As a result, the revenue for the period have increased by 27%, from 78,1 mln. Lt to 99,4 mln lt. The highest growth is attributed to the revenue from cream (78% growth in this period), and whey products (327% growth in this period).

The increase in profit is mainly attributed towards the price increase in foreign markets, especially in the Western part of Europe, where the profit growth was seen at 26%, as well as the opening of the new whey processing line in the middle of 2007.

According to the management of "Vilkyškių pieninė", the revenue for 2007 should increase up to 140 mln. Lt (40,5 mln EUR), with net profit increasing to 10,6 mln. Lt (3,1 mln. EUR).

The near term plans for the company include continued automation of production processes as well as the increase of production capacity. The company is also planning to reinforce its brand and product trademarks both in Lithuania and in foreign markets, as well as to add new exclusive types of cheese to its product range.
