ARCOMA and ZIEHM IMAGING AMERICAS Establish a Non-Exclusive Cooperation for Sales of Imaging Equipment and Patient Tables

FOR IMMEDIATE RELEASE - Mar 27, 2015 - Växjö, Sweden and Orlando, FL USA. Arcoma AB., a leading provider of high quality imaging tables and Ziehm Imaging Americas, a leading provider of intraoperative mobile imaging solutions, announce a non-exclusive sales cooperation.

The new cooperation will allow Ziehm Imaging access to Arcoma's broad range of mobile imaging tables, which will provide customers throughout the United States, more choices when selecting imaging tables to be used with Ziehm Imaging mobile c-arms. The Arcoma "Medstone-Elite" series of imaging tables are known for outstanding quality and designed for patient comfort in multiple applications. Ziehm mobile C-arms are known for their image quality, leading technology and innovation, ease of use and versatility for a broad range of applications including pain management, orthopedics, urology and vascular.

According to Michael Cordes, President of Arcoma NA, "We are very excited to be working with Ziehm. We believe the strong reputation for quality and the clinical utility of products from both companies complement each other well."

According to Johnny Drake, Vice President of Sales at Ziehm Imaging, "The addition of the Arcoma mobile imaging tables line will help leverage our position as a leading solutions provider in the intra-operative imaging market by offering our customers the ability to further customize their solution to best fit their needs."
