

Quarterly Report, Q1-Q3 2015, for Spar Nord Bank A/S

Record-high profit of DKK 929 million before tax, equal to an annualized return on equity of 17.1%.

- Total core income grew 8% relative to Q1-Q3 2014, ending at DKK 2,617 million. Net interest income dropped 1% to DKK 1,311 million, while net income from fees, charges and commissions rose by as much as 27% to DKK 791 million. Adjusted for the sale of the shareholding in Nørresundby Bank in 2015 and the sale of the Nets shareholding last year, core income grew by 7%.
- Costs and expenses rose 5% on Q1-Q3 2014, ending at DKK 1,374 million - a growth driven by acquisitions and preparations for the transition to a new data-processing centre, among other factors - and the cost-to-income ratio improved to 0.52 (if adjusted for the gain on the sale of the Nørresundby Bank shareholding, the cost-to-income ratio was 0.57).
- Thus, core earnings before impairment came to DKK 1,243 million, which is DKK 136 million, or 12%, up on the same period of 2014.
- Impairment of loans & advances, etc. amounted to DKK 240 million (2014: DKK 288 million), equal to an annualized impairment ratio of 0.64 – DKK 236 million of the DKK 240 million amount was attributable to agricultural exposures.
- The Group is in a comfortable capital and liquidity situation, with a Common Equity (Tier 1) ratio of 13.9%, an excess coverage relative to the individual solvency need ratio of 7.0 percentage points (DKK 3.3 billion) and a strategic liquidity of DKK 18.8 billion.

Q3 2015: SLUGGISH INTEREST RATES AND SUBDUED ACTIVITY LEVEL PUT PRESSURE ON THE TOP LINE

- Core income in Q3 amounted to DKK 696 million versus DKK 781 million in Q2 and DKK 782 million in Q3 2014. The decline relative to the previous quarter is attributable to a 6% downturn in net interest income, a 14% drop in net income from fees, charges and commissions and the absence of share dividends. The decline compared with the corresponding period of 2014 is attributable exclusively to a 13% downturn in net interest income.
- Costs and expenses in Q3 amounted to DKK 409 million versus DKK 480 million in Q2 and DKK 388 million in Q3 2014.
- Loan impairment losses amounted to DKK 74 million, which is almost the same level as last quarter – agricultural customers impacted profits with DKK 97 million in Q3, while reversals for other customer categories amounted to DKK 23 million.

OUTLOOK

- In light of developments in Q1-Q3, the Group's core earnings before impairment for all of 2015 are still expected to end at around DKK 1.5 billion.
- Loan impairment, etc. for the full year is still expected to end at around DKK 300-350 million.

Lasse Nyby, Chief Executive Officer, has the following comments on the financial statements:

- If we look at the first nine months of 2015 as a whole, it is hard to be dissatisfied. We have generated the best result in the Bank's history and, compared with other banks, have also been able to generate a respectable return on shareholders' equity. A look at Q3 in isolation, however, produces a less positive picture. In fact, during that period we were hit by a mixed cocktail of very low interest rates and a slight summer lull in customer activity in the mortgage-credit and investment areas. This caused our income to dip compared with the impressive levels seen in recent quarters. In terms of impairment, we are gratified to see that our impairment losses on all exposures, apart from agriculture, ended at nil – but at the same time we have to acknowledge that the dire situation in the agricultural sector is far from over.

- As we look ahead, some brisker economic activity would be more than welcome. But it is hard to see where a massive growth in demand and thus the general lending business would come from. Under these circumstances, we will have to continually assess how we can lift our business in other areas, including by expanding cooperation with our current customers. By the same token, we should ensure that the capital we are unfortunately unable to spend on growth makes its way back to our shareholders.

MANAGEMENT'S COMMENTS ON Q1-Q3 2015

The Spar Nord Group's pre-tax profits ended at DKK 929 million in Q1-Q3 2015 versus DKK 761 million in the same period of 2014. This performance corresponds to an annualized 17.1% return on equity before tax and 14.3% after tax.

Core income grew by 8% and costs and expenses by 5% on Q1-Q3 2014, which led to a cost-to-income ratio improvement to 0.52.

Adjusted for the impact of the sale of Spar Nord's shareholding in Nørresundby Bank, this represents a pre-tax profit of DKK 712 million, an annualized 13.0% return on equity and a cost-to-income ratio of 0.57.

Core earnings before impairment ended at DKK 1,243 million, 12% up on the same period last year, and loan losses, etc. dropped 17% to DKK 240 million.

Management finds this performance satisfactory, and in this light maintains the DKK 1.5 billion projection for total core earnings for the year before impairment. Impairment losses are still expected to end at around DKK 300-350 million.

PRESSURE ON NET INTEREST INCOME

Net interest income for the period under review ended at DKK 1,311 million, which is DKK 11 million, or 1%, down on the same period of 2014.

However, seen against developments during the last few quarters, this represents a more negative trend, as net interest income dropped 6% from Q2 to Q3 – after a decline of 2% from Q1 to Q2.

The decline stems from a downturn in interest income on the Group's bond portfolio, among other factors. Thus, the bond portfolio accounts for DKK 26 million of the DKK 35 million fall in net interest income in Q3 compared with Q1.

However, in recent months the ordinary deposit and lending business has also put pressure on interest income. The combined interest margin was about 15 basis points lower in Q3 than in Q2, which reflects the fact that it has no longer been possible to narrow the deposit margin to the same extent as the lending margin has been squeezed.

NET INCOME FROM FEES, CHARGES AND COMMISSIONS BACK AT NORMAL LEVEL

Net income from fees, charges and commissions ended at DKK 791 million in Q1-Q3, equal to an advance of as much as DKK 166 million, or 27%, on the same period of 2014.

The mortgage credit area was a significant source of the advance, with an unprecedented high remortgaging level particularly in the first few months of 2015. At the same time, 2015 was characterized by a persisting positive trend in savings and asset management.

Income from mortgage-credit products arranged on behalf of Totalkredit amounted to DKK 187 million (2014: DKK 156 million), while cooperation with DLR Kredit generated an income of DKK 30 million (2014: DKK 17 million).

The drop in net income from fees, charges and commissions from Q2 to Q3 amounted to DKK 35 million, or 14%, which can be explained by a generally lower activity level in the summer season, including a falloff in remortgaging activities and sluggish trading activities in the securities area.

MARKET-VALUE ADJUSTMENTS MAINTAINED AT AN EXTRAORDINARILY HIGH LEVEL

Market-value adjustments and dividends came to DKK 464 million versus DKK 353 million in the same period of 2014. The advance is attributable in part to a gain of DKK 226 million deriving from the sale of shares in Nørresundby Bank. However, it should be noted that in Q1 2014 the Bank recorded a positive adjustment of DKK 178 million on its shareholding in Nets.

Thus, the underlying development in market-value adjustments, including those related to the Bank's bond and share portfolio, was also satisfactory, although Q3 was impacted by both an increase in short interest rates and a wider spread between Danish mortgage-credit and government bonds.

DECLINE IN "OTHER INCOME"

The "Other operating income" item ended at DKK 30 million versus DKK 36 million in the same period of 2014.

The profit on equity investments in associates and group enterprises came to DKK 21 million compared with DKK 83 million in the corresponding period last year. The decline should be viewed in light of the fact that Spar Nord has sold its shareholding in Nørresundby Bank.

COSTS AND EXPENSES GREW 5%, DRIVEN BY STRATEGIC INITIATIVES

Total costs and expenses amounted to DKK 1,374 million, which is 5% higher than in the same period of 2014.

Wages and salaries accounted for DKK 807 million of total costs. The realized payroll costs amounted to DKK 35 million, 4% up on Q1-Q3 2014, due to the acquisition of activities from FIH Erhvervsbank, relaunch of the leasing activities, ordinary pay increases under collective agreements and severance pay to a member of the Executive Board. At end-Q3, the Group had a staff of 1,522 employees (converted into full-time equivalents), 13 more than at the same time in 2014.

Other operating expenses came to DKK 514 million, which is DKK 28 million, or 6%, up on last year's level. DKK 8.5 million of this growth is attributable to non-recurring costs in connection with the sale of a shareholding in Nørresundby Bank and non-recurring costs in the amount of DKK 13 million in connection with preparations for the scheduled IT changeover from SDC to BEC in 2016. Finally, ordinary operating expenses included contributions for the quarter to the new Resolution Fund – an expense that will be included in core costs in future.

IMPAIRMENT LOSSES CONTINUE TO DECLINE – ON EVERYTHING BUT AGRICULTURAL EXPOSURES

Impairment of loans and advances, etc. in Q1-Q3 2015 amounted to DKK 240 million, corresponding to an impairment ratio of 0.64% p.a. The impact on profits in Q3 amounted to DKK 74 million versus DKK 69 million in Q2 and DKK 98 million in Q1.

DKK 236 million of the total DKK 240 million impact on profits for the period is attributable to agricultural customers. Broken down by segments, this represents an impact on profits for retail customers of 0.2%, -0.1% for business customers (excl. agricultural customers) and as much as 8.4% for agricultural customers.

At end-Q3, the accumulated impairment ratio stood at 22% for the Group's agricultural exposures. Provisions for impairment cover 30% of loans to milk producers and 35% of loans to pig producers. Despite this, Management expects substantial impairment losses on agricultural exposures also in the coming quarters. This is due to the very low prices that pork and milk are fetching for farmers, which means that a substantial portion of the Bank's agricultural customers currently have negative consolidation and liquidity – a situation that is not expected to improve until 2017 according to forecasts made by the Danish Agriculture and Food Council.

*) Of which groups of impairment losses accounted for DKK 67.7 million.

In light of developments in Q1-Q3, Management still expects full-year impairment losses to impact profits by around DKK 300-350 million.

DKK 74 MILLION CONTRIBUTED TO SECTOR-WIDE SOLUTIONS

The accounting item Contributions to sector-wide solutions comprises payments to the Guarantee Fund for Depositors and Investors, while the Bank's payments to the new Resolution Fund are included in core costs, as mentioned above.

In Q1-Q3 2015, a total of DKK 74 million was expensed, with total contributions for the year expected to end somewhere around DKK 100 million.

DKK 929 MILLION IN PRE-TAX PROFITS.

The pre-tax profits can accordingly be calculated at DKK 929 million compared with DKK 761 million in Q1-Q3 2014.

The Group's effective tax rate in Q1-Q3 2015 was 16%, and post-tax profits can thus be calculated at DKK 779 million.

The low tax rate stems from the fact that the market-value gain from the sale of shares in Nørresundby Bank is tax-exempt.

OTHER INFORMATION

BUSINESS VOLUME SWELLED BY DKK 10.1 BILLION SO FAR IN 2015

The Group's total business volume (deposits, loans, advances and guarantees, mortgage credits arranged and customers' custodianship accounts) amounted to DKK 205.7 billion at end-Q3 2015 – 5% up on the volume at end-2014.

Compared with end-2014, bank lending dropped DKK 1.3 billion, or 4%, to DKK 33.1 billion. The decline in lending is attributable to business customers, including an expected drop in lending to public-sector customers, while lending to retail customers remained at status quo.

Leasing lending amounted to DKK 1.2 billion at end-Q3, up 7% on end-2014. Thus, volume figures are now beginning to show that leasing has re-emerged as a focus area for Spar Nord.

The volume of mortgage credit arranged has grown DKK 4.1 billion since 1 January, or 6%, to DKK 67.8 billion. In total, the volume of mortgage-credit loans arranged on behalf of retail customers (Totalkredit) amounted to DKK 57.2 billion, and DKK 10.6 billion for business customers (DLR Kredit) at end-Q3 2015.

Deposits, banking activities, rose by about DKK 2.0 billion, or 5%, compared with end-2014, amounting to DKK 44.2 billion at end-Q3. At the same time, customers' deposits in pooled schemes grew DKK 1.5 billion, or 13%, and customers' custodianship account balances increased DKK 4.5 billion, or 14%.

CONTINUED SOLID CAPITAL POSITION

Spar Nord's objective on the capital side is to have a Common Equity (Tier 1) ratio (CET1) of 12.0%, a total capital ratio of 15.5% and an excess coverage relative to the statutory requirement of at least one percentage point at all times. At end-Q3 2015, the Group's CET1 stood at 13.9% (end-2014: 13.0%).

The total capital ratio has been calculated at 16.5% (end-2014: 15.0%), a figure that should be correlated with Spar Nord's having calculated the solvency need ratio at 9.5%. Thus, the Bank has excess capital coverage of 7.0 percentage points, equal to DKK 3.3 billion.

Spar Nord's capital projections show that during the phase-in of CRD IV over the next few years, the Bank will constantly remain comfortably above the strategic capital targets, and that the Bank's Common Equity (Tier 1) ratio at end-Q3 2015 would have been 13.4%, had the CRD IV rules been fully phased in.

As concerns dividend, Spar Nord's Board of Directors adopted a new policy in connection with the 2015 Interim Report for H1, fixing distribution at at least two-thirds of the net profit for the year. The policy, which will apply as from this financial year, specifies that distribution will take place by way of dividend.

STRATEGIC LIQUIDITY OF DKK 18.8 BILLION

Spar Nord has defined strategic liquidity as the difference between bank and leasing lending and long-term funding (bank deposits, senior loans, issued bonds, subordinated debt and shareholders' equity). Subordinated debt, senior loans and issued bonds due within 12 months are not included in the Bank's strategic liquidity.

At the end of Q3 2015, Spar Nord's strategic liquidity amounted to DKK 18.8 billion, up DKK 3.8 billion on end-2014. The increase is attributable to a decline in bank lending coupled with sustained growth in lending.

NEW BENEFIT PROGRAMME LAUNCHED

On 1 October, Spar Nord launched a new benefit programme called StarPLUS, which will be a keystone of the dialogue with the Bank's retail customers. The programme is intended to encourage customers to concentrate more of their banking business at Spar Nord, and rewards customers that increase their business volume (defined as concentrating three or more core products) with lower prices and a number of free services in the card and insurance areas, among others.

The Bank expects a considerable earnings potential from the implementation of the StarPLUS programme, and in future will keep the market abreast of the customer inflow into the programme.

THE SUPERVISORY AUTHORITY DIAMOND TEST MODEL

With reference to the forthcoming new calculation method for the reference point "Large exposures" announced by the Danish Financial Supervisory Authority, with the benchmark for the 20 largest exposures being fixed at 175% of the Common Equity (Tier 1), it can be stated that at end-September the Bank's largest exposures amounted to 62.8%.

RISKS

Reference is made to the 2014 Annual Report and to the Group's Risk Report for 2014, which describe the chief risks and elements of uncertainty that may affect the Group and the Parent Company.

OUTLOOK FOR 2015

The 2014 Annual Report projected core earnings before impairment for all of 2015 to end at "around the same level as 2014 when adjusted for extraordinary issues in 2014 (the sale of Nets shares and change of data-processing centre)". When the shares in Nørresundby Bank were sold, this projection was more precisely formulated as "around DKK 1.4 billion", and in the Q1 Interim Report adjusted upwards to "around DKK 1.5 billion".

In light of the performance reflected in the Interim Report for Q1-Q3, the Bank maintains its projection for core earnings before impairment, and impairment losses are still expected to hover around DKK 300-350 million.

MANAGEMENT'S STATEMENT ON THE INTERIM REPORT

The Board of Directors and the Executive Board have today reviewed and adopted the Interim Report of the Spar Nord Bank Group for the period from 1 January to 30 September 2015.

The Interim Financial Statements have not been audited or subjected to a review by the Group's auditor.

The Consolidated Interim Financial Statements are presented in accordance with IAS 34 "Interim Financial Reporting", as adopted by the EU. Moreover, the Interim Report is presented in accordance with additional Danish disclosure requirements regarding interim reports for listed financial institutions.

In our opinion, the Interim Financial Statements give a true and fair view of the Group's financial position at 30 September 2015 and of the results of the Group's operations and cash flows for the period from 1 January to 30 September 2015.

In addition, we also consider the Management's review to give a fair presentation of the development in the Group's activities and financial affairs as well as a description of the significant risks and elements of uncertainty that may affect the Group.

Note

1 ACCOUNTING POLICIES

The Interim Financial Statements of the Spar Nord Group covering the period from 1 January to 30 September 2015 have been prepared in accordance with IAS 34, "Interim Financial Reporting", as adopted by the EU, and additional Danish disclosure requirements for interim reports of listed financial institutions.

Apart from the changes set out below, the accounting policies have been applied consistently with those adopted in the 2014 Annual Report, which contains the complete wording of the accounting policies applied.

Changed accounting policies

Spar Nord has implemented the standards and interpretations that entered into force in the EU as from 2015.

The implementation of the above-mentioned new standards and interpretations has not materially affected recognition and measurement.

2 ACCOUNTING ESTIMATES

The measurement of certain assets and liabilities requires Management to estimate how future events will impact on the value of such assets and liabilities. Estimates of significance to the financial reporting are made in connection with determining the impairment of loans and advances, the fair value of unlisted financial instruments, provisions, etc. Estimates are based on assumptions that Management considers appropriate but which are uncertain by their nature.

The most significant estimates that Management makes in applying the Group's accounting policies and the most important uncertainty affecting estimates made when preparing the condensed Interim Financial Statements are unchanged from the estimates made in connection with the preparation of the Financial Statements at 31 December 2014 and the uncertainties prevailing at that time.

18 CONTINGENT LIABILITIES				
The Bank and all major wholly-owned subsidiaries are jointly registered for payroll tax and VAT and are jointly and severally liable for the payroll tax and VAT payable.				
Financial guarantees		3,556.0	2,255.6	2,458.3
Loss guarantees for mortgage-credit loans		3,405.6	2,431.3	2,985.9

Total contingent liabilities		9,425.7	8,020.5	10,239.9
Reference is made to note 10 regarding the Executive Board's notice of termination and the associated compensation.				
In addition, the Spar Nord Group has contingent liabilities and other obligating agreements corresponding to the relative ownership interest in associates.				
Spar Nord is taxed jointly with other Danish and foreign subsidiaries in the Spar Nord Group. As the management company, Spar Nord has unlimited, joint and several liability together with the other jointly taxed companies for the Danish corporate income tax payable. Due to the payment of tax on account, no tax was payable at 30 September 2015 and at end-December 2014. The corporate income tax payable within the group of jointly taxed companies amounted to DKK 57.9 million at 30 September 2014. The corporate income tax receivable within the group of jointly taxed companies amounted to DKK 26.8 million at 30 September 2015 (2014: DKK 92.6 million). Any adjustments to the taxable income subject to joint taxation might entail an increase in the Parent Company's liability.				
Spar Nord has made provisions for a deferred tax liability in respect of the retaxation balance related to international joint taxation.				
The Bank participates in the national restructuring and resolution scheme, with separate contributions being paid to the Guarantee Fund and the Resolution Fund. For both funds, separate target levels have been set, based on the sector's total deposits that are covered by the guarantee limit of EUR 100,000 (section 9(1) of the Act on a Depositor and Investor Guarantee Scheme). The target level for the Guarantee Fund is 0.8%, and the target level for the Resolution Fund is 1.0%. The payments towards the two funds will continue until the target levels have been reached. The target levels must be achieved by 31 December 2024.				
The Guarantee Fund covers customers' deposits and securities pursuant to the Act on a Depositor and Investor Guarantee Scheme. The Resolution Fund is to be used pursuant to the Act on Restructuring and Resolution of Certain Financial Enterprises for the purpose of covering the associated costs.				
The Bank's contributions to the Guarantee Fund are calculated based on the Bank's pro-rata share. In future, the amount of the contribution will be adjusted by an individual risk factor.				
The Bank's contributions to the Resolution Fund are calculated based on the Bank's pro-rata share of the sector's total equity and liabilities less own funds and covered deposits. This contribution will also be adjusted by an individually determined risk factor.				
The Bank is not required to make any additional contributions to the Guarantee Fund for 2015 as its contributions are covered by the Bank's payments to the previous Depositors' and Investors' Guarantee Fund. The Bank's share previously amounted to about 4.7%, but due to a changed calculation method introduced as from 1 June 2015, we are not currently aware of the future level.				
The contribution towards establishing the Resolution Fund payable by the Bank for 2015 is equal to half the annual contribution.				
No later than on 30 November 2015, Finansielt Stabilitet (the restructuring and resolution company) will inform the Bank of the amount of the contribution payable.				
Uncertainty attaches to the amount of the contingent liabilities and the possible due dates.				
19 OTHER OBLIGATING AGREEMENTS				
Irrevocable credit commitments				
Miscellaneous		601.8	633.3	751.7
Other obligating agreements, total		601.8	633.3	751.7
<i>Miscellaneous is composed of:</i>				
<i>Lease obligations, with the Group as lessee *)</i>				
Spar Nord is the lessee under a number of operating leases. Operating leases are lease agreements under which Spar Nord has the right to use an asset for an agreed term against the payment of rental, without taking over the most significant risks and gains associated with the asset. The lease agreements concern the rental of properties and operating equipment and are not recognized in the balance sheet. The lease agreements until the legal notice of termination date represent an amount of DKK 95.0 million.				
<i>Data processing centre:</i> In 2014, Spar Nord gave notice terminating its agreement with Skandinavisk Data Center A/S regarding the future provision of services in the IT area. At the same time as giving notice, Spar Nord entered into an agreement with BEC a.m.b.a. regarding the future provision of IT services. The practical transfer from the platform of Skandinavisk Data Center A/S to that of BEC a.m.b.a. is expected to take place in 2016.				
The cost of withdrawal (exit fee) from the agreement with Skandinavisk Data Center A/S was expensed in 2014 for the period from the decision to change platform until the expiry of the notice period. The amount is included under Other liabilities. BEC a.m.b.a. paid compensation to cover the exit fee, which was offset against the expenses for 2014. The amount is included under Other assets.				
The IT expenses for the period from 1 January 2015 until the expected time of changing platform will be expensed continuously in the income statement. The expected IT expenses payable for the period until the change of IT platform are included under "Miscellaneous" above.				
Spar Nord's membership of BEC a.m.b.a. means that in case of termination of the Bank's membership, it is liable to pay an exit fee. The obligation as at 31 December 2014 is included under "Miscellaneous" above. In addition, a capital contribution to BEC a.m.b.a. has been included under Other assets.				
The Spar Nord Group has no other significant obligating agreements.

FAIR-VALUE MEASUREMENT OF FINANCIAL INSTRUMENTS

Financial instruments recognized at fair value

The fair value is the amount at which a financial asset may be traded between knowledgeable, willing parties in an arm's length transaction. If there is an active market, the market price is used by way of a listed price or price quotation. If a financial instrument is quoted in a market that is not active, the Bank bases its valuation on the most recent transaction price. Adjustment is made for subsequent changes in market conditions, for instance, by including transactions in similar financial instruments that are assumed to be motivated by normal business considerations. For a number of financial assets and liabilities, no effective market exists. In this case, the Group uses an estimated value, taking into account recent transactions in similar instruments and using discounted cash flows or generally accepted estimation and valuation techniques based on market conditions at the reporting date.

A small portfolio of bonds has been valued using a basket of reference bonds combined with an assessment of the probability of loss on the underlying asset portfolio, or prices determined by third-party valuers.

The most frequently used valuation models and estimation and valuation techniques include the pricing of transactions with future settlement and swap models that apply present value calculations, credit pricing models as well as options models, such as Black & Scholes models. In most cases, valuation is based substantially on observable inputs.

Financial instruments recognized at amortized cost

Note 53 in the 2014 Annual Report provides information about the differences between the carrying amount and the fair value of financial instruments recognized at amortized cost. The difference between the two measurement methods at 30 September 2015 is on a par with the difference at 31 December 2014.

Bonds, assets linked to pooled schemes, derivative instruments and other non-derivative financial liabilities are valued according to the following principles:

- In case of listed prices, the fair value is fixed at the listed price or the price quoted by a recognized exchange or another external party.
- In case of pricing based on observable inputs, the fair value is calculated by means of a market-based yield curve plus/minus a credit spread, which is also calculated based on market prices.
- In case of pricing based on unobservable inputs, the calculation includes inputs based on the Bank's own valuations of individual elements, and also market data in some cases.

Shares are valued according to the following principles:

- In case of listed prices, the fair value is fixed at the price quoted by a recognized exchange or another external party.
- In case of pricing based on observable inputs, the fair value is calculated in accordance with the provisions of shareholders' agreements, etc. or inputs based on actual trades.

In case of pricing based on unobservable inputs, the calculation includes shares valued according to generally accepted valuation principles, e.g., the discounting of future expected cash flows. Shares that are priced on the basis of the prices recommended by Lokale Pengeinstitutter (the Association of Local Banks, Savings Banks and Cooperative Banks in Denmark) are included as unobservable inputs. A reclassification has been made from level 2 to level 3 in the comparative figures at 30 September 2014.

The fair value has been determined reliably for all shares, and accordingly no shares have been recognized at cost.

A transfer is made between the categories in the valuation hierarchy if an instrument is classified differently on the reporting date as compared to the beginning of the financial year. Any reclassification is considered to have been made as of the reporting date. Apart from the reclassification of shares referred to above and the reclassification of Skandinavisk Data Center A/S to Shares, no significant transfers were made between the categories in 2014 and 2015. The reclassification of Skandinavisk Data Center A/S from Equity investments in associates to Shares at 31 December 2014 has resulted in Skandinavisk Data Center A/S being measured at fair value, equal to the discounted value of the selling price. The adjustment to fair value is included in market-value adjustments.

The fair values recommended by Lokale Pengeinstitutter (Lopi) (the Association of Local Banks, Savings Banks and Cooperative Banks in Denmark) are based on shareholders' agreements for the individual companies and share trades completed. The fair value is often based on the companies' book equity (net asset value), which is used as a basis for the transaction price between shareholders. Spar Nord makes an independent assessment of the prices recommended, and verifies their consistency with the transactions made and financial statements as presented.
