International access numbers

How to access your audio conference

UKPANBRI1

Simply dial one of the following numbers, then enter your PIN Code, followed by the # key

Frequently asked questions

Can my invited participants access from abroad?

Of course, you can use the international access numbers list provided by Arkadin Anytime. In some countries, you have the choice between a local toll and/or a toll-free number.

If my participants are in a country that is not listed, how do they access my Arkadin conference call?

If there is no number available for the country your participants are in, you can provide the toll number closest to their location.

Why would I provide my international conference call participants with a country-specific toll number?

Provide your participants with a country-specific toll number if you want your participants to share the cost of conducting your conference call. The country-specific international access numbers provided by Arkadin will allow your participants to dial a local number and be billed with local charges, which eliminates additional long distance country-to-country charges for your participants. The moderator still pays for the Arkadin Anytime service charges.

Why would I provide my international participants with a country-specific toll-free number?

You would provide a country specific toll-free number to your participants if you do not want them to pay to join your conference call. When participants use the international toll-free numbers, all charges will be billed to the Moderator of the conference, which includes the local toll-free charges + Arkadin Anytime service charges.

Playback

1. Dial your Conference Playback Number:
