee and the management of the central cooperative consolidated.

Compliance

Managing compliance risks forms part of internal control and good corporate governance practices and, as such, an integral part of business management duties and the corporate culture. Responsibility for regulatory compliance and its controls within OP Financial Group entities rests with the senior and line management and all supervisors and managers. In addition, everyone employed by OP Financial Group is responsible for his own part for regulatory compliance.

The Compliance function assists senior management and executive management and business lines/divisions in the management of risks associated with regulatory non-compliance, supervises regulatory compliance and, for its part, develops internal control further. Guidelines, advice and support concerning compliance activities within OP Financial Group is the responsibility of operational risk management and the Compliance department within a risk management function independent of the central cooperative. Group member cooperative banks have their own designated compliance officers. Control, support and supervision of compliance activities for member cooperative banks are performed through the network of contact persons formed by the designated compliance officers.

Any observations made within compliance are reported regularly to the business line/division, OP Cooperative's Executive Board and the Supervisory Board's Risk Management and Audit Committees.

Risk management and capital adequacy management

OP Financial Group's core values, strategic goals and financial targets form the basis for risk management and capital adequacy management. The strategy outlines the Group's risk appetite and risk management priorities that help to ensure strategy implementation. Risk management is aimed at helping to achieve the targets set in the strategy by ensuring that risks are proportional to risk-bearing capacity.

Risk and capital adequacy management falls under internal control. Its purpose is to ensure the risk-bearing capacity and liquidity of OP Financial Group and its entities and thereby ensure continued operations. OP Financial Group's risk and capital adequacy management has been integrated as an integral part of the Group's business and its management.

Risk-bearing capacity involves a sufficient capital base and liquidity based on profitable business, and risk management quality and sufficiency in proportion to the nature and extent of business.

The most significant risks of OP Financial Group include credit risks, market risks, liquidity risks, insurance risks, concentration risks and strategic and operational risks, including compliance risks, associated with all business operations, and reputational risk. OP Financial Group adopts a policy of moderate risk-taking.

OP Cooperative's Supervisory Board confirms OP Financial Group's principles of risk and capital adequacy management. These principles define how the Group-level risk and capital adequacy management process is organised.

Risk management and internal capital adequacy assessment process (ICAAP) involves:

- identifying, measuring, assessing and mitigating risks;
- determining reliably and independently how much capital is required for various risks and business operations;
- allocating capital systematically by business segment in line with current and planned risk-taking; and
- managing the Group's liquidity.

In OP Financial Group's risk policy, the central cooperative's Executive Board confirms annually risk-management principles, actions, objectives and restrictions that the Group's business segments and entities must follow to implement the principles agreed on in the strategy.

Confirmed annually by the central cooperative's Supervisory Board, risk limits ensure that the Group does not take excessive risks to jeopardise its capital adequacy, profitability, liquidity and the continuation of operations. The Supervisory Board confirms annually limits for the central cooperative consolidated's entities and control limits for Group member cooperative banks derived from the Group's limits.

Risk and capital adequacy management's three lines of defence

The organisation and responsibilities of the Group's risk management and capital adequacy management are founded on three lines of defence shown below.

THREE DEFENCE LINES OF RISK MANAGEMENT

The first line consists of risk management applied within business and other operations. It supervises risk decisions and ensures that risk exposure and risk-bearing capacity are under sufficient Group-level control. Risk management is included in business models and processes.

The second line of defence consists of risk management independent of operational business organisations that is run from the central cooperative. It is in charge of the Group's risk management framework, controls the risk- decision process and is responsible for the Group's consolidated risk exposure management and risk-bearing capacity monitoring.

The third line of defence is centralised internal audit. It audits and evaluates both the Group's risk management framework and its application in the central cooperative and other Group entities.

Risk management in 2014

In risk management, 2014 included monitoring external regulatory changes and continuing to prepare for regulatory changes. Accordingly, significant changes include the liquidity requirement based on the EU's capital requirements regulation (CRR) that will enter into force in 2015 and the pan-European Solvency II regulation applying to insurance companies that will enter into force as of the beginning of 2016.

The ECB and national regulators conducted a comprehensive assessment in the largest banks within the EU that has been subject to direct supervision by the ECB since November 2014. The ECB's comprehensive assessment involved a review of the quality of receivables and a stress test. Implementing the review within OP Financial Group was one of the most important risk management tasks in 2014. The ECB's comprehensive assessment estimated that OP Financial Group's risk-bearing capacity is strong.

The Group prepared a regional support organisation for its small and mid-size member cooperative banks that will support these banks in the management and control of their credit risks and operational and compliance risks. The related activities came into operation in early 2015. In addition, the Group updated its risk management guidelines, risk reporting and risk limitation. The Group adopted new models for measuring economic capital related to credit risk and insurance market risks. The Group continued to further develop its risk management assessment processes and operational processes in order to ensure that risk management has been integrated as part of all business.

During 2014, extended financial sanctions increased the need for advice on KYC and sanctions. Practices related to the monitoring of compliance with sanctions were further developed in cooperation with business lines/divisions.

7.2 External control

Audit

OP Cooperative has one auditor, which must be a firm of authorised public accountants certified by the Finland Chamber of Commerce. The auditor shall also audit the consolidated financial statements as referred to in Section 9 of the Act on the Amalgamation of Deposit Banks.

The Cooperative Meeting shall elect the auditor, whose term of office expires upon the closing of the Annual Cooperative Meeting following its election. The Audit Committee of OP Cooperative's Supervisory Board puts audit services out to tender at some five years' interval (last time at the end of 2011), on the basis of which it proposes eligible auditors to the Annual Cooperative Meeting.

The auditor's remuneration is based on the invoiced amount.

The auditors are tasked with auditing the accounting, financial statements and governance of the Group and its entities and sub-groups in order to obtain assurance that the Group and its entities and administrative bodies act in compliance with applicable laws and that the financial statements have been prepared in compliance with the rules and regulations in force and give OP Cooperative's shareholders and other stakeholders a true and fair view of the financial position, financial performance and cash flows of the Group. In addition, the auditors regularly issue other statements on the basis of specific regulation applicable to the sector. The Supervisory Board's Audit Committee annually assesses the performance of

the auditor and the quality of advisory services. The auditors annually issue the Auditor's Report to the members of OP Cooperative in which they express their opinion on the financial statements and the Report by the Executive Board. Based on their observations, they also draw up audit memoranda delivered to the OP Cooperative's Executive Board, the President and Executive Chairman, the Supervisory Board's Audit Committee, the CRO, Internal Audit and the Finnish Financial Supervisory Authority, according to the subject matter concerned. Whenever necessary, auditors also issue oral reports to the aforementioned persons and bodies.

The Supervisory Board's Audit Committee consults the auditor when dealing with the Group's annual accounts and interim accounts, as well as the accounting policies. The auditors have a statutory obligation to notify the Financial Supervisory Authority of any matters or decisions that put operations and the existence of licence requirements at risk, or that result in an opinion in the Auditor's Report other than the unqualified opinion, as referred to in the Auditing Act, or result in an auditors' remark as referred to in Section 15, Paragraph 4 of the Auditing Act.

Audit in 2014

KPMG Oy Ab, a firm of authorised public accountants, has acted the central cooperative's auditor since 2002 with authorised public accountant Raija-Leena Hankonen as the Chief Auditor since 2014. KPMG Oy Ab, a firm of authorised public accountants, acts as the auditor of OP Cooperative Consolidated, i.e. the central cooperative consolidated, with auditors appointed by KPMG Oy Ab acting as chief auditors. Auditors acting as OP Financial Group member cooperative banks also include other firms of authorised public accountants and authorised public accountants, in addition to KPMG Oy Ab.

Audit is based on audit plans. Statutory audit of separate companies and their groups involves the audit of the entity's accounting, financial statements, report by the board and governance for the financial year. Capital adequacy measurement, derivatives business, property investment and insurance liability interest rate hedging included the priorities in statutory audit. In addition, all published interim reports and financial statements bulletins have been audited.

OP Cooperative Consolidated has used KPMG Oy Ab's advisory services related mainly to the comfort letters of bond programmed, ISAE 3042 verifications from centralised services, assignments related to structural changes in the central cooperative as well as tax counselling.

Audit fees for statutory audit are based an annual plan.

Audit fees for audit paid to auditors totalled EUR 2.2 million (1.8), whereas fees for assignments as referred to in Section 1, Sub-paragraph 1(2) of the Auditing Act were EUR 0.2 million (0.3), those for legal counselling EUR 0.1 million (0.2) and those for other services EUR 1.1 million (1.2).

Control within the amalgamation of OP Financial Group cooperative banks

The amalgamation comprises OP Cooperative as the central cooperative together with its member credit institutions and financial institutions and service companies over which they exercise control. OP Cooperative controls the amalgamation's operations and provides the companies within the amalgamation with guidelines for risk management, good corporate governance and internal control with the aim of safeguarding their liquidity and capital adequacy. The central cooperative may also confirm general principles to be followed by the member credit institutions in operations relevant to the amalgamation.

In addition, the central cooperative supervises the operations of its member credit institutions in the manner as referred to in "*Laki talletuspankkien yhteenliittymästä*" (Act on the Amalgamation of Deposit Banks).

Regulatory supervision

The Finnish Financial Supervisory Authority oversees OP Financial Group and its investment firms and insurance companies in Finland as prescribed in legislation governing financial and insurance markets. The Group's operations in Estonia, Latvia and Lithuania are supervised to an applicable extent by the national regulators.

OP Financial Group's credit institution was transferred to the direct supervision by the ECB in November 2014.

8 Financial reporting process

The different financial management units subordinate to OP Financial Group's CFO take charge of not only the preparation of interim and annual accounts for OP Financial Group and Group entities, as required by financial accounting, but also of the production of management accounting reports, such as monthly reports on business performance. The Control function within OP Financial Group also produces earnings forecasts and analyses the actual outcome in comparison with the forecasts and reports on any deviations.

This chapter, *Financial reporting process*, describes the main features of how OP Financial Group's internal control and risk management work with a view to ensuring that the Group's financial reports give substantially true information on the company's and its consolidation group's financial performance and position. Group-level financial information correctly consolidated using sub-ledger accounting and OP Financial Group companies' information forms the basis of reliable financial reporting.

OP Financial Group uses Group-wide financial reporting and risk reporting to monitor the achievement of its business goals and financial targets, and these reports are regularly reviewed at executive management and OP Cooperative's Executive Board meetings. Financial information in financial reports is compared with related plans and any differences are analysed and the report also describes earnings outlook for the current year and for a longer period of time. The very same principles apply to the monthly financial performance and risk report prepared by the management. When preparing and examining the report, the management ascertains the accuracy and correctness of the financial results and reporting by analysing the performance and risk exposure and any deviations from targets.

The Group's external reporting is based, for example, on the International Financial Reporting Standards, the Finnish Limited Liability Companies Act, the Act on Credit Institutions, the Insurance Companies Act, the Accounting Act, and the standards and regulations issued by the Financial Supervisory Authority. OP Financial Group's shared principles are applied in the accounting, financial statements and consolidated financial statements of OP Financial Group companies. Responsibility for the interpretation of, guidelines on and advice on standards, other laws governing the preparation of financial statements and official accounting requirements as well as the preparation of and compliance with common accounting policies rests with OP Central Cooperative, OP Financial Group's central cooperative. Whenever necessary, OP Cooperative turns to auditors who give a statement of the selected principles and interpretations.

Organisation of financial reporting

OP Cooperative's Executive Board is the highest decision-making body in matters associated with business control. The Executive Board must ensure that supervision of accounting and treasury is duly organised. It decides on reporting, procedures and qualitative and quantitative indicators used to assess operational efficiency and performance discusses and approves the consolidated financial statements and interim reports.

The Supervisory Board's Audit Committee is tasked with assisting the Supervisory Board to ensure firstly that the central cooperative and OP Financial Group have in place an adequate and well-functioning control system to cover all operations and secondly that the OP Cooperative's accounting and treasury control is organised appropriately. To perform its tasks, the Committee discusses the Group's accounting policies and capital adequacy assessment principles to be submitted to the Supervisory Board for adoption. It also supervises for its part financial reporting by

- assessing the Group's financial statements and interim reports and the financial statements of central cooperative consolidated;
- assessing the Corporate Governance Statement issued annually;
- assessing major or exceptional transactions and the related management judgement and estimates.

The President, Executive Chairman must ensure in accordance with the Cooperatives Act that the company's accounting is in compliance with applicable laws and treasury has been organised in a reliable manner. Responsibility for OP Financial Group's financial reporting rests with OP Cooperative's Finance and Treasury and Risk Management.

The Group has centralised the preparation of financial statements and interim reports independent of business lines/divisions. OP Financial Group's shared systems are primarily used in reporting. Operational duties related to financial and management accounting have also been centralised at central cooperative consolidated level.

Independent assessment of financial reporting

As provided by law, auditors shall assess the accuracy of financial reporting. The auditors are tasked with auditing the accounting, financial statements and governance of the company and its consolidation group in order to obtain assurance that the company and its administrative bodies act in compliance with applicable laws and that the financial statements have been prepared in compliance with the rules and regulations in force and give owners and other stakeholders a true and fair view of the financial performance and the financial position of the company and its consolidation group.

In its audits or processes, Internal Audit also assesses, when applicable, the effectiveness and adequacy of financial reporting, and reports these audits to the executive management and the Supervisory Board's Audit Committee. During its inspections, the Financial Supervisory Authority also oversees the financial reporting process and its effectiveness.

As part of the independent financial reporting assessment, auditors supplement the actual audit by inspecting the planning and effectiveness of controls within centralised functions according to ISAE 3402. Auditors report separately on this specific audit in accordance with this standard.

9 Remuneration

Remuneration within OP Financial Group

Within OP Financial Group, financial remuneration consists of fixed and variable remuneration. Variable remuneration involves both short-term and long-term performance-based bonuses.

A sufficiently large amount of the total remuneration must remain fixed. The proportion of variable remuneration may not exceed 100% of the total amount of each beneficiary's fixed remuneration. OP Cooperative's Supervisory Board defines this appropriate, reasonable balance between the fixed and variable pay.

Variable remuneration comprises a long-term management incentive scheme common to OP Financial Group member cooperative banks and the central cooperative consolidated and the personnel fund for all personnel as well as short-term schemes for each target group.

In its remuneration, the Group complies with provisions based on EU and national laws and guidelines issued by the European Central Bank, the Finnish Financial Supervisory Authority and other regulators. Remuneration policies governing OP Finan-

cial Group's employees and management are based on laws, provisions and recommendations applicable to the financial sector and on the Finnish Corporate Governance Code.

OP Financial Group's remuneration policy is consistent with sound and effective risk management and does not encourage excessive risk-taking. The incentive schemes are in line with the core values, goals and targets, and the business strategy, and agree with the Group's long-term interests. Remuneration may not lead to a situation that could jeopardise the general reliability of the incentive scheme, an owner-member's or customer's interests or the reputation of OP Financial Group or a Group company.

Decision-making related to remuneration

OP Cooperative's Supervisory Board and, depending on the matter concerned, OP Financial Group's Remuneration Committee or the Supervisory Board's presiding officers and boards of directors as well as the relevant Remuneration or HR Committee, which reviews the application of the schemes and assesses their effectiveness, deals with remuneration principles and policy lines within OP Financial Group.

For schemes applying to the entire Group, the decisions are made by the Supervisory Board or OP Financial Group's Remuneration Committee. A Supervisory Board member, who has no employment or executive contract with an OP Financial Group company, may be a Remuneration Committee member. Within the member cooperative banks, remuneration-related decisions are ultimately made by each bank's board of directors.

The Supervisory Board of OP Cooperative shall approve the Group's remuneration principles, decide on the long-term incentive scheme, confirm the general terms and conditions of the Group's remuneration schemes and issue recommendations for short-term incentive schemes. The Supervisory Board owns the long-term management incentive scheme and decides on its metrics, target levels and maximum bonuses. The presiding officers of the Supervisory Board decide on issues related to OP Cooperative Executive Board remuneration.

By order of the Supervisory Board, OP Financial Group's Remuneration Committee set up by the Supervisory Board shall monitor and supervise the effectiveness and competitiveness of the incentive schemes and the ability of the incentive structures to support the Group's long-term goals and targets. The Remuneration Committee shall annually approve and revise the Group's remuneration policies.

The HR Committee of OP Cooperative's Executive Board and the presiding officers of OP Cooperative's Supervisory Board act as bodies in charge of preparing remuneration issues. The Remuneration Committee of OP Financial Group acts as a body in charge of preparing remuneration issues for Group member cooperative banks' management.

Internal Audit shall annually review compliance with the remuneration and incentive scheme approved by the Supervisory Board.

Remuneration of management and administration

OP Financial Group's Remuneration Committee annually issues a recommendation to member cooperative banks on management remuneration. Such statement involves a recommendation on monthly emoluments and meeting attendance allowances of chairmen and members of member cooperative banks' supervisory boards and boards.

The Cooperative Meeting decides on emoluments and other benefits payable to the members of OP Cooperative's Supervisory Board,

OP Financial Group's short-term incentive schemes

Short-term remuneration is aimed at guiding, engaging and encouraging employees to achieve annual goals and targets and perform successfully, ensuring the achievement of the goals and targets deriving from the strategy, and rewarding them for achieving and exceeding challenging targets.

Every OP Financial Group member cooperative bank and the central cooperative consolidated entity decides for its part the objectives and metrics of short-term remuneration on the basis of the recommendations issued by OP Cooperative's Supervisory Board. The board of directors of each central cooperative consolidated entity confirm the inclusion of the entity in the remuneration scheme of the central cooperative consolidated.

Short-term bonuses are mainly paid in cash. With respect to its identified staff, OP Financial Group complies with the legal requirements for the deferment of bonuses and their payment using an instrument other than cash in case variable remuneration exceeds a defined level.

Within each organisation, the decision-making body in charge of the incentive scheme may change their terms and conditions of the short-term incentive scheme, cancel it during the year or defer the payment of bonuses if there has been a change in circumstances which would place the company in an unreasonable situation were the scheme implemented. A Group member cooperative bank or the central cooperative consolidated may withhold payment of bonuses partly or fully citing its financial position. It may also recover all or some of the bonuses paid out if their beneficiary has been found guilty of malpractice, has intentionally jeopardised the future of the business or violated the law.

OP Financial Group's long-term management incentive scheme

OP Financial Group's shared long-term management incentive scheme consists of three performance periods. The first period covered 2011–13 and the current performance period 2014–16.

The long-term management incentive scheme has Group-level targets. The primary performance metrics for the performance period of 2014–16 include growth in the number of customers using OP as their main bank and insurer, OP-Financial Group's EBT and the Group's Common Equity Tier 1 (CET1) ratio. In addition, the scheme takes account of profitability (return on economic capital) and capital adequacy under the Act on the Supervision of Financial and Insurance Conglomerates. No bonus will be paid if capital adequacy under said Act is less than the minimum 1.3 on the date of payout.

Some 350 OP Financial Group employees are included in the long-term management incentive scheme for the performance period that started in 2014.

Those included in the long-term management incentive scheme 2014–2016 may receive a specified quantity (staggered according to the job position) of debentures issued by Helsinki OP Bank Plc if the strategic targets set for OP Financial Group are

met during the performance period in question. The bonus based on the scheme will be paid out to the beneficiary in terms of debentures and cash and in three instalments in 2018, 2019 and 2020 after the performance period, provided that OP Financial Group's capital adequacy is higher than the minimum requirement on the payout date. Taxes and tax-like charges incurred by the beneficiary will form the portion paid in cash. Bonus payout includes conditions relating to the duration of employment or executive contracts and stipulations governing the hedging prohibition and the retention period. The hedging prohibition refers to a prohibition against use of financial instruments or insurance under the incentive scheme for hedging personal risks. The retention period means that the beneficiary must hold the debentures that he has received under the scheme for one year from the payout date.

OP Financial Group's long-term incentive scheme for other employees

The long-term incentive scheme for other employees is based on OP Financial Group Personnel Fund. Membership of the Fund is based on an employment contract. All those who have concluded an employment contract for an indefinite or fixed term with an OP Financial Group company belonging to the Fund are members of the Fund (excl. those included in the long-term management incentive scheme).

This long-term incentive scheme is grounded on the achievement of the Group's shared strategic goals and targets. The Group-level targets and performance metrics under the scheme based on the Personnel Fund are congruent with the targets under the long-term management incentive scheme. The board of directors of the company belonging to OP Financial Group's Personnel Fund shall annually decide on the amount of profit-based bonuses transferred to the Fund.
