## **Aarsleff involved in preliminary collaboration on the development of the central post office area in Copenhagen**

Per Aarsleff A/S has entered into a cooperation agreement with the real estate company Project Nord P/S who has taken over PostNord's property located next to the Copenhagen Central Station.

During a design period of 1 to 1.5 years, Aarsleff is to provide contracting expertise. Building plans and budgets will be made more specific, and official approvals will be prepared. The parties intend to work towards an actual construction contract in a subsequent phase.

The total ground area is 39,000 square metres, and the vision is to create a new district with commercial buildings and residential properties. The plan is to renovate the protected building from 1912 located at Tietgensgade.
