### Management report

### **General information**

The Group is one of the biggest pharmaceutical companies in Latvia with 40 years of experience in production of medication and chemical and pharmaceutical products. A basic principle of Group's operations is to produce reliable and effective top quality products for Latvia and the rest of the world. Products made by the Group are being exported to more than 30 countries of the world, including the Baltics, Russia, other CIS, Europe, Asia, North America and Australia.

During the reporting period, changes have been made to the composition of the Group. It consisted from parent company JSC Olainfarm, its daughter companies SIA Ozols JRD, travel agency First Class Lounge and pharmaceutical retail company SIA Latvijas Aptieka. In December 2014 in Kyrgyzstan, a subsidiary named Olainfarm Azija was established, while in March 2015 a subsidiary Olainfarm Lietuva in Lithuania was opened. Main activity of both new subsidiaries is promotion of products of JSC Olainfarm and its partners in respective market. During the reporting period 100% of shares in SIA Nikafarm and SIA Aptieka Alante were acquired, these companies own pharmacies in Olaine and Plavinas respectively. JSC Olainfarm also owns 96.69% shares in leading Latvian food supplement company SIA Silvanols.

#### Corporate mission and vision

### Corporate mission:

JSC Olainfarm is one of the biggest manufacturers of finished drug forms chemical products in the Baltics. The keystone of our work is manufacturing of reliable and effective high quality products to the whole world. We are about fair and effective cooperation with our customers – patients, doctors, pharmacists and other partners. In achievement of our goals we are creating a team of highly qualified, socially secured and well-motivated employees. Our priority is organizing an environmentally friendly manufacturing and constant increase of the Company's shareholders value.

### Corporate vision:

We are aiming to become the leading manufacturer of finished drug forms and chemical-pharmaceutical products in the Baltics and to make our products known and available worldwide.

Company's Corporate Governance Report is available at www.olainfarm.lv.

### **Operational environment**

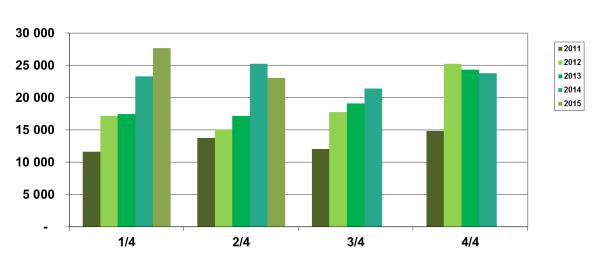

During the reporting period the operational environment in two markets important for the Company, namely Ukraine and Belarus remained unstable. As Russian Rouble was stabilizing, especially during the second quarter, environment in Russia stabilized as well and the company experienced a sales growth of 5% in that country. Possibilities of currency conversion remain very limited in Ukraine, which limits ability of our partners to make timely payments for products supplied. In order to avoid further accumulation of receivables from Ukraine, JSC Olainfarm has decided to link further shipments to Ukraine with payments received from Ukraine. This situation has resulted in sales decline to Ukraine by 20% compared to the first half of 2014.

During the reporting period, Belarus has experienced a devaluation of its national currency by about 40%, which caused Belarus authorities to introduce several protectionist measures. Under the influence of these two factors, sales in Belarus shrunk by 20% during first half of 2015.

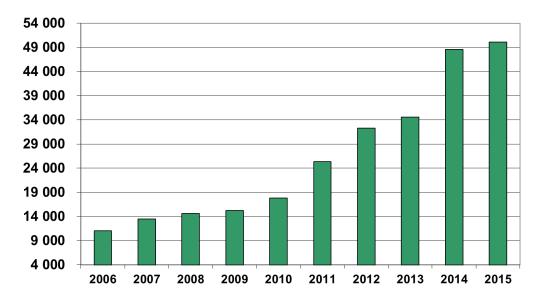

### **Financial results**

Although in terms of sales, the 2nd quarter of 2015 was rather successful, when compared to 2nd quarter of 2014, which was outstanding, the sales have shrunk by 9.6%. Very considerable sales decrease took place in Ukraine, where sales shrunk by 40%, and in Belarus, where sales shrunk by 13. Due to high base of 2014, 15% decrease has also been experienced in Russian sales. Sales to Latvia increased by 11%, while shipments to WHO increased more than six fold. In total, sales worth 23 million euros were made during the second quarter of 2015.

Sales by Quarters, Thsnd. EUR

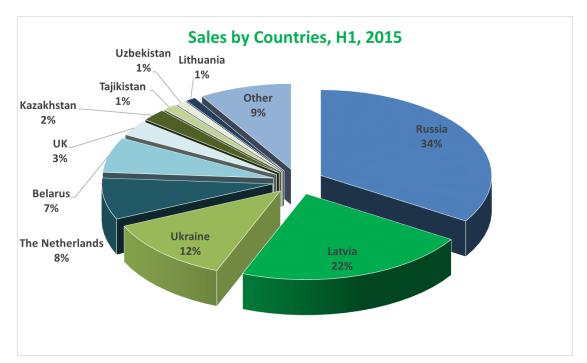

In 6 months of 2015 the sales have increased by 3% compared to 6 months of 2014 and reached 50 million euro, which makes this the best six months in corporate history so far. This has been achieved largely due to very successful first quarter of this year, when significant sales increases were achieved in Central Asian countries, Russia, Latvia as well as due to increasing orders from the WHO.

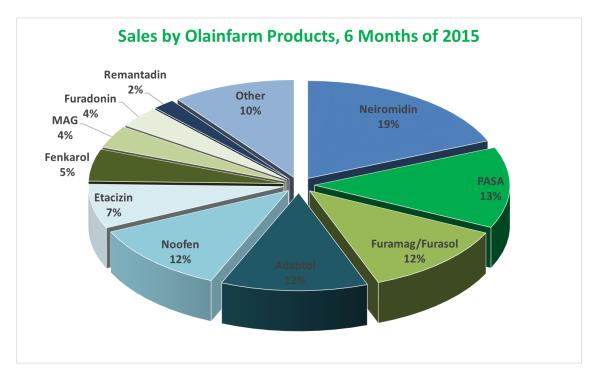

### Six Months Sales, Thsnd. EUR

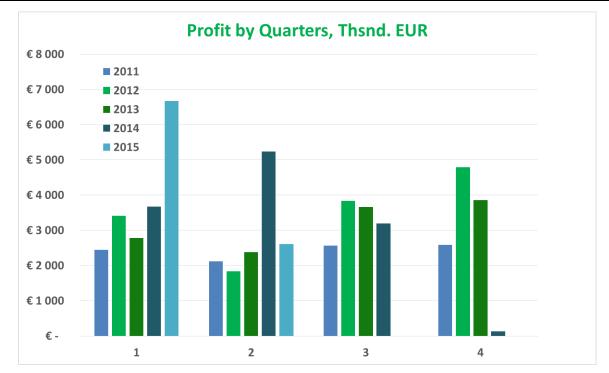

During the first half of 2015 Company's sales grew in Russia, Latvia, The Netherlands (WHO shipments), Kazakhstan, Tajikistan, Lithuania and other markets, while in Ukraine, Belarus, UK and Uzbekistan they shrunk. In general, the sales split between countries has remained relatively unchanged, and reduction of Russia's share from 37% to 34% is really the only significant development.

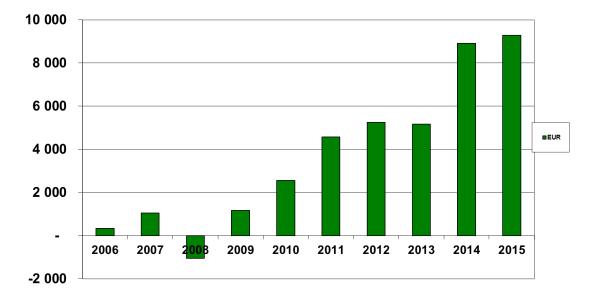

No significant changes have been occurring to the split of bestselling products of JSC Olainfarm in 2nd quarter compared to the first quarter of 2015, as due to increased demand for anti-tuberculosis product PASA Sodium salt, this product has become the second best selling product with a total share of 13% of all Olainfarm products sold. Products of soluble furaginum are now the third bestselling, followed by Adaptol. Fenkarol and Rementadin have also lost one percentage point of their share. In total, 10 bestselling products make up 90% of sales of JSC Olainfarm products, which means that there is a little less concentration than before.

Although the 2nd quarter of 2015 was one of the best 2nd quarters in corporate history in terms of profit, it still significantly lags behind the 2nd quarter of 2014, when the company made a net profit of 5.2 million euros. 460 thousand euros from the profits of this year's second quarter were used for provisions for CIS receivables and 700 thousand for expected currency loss due to falling Russian Rouble. Even after these provisions of more than 1.1 million euros, the company has still made a net profit of 2.6 million euros, which is a 50% reduction compared to 2nd quarter of 2014.

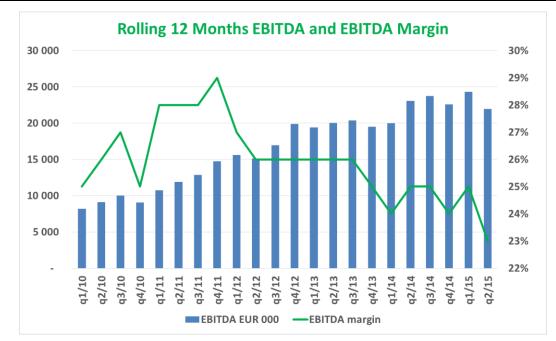

Although during the six-month period, the company has made total provisions of 1.5 million euros for receivables and currency risks, this has still been the most profitable six months period in corporate history so far. During this period, the company has made a net profit of 9.3 million euros, which represents an increase by 4% compared to the first half of 2014.

### Six Months Profit, Thsnd.

Relatively smaller sales and additional provisions, have left minor, albeit negative impact on both, EBITDA and EBITDA margin. During this quarter 12 months, EBITDA has shrunk by 2.3 million euros to 22 million. Due to additional provisions, EBITDA margin has also fallen to 23%.

## Trading of Shares on Nasdaq Riga, Mln.

During the first half of 2015 more than 570 000 shares of JSC Olainfarm worth more than 4 million euros were traded on Nasdaq Riga. These numbers are comparable to the levels of trading in first half of 2014.

### Development

During the reporting registration processes have been launched in Bosnia And Herzegovina; Vietnam, Myanmar; GMP audit by Turkish authorities has been passed, allowing the company to proceed with registration in Turkey.. New forms have been developed for Gripoflex 325 (with reduced content of paracetamol), ACC 200mg powder, and lactose free Memantine tablets of 10mg and 20mg. The work continues at development of new combined prolonged activity form of nitrofurantoin. Two new food supplements have been developed and registered in Baltic countries with urological and hepatological application.

### Future outlook

Taking into consideration the geopolitical reality, a further diversification of sales markets increasingly is a priority. During 2015 and subsequent years company plans to continue all efforts targeted at implementation of new products, entering new markets, making a little more emphasis on cooperation with other producers in distribution of their products on CIS and other markets. After the end of the reporting period, the exports were commenced to Mongolia, registration processes in Turkey and other countries are successfully continuing. More attention is being paid to possible acquisition of a company, whose sales markets or products are significantly different from those of JSC Olainfarm.

It has been more than a year since the company actively uses its logistical and marketing resources to sell products of its daughter company Silvanols on Olainfarm's traditional markets, so even more rapid sales growth of SIA Silvanols can be expected in the near future.

### Environment

During the 1st quarter data safety sheets have been prepared for 31 substances, eight internal environmental audits have been conducted and preparations of design for new wastewater treatment facility continued.

### Social responsibility

During the first half of 2015 the company continued supporting development of new professionals of Riga Stradins University and Riga Technical University and University of Latvia with scholarships.

Demonstrating that health care and healthy life style is high among company's values, JSC Olainfarm participated in organizing Annual Medical Awards. Significant support was also provided for young football and tennis talents. Company supported Latvian leg of "Strongman Champion League", that took place in Olaine, running competition "Olaines Apli" and Sports Dance Contest "Dance Art Cup".

Company continued helping "Ineses Galantes Fonds" to search for musically talented young people of Latvia, was one of the key supporters of celebrations of anniversary of town of Olaine.

Employees of JSC Olainfarm were active in donating blood during Blood Donor's Day organized jointly with Center for Blood Donations semi-annually.

### Olainfarm JSC

### Events after the end of the reporting period

Shortly after the end of the reporting period, a rather rapid devaluation of Russian Rouble started, which are expected to adversely influence company's financial results in 3rd quarter of 2015. Therefore the company has made a decision to make provisions of 700 thousand euros to cover the expected foreign exchange loss.

The financial reports were approved by the Board of the Parent company and on its behalf they are signed by

Valērijs Maligins hairman of the Board (President) JAS REP

### Statement of responsibility of the management

### Notes to the interim condensed consolidated financial statements

### 1. Corporate information

The principal activities of Olainfarm Group (hereinafter, the Group) are manufacturing and distribution of chemical and pharmaceutical products. The Parent Company of the Group, JSC Olainfarm (hereinafter, the Parent Company) was registered with the Republic of Latvia Enterprise Register on 10 June 1991 (re-registered on 27 March 1997) and with the Republic of Latvia Commercial Register on 4 August 2004. The shares of the Parent Company are listed on Riga Stock Exchange, Latvia.

These unaudited interim condensed consolidated financial statements (hereinafter – the interim financial statements) were approved by the Board on 31 August 2015.

### 2. Basis of preparation and changes to the Group's accounting policies

### Basis of preparation

The interim condensed consolidated financial statements for six months ended 30 June 2015 have been prepared in accordance with IAS 34 Interim Financial Reporting.

The interim financial statements do not include all the information and disclosures required in the annual financial statements, and should be read in conjunction with the Group's annual financial statements as at 31 December 2014.

The interim financial statements are presented in euro (EUR), the monetary unit of the Republic of Latvia since 1 January 2014, and rounded to the nearest thousand (EUR '000 or thsd. EUR).

The interim financial statements comprise the financial statements of the Parent Company and all its subsidiaries as at 30 June 2015.

### Changes in accounting policy and disclosures

The accounting policies are consistent with those followed in the preparation of the Group's annual financial statement for the previous periods. The Group has evaluated new and amended IFRSs and IFRICs effective for annual periods beginning on or after 1 January 2015. No impact on the interim financial statements of the Group was identified.

The Group has not applied and has not evaluated the impact of the application of the IFRS and IFRIC interpretations that have been issued as of the date of authorisation of these financial statements for issue, but which are not yet effective. The Group plans to adopt these standards and interpretations on their effectiveness dates provided they are endorsed by the EU.

### 3. Business combination

During the reporting period the Group acquired several unlisted companies registered in Latvia as described below. Companies were acquired to increase retail coverage. The Group has used a multiple earnings method in the valuation of intangible assets. The main assumptions used – expected profitability and revenue growth. At the date of authorising for issue the interim financial statements the Group has not yet finalized the identification process for intangible assets from the business combinations - therefore the net assets and goodwill recognized in the interim financial statements are provisional. The interim financial statements include the results of acquired companies from acquisition date till the end of reporting period.

### Acquisition of pharmacies

On April 14, 2015 the Group acquired 100% of shares in pharmacy retail company SIA Nikafarm and on June 30, 2015 the Group acquired 100% of shares in pharmacy retail company SIA Aptieka Ālante. The fair value of the identifiable assets and liabilities of the companies as at the date of acquisition were:

	(-)	(-0)	(00)

The goodwill recognized is primarily attributed to the expected synergies and other benefits from combining the assets and activities of the subsidiary with those of the Group and increase of deferred tax liability from the business combination. Goodwill is allocated entirely to the pharmacy retail segment.

### Established subsidiary

On March 27, 2015 JSC Olainfarm established subsidiary UAB Olainfarm-Lietuva in Lithuania (100% of shareholding and voting power). Main operations of the newly established company relates to promotion in Lithuania of products made by the Group and its partners.

### 4. Impairments

Goodwill is tested for impairment annually (as at 31 December) and when circumstances indicate the carrying value may be impaired. Goodwill acquired through business combinations has been allocated to SIA Latvija Aptieka Cash Generating Unit (Pharmacy CGU) and Silvanols CGU. Premises lease agreements and licences are fully related to Pharmacy CGU.

The recoverable amount of Pharmacy CGU is determined based on a value in use calculation using cash flow projections from financial budgets approved by the management of the Group. Applying the same key assumptions in value in use calculation as for the latest year end testing, management has not identified circumstances that indicate the carrying value of Pharmacy CGU related goodwill, premises lease agreements and licenses may be materially impaired at the date of these interim financial statements.

The recoverable amount of Silvanols CGU is determined based on the company's market value applying comparison method. Market values and financial data of similar companies operating in emerging Europe and Asia markets were analysed to establish the market value of Silvanols CGU. Average rate of market value to revenue of comparative companies was selected as multiple to calculate Silvanols CGU market value. The management has not identified circumstances that indicate the carrying value of Silvanols CGU related goodwill may be materially impaired at the date of these interim financial statements.

### 5. Income tax

The Group calculates the period income tax expense using the tax rate that would be applicable to the expected total annual earnings. The major components of income tax in the interim condensed income statement are corporate income tax 2 510 thsd. EUR (6M 2014: 1 679 thsd. EUR) and increase in deferred income tax expense of 135 thsd. EUR (6M 2014: decrease of 59 thsd. EUR). Deferred income tax liability at the period end is 1 811 thsd. EUR (31.12.2014: 1 640 thsd. EUR).

### 6. Property, plant and equipment

During the reporting period the Parent company has made investments in equipment and technologies in amount of 3 437 thsd. EUR in the course of EU financed project High Added Value Investments in Improvement of Chemical and Technological Processes. During the reporting period the EU project related equipment and technologies in amount of 1 041 thsd. EUR were put in operation.

During the reporting period other EU financed projects' related equipment and technologies of 652 thsd. EUR were put in operation.

No material disposals or write-offs performed during the reporting period.
