PRESS RELEASE

LINKÖPING, MARCH 31, 2015

Packaging manufacturer accelerates its global growth with IFS Applications

Comprehensive, single-instance IFS solution to be deployed throughout the company's global organization

IFS, the global enterprise applications company, announces that a Nordic manufacturer of packaging solutions has chosen **IFS Applications™** as its **ERP** system to support its current and future needs. The agreement includes licenses and services worth approximately SKr 11 million.

The company needed a new ERP solution that could support its mixed-mode manufacturing while enabling rapid global growth. After an extensive screening of the business software market, the company chose IFS Applications over competing solutions from vendors such as Microsoft and SAP.

IFS Applications will support business-critical processes including financials, engineering, supply chain, manufacturing, and service management.

About IFS

IFS™ is a globally recognized leader in developing and delivering business software for enterprise resource planning (ERP), enterprise asset management (EAM) and enterprise service management (ESM). IFS brings customers in targeted sectors closer to their business, helps them be more agile and enables them to profit from change. IFS is a public company (XSTO: IFS) founded in 1983 and currently has over 2,700 employees. IFS supports more than 2,400 customers worldwide from its network of local offices and through a growing ecosystem of partners. For more information visit: www.ifsworld.com.
