

INTERIM REPORT SECOND QUARTER 2015

TELE2

Continued strong momentum in mobile services

Q2 2015 HIGHLIGHTS

Strong mobile end-user service revenue for the Group

■ In the quarter net sales amounted to SEK 6,611 (6,343) million driven by strong performance in mobile end-user service revenue, which grew by 7 percent and amounted to SEK 3,324 (3,094) million.

EBITDA growth in mobile Tele2 Sweden

■ Mobile end-user service revenue in Tele2 Sweden amounted to SEK 1,829 (1,815) million in Q2 2015 and mobile EBITDA increased by 8 percent to SEK 843 (777) million, positively impacted by the dual brand strategy development. Customer net intake amounted to 52,000 (–8,000).

Tele2 Netherlands expanded its customer base for the 15th consecutive quarter

■ Tele2 Netherlands continued the expansion of its mobile customer base for the 15th consecutive quarter by adding 7,000 (27,000) customers reaching a total mobile customer base of 841,000 (768,000). Mobile end-user service revenue amounted to SEK 332 (308) million, growing by 8 percent in Q2 2015. Mobile EBITDA amounted to SEK –71 (–23) million, still affected

by higher national roaming costs due to rapidly growing data consumption and further investments to build the new MNO organization.

Strong customer intake for Tele2 Kazakhstan

■ Customer net intake in Tele2 Kazakhstan continued its positive momentum amounting to 471,000 (213,000) in Q2 2015. Improved quality of the customer intake and increasing data consumption supported the improved top-line development. As a result, mobile end-user service revenue grew by 65 percent (partially due to FX effects) in Q2 2015, amounting to SEK 371 (225) million despite increased competitive pressure. The EBITDA contribution amounted to SEK 9 (3) million. Improved operational scale and lower interconnect levels were off-set by higher acquisition costs and increased network costs as a result of higher net intake and the subsequent voice and data traffic growth.

CEO word, Q2 2015

The second quarter once again proved that the strategy to become a value champion is the right way forward. Our customer net intake was strong and we experienced a break-through by having the lowest churn in many quarters. Consideration for the Tele2 brand showed that the company is scoring amongst the highest compared to industry peers. Mobile end-user service revenue grew 7 percent in the quarter, and with data consumption surging, the platform from which to grow and continue to monetize on data, is definitely in place.

In Sweden, we saw a further increase in demand for mobile data and a strong positive net intake in the quarter. The quarter was characterized of a prepaid to postpaid conversion in the Comviq brand and as expected we saw revenue declines in prepaid and mobile broadband segments due to a lower customer stock compared to the same period last year. Mobile EBITDA contribution grew with 8 percent, mainly driven by the Tele2 brand and lower expansion costs. Tele2.0 has continued to perform well resulting in a positive development of customer satisfaction, leading to both lower churn and higher ASPU.

In Netherlands we expanded the coverage area of the new LTE-Advanced 4G-network, reaching 80 percent outdoor population coverage. The pace of transferring existing Tele2 mobile customers onto our new network increased and our residential mobile customer base continued to expand for the 15th consecutive quarter. The surge in data growth coupled with our dependency on an MVNO relationship will however continue to be a drag on EBITDA until full launch. In an effort to improve our fixed broadband business, Tele2 reached an agreement in July with the incumbent enabling us to offer higher fixed broadband speeds and improved services to our customers.

Despite the intense competition, Kazakhstan continued the positive momentum in customer net intake of 471.000 customers, reaching an all-time high customer base, and resulting in a strong mobile end-user service revenue growth compared to last year. Our tariff

“With loyal customers, high consideration, and the increasing data consumption, Tele2 is in a strong position to continue monetizing on data going forward.”

plans with bundled voice and data offerings are attracting customers and consideration for Tele2 is constantly growing. We also saw a positive increase in EBITDA compared to last year.

The Baltic region and Croatia showed a strong mobile end-user service revenue growth and solid EBITDA contribution in Q2 2015. The network upgrades to LTE/4G in all the Baltic countries are going according to plan and population coverage in Lithuania has now reached more than 80 percent.

Croatia’s network swap, announced last quarter, is progressing ahead of plan and the first phase is now complete, resulting in improved quality for our customers.

The Challenger program, which is expected to reap SEK 1 billion in net savings per year starting from 2018, is on track and we have now kicked off more than 30 initiatives. One of the initiatives initiated is the off-shoring of certain back office administrative tasks in both Finance and Customer operations to Riga and India respectively, allowing us to reduce labor costs, achieve scale synergies and make sustainable process improvements.

Being a Challenger defines our actions; we run to succeed, we continuously overcome obstacles in challenging environments, and we learn quickly. Our commercial strategy, Value champion, is yielding results. With loyal customers, high consideration, and the increasing data consumption, Tele2 is in an ever strong position to continue monetizing on data going forward.

Financial Overview

Tele2's financial performance is driven by a consistent focus on developing mobile services on own infrastructure, complemented in certain countries by fixed broadband services and business-to-business offerings. Mobile net sales, which grew compared to the same period last year, combined with greater efforts to develop mobile services on own infrastructure have had a positive impact on Tele2's mobile EBITDA. In addition, the Group will concentrate on maximizing the return from fixed-line services.

Net customer intake amounted to 540,000 (250,000) in Q2 2015. The customer net intake in mobile services amounted to 563,000 (286,000). This development was mainly driven by positive customer intake in Kazakhstan and Sweden. The fixed broadband customer base decreased by -13,000 (-9,000) customers in Q2 2015, primarily attributable to Tele2's operations in the Netherlands, Sweden, and Germany. As expected, the number of fixed telephony customers fell in Q2 2015 by -10,000 (-27,000). On June 30, 2015 the total customer base amounted to 14,341,000 (13,439,000).

Net sales in Q2 2015 amounted to SEK 6,611 (6,343) million. The net sales development was mainly a result of strong usage of mobile data services, leading to a mobile end-user service revenue growth of 7 percent. It was also positively impacted by strong equipment sales in anticipation of our MNO launch in the Netherlands. This positive development was to some extent hampered by negative net sales development within consumer fixed telephony and fixed broadband.

EBITDA in Q2 2015 amounted to SEK 1,393 (1,470) million, equivalent to an EBITDA margin of 21 (23) percent. EBITDA was negatively impacted by declines in our Fixed operations and the further investments to build the new MNO organization ahead of full scale launch in the Netherlands.

EBIT in Q2 2015 amounted to SEK 664 (790) million excluding one-off items and SEK 593 (791) million including one-off items. EBIT was affected by a one-off item of SEK -71 million related to the Challenger program (Note 2).

Profit before tax in Q2 2015 amounted to SEK 463 (1,030) million. The decrease is partly explained by the revaluation of the Kazakhstan put option last year which resulted in a positive one-off in Q2 last year of SEK 363 million.

Net profit in Q2 2015 amounted to SEK 309 (821) million. Reported tax for Q2 2015 amounted to SEK -154 (-209) million. Tax payment affecting cash flow amounted to SEK -104 (-46) million during the quarter. Deferred tax assets amounted to SEK 2.0 billion at the end of the quarter.

Free cash flow in Q2 2015 amounted to SEK -268 (274) million affected by a decrease in working capital SEK -404 (-11) million due to Tele2.0 launch and further investments in the Netherlands.

CAPEX in Q2 2015 amounted to SEK 1,134 (850) million, driven principally by increased investments in mobile networks in Netherlands, Sweden and Kazakhstan.

Net debt amounted to SEK 11,178 (9,268) million on June 30, 2015, or 1.89 times 12-month rolling EBITDA impacted by dividend payment. Tele2's available liquidity amounted to SEK 8,139 (8,661) million. See Note 3 for further information on financial debt.

Financial guidance

The guidance provided by Tele2 AB in connection with Q4 2014 remains unchanged, and are for 2015 for continuing operations the following:

- Mobile end-user service revenue growth of mid-single digits.
- Net revenue of between SEK 25.5 and 26.5 billion.
- EBITDA of between SEK 5.8 and 6.0 billion.
- CAPEX level of between SEK 3.8 and 4.0 billion.

Tele2 expects the restructuring costs to be around SEK 200 million in The Challenger Program in 2015. These will be treated as one-off items, and therefore excluded from the EBITDA guidance indicated above.

The Challenger program

A group-wide program focused on increasing productivity was launched in previous quarter. The program will build over 3 years and is expected to reap full benefits of SEK 1 billion per annum starting in 2018. The investment required will be SEK 1 billion, phased over 3 years. All program investments are, and will be, reported as one-off items, affecting EBIT.

Shareholder remuneration

Tele2 has adopted a progressive ordinary dividend policy which aims to deliver 10 percent growth per annum in the coming 3 years.

Authorization to pay extraordinary dividends will be sought when the company has excess capital.

Pursuant to the approval received at the 2015 AGM, Tele2 has the authorization to repurchase up to 10 percent of its share capital.

Balance sheet

Tele2 believes the financial leverage should be in line with both the industry and the markets in which it operates and reflect the status of its operations, future strategic opportunities and obligations. This would imply a target net debt to EBITDA ratio of 1.5–2.0x over the medium term.

Sweden

Total net sales in Q2 2015 was SEK 3,101 (3,111) million, and EBITDA amounted to SEK 908 (882) million.

The quarter was characterized by a maintained strong demand for mobile data and prepaid to postpaid conversion in the Comviq brand. As expected the company saw revenue declines in the prepaid and mobile broadband segments due to a lower customer stock compared to the same period last year.

The business segment continued to grow in the quarter and data usage continued to increase compared to the same period last year. Customer intake was strong, primarily driven by the Large Enterprise segment where Tele2 Sweden was awarded several large contracts, among others Göteborgs Stad.

Mobile In Q2 2015, net sales amounted to SEK 2,744 (2,724) million and mobile end-user service revenue amounted to SEK 1,829 (1,815) million. The underlying revenue growth was strong in the post-paid segment mainly driven by Comviq, and declined as expected in the prepaid segment. Customer net intake was positive 52,000 (-8,000) driven by both brands and all segments, including mobile broadband. The EBITDA contribution grew by 8 percent, primarily attributable to Tele2, and amounted to SEK 843 (777) million due to lower expansion costs which was partly off set by higher network costs due to geographic expansion.

Our dual brand strategy in the consumer postpaid segment has developed according to plan and the segment showed a continued growth driven by high demand for mobile data. The recently launched larger data buckets are appreciated by the customers and are encouraging increased data usage which further enables Tele2 to monetize on data going forward. Tele2.0 has continued to perform well resulting in both lower churn and higher ASPU. Additional proof points of the value of Tele2.0 is that brand consideration as well as Net Promoter Score have shown a positive development since launch.

Tele2 Sweden's overall sales in digital channels continued to increase and the customer satisfaction in customer service is on a high level with CSAT (Customer Satisfaction) at 83 percent (world class benchmark is 85 percent).

Fixed broadband The EBITDA contribution decreased in Q2 2015 compared to same period previous year and amounted to SEK 18 (25) million.

Fixed telephony The EBITDA contribution in the quarter amounted to SEK 35 (57) million. Tele2 Sweden saw a continued decrease in demand for fixed telephony as a consequence of the increased demand for mobile bucket price plans.

Netherlands

In the second quarter Tele2 Netherlands rapidly expanded the coverage area of its new LTE-Advanced 4G-network, reaching 80 percent outdoor population coverage. The transferring of the existing mobile customers onto our new network continued during the quarter.

Meanwhile, the consumer mobile customer base continued to grow, expanding for the fifteenth consecutive quarter. In the B2B market, Tele2 continued to be successful in the extensive tender process of the Dutch Government.

Mobile Tele2 Netherlands added 7,000 (27,000) customers, bringing the total mobile customer base to 841,000 (768,000). End-user service revenue grew by 8 percent to SEK 332 (308) million driven by a larger customer base and continuing growth in mobile data usage. EBITDA contribution amounted to SEK -71 (-23) million, impacted negatively by the increasing traffic and costs associated with the MVNO agreement as well as building the MNO organization.

MNO launch Tele2 continued to deliver more key mobile sites in the Randstad area, in combination with building geographic reach across the rest of the country. This resulted in a significant improvement in population coverage and reinforced Tele2 Netherlands' expectation to reach nationwide coverage before the end of Q1 2016.

Fixed broadband At the end of the second quarter, the company had a fixed broadband base of 355,000 (367,000) customers. EBITDA contribution declined compared to same quarter last year, due to higher churn and more off-net traffic, and amounted to SEK 140 (169) million. In the B2B market, Tele2 launched a significant campaign offering existing fixed customers the opportunity to consolidate their communications with the converged fixed and mobile services of Tele2.

Kazakhstan

Mobile In Q2 2015, Tele2 Kazakhstan continued its positive momentum with customer net intake of 471,000 (213,000) resulting in a record high customer base of 4,200,000 customers. Despite an intense price competition Tele2's tariff plans with bundled voice and data offerings, are attracting high quality customers. The consideration among customers to purchase Tele2 improved further in the quarter.

Mobile end-user service revenue grew by 65 percent (partially supported by FX), compared to the same quarter previous year, and amounted to SEK 371 (225) million. Mobile data traffic increased by more than 200 percent compared to the same period last year.

The EBITDA increased to SEK 9 (3) million, attributable to improved operational scale and lower interconnect levels. However, the positive development was to some extent off-set by higher customer acquisition costs and increased network costs as a result of higher net intake compared to last year and subsequent voice and data traffic growth. Furthermore, competition in the market continues to be intense.

Tele2 continued to expand geographical coverage, increasing capacity for accommodating higher traffic volumes and improving the quality of customer intake.

Croatia

Mobile In Q2 2015, Tele2 Croatia's customer net intake was positive and amounted to 19,000 (45,000). The decline compared to last year is, as expected, due to the structural decline in the prepaid market, but also due to a focus towards attracting customers that churn less.

Mobile end-user service revenue increased 7 percent compared to last year and amounted to SEK 210 (196) million.

EBITDA contribution amounted to SEK 34 (33) million, corresponding to an EBITDA margin of 10 percent in the quarter. The result is negatively affected by the recently implemented frequency charges in 2015 which in the quarter amounted to SEK 19 million.

The first phase of the network swap, announced last quarter, is now complete and resulted in improved quality.

Lithuania

Mobile Tele2 Lithuania's mobile end-user service revenue grew with 4 percent compared to last year and amounted to SEK 222 (213) million. The customer net intake in the quarter was 0 (-4,000) and a positive MNP (mobile number portability) in the quarter, enabled the company to maintain its market share position.

During the quarter, EBITDA development was positive and amounted to SEK 132 (127) million, mainly driven by higher mobile data usage. Tele2 Lithuania's EBITDA margin was 35 (38) percent.

In Lithuania, Tele2 continued the LTE network rollout and is now covering around 60 major cities and main roads with population coverage above 80 percent. The company has also launched the LTE Advanced network and LTE roaming services. Furthermore, the company continued its focus on selling LTE enabled smart phones, which in the quarter accounted for more than half of total sales of smart phones.

In cooperation with various partners, Tele2 Lithuania continued to offer new products for business and private customers.

Latvia

Mobile Tele2 Latvia's mobile end-user service revenue grew with 8 percent to SEK 145 (134) million, positively impacted by the continued positive trend with growing mobile data usage, value added services and an increasing amount of postpaid subscribers with higher ASPU. Customer net intake was positive 10,000 (1,000) as a result of Tele2 Latvia's increased commercial efforts to attract new customers. The customer satisfaction in the quarter hit an all-time high.

EBITDA contribution was SEK 70 (67) million, leading to an EBITDA margin of 30 (30) percent.

During the quarter Tele2 Latvia focused on strengthening its market position through a clear mobile data position, customer satisfaction and strong emphasis on LTE infrastructure rollout.

Using previously acquired 800 MHz frequency, Tele2 Latvia deployed LTE infrastructure which now serves 90 percent of the population.

Estonia

Mobile Due to a high quality network and strong demand for data services, Tele2 Estonia's mobile end user service revenue grew 6 percent and amounted to SEK 103 (97) million. In the quarter, net customer intake was 0 (-6,000).

EBITDA declined to SEK 30 (32) million mainly due to higher network costs (additional LTE technology) and higher acquisition costs resulting from the strong competitive environment.

Tele2 continued its fast 4G rollout during the quarter. Tele2 Estonia customer satisfaction continued to improve in Q2 2015.

Austria

In the quarter, Tele2 Austria had a negative customer net intake of -5,000 (-6,000) due to market decline within the residential fixed telephony and broadband segments. Net sales amounted to SEK 297 (299) million and EBITDA amounted to SEK 43 (58) million, mainly due to the decline within the residential customer base. Tele2 Austria will continue to focus on retention and selective growth in the residential segment as well as prepare for the launch of the B2B MVNO offering that will take place later this year.

Germany

Net sales in the quarter amounted to SEK 209 (226) million and EBITDA to SEK 26 (31) million. Planned changes in the provisioning of new mobile customers, and a focused shift to an improved customer value, explains the moderate net intake of mobile customers which was 4,000 (18,000). Mobile end-user service revenue grew 6 percent compared to same period last year and amounted to SEK 112 (106) million. Residential and Business broadband customer base declined. Fixed line business continues to deliver good profitability and the company is focusing on retaining the current customer base.

Consistent with our corporate strategy, restructuring initiatives under the Challenger program is initiated in Tele2 Germany.

Other items

Risks and uncertainty factors

Tele2's operations are affected by a number of external factors. The risk factors considered to be most significant to Tele2's future development are operating risks, such as the availability of frequencies and telecom licenses, integration of new business models, changes in regulatory legislation, data privacy, dependency on suppliers and business partners, operation in Kazakhstan, geopolitical risks, and financial risks such as currency risk, interest risk, liquidity risk and credit risk. In addition, to the risks described in Tele2's annual report for 2014 (see Directors' report and Note 2 of the report for a detailed description of Tele2's risk exposure and risk management), no additional significant risks are estimated to have developed.

Auditors' review report

Introduction

We have reviewed the interim report for Tele2 AB (publ.) for the period January 1 – June 30, 2015. The Board of Directors and the President are responsible for the preparation and presentation of this interim report in accordance with IAS 34 and the Annual Accounts Act. Our responsibility is to express a conclusion on this interim report based on our review.

Scope of Review

We conducted our review in accordance with International Standard on Review Engagements 2410, Review of Interim Financial Information Performed by the Independent Auditor of the Entity.

A review consists of making inquiries, primarily of persons responsible for financial and accounting matters, and applying analytical and other review procedures. A review has a different focus and is substantially less in scope than an audit conducted in accordance with ISA and other generally accepted auditing practices. The procedures performed in a review do not enable us to obtain a level

of assurance that would make us aware of all significant matters that might be identified in an audit. Therefore, the conclusion expressed based on a review does not give the same level of assurance as a conclusion expressed based on an audit.

Conclusion

Based on our review, nothing has come to our attention that causes us to believe that the interim report is not, in all material respects, prepared for the Group in accordance with IAS 34 and the Annual Accounts Act, and for the Parent Company in accordance with the Annual Accounts Act.

Notes

TELE2 IS ONE OF EUROPE'S FASTEST GROWING TELECOM OPERATORS, ALWAYS PROVIDING CUSTOMERS WITH WHAT THEY NEED FOR LESS.

We have 14 million customers in 9 countries. Tele2 offers mobile services, fixed broadband and fixed telephony, data network services, and content services. Ever since Jan Stenbeck founded the company in 1993, it has been a tough challenger to the former government monopolies and other established providers. Tele2 has been listed on the NASDAQ OMX Stockholm since 1996. In 2014, we had net sales of SEK 26 billion and reported an operating profit (EBITDA) of SEK 5.9 billion.

One-off items in segment reporting

Sale of operations

The sale of the Swedish residential cable and fiber operations was completed in Q1 2014 and the capital gain amounted to SEK 258 million.

Challenger program: restructuring costs

In 2014, Tele2 announced its Challenger program, which is a program to step change productivity in the Tele2 Group. The program will strengthen the organization further and enable it to continue to challenge the industry. The costs associated with the program amounted in Q2 2015 to SEK –71 million and refer mainly to employee redundancy costs and external consultancy project costs.

The costs associated with the program are reported in the income statement on the following items.

Classification and fair values

Tele2's financial assets consist mainly of receivables from end customers, other operators and resellers as well as cash and cash equivalents. Tele2's financial liabilities consist mainly of loans, bonds and accounts payables. Classification of financial assets and liabilities including their fair value is presented below. During the first six months 2015, compared to year-end 2014, no transfers were made between the different levels in the fair value hierarchy and no significant changes were made to valuation techniques, inputs used or assumptions.

The valuation of the put option for Tele2 Kazakhstan held by the non-controlling shareholder amounting to SEK 887 (887) million was based on the net present value of future cash flows per Tele2's business plan for Tele2 Kazakhstan. The valuation is sensitive to changes in projected revenue growth, profit margins, investment levels and discount rates. The present valuation also considers the risk for a devaluation of the Kazakh tenge.

The Group has derivative contracts which are covered by master netting agreements. That means a right exists to set off assets and liabilities with the same party, which is not reflected in the accounting where gross accounting is applied. The value of these derivatives at June 30, 2015 amounted on the asset side to SEK 10 (47) million and on the liabilities side to SEK 229 (294) million of which SEK 4 (28) million can be netted against the asset side.

NOTE 4 OTHER FINANCIAL ITEMS

In Q1 2015, the cash flow was negatively affected by SEK 130 million related to currency derivatives designated for hedge accounting.

Other financial items in the income statement consist of the following items.

| SEK million | 2015 Jan 1– Jun 30 | 2014 Jan 1– Jun 30 | 2014 Full year | 2015 Q2 | 2014 Q2 |

In Q2 2014, financial items in the income statement was positively affected by SEK 363 million, due to a revaluation of the put option of the business in Kazakhstan. The change was related to the devaluation of the Kazakhstan currency as well as increased financing provided by Tele2.

NOTE 5 TAXES

During the first six months 2015, the effective tax rate was mainly affected by below stated items, indicating an underlying effective tax rate of 21 (23) percent. The decrease on the previous year's figure was mainly due to the fact that countries with a higher tax rate, such as Netherlands, having relatively lower impact on the result than countries with lower tax rate, such as Sweden.

In 2015, additional sites were transferred from Tele2 and Telenor to their joint operation Net4Mobility. The transfers did not have any material effect on Tele2's financial statements. Apart from transactions with joint operations, no other significant related party transactions were carried out during 2015. Related parties are presented in Note 37 of the Annual Report 2014.

NOTE 7 CAPEX

In Q1 2014, Tele2 Estonia acquired two mobile licenses in the 800 MHz and 2100 MHz frequency bands for SEK 54 million and in Q4 2014, Tele2 Estonia sold a mobile license in the 2600 MHz frequency band for SEK 24 million.

| Asset dismantling obligation | 134 | 137 |
| Dispute KPN, Netherlands | 80 | 83 |
| Tax dispute, Russia | 100 | 90 |
| Total contingent liabilities | 314 | 310 |

Tele2 has obligations to dismantle assets and restore premises within fixed telephony and fixed broadband in the Netherlands as well as in Austria. Tele2 assesses such dismantling as unlikely and consequently only reported this obligation as contingent liabilities.

Tele2 Netherlands is, in the ordinary course of its business, involved in several regulatory complaints and disputes pending with the appropriate governmental authorities. In a specific case regarding the rental fees of copper lines, which Tele2 Netherlands uses as part of its fixed operations, the regulator (ACM) has determined that the rental fees are to be adjusted with retroactive effect from 2009. This has resulted in a claim from KPN amounting to EUR 8.7 million (SEK 80 million) and is subject to pending appeals and court cases. Our assessment is that it is unlikely that Tele2 will have to pay these fees and consequently no provision has been made. We expect the Administrative Court to give its ruling in Q4 2015 or later.

The tax authorities in Russia are currently performing tax audits on several of Tele2's former subsidiaries in Russia. Per the sales agreement with the VTB-Group Tele2 is liable for any additional taxes payable as result of the tax audits. On June 30, 2015 Tele2 has won tax disputes of SEK 236 million, of which the Russian tax authorities has appealed SEK 122 million. In addition, Tele2 has lost tax disputes of SEK -12 million, of which Tele2 has appealed SEK -8 million. A decrease from last quarter as Tele2 has won several tax disputes in Russian courts. In Q1 2015, Tele2 made an additional provision for one tax dispute of SEK 6 million. On June 30, 2015 total provisions for Russian tax disputes amounted to SEK 11 million. Even though it cannot be ruled out that Tele2 may be liable to certain costs, Tele2 assesses that it is not likely that any additional taxes need to be paid and consequently no additional provisions have been made.

Additional contractual commitments are stated in Note 30 in the Annual Report 2014.

NOTE 9 EQUITY AND NUMBER OF SHARES

| | Jun 30, 2015 | Dec 31, 2014 |

As a result of share rights in the LTI 2011 being exercised during Q1 and Q2 2015, Tele2 delivered 26,032 and 8,307 B-shares respectively, in own custody to the participants in the Plan. As a result of share rights in the LTI 2012 being exercised during Q2 2015, Tele2 delivered an additional 431,055 B-shares in own custody to the participants in the Plan.

In Q1 2015, 1,700,000 class C shares in own custody were reclassified into class B shares in own custody.

Dividend

In Q2 2015, Tele2 paid to its shareholders a dividend for 2014 of SEK 4.85 (4.40) per share and an extraordinary dividend of SEK 10.00 per share. This corresponded to a total of SEK 6,626 (1,960) million.

Long-term incentive program (LTI)

Additional information related to LTI programs is presented in Note 34 of the Annual Report 2014.

LTI 2015

| | 2015 Jan 1–Jun 30 |
|---------------------------------------|----------------------|
| Number of share rights | |
| Allocated June 8, 2015 | 1,239,935 |
| Total outstanding share rights | 1,239,935 |

During the Annual General Meeting held on May 19, 2015, the shareholders approved a retention and performance-based incentive program (the Plan) for senior executives and other key employees in the Tele2 Group. The Plan has the same structure as last year's incentive program.

The objective of the Plan is to create conditions for retaining competent employees in the Tele2 Group. The Plan has been designed based on the view that it is desirable that senior executives and other key employees within the Group are shareholders in Tele2 AB. By offering an allotment of retention rights and performance rights which are based on profits and other retention and performance-based conditions, the participants are rewarded for increasing shareholder value. Furthermore, the Plan rewards employees' loyalty and long-term growth in the Group. In that context, the Board of Directors is of the opinion that the Plan will have a positive effect on the future development of the Tele2 Group and thus be beneficial to both the company and its shareholders.

The incentive program included a total of 197 senior executives and other key employees within the Tele2 Group. In general, the participants in the Plan are required to own shares in Tele2. Thereafter, the participants were granted retention rights and performance rights free of charge. In the event delivery of shares under the plan cannot be achieved at reasonable costs, with reasonable administrative efforts or due to market conditions, participants may instead be offered a cash-based settlement. Outstanding share rights that will be settled in cash are remeasured to fair value in each period and the obligation is reported as a liability.

Subject to the fulfilment of certain retention and performance-based conditions during the period April 1, 2015 - March 31, 2018 (the measurement period), the participant maintaining employment within the Tele2 Group at the release of the interim report January - March 2018 and subject to the participant maintaining the invested shares (where applicable) during the vesting period, each right entitles the employee to receive one Class B share in the company. Dividends paid on the underlying share will increase the number of shares that each retention and performance right entitles to in order to treat the shareholders and the participants equally.

The rights are divided into Series A (retention rights) and Series B and C (performance rights). The number of shares the participant will receive depends on which category the participant belongs to and on the fulfilment of the following defined conditions:

Series A Tele2's total shareholder return on the Tele2 shares (TSR) during the measure period exceeding 0 percent as entry level.

Series B Tele2's average normalized return of capital employed (ROCE) during the measurement period being at least 9 percent as entry level and at least 12 percent as the stretch target.

Series C Tele2's total shareholder return on the Tele2 shares (TSR) during the measure period being equal to the average TSR for a peer Group including Elisa, Iliad, Millicom International Cellular, TalkTalk Telecom Group, Telenor, TeliaSonera and TDC as entry level, and exceeding the average TSR for the peer Group with 10 percentage points as the stretch target.

The determined levels of the conditions include an entry level and a stretch target with a linear interpolation applied between those levels as regards the number of rights that vests. The entry level constitutes the minimum level which must be reached in order to enable the vesting of the rights in that series. If the entry level is reached, the number of rights that vests is 100 percent for Series A and 20 percent for Series B and C. If the entry level is not reached, all rights to retention and performance shares (as applicable) in that series lapse. If a stretch target is met, all retention rights or performance rights (as applicable) vest in that series.

The Plan comprised a total number of 271,107 shares. In total this resulted in an allotment of 1,239,935 share rights, of which 271,107 Series A, 484,414 Series B and 484,414 Series C. The participants were divided into different categories and were granted the following number of share rights for the different categories:

| At grant date | No of participants | Maximum no of shares | Share right | | | | Total allotment |
|---|--------------------|----------------------|-------------|-----|-----|-----|------------------|
| | | | per Series | | | Tot | |
| | | | A | B | C | | |
| CEO | 1 | 8,500 | 1 | 3.5 | 3.5 | 8 | 68,000 |
| Other senior executives and other key employees | 9 | 4,500 | 1 | 3 | 3 | 7 | 283,500 |
| Category 1 | 40 | 2,000 | 1 | 1.5 | 1.5 | 4 | 280,845 |
| Category 2 | 52 | 1,500 | 1 | 1.5 | 1.5 | 4 | 278,722 |
| Category 3 | 95 | 1,000 | 1 | 1.5 | 1.5 | 4 | 328,868 |
| Total | 197 | | | | | | 1,239,935 |

Total costs before tax for outstanding rights in the incentive program are expensed over the three-year vesting period, and these costs are expected to amount to SEK 83 million, of which social security costs amount to SEK 28 million.

The participant's maximum profit per share right in the Plan is limited to SEK 329, four times the average closing share price of the Tele2 Class B shares during February 2015 with deduction for the dividend paid in May 2015.

The estimated average fair value of the granted rights was SEK 71 on the grant date, June 8, 2015. The calculation of the fair value was carried out by an external expert. The following variables were used:

| | Series A | Series B | Series C |
|---|------------|------------|------------|
| Expected annual turnover of personnel | 7.0% | 7.0% | 7.0% |
| Weighted average share price | 101.42 | 101.42 | 101.42 |
| Expected life | 2.87 years | 2.87 years | 2.87 years |
| Expected value reduction parameter market condition | 75% | - | 35% |
| Estimated fair value | 76.10 | 101.40 | 35.50 |

To ensure the delivery of Class B shares under the Plan, the Annual General Meeting decided to authorise the Board of Directors to resolve on a directed issue of a maximum of 2,300,000 Class C shares and subsequently to repurchase the Class C shares. The Class C shares will then be held by the company during the vesting period, after which the appropriate number of Class C shares will be reclassified into Class B shares and delivered to the participants under the Plan. The Board of Directors has not yet used the mandate.

Divestments

4T Sverige (WyWallet), Sweden

On April 30, 2015 Tele2 announced, together with Telia, Telenor and Tre, the sale of its Swedish joint venture 4T Sverige AB to PayEx. The sales price for Tele2's 25 percent of ownership amounted to SEK 1 and the capital loss amounted to SEK -5 million. 4T Sverige AB offers payment services through WyWallet and in connection with the sale an agreement was made to continue to offer WyWallets services via the mobile operators' invoices. WyWallet has had no significant impact on Tele2's income statement during the periods presented.

Discontinued operations

On February 5, 2015 the Norwegian competition authorities announced that they have approved Tele2's divestment of its Norwegian operations to TeliaSonera announced in July 2014. The Norwegian operations were sold for SEK 5.1 billion and resulted in a capital gain in Q1 2015 of SEK 1.7 billion, including transaction costs

and costs for central support system for the Norwegian operation. The capital gain include a positive effect of SEK 89 million related to exchange rate differences previously reported in other comprehensive income which have been recycled over the income statement but with no effect on total equity.

On April 4, 2013 Tele2 completed the divestment of the Russian operation.

The divested operations, including capital gain, has been reported separately under discontinued operations in the income statement, with a retrospective effect on previous periods.
