Company Announcement No. 11-2015:

**Reports in the Russian and Danish media**

It has been reported in Russian and Danish media that FLSmidth has signed a EUR 60m contract with Pikalevo Soda for supplies of equipment and machinery for a dry sintering alumina line in Russia.

As stated in a press release of 8 July 2015, it is correct that FLSmidth has signed a contract with Pikalevo Soda, if and when the necessary pre-conditions in the contract have been finalised and the contract therefore becomes binding, we will immediately inform the market.

FLSmidth is continuously negotiating many potential contracts on the global market. To be considered binding, such contracts require not only signing but also exchange of down payment and guarantees, etc.

-----

Yours faithfully

Pernille Friis Andersen
