11 August 2015

Quarterly Report Q2 2015

As a consequence of the divestment of the assets in Solar Deutschland GmbH, the stated figures for 2014 and 2015 in this announcement relate to the continuing operations.

The Solar Group's Q2 2015 revenue and EBITA were better than expected. We raise our expectations for both revenue and EBITA for the full year.

CEO Anders Wilhjelm says:

"Solar saw growth in all markets in the second quarter. We are pleased about our business' continued momentum and raise our expectations for 2015. At the same time, we work determinedly on increasing our profitability and strengthening our customers' businesses – we want to make our customers winners. In the Netherlands, we have now completed a business consolidation, so that all customers have the benefit of full access to Solar's products and services as well as one comprehensive network of branches. At the same time, the entire integration in the Netherlands is a really great example of how we have succeeded to reduce internal complexity."

Salast kay figures (DKK million)	Q2 2015	Q2 2014	H1 2015	H1 2014
Select key figures (DKK million)	2013	2014	2013	2014
Revenue	2,674	2,476	5,319	5,061
EBITA	48	0	108	38
Earnings before tax	30	-24	70	-13

Select key ratios (%)				
Organic growth	9.4	-3.4	7.0	0.1
EBITA margin	1.8	0.0	2.0	0.8
Period-end net working capital/revenue (LTM)	12.4	13.3	12.4	13.3
Average net working capital/revenue (LTM)*	12.0	12.4	12.0	12.4

^{*} Calculated as an average of the last four quarters' inventories, debtors and creditors.

Q2 2015 revenue

- The group's revenue exceeded our expectations.
- Organic growth amounted to 9.4% against -3.4% in Q2 2014. Adjusted for the number of working days, organic growth amounted to 10.1% against -2.3% in Q2 2014.

Q2 2015 EBITA

- EBITA for the group exceeded our expectations.
- Q2 2014 EBITA was affected by restructuring costs of DKK 10m and Solar 8000 costs of DKK 8m.

Expectations for 2015

- We raise our expectations for 2015, for which we now expect revenue between DKK 10.5-10.8bn against the previous DKK 10.0-10.3bn and EBITA between DKK 240-290m against the previous DKK 200-250m.
- For Solar in total we expect organic growth between approximately 4% and 7% in 2015.

Q2 presentation – audio webcast and teleconference today

The presentation of Quarterly Report Q2 2015 will be transmitted online on Tuesday 11 August 2015 at 11:00 CET. The presentation will be transmitted as audio webcast and will be accessible via www.solar.eu. It will be possible to make comments and ask questions via teleconference.

Teleconference numbers:

Statement on the future

This quarterly report contains statements concerning the future, including financial expectations for 2015. These statements are in their nature affiliated with risks and uncertainties that Solar cannot influence. These uncertainties may entail that the actual development and realised results may vary from the expectations described in this quarterly report.

In general, financial ratios are calculated in accordance with the Danish Society of Financial Analysts' "Recommendations & Financial Ratios 2015". In general, when EBITDA is included in the calculation of financial ratios, EBITDA for the last 12 months is included.

In general, restatements have been made of income statements, cash flows and key ratios concerning the discontinued operations in Solar Deutschland GmbH for 2014. In accordance with IFRS, the balance sheet has not been restated. The key ratio interest-bearing liabilities, net, has been adjusted for interest-bearing receivables relating to the divestment of Aurora Group Danmark A/S up until the settlement in Q1 2015.

Effective from the presentation of the annual report for 2014, Solar has changed its presentation currency from EUR to DKK. Balance sheet items as at 1 January 2014 have been translated at a price of 746.030, while the 2014 income statement has been translated at a price of 745.879. Apart from this, the change will not affect earnings before tax, net profit or loss for the period or earnings per share.

Segments

Development - installation and industry

Segment reporting

The segment reporting is divided into the three business segments: Installation, Industry and Other.

The business segments are based on the customers' affiliation. Installation covers the installation of electrical and heating and plumbing products. Industry primarily covers industry, marine and offshore, utility and infrastructure. Other covers a number of small areas.

The installation and industry segments have different delivery requirements and different dynamics.

Installation is very dependent on construction activities, whereas Industry is more affected by general financial growth, export and the development within oil and energy.

Within the individual segments, customers across countries are more alike than installation and industry customers. While installation customers are typically local customers, industry customers are often international customers.

Development within Installation in Q2

In general, the installation area still suffers under the low construction activity in a number of our markets.

Solar, however, experienced growth in all key markets with total organic growth of approximately 8% within the installation area. We assess that we as a minimum have maintained our market share.

The Norwegian as well as the Dutch market developed better than expected in Q2. This was also the case with the Danish market, even though we still see significant competition.

Development within Industry in Q2

We have seen a slightly positive development within the industry segment on Solar's markets driven by general economic growth in Northern Europe and increasing export.

The offshore industry in the North Sea is, however, challenged by the price fall on energy, which has affected the activity level in this sector negatively. In the meantime, we assess that this will have a certain positive effect on other parts of the industry.

Solar experienced group-wide growth – led by Denmark, the Netherlands and Poland. Solar's organic growth within the industry segment was approximately 13% in Q2.

"

Installation is very dependent on the construction activities, whereas Industry is more affected by general financial growth, export and the development within oil and energy.

Expectations 2015

Solar raises expectations

Market expectations

H1 developed positively for Solar. Compared to our previous expectations, we are more optimistic in terms of market development. We are, however, currently still unsure about the market development, especially in Norway and partly also in Denmark.

In 2015, the **Danish** market is still expected to be at the same low level as last year. New construction is still at a very low level. The reestablishment of the housing subsidy scheme 'boligjobordningen' is expected to have a positive, however delayed, effect on renovation activities. In spite of the less negative signals surrounding Danish construction, we still expect 2015 to be a challenging year within Installation. We still expect a slightly positive development in areas outside the building sector.

The **Swedish** installation market is expected to show moderate growth in 2015. We also expect a positive development in areas outside the building sector.

The development in the **Norwegian** market is still subject to uncertainties out of the ordinary. Especially offshore investments are still expected to drop - with a potential negative spillover effect in other areas due to the offshore industry's significance for the Norwegian economy. It is, however, uncertain if the positive development within industry will compensate for the negative development within offshore. In spite of the risk of a negative spillover effect, we now expect a slightly positive development within Installation.

We expect a slightly positive market development in the **Dutch** market in 2015. In the installation market we still see a mixed picture. There are still many available commercial leases, which – combined with a negative development in building permits for industrial construction – can be expected to have a negative effect. On the other hand, there is a continued increase in the sales of houses and building permits for housing construction, which may have a positive effect. Overall, we expect a slightly positive development.

For the **Polish** market, we expect positive growth, while the remaining markets are expected to show total market growth around nil.

Expectations for Solar's business areas

We expect a positive development within the installation segment.

We expect a positive development within the industry area.

For Solar in total we expect organic growth between approximately 4% and 7% in 2015.

Financial expectations

We raise our expectations for 2015, for which we now expect revenue between DKK 10.5-10.8bn against the previous DKK 10.0-10.3bn and EBITA between DKK 240-290m against the previous DKK 200-250m.

Financial review

Q2 results are better than expected

In H1, Solar saw organic growth of 7.0%. Compared to H1 2014, gross profit dropped by 0.4 percentage points, while EBITA improved by DKK 70m totalling DKK 108m. Revenue and EBITA exceeded our expectations for Q2.

The integration of Conelgro and Solar Nederland in the Netherlands is now finalised. The purpose of the integration is to consider the customers that now all have full access to Solar's products and services as well as one comprehensive network of branches. At the same time, branches have been closed down or merged in line with Solar's strategy and digital mindset. Finally, we have centralised all back-office functions.

The divestment of the assets in Solar Deutschland was finalised in Q1, cf. company announcement no. 6 2015. The DKK 50m profit from the divestment is included under profit or loss from discontinued operations.

As in Annual Report 2014, Solar Deutschland is presented as discontinued operations and, unless otherwise stated, this report is about the continuing operations.

Q2 2015

Revenue

Solar saw growth in all markets in Q2. Revenue amounted to DKK 2,674m, up from DKK 2,476m in Q2 2014, and organic growth amounted to 9.4% against -3.4% in Q2 2014. Adjusted for the number of working days, organic growth amounted to 10.1% against -2.3% in Q2 2014.

Q2 revenue exceeded our expectations.

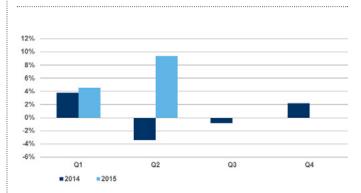

EBITA

EBITA increased to DKK 48m or 1.8% of revenue against DKK 0m in Q2 2014.

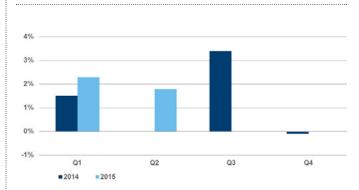

Gross profit dropped to 20.5%, down from 21.1% in Q2 2014. Part of this drop can be attributed to one-off sales of products with low profit in Solar Sverige. Furthermore, profitability is generally affected by the competitive situation in certain markets.

Loss on bad debts was positively affected by payments of previously provided claims and thereby amounted to only 0.1% against 0.3% of revenue in Q2 2014.

Organic growth in %

EBITA in % of revenue

Normalised EBITA

•••••					
	Q	H1			
DKK million	2015 2014 2015				
EBITA	48	0	108	38	
Effect of divestment of Aurora	-	-	-2	3	
Restructuring costs	-	10	-	10	
Solar 8000 costs	-	8	-	13	
Normalised EBITA	48	18	106	64	
Normalised EBITA margin in %	1.8	0.7	2.0	1.3	

In Q2 2014, EBITA was affected by restructuring costs of DKK 10m and Solar 8000 costs of DKK 8m.

Q2 EBITA exceeded our expectations.

Net profit or loss for the period

Profit or loss from continuing operations increased to DKK 23m, up from DKK -19m in Q2 2014. Total net profit or loss for the period amounted to DKK 23m against DKK -35m in Q2 2014.

H1 2015 Revenue

Revenue increased to DKK 5,319m, up from DKK 5,061m in H1 2014, and organic growth amounted to 7.0% against 0.1% i H1 2014. Adjusted for the number of working days, organic growth amounted to 7.9% against -0.3% in H1 2014.

EBITA

EBITA increased to DKK 108m or 2.0% of revenue compared to DKK 38m or 0.8% of revenue in H1 2014.

Gross profit dropped to 20.9% compared to 21.3% in H1 2014. Part of this drop is attributable to one-off sales of products with low profit in Solar Sverige and Solar Danmark.

Part of the selling price from the divestment of Aurora Group in 2013 was variable. In H1 2015, an adjustment was made of the variable part of the selling price of DKK 2m, while an adjustment of DKK -3m was made in H1 2014. The amounts are included under other operating income and costs. Furthermore, H1 2014 EBITA was affected by restructuring and Solar 8000 costs of DKK 10m and DKK 13m, respectively.

Net profit or loss for the period

Net profit or loss increased to DKK 52m, up from DKK -12m in H1 2014. Profit or loss from discontinued operations of DKK 33m in H1 2015 contain DKK 50m in profit from the divestment of the assets in Solar Deutschland. Thus, total net profit or loss for the period amounted to DKK 85m against DKK -46m in H1 2014.

Cash flows

Calculated as an average of four quarters, net working capital dropped to 12.0% of revenue, down from 12.4% in H1 2014. Net working capital at the end of the period dropped to 12.4% of revenue against 13.3% in H1 2014.

Cash flow from operating activities amounted to DKK -125m against DKK -247m in H1 2014. In H1 2015, Solar received the last instalments of the fixed and variable parts of the transfer price from the divestment of Aurora Group in 2013. The amount was DKK 37m, which affected cash flow from investing activities positively. Thus, cash flow from investing activities amounted to DKK 12m against DKK -41m in H1 2014.

Cash flow from financing activities amounted to DKK -83m against DKK -126m in H1 2014. Of this, DKK 55m was paid as dividends to the company's shareholders against DKK 94m in H1 2014.

In connection with the divestment of the assets in Solar Deutschland, the company settled its trade payables. This had a significant impact on cash flow from operating activities from discontinued operations, which amounted to DKK -53m against DKK -6m in H1 2014. The total consideration from the divestment of the assets is included under cash flow from investing activities from discontinued operations, which amounted to DKK 340m against DKK 0m in H1 2014.

Thus, total cash flow amounted to DKK 91m against DKK -420m in H1 2014.

Compared to H1 2014, net interest-bearing debt was reduced by DKK 479m to DKK 221m. Gearing amounted to 0.8 against 1.7 times EBITDA in H1 2014.

As at 30 June 2015, Solar had unutilised credit facilities worth DKK 845m. Solar's agreement with its main banker is not subject to any covenants.

Remuneration of Executive Board and management team

In March 2015, Solar's Executive Board and management team were granted 38,372 share options to be exercised 10 banking days after the publication of the annual reports in 2018 or 2019, see company announcement no. 5 2015 and the note concerning share option plans.

The share option plans are in line with Solar's overall guidelines for incentive programmes adopted by the annual general meeting on 5 April 2013. The guidelines are available at Solar's website under www.solar.eu/menu/investor/downloads/policies.

Strategy - developing our business model

We continue to work on complementing our existing activities and thereby expand our business and utilise synergies. We focus on expanding where it makes sense.

Key risks

Solar's Annual Report 2014 details the commercial and financial risks related to our activities. The key risks remain that Solar, like other international companies, is affected by both global trends and local conditions in the markets where the group operates.

Shareholder information

Solar's shares

Solar's share capital is divided into nominally DKK 90 million A shares and nominally DKK 702 million B shares.

The A shares are not listed. The B shares are listed on Nasdaq Copenhagen under the ID code DK0010274844 with the short designation SOLAR B and form part of the MidCap index and MidCap on Nasdaq Nordic.

Share capital includes 900,000 A shares and 7,020,607 B shares. Solar's portfolio of treasury shares totals 65,173 B shares.

A shares have 10 votes per share amount of DKK 100, while B shares have 1 vote for each share amount of DKK 100.

Definitions

20	
Organic growth	Revenue growth adjusted for enterprises acquired and disposed of and any exchange rate changes. No adjustments have been made for number of working days.
Net working capital	Inventories and trade receivables less trade payables.
Gearing	Interest-bearing liabilities, net, relative to EBITDA.
ROIC	Return on invested capital calculated on the basis of operating profit or loss before special items less calculated tax.

In general, financial ratios are calculated in accordance with the Danish Society of Financial Analysts' "Recommendations & Financial Ratios 2015". In general, when EBITDA is included in the calculation of financial ratios, EBITDA for the last 12 months is included.

In general, restatements have been made of income statements, cash flows and key ratios concerning the discontinued operations in Solar Deutschland GmbH for 2013 and 2014 and concerning the divestment of Aurora Group Danmark A/S for 2013. In accordance with IFRS, the balance sheet has not been restated. The key ratio interest-bearing liabilities, net, has been adjusted for interest-bearing receivables relating to the divestment of Aurora Group Danmark A/S up until the settlement in Q1 2015.

Effective from the presentation of the annual report for 2014, Solar has changed its presentation currency from EUR to DKK. Balance sheet items as at 1 January 2013 have been translated at a price of 746.040, while the 2013 income statement has been translated at a price of 745.794. Similarly, balance sheet items as at 1 January 2014 have been translated at a price of 746.030, while the 2014 income statement has been translated at a price of 745.879. Apart from this, the change will not affect earnings before tax, net profit or loss for the period or earnings per share.

Segment information

In Q4 2014, Solar implemented a change in the segment reporting from geographical segmentation to business segmentation. The business segments include Installation, Industry and Other and are based on the customers' affiliation with the segments. Installation covers installation of electrical and heating and plumbing products,

while Industry covers industry, offshore and marine as well as utility and infrastructure. Other covers other small areas. We are in the process of implementing a more detailed classification of all customers in relation to our segments.

Share option plans

Description and specification of Solar's share option plans are stated in Annual Report 2014 and at www.solar.eu/menu/investor/downloads/policies.

In March 2015, Solar granted 38,372 additional share options (March 2014: 24,092 share options) to the Executive Board and senior management employees. Furthermore, 14,623 share options from the 2011 granting have expired. Hereafter, outstanding share options total 121,843.

2015 granting

2010 granting	Number of share options
Executive board	7,383
Others	30,989
Total	38,372
Exercise period:	
10 banking days following publication of the annual report in	2018/2019
DKK million	
Market value estimated at the time of granting using the Black-Scholes model	2
Conditions applying to the statement of market value at the time of granting using the Black-Scholes model:	
Average share price	335.26
Exercise price	335.26
Expected volatility	29%
Expected dividend in proportion to market value	2%
Risk-free interest rate	2%

Average share price is calculated based on the average price on Nasdaq Copenhagen the first 10 business days following publication of Annual Report 2014.

Discontinued operations and assets held for sale

As at 16 March 2015, Solar A/S finalised the divestment of assets in Solar Deutschland GmbH to Sonepar Group with an accounting gain of DKK 50 million.

The discontinued operations have affected the income statement as follows:

		22	1	H1	Year
DKK million	2015	2014	2015	2014	2014
Revenue	0	220	185	458	932
Cost of sales	0	-186	-160	-391	-792

Earnings of discontinued operations in DKK per share outstanding (EPS)	0.0	-2.04	4.20	-4.33	-6.87
Diluted earnings of discontinued operations in DKK per share outstanding (EPS-D)	0.0	-2.04	4.20	-4.33	-6.87
Cash flow from operating activities	15	-17	-53	-6	-29
Cash flow from investing activities	12	0	340	0	-1
Cash flow from financing activities	0	0	0	0	0
Total cash flow	27	-17	287	-6	-30

Divestment of the discontinued operation may be specified as follows:

Total consideration	348
Gain of divestment	50
Accounting gain of net assets	298

Assets held for sale

DKK million	30.06.2015
Property, plant and equipment	77

Assets held for sale consist of buildings in Solar Nederland and Solar Deutschland of DKK 61m and DKK 16m, respectively.

Accounting policies

Consolidated

Accounting policies

The quarterly report for Solar A/S has been prepared in accordance with IAS 34 "Presentation of interim reports" as approved by the EU and additional Danish disclosure requirements for quarterly reports of listed companies.

Apart from the effect of new IAS/IFRS standards implemented during the period, accounting policies remain unchanged from Annual Report 2014, which holds a full description of these on pages 44-49.

Key items in the accounts are based on annual contracts etc. A prudent assessment of the current year's activities was undertaken during the preparation of the quarterly report.

In the quarterly report, income tax has been calculated on the basis of pre-tax profits at the expected average tax rate. No calculations of taxable income for the period have been made.

New accounting standards implemented during the period

On 1 January 2015, Solar implemented IAS 19 on employee benefits and third party contributions to pension plans.

Also, we have implemented new interpretations on existing standards. These changes have no impact on Solar

New accounting standards to be implemented in coming accounting periods

For information on new accounting standards, reference is made to note 31 on page 82 in Annual Report 2014. No new or amended standards have been issued in 2015 other than those stated in the annual report.

On audit

The quarterly report has not been audited or reviewed.

Management's statement

Today, the group's Board of Directors and Executive Board have discussed and approved the Q2 2015 quarterly report of Solar A/S.

The quarterly report, which has not been audited or reviewed by the company's auditor, is presented in accordance with IAS 34 "Interim Financial Reporting" as approved by the EU and additional Danish disclosure requirements for quarterly reports of listed companies.

In our opinion, the quarterly report gives a fair presentation of the group's assets, equity and liabilities and financial position as at 30 June 2015 as well as of the results of the group's activities and cash flow for Q2 2015.

Further, in our opinion, the management's review gives a true and fair statement of the development of the group's activities and financial situation, net profit or loss for the period and of the group's overall financial position and describes the most significant risks and uncertainties that the group faces.
