Interim Report for H1 2015 for Spar Nord Bank A/S

Record-high pre-tax profit of DKK 740 million, equal to a return on equity of 20.8% p.a. – new dividend policy calls for future distribution of at least two-thirds of net profit

- Core income for H1 increased 17% relative to the first half of 2014, ending at DKK 1,920 million.
 Net interest income was up 6% due to volume acquired and the redemption of governmental
 hybrid core capital, while net income from fees, charges and commissions grew 42% after
 remarkably brisk activity in the housing and asset area, and market-value adjustments swelled
 38% driven by the sale of the shareholding in Nørresundby Bank.
- Adjusted for the sale of the shareholding in Nørresundby Bank and the sale of Nets shares last year, core income grew by 16%.
- Expenses ended at DKK 964 million, equal to a 4% rise on H1 2014, which was an expected result of acquisitions, etc. Accordingly, the cost/income ratio improved to 0.50 (excl. the sale of Nørresundby Bank: 0.56).
- Core earnings before impairment thus ended at DKK 955 million 34% up on H1 2014.
- Loan impairment losses, etc. amounted to DKK 166 million, equal to an impairment ratio of 0.71% p.a. – impairment losses on retail customers came to DKK 21 million and DKK 6 million for business customers, excl. losses on agricultural customers, which amounted to DKK 139 million.
- The Group's total business volume grew 4% on end-2014, standing at DKK 204 billion at end-H1 growth was driven by capital under management, deposits and mortgage-credit lending, while the lending volume has dropped by 4% since January 1.
- The Group is in a comfortable capital and liquidity situation, with a Common Equity (Tier 1) ratio of 13.5%, an excess coverage relative to the individual solvency need ratio of 6.7 percentage points (DKK 3.2 billion) and a strategic liquidity of DKK 18.9 billion.
- In light of developments in H1, Spar Nord Bank maintains its full-year forecast for core earnings before impairment of about DKK 1.5 billion – loan impairment losses are expected to hover around DKK 300-350 million.
- Simultaneously with the publishing of the Interim Report for the first six months, we are
 announcing a new dividend policy with a minimum distribution of two-thirds of the net profit for
 the year.

Q2: NORMALIZATION OF INCOME FROM FEES, CHARGES AND COMMISSIONS AND THE ABSENCE OF EXTRAORDINARY INCOME HAD A NEGATIVE EFFECT ON PROFITS, WHILE A DECREASE IN LOAN IMPAIRMENT LOSSES HAD A POSITIVE IMPACT

- Core income of DKK 780 million versus DKK 1,140 million in Q1 2015, and DKK 730 million in Q2 2014: The decline compared with Q1 is due to a reduction in activity-contingent earnings and the absence of extraordinary income (Nørresundby Bank).
- Expenses in Q2 amounted to DKK 480 million versus DKK 484 million in Q1 2015, and DKK 469 million in Q2 2014.
- Loan impairment dropped from DKK 98 million in Q1 to DKK 69 million in Q2 after positive trends in all customer segments other than agriculture.

Lasse Nyby, Chief Executive Officer, has the following comments on the financial statements:

- We have reason to be extremely satisfied with the Interim Report just published. Monetarily, our performance is actually our best recorded to date, and the business growth underlying that performance is also satisfactory in the vast majority of areas. Of course, the DKK 217 million we earned selling our shareholding in Nørresundby Bank is one explanation for the handsome profit, but when extraordinary items this year and last year are excluded, our performance actually represented a 16% growth in core income and a 57% advance in profits. We could achieve a performance of this calibre because the core business with its focus on ordinary retail and business customers is maintaining an excellent tempo, and because customers' activity in the mortgage credit and asset areas, among others, more than offsets the earnings pressure resulting from the moderate demand for lending and keen price competition.
- Simultaneously with the financial statements we are announcing a new dividend policy pledging that going forward we will distribute at least two-thirds of our profit to shareholders. This policy change comes because we are facing a situation in which it is difficult to spot any major organic lending growth and because of the scarcity of acquisition prospects for investment. Given these conditions, we assess it to be in the best interest of our investors to distribute a substantial share of the value generated via our day-to-day operations by way of dividends.

In early October 2014, the Spar Nord Group resumed its own leasing activities, for which reason the presentation of leasing activities has been changed, now being recognized as continuing instead of discontinuing activities.

As from 1 January 2015, earnings from investment portfolios are presented as part of the Bank's core earnings, in that the remaining portfolio of securities - previously presented separately - has been reduced substantially.

MANAGEMENT COMMENTARY ON H1 2015

The Spar Nord Group's pre-tax profits ended at DKK 740 million in the first six months of 2015 versus DKK 512 million in the same period of 2014. This performance corresponds to an annualized 20.8% return on equity before tax.

Core income rose by 17% and costs by 4% on H1 2014, boosting the cost/income ratio to 0.50.

Adjusted for the impact of the sale of the shareholding in Nørresundby Bank, this represents a pre-tax profit of DKK 523 million, an annualized 14.7% return on equity and a cost/income ratio of 0.56.

Management finds this performance highly satisfactory, and in this light maintains the DKK 1.5 billion projection for total core earnings for the year before impairment. Impairment losses are expected to hover around DKK 300-350 million at year-end.

NET INTEREST INCOME REMAINS UNDER PRESSURE

Net interest income for the six-month period ended at DKK 893 million, which is DKK 49 million, or 6%, up on the same period last year.

This increase is ascribable to the acquisition of volume in H2 2014, and to the impact of the redemption of governmental hybrid core capital at the end of May 2014. On the downside, market rates dropped while pressure continued on lending in terms of volume and margin.

The drop amounted to DKK 11 million, or 2%, from Q1 to Q2, primarily attributable to lower interest income on the Bank's bond portfolio.

RECORD HIGH NET INCOME FROM FEES, CHARGES AND COMMISSIONS

Net income from fees, charges and commissions ended at DKK 569 million, equal to an advance of no less than DKK 169 million, or 42%, on H1 2014.

The mortgage credit area was a significant source of the advance, with an unprecedented high remortgaging level particularly in Q1 2015. The savings and asset management areas also maintained their growth momentum.

The drop from Q1 to Q2 amounted to DKK 55 million, or 18%, due in part to a normalization of the remortgaging activity after last quarter's extremely high level.

DIVESTMENTS PUSHED UP MARKET-VALUE ADJUSTMENTS TO A VERY HIGH LEVEL

Market-value adjustments and dividends came to DKK 428 million versus DKK 311 million in H1 2014. The advance is attributable to a gain of DKK 226 million on the sale of shares in Nørresundby Bank. However, it should be noted that in Q1 2014 the Bank recorded a positive adjustment of DKK 178 million on its shareholding in Nets.

The underlying growth in market-value adjustments, including particularly in relation to the Bank's bond and share portfolio, was thus also highly satisfactory, although substantial market unrest spurred a decline from Q1 to Q2.

THE SALE OF THE NØRRESUNDBY BANK SHAREHOLDING CUTS OTHER INCOME

The "Other operating income" item ended at DKK 17 million versus DKK 27 million in the same period of 2014.

The profit on equity investments in associates and group enterprises came to DKK 13 million compared with DKK 56 million in the corresponding period last year. The decline should be viewed in light of the fact that Spar Nord has sold its shareholding in Nørresundby Bank.

COSTS & EXPENSES DEVELOP AS EXPECTED

Total costs and expenses amounted to DKK 964 million, which is 4% higher than in the same period of 2014.

Wages and salaries accounted for DKK 575 million of total costs. The realized payroll costs amounted to DKK 29 million, 5% up on H1 2014, due in part to the acquisition of activities from FIH Erhvervsbank, ordinary pay increases under collective agreements and severance pay to a member of the Executive Board. At end-H1, the Group had a staff of 1,508 employees (converted into full-time equivalents), 28 more than at the same time in 2014.

Other operating expenses came to DKK 356 million, which is DKK 12 million, or 3%, up on last year's level. DKK 8.5 million of the growth is attributable to non-recurring expenses in connection with the sale of the shareholding in Nørresundby Bank.

Preparations for the scheduled IT transfer from SDC to BEC in 2016 are proceeding according to plan, and about DKK 6 million in non-recurring expenses was defrayed out of the DKK 25 million total anticipated for 2015.

In H1, a single branch was closed down in North Jutland. Accordingly, Spar Nord now has 70 branches, which means that 46 branches have been closed down since 2008.

Spar Nord Page 7 of 43 Interim Report - H1 2015

POSITIVE TREND IN IMPAIRMENT OF LOANS AND ADVANCES

Impairment of loans and advances, etc. in H1 2015 amounted to DKK 166 million, corresponding to an impairment ratio of 0.71% p.a.

Developments from Q1 to Q2 testified to a satisfactory reduction in impairment of DKK 29 million, or 30%.

DKK 21 million of the DKK 166 million profit impact for H1 is attributable to retail customers, representing a 0.2% impairment ratio p.a. for this customer category. DKK 6 million of that amount relates to business customers, excl. agricultural customers, corresponding to an impairment ratio of 0.1% p.a. Finally, agricultural customers account for DKK 139 million, equal to an impairment ratio of 7.7% p.a.

In light of developments in H1, Management expects full-year impairment losses to impact profits by around DKK 300-350 million.

DKK 49 MILLION CONTRIBUTED TO SECTOR-WIDE SOLUTIONS

The accounting item Contributions to sector-wide solutions comprises payments to the Guarantee Fund for Depositors and Investors, and from the second half of the year payments into the new winding-up fund.

In H1 2015, a total of DKK 49 million was expensed, and Spar Nord expects total contributions to sector-wide solutions, incl. payments to the new winding-up fund as from the second half of the year, to hover around DKK 115 million for the full year.

DKK 740 MILLION IN PRE-TAX PROFITS

The pre-tax profits can accordingly be calculated at DKK 740 million compared with DKK 512 million in H1 2014.

The Group's effective tax rate was 15% in H1 2015, and post-tax profits can thus be calculated at DKK 631 million.

The low tax rate stems from the fact that the market-value gain from the sale of shares in Nørresundby Bank is tax-exempt.

OTHER INFORMATION

BUSINESS VOLUME HAS SWELLED BY DKK 8.5 BILLION IN 2015

The Group's total business volume (deposits, loans, advances and guarantees, mortgage credits arranged and customers' custodianship accounts) amounted to DKK 204.1 billion at end-H1 2015 – DKK 8.5 billion, or 4%, up on the volume at end-2014.

Compared with end-2014, lending, banking activities, dropped 5% to DKK 32.8 billion. The decline in lending is attributable to business customers, including public-sector customers, while lending to retail customers remained at status quo.

The item Leasing lending amounted to DKK 1.1 billion at end-H1, up 1% on end-2014. Thus, for the first time volume figures show that leasing has re-emerged as a focus area for Spar Nord.

Of total loans, advances and guarantees in the amount of DKK 44.3 billion, 44% is attributable to retail customers and 56% to business customers.

Since 1 January, the volume of mortgage credit arranged has grown by DKK 2.4 billion. In total, the volume of mortgage-credit loans arranged on behalf of retail customers (Totalkredit) amounted to DKK 56.0 billion, and to DKK 10.1 billion for business customers (DLR Kredit) at end-H1 2015.

Deposits, banking activities, rose by about DKK 1.9 billion, or 4%, on end-2014, and stood at DKK 44.1 billion at end-H1. At the same time, customers' deposits in pooled schemes grew DKK 1.7 billion, or 15%, and customers' custodianship account balances increased DKK 4.0 billion, or 12%.

SOLID CAPITAL POSITION - NEW DIVIDEND POLICY

In connection with the preparation of the Interim Report, Spar Nord's Board of Directors has reviewed the Bank's capital targets and distribution policy. The review discussions have given rise to adjustments in both areas.

Spar Nord's objective on the capital side is to have a Common Equity (Tier 1) ratio (CET1) of at least 12.0%, a total capital ratio of at least 15.5% and an excess coverage relative to the regulatory requirements of at least one percentage point at all times.

At end-H1 2015, the Group's Common Equity (Tier 1) ratio amounted to 13.5% (end-2014: 13.0%).

The total capital ratio has been calculated at 16.3% (end-2014: 15.0%), a figure that should be correlated with an individual solvency need ratio that Spar Nord has calculated to be 9.6%. Thus, the Bank has excess capital coverage of 6.7 percentage points, equal to DKK 3.2 billion.

The total capital ratio and the core capital (Tier 1) ratio have been calculated according to the new capital adequacy rules in CRD IV/CRR. Spar Nord's capital projections show that during the phase-in of CRD IV over the next few years, the Bank will constantly be comfortably above the strategic capital targets, and that the Bank's Common Equity (Tier 1) ratio at end-H1 2015 would have been 13.2% given a fully phased-in CRD IV.

As concerns dividend, Spar Nord's Board of Directors has adopted a new policy, fixing distribution to at least two-thirds of the net profit for the year. Distribution is subject to the Bank's capital targets being met and that there are no current value-generating investment options. The policy, which will apply as from this financial year, specifies that distribution will take place by way of dividend.

STRATEGIC LIQUIDITY OF DKK 18.9 BILLION

Spar Nord has defined strategic liquidity as the difference between bank and leasing lending and long-term funding (bank deposits, senior loans, issued bonds, subordinated debt and shareholders' equity). Subordinated debt, senior loans and issued bonds due within 12 months are not included in the Bank's strategic liquidity.

At the end of H1 2015, Spar Nord's strategic liquidity amounted to DKK 18.9 billion, up DKK 3.9 billion on end-2014. This increase is attributable to a surge in deposits coupled with a decline in lending.

At end-June 2015, Spar Nord has calculated the Liquidity Coverage Radio (LCR) at 142%.

THE SUPERVISORY AUTHORITY DIAMOND TEST MODEL

With reference to the forthcoming new calculation method for the reference point "large exposures" announced by the Danish Financial Supervisory Authority, with the benchmark for the 20 largest exposures being fixed at 175% of the Common Equity (Tier 1), it can be stated that at end-June 2015, the Bank's 20 largest exposures amounted to 64.4%.

RISKS

Reference is made to the 2014 Annual Report and to the Group's Risk Report for 2014, which describe the chief risks and elements of uncertainty that may affect the Group and the Parent Company.

OUTLOOK FOR 2015

The 2014 Annual Report projected core earnings before impairment for all of 2015 to end at "around the same level as 2014 when adjusted for extraordinary issues in 2014 (the sale of Nets shares and change of data-processing centre)". When the shares in Nørresundby Bank were sold, this projection was more precisely formulated as "around DKK 1.4 billion", and after the announcement of the Q1 financial statements adjusted upwards to "around DKK 1.5 billion".

In light of the performance reflected in the Interim Report for H1, the projection for core earnings before impairment is maintained, while impairment losses are expected to hover around DKK 300-350 million.

MANAGEMENT'S STATEMENT ON THE INTERIM REPORT

The Board of Directors and the Executive Board have today reviewed and adopted the Interim Financial Statements of the Spar Nord Bank Group for the period from 1 January to 30 June 2015.

The Interim Financial Statements have not been audited or subjected to a review by the Group's auditor.

The Consolidated Interim Financial Statements are presented in accordance with IAS 34 "Interim Financial Reporting", as adopted by the EU, and the Interim Financial Statements for the Parent Company are presented in accordance with the Danish Financial Business Act. Moreover, the Interim Financial Statements are presented in accordance with additional Danish disclosure requirements regarding interim financial statements for listed financial institutions.

In our opinion, the Interim Financial Statements give a true and fair view of the Group's and Parent Company's financial position at 30 June 2015 and of the results of the Group's and Parent Company's operations and the Group's cash flows for the period from 1 January to 30 June 2015.

In addition, we also consider the Management's review to give a fair presentation of the development in the Group's and Parent Company's activities and financial affairs as well as a description of the significant risks and elements of uncertainty that may affect the Group or Parent Company.

THE GROUP

Note

1 ACCOUNTING POLICIES

The Interim Financial Statements of the Spar Nord Group covering the period from 1 January to 30 June 2015 have been prepared in accordance with IAS 34, "Interim Financial Reporting", as adopted by the EU, and additional Danish disclosure requirements for interim reports of listed financial institutions.

Apart from the changes set out below, the accounting policies have been applied consistently with those adopted in the 2014 Annual Report, which contains the complete wording of the accounting policies applied.

Changed accounting policies

Spar Nord has implemented the standards and interpretations that entered into force in the EU as from 2015.

The implementation of the above-mentioned new standards and interpretations has not materially affected recognition and measurement.

2 ACCOUNTING ESTIMATES

The measurement of certain assets and liabilities requires Management to estimate how future events will impact on the value of such assets and liabilities. Estimates of significance to the financial reporting are made in connection with determining the impairment of loans and advances, the fair value of unlisted financial instruments, provisions, etc. Estimates are based on assumptions that Management considers appropriate but which are uncertain by their nature.

The most significant estimates that Management makes in applying the Group's accounting policies and the most important uncertainty affecting estimates made when preparing the condensed Interim Financial Statements are unchanged from the estimates made in connection with the preparation of the Financial Statements at 31 December 2014 and the uncertainties prevailing at that time.

17 CONTINGENT ASSETS

Since 31 December 2014, the Group has recognized deferred tax in full on a tax loss because the time horizon for utilizing the loss is assessed to be less than three years.

At 30 June 2014, the Group had an unutilized tax loss of DKK 36.9 million, equal to a tax base of DKK 8.1 million, which was not recognized in the balance sheet because the time horizon for utilizing it was assessed to exceed three years.

The unutilized tax loss has arisen as a result of the merger between Spar Nord Bank A/S and Sparbank A/S, but is a separate loss specifically relating to Aktieselskabet Skelagervej 15 (a previous, jointly taxed subsidiary of Sparbank A/S), which means that only Aktieselskabet Skelagervej 15 can utilize the tax loss.

The subgroup joint taxation loss arose during the period of joint taxation between Aktieselskabet Skelagervej 15 and Sparbank A/S, during which period tax losses were realized.

Other deferred tax assets not recognized amount to DKK 8.5 million (H1 2014: DKK 3.4 million; 2014: DKK 6.8 million).

	Reference is made to note 10 regarding the Executive Board's notice of termination and the associated compensation.			
	In addition, the Spar Nord Group has contingent liabilities and other obligating agreements corresponding to the relative ownership interest in associates.			
	Spar Nord is taxed jointly with other Danish and foreign subsidiaries in the Spar Nord Group. As the management company, Spar Nord has untimited, joint and several liability together with the other jointly taxed companies for the Danish corporate income tax payable. Due to the payment of tax on account, no tax was payable at end-H1 2015, end-H1 2014 and end-2014. The corporate income taxes receivable within the group of jointly taxed companies amounted to DKK 62.6 million at end-H1 2015 (H1 2014: DKK 6.4 million; 2014: DKK 92.6 million). Any adjustments to the taxable income subject to joint taxation might entail an increase in the Parent Company's liability.			
	Spar Nord has made provisions for a deferred tax liability in respect of the retaxation balance related to international joint taxation.			
	Participation in the statutory depositors' guarantee fund in Denmark requires the participating institutions to pay a fixed annual contribution of 2.5% of the guaranteed net deposits ("insurance-based model"). Payments to the Financial Institutions Department must continue until the amounts in the fund exceed 1% of the guaranteed net deposits. The Financial Institutions Department covers the direct losses associated with the winding-up of Danish financial institutions in accordance with Bank Packages 3 and 4, where such losses can be attributed to the guaranteed net deposits. Any losses in connection with the final winding-up will be covered by the guarantee fund via the Winding-up and Restructuring Department in which Spar Nord guarantees about 4.7% of any losses.			
	Uncertainty attaches to the amount of the contingent liabilities and the possible due dates.			
19	OTHER OBLIGATING AGREEMENTS			
	Miscellaneous	651.8	633.3	751.7
	Other obligating agreements, total	651.8	633.3	751.7

Miscellaneous is composed of:

Lease obligations, with the Group as lessee *)

Spar Nord is the lessee under a number of operating leases. Operating leases are lease agreements under which Spar Nord has the right to use an asset for an agreed term against the payment of rental, without taking over the most significant risks and gains associated with the asset. The lease agreements concern the rental of properties and operating equipment and are not recognized in the balance sheet. The lease agreements until the legal notice of termination date represent an amount of DKK 95.0 million.

Data processing centre

In 2014, Spar Nord gave notice terminating its agreement with Skandinavisk Data Center A/S regarding the future provision of services in the IT area. At the same time as giving notice, Spar Nord entered into an agreement with BEC a.m.b.a. regarding the future provision of IT services.

The practical transfer from the platform of Skandinavisk Data Center A/S to that of BEC a.m.b.a. is expected to take place in 2016. The cost of withdrawal (exit fee) from the agreement with Skandinavisk Data Center A/S was expensed in 2014 for the period from the decision to change platform until the expiry of the notice period. The amount is included under Other liabilities. BEC a.m.b.a. paid compensation to cover the exit fee, which was offset against the expenses for 2014. The amount is included under Other assets.

The IT expenses for the period from 1 January 2015 until the expected time of changing platform will be expensed continuously in the income statement. The expected IT expenses payable for the period until the change of IT platform are included under "Miscellaneous" above.

Spar Nord's membership of BEC a.m.b.a. means that in case of termination of the Bank's membership, it is liable to pay an exit fee. The obligation as at 31 December 2014 is included under "Miscellaneous" above. In addition, a capital contribution to BEC a.m.b.a. has been included under Other assets.

The Spar Nord Group has no other significant obligating agreements.

FAIR-VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

Financial instruments recognized at fair value

The fair value is the amount at which a financial asset may be traded between knowledgeable, willing parties in an arm's length transaction. If there is an active market, the market price is used by way of a listed price or price quotation. If a financial instrument is quoted in a market that is not active, the Bank bases its valuation on the most recent transaction price. Adjustment is made for subsequent changes in market conditions, for instance, by including transactions in similar financial instruments that are assumed to be motivated by normal business considerations. For a number of financial assets and liabilities, no effective market exists. In this case, the Bank uses an estimated value, taking into account recent transactions in similar instruments and using discounted cash flows or generally accepted estimation and valuation techniques based on market conditions at the reporting date.

A small portfolio of bonds has been valued using a basket of reference bonds combined with an assessment of the probability of loss on the underlying asset portfolio, or prices determined by third-party valuers.

The most frequently used valuation models and estimation and valuation techniques include the pricing of transactions with future settlement and swap models that apply present value calculations, credit pricing models as well as options models, such as Black & Scholes models. In most cases, valuation is based substantially on observable inputs.

Financial instruments recognized at amortized cost

Note 53 in the 2014 Annual Report provides information about the differences between the carrying amount and the fair value of financial instruments recognized at amortized cost. The difference between the two measurement methods at 30 June 2015 is on a par with the difference at 31 December 2014.

Spar Nord Page 29 of 43 Interim Report - H1 2015

THE GROUP

Bonds, Assets linked to pooled schemes, Derivative instruments and Other non-derivative financial liabilities are valued according to the following principles:

- In case of listed prices, the fair value is fixed at the listed price or the price quoted by a recognized exchange or another external party.
- In case of pricing based on observable inputs, the fair value is calculated by means of a market-based yield curve plus/minus a credit spread, which is also calculated based on market prices.
- In case of pricing based on non-observable inputs, the calculation includes inputs based on the Bank's own valuations of individual elements, and also market data in some cases.

Shares are valued according to the following principles:

- In case of listed prices, the fair value is fixed at the price quoted by a recognized exchange or another external party.
- In case of pricing based on observable inputs, the fair value is calculated in accordance with the provisions of shareholders' agreements, etc. or inputs based on actual trades.
- In case of pricing based on non-observable inputs, the calculation includes shares valued according to generally accepted valuation principles, e.g., the discounting of future expected cash flows. Shares that are priced on the basis of the prices recommended by Lokale Pengeinstitutter (the Association of Local Banks, Savings Banks and Cooperative Banks in Denmark) are included as non-observable inputs. A reclassification has been made from level 2 to level 3 in the comparative figures at 30 June 2014. The fair value has been determined reliably for all shares, and accordingly no shares have been recognized at cost.

A transfer is made between the categories in the valuation hierarchy if an instrument is classified differently on the reporting date as compared to the beginning of the financial year. Any reclassification is considered to have been made as of the reporting date. Apart from the reclassification of shares referred to above and the reclassification of Skandinavisk Data Center A/S to Shares, no significant transfers were made between the categories in 2014 and 2015. The reclassification of Skandinavisk Data Center A/S from Equity investments in associates to Shares at 31 December 2014 has resulted in Skandinavisk Data Center A/S being measured at fair value, equal to the discounted value of the selling price. The adjustment to fair value is included in market-value adjustments.

The fair values recommended by Lokale Pengeinstitutter (Lopi) (the Association of Local Banks, Savings Banks and Cooperative Banks in Denmark) are based on shareholders' agreements for the individual companies and share trades completed. The fair value is often based on the companies' book equity (net asset value), which is used as a basis for the transaction price between shareholders. Spar Nord makes an independent assessment of the prices recommended, and verifies their consistency with the transactions made and financial statements as presented.

Rent obligations *)

The Bank has concluded lease agreements with real property lessors regarding a number of the Bank's branches. The rent obligation until the legal notice of termination date amounts to DKK 139.0 million.

Data processing centre

In 2014, Spar Nord gave notice terminating its agreement with Skandinavisk Data Center A/S regarding the future provision of services in the IT area. At the same time as giving notice, Spar Nord entered into an agreement with BEC a.m.b.a. regarding the future provision of IT services. The practical transfer from the platform of Skandinavisk Data Center A/S to that of BEC a.m.b.a. is expected to take place in 2016.

The cost of withdrawal (exit fee) from the agreement with Skandinavisk Data Center A/S was expensed in 2014 for the period from the decision to change platform until the expiry of the notice period. The amount is included under Other liabilities. BEC a.m.b.a. paid compensation to cover the exit fee, which was offset against the expenses for 2014. The amount is included under Other assets.

The IT expenses for the period from 1 January 2015 until the expected time of changing platform will be expensed continuously in the income statement. The expected IT expenses payable for the period until the change of IT platform are included under "Miscellaneous" above.

Spar Nord's membership of BEC a.m.b.a. means that in case of termination of the Bank's membership, it is liable to pay an exit fee. The obligation as at 31 December 2014 is included under "Miscellaneous" above. In addition, a capital contribution to BEC a.m.b.a. has been included under Other assets.

The Spar Nord Group has no other significant obligating agreements.
