

MDxHealth Named Winner of Corporate LiveWire Innovation & Excellence 2015 Award

IRVINE, CA, and HERSTAL, BELGIUM – April 24, 2015 – MDxHealth SA (Euronext: MDXH.BR) announced today that it has been named as one of the winners of the Corporate LiveWire Innovation & Excellence Awards. The awards are in recognition of innovation and excellence that recipient companies, teams and individuals have shown amid ongoing global economic uncertainty.

"It is gratifying to see that MDxHealth, and the hard work and dedication of our employees, has been recognized by Corporate LiveWire," noted Dr. Jan Groen, CEO of MDxHealth. "The increased adoption of ConfirmMDx® for Prostate Cancer within the U.S. urology community, together with two other commercialized cancer tests based on our proprietary technology, has established MDxHealth as a market leader in the important and growing field of cancer epigenetics. Our ability to deliver cancer diagnostics, which provide actionable information to help doctors make more informed treatment decisions, can significantly improve patient outcomes. We are proud to be making a difference."

The Corporate LiveWire judges assess resilience, creativity and the ability to adapt within the ever-changing environments of the respective fields. The judging panel considered the strengths of each nominee, focusing on the most innovative, groundbreaking and client-focused firms, teams and individuals who transformed the way they do business to succeed in a dynamic market. Each winner was awarded based on merit; demonstrating excellence, innovation and strong leadership across various activities over the past calendar year.

In addition to MDxHealth, this year's winners include: deVere Group for Excellence in Independent Financial Advice, Cendyn, Chaturvedi & Shah, J. Knipper & Co, Spar Group, GCL New Energy Holdings, LinkedIn, Google, Deloitte and PwC. The full winners guide can be found at: <http://www.corporatelivewire.com/innovation-and-excellence-awards.html>

About MDxHealth

MDxHealth is a multinational healthcare company that provides actionable epigenetic information to personalize the diagnosis and treatment of cancer. The company's tests are based on proprietary gene methylation (epigenetic) technology and assist physicians with the diagnosis of cancer, prognosis of recurrence risk, and prediction of response to a specific therapy.
