Planned Treasury bond issuance

It has been decided that two-, five-, and ten-year benchmark bonds may be offered during the quarter. The decision on which series will be offered each time will be announced two days before each auction. It is also possible that one or more auctions will be cancelled. This will depend on market conditions at the time in question.

Total Treasury bond issuance in the third quarter of the year is estimated at **5-15 b.kr.** Estimated maximum issuance in individual series, at market value, is set forth in the following table.

Treasury bond issuance in Q3/2015

Amounts in b.kr.	Issuance
Bond series	Maximum
RIKB 17 0206	7
RIKB 20 0205	7

Planned Treasury bill issuance

Treasury bill issuance will be similar to that in recent years. According to the issuance calendar for the year, the targeted end-2015 Treasury bill balance is about 30 b.kr. The current balance is 25.4 b.kr. The balance of outstanding bills could fluctuate within the year, however.

Further information on issuance of individual series of Treasury bonds and bills will be published a few days prior to each auction.
