PRESS RELEASE

LINKÖPING, OCTOBER 2, 2015

Munich-based engineering company MAURER AG selects IFS Applications 9 for improved business transparency

MAURER to deploy comprehensive ERP solution from IFS for 400 users at three sites in Germany

IFS, the global enterprise applications company, announces that <u>MAURER</u>, one of the world's leading mechanical, plant and steel engineering companies, has chosen to implement <u>IFS Applications™ 9</u>. The agreement includes licenses and services worth 1.8 million euros.

Based in Munich, MAURER is focused on steel constructions such as buildings, bridges, roller coasters, Ferris wheels, and other complex dynamic, stressed structures.

Following an evaluation process involving several major ERP vendors, MAURER selected IFS Applications to promote a unified way of working, enhance data quality, and promote business transparency at all levels of the organization. Replacing a no longer sustainable legacy system, the IFS solution will initially be deployed at MAURER's sites in Munich, Lünen, and Bernsdorf, Germany. In a later phase, IFS Applications will also be implemented at the company's facilities in China, India, and Turkey as well as at all sales locations worldwide.

"We chose IFS as our ERP partner because of its experience and proven track record in our industry," MAURER head of controlling Max Meincke said. "IFS's expertise was repeatedly confirmed through our interaction with the IFS team and through a number of customer reference visits. We are convinced that IFS Applications will support our business processes and help us power our international expansion."

"We are excited to be able to count MAURER among our internationally renowned construction and engineering customers," IFS Europe Central vice president of sales & marketing Peter Höhne said. "We pride ourselves on delivering best-practice industry solutions that can power our customers' growth and provide full transparency for informed decision-making. We look forward to a long and mutually beneficial collaboration with MAURER."

The IFS solution include s functionality supporting financials, human resources, supply chain management, manufacturing, engineering, project management, maintenance, sales and service management, document and quality management, and business intelligence.

About MAURER

The MAURER Group is a leading specialist in mechanical engineering and steel construction with over 1,000 employees worldwide. The company is the market leader in the areas of structural protection systems, (bridge bearings, expansion joints, seismic devices). It also develops and produces professional roller coasters and Ferris wheels as well as special structures in steelwork. Among the most notable large projects are the entire technological bridging equipment for the Russky Bridge in Wladiwostok, the world's largest cablestayed bridge. When it comes to steelwork, our showpieces include the BMW World and Munich's Airport Terminal 2. Spectacular amusement rides include for example the Rip Ride Rockit Roller Coaster in Universal Studios Orlando, 10 Skyloops worldwide and the Fiorano GT Challenge in Abu Dhabi. http://maurer.eu/
