

IT –Verification of failover functionality in the Genium INET production system (86/15)

Today's failover test in Genium INET Production

As communicated in IT Notices 34/15, Nasdaq Nordic will today perform verification tests of the site failover functionality in the Genium INET production environment. Nasdaq has now started to prepare for the controlled failover and Site A is available for login. The failover to Site B is scheduled to 11:00 CEST. IT Notice will follow to confirm the start of the failover.
