

FINAL TERMS
OF
VARIABLE INTEREST RATE
CALLABLE AND NON-CALLABLE
COVERED MORTGAGE BONDS
ISSUED BY
NORDEA KREDIT REALKREDITAKTIESELSKAB
CAPITAL CENTRE 2
("Nordea Kredit")

These final terms (the “Final Terms”) apply to variable interest rate callable and non-callable covered mortgage bonds issued by Nordea Kredit in accordance with Nordea Kredit’s base prospectus for covered mortgage bonds issued in capital centre 2 dated 14 February 2014 and any prospectus supplements to this base prospectus (collectively the “Base Prospectus”). The Final Terms solely relate to the ISIN codes set out in the tables below (the “Covered Mortgage Bonds”).

Nordea Kredit hereby declares that:

- The Final Terms have been prepared in accordance with section 18 of the Danish Executive Order on Prospectuses for Securities Admitted to Trading on a Regulated Market and for Offers to the Public of Securities of more than EUR 5,000,000 and must be read in conjunction with the Base Prospectus.
- The Base Prospectus has been published electronically on Nordea Kredit’s website www.nordeakredit.dk and the Danish Financial Supervisory Authority’s website www.finanstilsynet.dk as well as on the NASDAQ OMX Copenhagen A/S website www.nasdaqomxnordic.com.
- For the full information investors must read both the Base Prospectus and the Final Terms.
- The summary for this specific issue is attached as an appendix to these Final Terms.

Information on historical CIBOR6 and CITA6 interest rates:

Information on the historical development of the CIBOR6 and CITA6 interest rates is available at the webpage of The Danish Bankers’ Association: www.finansraadet.dk.

Yield:

The method for calculation of the yield is described on page 21 of the Base Prospectus.

Negative interest:

The interest rate on covered mortgage bonds with adjustable interest rates opened before 19 May 2015 may become negative. In this case, however, Nordea Kredit will set the coupon for these bonds at 0 per cent.

For covered mortgage bonds with variable interest rates opened on 19 May 2015 or thereafter the following applies: The interest rate may become negative. If the interest rate for any payment term becomes negative Nordea Kredit has a claim on the investors in such bonds corresponding to the negative interest rate amount. This claim is due for payment on the payment date of the relevant payment term. The payment may be effected on the payment date in one of the following ways decided by Nordea Kredit: (1) by claiming the negative interest amount from investors by offsetting this against amounts relating to bonds drawn for redemption allotted to investors, or

(2) by an extraordinary writing down at par of investors' nominal holdings with VP SECURITIES A/S by offsetting the negative interest rate amount against amounts for redeemed bonds payable to the investors, or (3) using a combination of (1) and (2). A choice of one of the above three options is made for each individual interest payment date with a negative interest rate and may thus vary between interest payment dates. This choice will be announced through the systems of VP SECURITIES A/S or VP LUX S.à.r.l.

In tables 5 and 6 below it is indicated whether the interest rate can become negative for particular bonds.

Accrued interest:

Accrued interest from the latest payment date to the date of purchase must be paid by the investors.

Dealing arrangements:

Nordea Kredit has not entered into agreements with any entity on quoting bid and offer prices for the Covered Mortgage Bonds.

Information about prices and outstanding volume of covered mortgage bonds:

Prices and the outstanding volume of covered mortgage bonds are published on a current basis on the NASDAQ OMX Copenhagen A/S website: www.nasdaqomxnordic.com.

Conflicts of interest:

Nordea Kredit is not aware of any conflicts of interest that are material to Nordea Kredit in connection with the offer of the Covered Mortgage Bonds.

The Covered Mortgage Bonds are issued in capital centre 2. They have adjustable interest rates and are callable or non-callable.
