

Traffic growth supported by strong Easter travel

Passenger numbers grew by 3.3% year on year in March, bringing the year-to-date increase in passenger numbers at Copenhagen Airport to 1.8%.

A total of 2,053,818 passengers travelled through the airport in March, which was a record for the month and the first time passenger numbers exceeded 2 million in the month of March.

"Strong international Easter traffic helped ensure solid growth in March. The month ended on a very positive note after being affected by strike action at the beginning of the month. Obviously, this resulted in a couple of weeks with lower-than-expected traffic, but we made up for the loss at the end of the month," said Thomas Woldbye, CEO of Copenhagen Airports A/S.

Intercontinental traffic was up by 7.0%, partly because Qatar Airways has added additional weekly frequencies. European traffic was up by 3.7%, and domestic traffic was down by 7.1%, which was expected due to Easter, which is traditionally a quiet period for domestic traffic.

In the first quarter of the year, almost 5.4 million passengers travelled through Copenhagen Airport, representing a 1.8% year-on-year increase.
