Independent Auditor's Report

To the Shareholders of Vilniaus Baldai AB

Report on the Financial Statements

We have audited the accompanying separate financial statements of Vilniaus Baldai AB (hereinafter "the Company"), which comprise the separate statement of financial position as at 31 August 2015, the separate statements of profit or loss and other comprehensive income, changes in equity and cash flows for the 8-month period then ended, and notes, comprising a summary of significant accounting policies and other explanatory information, as set out on pages 38 to 73.

We have also audited the accompanying consolidated financial statements of Vilniaus Baldai AB and its subsidiary (hereinafter "the Group"), which comprise the consolidated statement of financial position as at 31 August 2015, the consolidated statements of profit or loss and other comprehensive income, changes in equity and cash flows for the 8-month period then ended, and a summary of significant accounting policies and other explanatory notes, as set out on pages 38 to 73.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these separate and consolidated financial statements in accordance with International Financial Reporting Standards, as adopted by the European Union, and for such internal control as management determines is necessary to enable the preparation of the financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these separate and consolidated financial statements based on our audit. We conducted our audit in accordance with International Standards on Auditing. Those standards require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether these financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the separate and consolidated financial statements. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of these financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the Company's and the Group's preparation and fair presentation of these financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Company's and the Group's internal control. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of accounting estimates made by the Company's and the Group's management, as well as evaluating the overall presentation of the separate and consolidated financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the separate financial statements give a true and fair view of the financial position of Vilniaus Baldai AB as at 31 August 2015 and of its financial performance and its cash flows for the 8-month period then ended in accordance with International Financial Reporting Standards, as adopted by the European Union.

In our opinion, the consolidated financial statements give a true and fair view of the consolidated financial position of Vilniaus Baldai AB and its subsidiary as at 31 August 2015 and of the consolidated financial performance and consolidated cash flows for the 8-month period then ended in accordance with International Financial Reporting Standards, as adopted by the European Union.

Report on Other Legal and Regulatory Requirements

Furthermore, we have read the consolidated annual report of Vilniaus Baldai AB for the 8-month period ended 31 August 2015, set out on pages 5 to 37 of the financial statements, and have not identified any material inconsistencies between the financial information included in the consolidated annual report and the consolidated financial statements of Vilniaus Baldai AB for the 8-month period ended 31 August 2015.

1. OBJECTIVE REVIEW OF THE COMPANIES GROUP'S POSITION, ACTIVITY AND DEVELOPMENT, CHARACTERISATION OF THE MAIN TYPES OF RISKS AND UNCERTAINTIES FACED BY THE COMPANY

On the 8th of October, 2014 the Extraordinary General Shareholders Meeting of Vilnius baldai AB has resolved to change the financial year of Vilnius baldai AB with beginning on the 1st day of September and ending on the 31st of August.

Due to the change, the year 2015 is considered a transitional financial year and covers the transitional period of 8 months from January to December 2015.

In the financial statements the transitional financial year is compared to the previous financial year (January – December 2014).

Vilnius Baldai AB is a leading manufacturer of flat-pack furniture. The joint stock company Vilnius Baldai is a Company that cherishes time-honoured traditions, applies modern technologies and enjoys a stable and continuous business growth.

Transitional year 2015 was successful for Vilnius Baldai AB as the sales revenue reached EUR 43.9 million. In 2015 the Company increased its production capacity, stabilized output of the new product (children furniture), built required level of stock, achieved better equipment utilization, and implemented several technical energy saving projects. Also, last year the Company had its FSC certification reviewed, ISO 9001 and ISO 14001 re-certified successfully..

Going forward the Company considers assurance of high quality products , production efficiency and development of new products to be its main priorities.

Main risks faced by the Group:

Economic risk factors. The sales to the main customer Swedish IKEA constituted approximately 99% of total sales of Vilnius Baldai AB during January – August 2015 (98% in 2014). Furniture accounted for 99% of the Company's sales during 2015 (98% in 2014), while the rest came from sales of raw materials and waste of raw materials.

Global economy development trends do have an impact on the Company's main customer development pace as well as demand fluctuation for products produced by the Company.

The Company competes with the world furniture producers.

Political risk factors. Changing geopolitical situation has an impact on the international trade flows at the same time having an impact on the Company's costs and profitability. There are no requirements and restrictions established by the State to the issuer's activity.

Social risk factors. Demographic situation and migration processes have a negative influence on the Lithuanian labour market, therefore, the Company is constantly improving its organisational structure, increasing productivity, allocating resources to improve work conditions, training and competence development. Trade Union, representing interests of the employees, operates actively in the Company.

Supply. The Company aims to establish a long-term partnership with reliable suppliers, and at the same time secure alternatives for supply of the main raw materials.

Technical and technological risk factors. The Company owns modern production equipment. Vilnius Baldai AB pays significant attention to the maintenance of production equipment, optimization of technological processes and increase of working efficiency. The physical and moral condition of the main facilities is good and does not cause any risk to the activity of the Company.

Ecological risk factors. There is an environment protection management system introduced in the Company in compliance with the ISO 14001 requirements. The core of this system is the management and permanent improvement of the environment protection. The Company works purposefully seeking to make the production ecological, to control the impact that the materials and raw materials have on the environment, to ensure that the suppliers of the products and services comply with the environment protection management requirements. The Company was granted FSC production line certificate. The annual audit of the functioning of quality management system and environmental management system according to EN ISO 9001 and EN ISO 14001 was performed in June 2015. No non-conformity issues or findings were identified during the audit. During January – August 2015 Vilnius Baldai AB paid EUR 2 thousand of the environment pollution taxes, as well as EUR 54 thousand for the waste utilisation services. There were no manufacturing restrictions because of the environment pollution.

Repayment of loans. The repayment of loans is made according to the contractual schedules. All the payments to the bank are made on time. Information on the terms and conditions of repayment of financial liabilities, credit and interest rate risks of the Group and the Company is provided in the notes to the consolidated and Company's financial statements (Notes 12 and 23).

1. OBJECTIVE REVIEW OF THE COMPANIES GROUP'S POSITION, ACTIVITY AND DEVELOPMENT, CHARACTERISATION OF THE MAIN TYPES OF RISKS AND UNCERTAINTIES, FACED BY THE COMPANY (cont'd)

Characteristics of internal control and risk management systems related to the preparation of consolidated financial statements of the Company and the Group. The compliance with the requirements for the preparation of the set of the consolidated financial statements, internal control and financial risk management systems, legal acts regulating the preparation of the set of the consolidated financial statements is supervised by the Audit Committee established on 16 September 2013.

PRODUCTION AND SALES

Vilniaus Baldai AB designs, produces flat-pack furniture. The production of the Company is produced from wood particle boards, the most modern technology of board on frame is used, according to which the produced furniture is lighter, however massively looking. When employing this technology less raw materials can be used, and stable quality of the production is attained. Each year new products are developed and production technologies of existing ones are improved taking into consideration the needs of consumers and prevailing tendencies. The planning system implemented in the Company is constantly developed to achieve higher production flexibility and efficiency.

Modern equipment, purchased from such world-renowned manufacturers as Homag, Holzma, Burkle, Weeke, Wikoma, Ima, Biesse, Wemhoner etc., enables to manufacture different types of the furniture, coated with plywood, pigment or foil.

Sales of the Company in the period of January–August 2011–2015, in EUR thousand:

SUPPLY

Vilnius Baldai AB has introduced an effective system of the purchase of raw materials and services. The Company maintains strong strategic relations with suppliers and constantly searches for new opportunities in the markets of raw materials and services. The purchase process is distinguished into strategic and operational purchases. The Company aims to manage the supply risk; therefore, main raw materials may be supplied by principal or alternative suppliers. Vilnius Baldai AB has implemented and continuously improves the assessment system of suppliers; audits of suppliers are carried out.

The Company establishes long-term contracts with its suppliers. The Company acquires the main raw materials from the local, Slovak, Polish and German suppliers. The main suppliers are IKEA Industry Lietuva UAB, IKEA Components S.R.O, IKEA Industry Polska Sp.zo.o, Sherwin – Williams Lietuva UAB, Rehau UAB, and DS Smith Packaging Lithuania UAB. The local supply of the raw materials is pre-conditioned by the cheap transportation costs and good relations with the major suppliers.

ENERGY

Vilnius Baldai AB pays a lot of attention on reduction of energy costs. During January – August 2015 the Company consumed 14,143 thousand kWh of electricity (2014 – 19,900 thousand kWh, 2013 – 15,272 thousand kWh). The electricity consumption for production of EUR 1 amounted to 0.306 kWh (2014 – 0.330 kWh, 2013 – 0.341 kWh).

EMPLOYEES

The Company pays great attention and allocates funds for the improvement of working conditions and trainings, qualification improvement of the personnel, implementation of LEAN principles and methods. Vilniaus Baldai AB makes regular investments in production facilities, automation of technological processes in order to improve working conditions, reduce physical workload of employees. Investments in occupational safety and wellbeing of employees serve as a basis for establishing a different working environment which encourages to aim for better performance and achieve higher competitiveness in the international markets.

As of at August 31st 2015 the number of work places at the Group and the Company was increased due to growing capacity and higher sales. 724 employees worked at the Group and 673 employees at the Company at the August end of 2015 (671 at the Group and 629 at the Company at the end of 2014). The average age of employees is 39 years.

The average number of the Company's recorded employees, working on an employment contract basis, in the period of 2011–2015:

The Company's key management personnel includes the Company's General Director and Head of Finance department. In January–August 2015 the average monthly remuneration to the management of the Company amounted to EUR 7.96 thousand (2014 –EUR 9.79 thousand). The remuneration is not paid to the Board members of the Company.

Remuneration to the management members of the Company (in thousand EUR):

	January–August 2015	2014
Wages, salaries	146	179
Social security	45	56
Total	191	235

During January–August 2015 the Company did not transfer any assets to the Board members, the Company's General Director, Head of Finance department; it also did not provide any guarantees or warranties, by which the performance of their liabilities would be secured.

16. SIGNIFICANT AGREEMENTS IN WHICH THE COMPANY IS INVOLVED AND WHICH WOULD BECOME EFFECTIVE, WOULD CHANGE OR WOULD BE TERMINATED IF THE CONTROL OF ISSUER CHANGED

During January–August 2015 no material agreements were signed which would become effective, would change or would be terminated if the control of the issuer changed. Furthermore, there were no agreements signed during January–August 2015 between the Company and its body, employees which allow compensations if they resign or are fired without the justified reason or their work finishes as a result of the change of the issuer's control.

17. RELATED PARTY TRANSACTIONS

The parties are considered related when one party has the possibility to control the other one or have significant influence over the other party in making financial and operating decisions. The related parties of the Company as of 31 August 2015 were: ARI-LUX UAB (the subsidiary), Invalda Privatus Kapitalas AB (ultimate shareholder) and all companies controlled by Invalda Privatus Kapitalas AB (as of 31 December 2014: ARI-LUX UAB (the subsidiary), Invalda LT AB (shareholder), Invalda Privatus Kapitalas AB (shareholder) and all companies controlled by Invalda LT AB and Invalda Privatus Kapitalas).

In August 2015, the Company sold the unused administrative building and ancillary facilities on Savanorių Avenue 178 in Vilnius. The real estate was sold for EUR 1 090 thousand, i.e. the market value established by an independent property valuation company. Real estate was acquired by subsidiaries of the Company's largest shareholder AB Invalda Privatus Kapitalas.

Transactions with the Group's related parties during January–August 2015 and 2014 and the balances as of 31 August 2015 and 31 December 2014 are provided in the notes (Note 25) to the consolidated and Company's financial statements for the year 2015.

18. DATA ON THE PUBLICLY DISCLOSED INFORMATION

The information publicly disclosed by Vilniaus Baldai AB during 2015 is presented in the Company's website www.vilniausbaldai.lt.

Summary of publicly disclosed information during 2015:

General Director

Rimantas Vaitkus

Vilniaus Baldai AB disclosure form concerning the compliance with the Governance Code for the companies listed on the regulated market

Following Article 21 paragraph 3 of the Law on Securities of the Republic of Lithuania and paragraph 24.5. of the Listing Rules of the NASDAQ OMX Vilnius AB, Vilniaus Baldai AB discloses its compliance with the Governance Code, approved by the NASDAQ OMX Vilnius for the companies listed on the regulated market, and its specific provisions.

PRINCIPLES/ RECOMMENDATIONS	YES/ NO/ NOT APP- LICAB- LE	COMMENTARY
Principle I: Basic Provisions		
The overriding objective of a company should be to operate in common interests of all the shareholders by optimizing over time shareholder value.		
1.1. A company should adopt and make public the company's development strategy and objectives by clearly declaring how the company intends to meet the interests of its shareholders and optimize shareholder value.	Yes	Next year the Company will specifically focus on productivity, improvement of internal processes and quality and production of new products. This will be achieved by applying LEAN methodology in such areas as production processes, performance management, employee skills and their involvement in continuous improvement activities.
1.2. All management bodies of a company should act in furtherance of the declared strategic objectives in view of the need to optimize shareholder value.	Yes	The activity of the Company's management bodies is concentrated on the implementation of the main goals and tasks.
1.3. A company's supervisory and management bodies should act in close co-operation in order to attain maximum benefit for the company and its shareholders.	Yes	The Board of the Company adopts the decisions on all the most important matters. The ordinary meetings of the Board of the Company are held at least once in a month. Extraordinary – upon the suggestion of the Chairman of the Board or Board member for the discussion and decision making of the important matters. The Board of the Company cooperates with the Chief Executive Officer.
1.4. A company's supervisory and management bodies should ensure that the rights and interests of persons other than the company's shareholders (e.g. employees, creditors, suppliers, clients, local community), participating in or connected with the company's operation, are duly respected.	Yes	The Company respects the rights and the interests of all main concerned groups.

Principle II: The corporate governance framework		
The corporate governance framework should ensure the strategic guidance of the company, the effective oversight of the company's management bodies, an appropriate balance and distribution of functions between the company's bodies, protection of the shareholders' interests.		
2.1. Besides obligatory bodies provided for in the Law on Companies of the Republic of Lithuania – a general shareholders' meeting and the chief executive officer, it is recommended that a company should set up both a collegial supervisory body and a collegial management body. The setting up of collegial bodies for supervision and management facilitates clear separation of management and supervisory functions in the company, accountability and control on the part of the chief executive officer, which, in its turn, facilitate a more efficient and transparent management process.	No	Management bodies of the Company are General Meeting, Board and Chief Executive Officer. The Company does not have a supervisory board. Control of the Board of the Company is performed by General Meeting, the Board reports to the General Meeting of Shareholders.
2.2. A collegial management body is responsible for the strategic management of the company and performs other key functions of corporate governance. A collegial supervisory body is responsible for the effective supervision of the company's management bodies.	Yes	The Company has a collegial management body – the Board.
2.3. Where a company chooses to form only one collegial body, it is recommended that it should be a supervisory body, i.e. the supervisory board. In such a case, the supervisory board is responsible for the effective monitoring of the functions performed by the company's chief executive officer.	No	The Company does not follow this recommendation. It has only one collegial body – the Board.
2.4. The collegial supervisory body to be elected by the general shareholders' meeting should be set up and should act in the manner defined in Principles III and IV. Where a company should decide not to set up a collegial supervisory body but rather a collegial management body, i.e. the board, Principles III and IV should apply to the board as long as that does not contradict the essence and purpose of this body.	No	The Company follows the majority of the provisions defined in Principle III. It does not follow the provisions defined in Principle IV on the establishment of committees.
2.5. Company's management and supervisory bodies should comprise such number of board (executive directors) and supervisory (non-executive directors) board members that no individual or small group of individuals can dominate decision-making on the part of these bodies.	Yes	The Board of the Company consists of 3 members. All the 3 members represent the interests of the shareholders' and aim for the benefit of the Company.
2.6. Non-executive directors or members of the supervisory board should be appointed for specified terms subject to individual re-election, at maximum intervals provided for in the Lithuanian legislation with a view to ensuring necessary development of professional experience and sufficiently frequent reconfirmation of their status. A possibility to remove them should also be stipulated however this procedure should not be easier than the removal procedure for an executive director or a member of the management board.	No	Members of the Supervisory Board and non-executive directors are not appointed by the Company.
2.7. Chairman of the collegial body elected by the general shareholders' meeting may be a person whose current or past office constitutes no obstacle to conduct independent and impartial supervision. Where a company should decide not to set up a supervisory board but rather the board, it is recommended that the chairman of the board and chief executive officer of the company should be a different person. Former company's chief executive officer should not be immediately nominated as the chairman of the collegial body elected by the general shareholders' meeting. When a company chooses to depart from these recommendations, it should furnish information on the measures it has taken to ensure impartiality of the supervision.	Yes	Chief Executive Officer of the Company is not a Board member. Chairman of the Board of the Company is not and was not the chief executive officer of the Company. There are no obstacles for independent and fair supervision.

Principle III: The order of the formation of a collegial body to be elected by a general shareholders' meeting		
The order of the formation a collegial body to be elected by a general shareholders' meeting should ensure representation of minority shareholders, accountability of this body to the shareholders and objective monitoring of the company's operation and its management bodies.		
3.1. The mechanism of the formation of a collegial body to be elected by a general shareholders' meeting (hereinafter in this Principle referred to as the 'collegial body') should ensure objective and fair monitoring of the company's management bodies as well as representation of minority shareholders.	Yes	The Board formation mechanism allows ensuring proper monitoring of the Company. Only a person, having the proper qualification can become a Board member. The Board of the Company consists of the members not working at the Company.
3.2. Names and surnames of the candidates to become members of a collegial body, information about their education, qualification, professional background, positions taken and potential conflicts of interest should be disclosed early enough before the general shareholders' meeting so that the shareholders would have sufficient time to make an informed voting decision. All factors affecting the candidate's independence, the sample list of which is set out in Recommendation 3.7, should be also disclosed. The collegial body should also be informed on any subsequent changes in the provided information. The collegial body should, on yearly basis, collect data provided in this item on its members and disclose this in the company's annual report.	Yes	Information about current Board members is presented in the Company's periodic reports.
3.3. Should a person be nominated for members of a collegial body, such nomination should be followed by the disclosure of information on candidate's particular competences relevant to his/her service on the collegial body. In order shareholders and investors are able to ascertain whether member's competence is further relevant, the collegial body should, in its annual report, disclose the information on its composition and particular competences of individual members which are relevant to their service on the collegial body.	Yes	The information on the composition of the Board is published in the annual report.
3.4. In order to maintain a proper balance in terms of the current qualifications possessed by its members, the collegial body should determine its desired composition with regard to the company's structure and activities, and have this periodically evaluated. The collegial body should ensure that it is composed of members who, as a whole, have the required diversity of knowledge, judgment and experience to complete their tasks properly. The members of the audit committee, collectively, should have a recent knowledge and relevant experience in the fields of finance, accounting and/or audit for the stock exchange listed companies.	Yes	Members of the Company's Board and Audit Committee have experience in companies' management, diversity of knowledge and experience to complete their tasks properly.
3.5. All new members of the collegial body should be offered a tailored program focused on introducing a member with his/her duties, corporate organization and activities. The collegial body should conduct an annual review to identify fields where its members need to update their skills and knowledge.	Yes	Members of the Company's Board have experience in companies' management. The Company's Board members are acquainted with the Company's organisation, its activity and management specifics.
3.6. In order to ensure that all material conflicts of interest related with a member of the collegial body are resolved properly, the collegial body should comprise a sufficient number of independent members.	No	The independence of the elected Board members was not evaluated in the Company as well as the content of the notion of the sufficiency of independent members.

<p>3.7. A member of the collegial body should be considered to be independent only if he is free of any business, family or other relationship with the company, its controlling shareholder or the management of either, that creates a conflict of interest such as to impair his judgment. Since all cases when member of the collegial body is likely to become dependent are impossible to list, moreover, relationships and circumstances associated with the determination of independence may vary amongst companies and the best practices of solving this problem are yet to evolve in the course of time, assessment of independence of a member of the collegial body should be based on the contents of the relationship and circumstances rather than their form. The key criteria for identifying whether a member of the collegial body can be considered to be independent are the following:</p> <ol style="list-style-type: none"> 1) He/she is not an executive director or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) of the company or any associated company and has not been such during the last five years; 2) He/she is not an employee of the company or some any company and has not been such during the last three years, except for cases when a member of the collegial body does not belong to the senior management and was elected to the collegial body as a representative of the employees; 3) He/she is not receiving or has been not receiving significant additional remuneration from the company or associated company other than remuneration for the office in the collegial body. Such additional remuneration includes participation in share options or some other performance based pay systems; it does not include compensation payments for the previous office in the company (provided that such payment is in no way related with later position) as per pension plans (inclusive of deferred compensations); 4) He/she is not a controlling shareholder or representative of such shareholder (control as defined in the Council Directive 83/349/EEC Article 1 Part 1); 5) He/she does not have and did not have any material business relations with the company or associated company within the past year directly or as a partner, shareholder, director or superior employee of the subject having such relationship. A subject is considered to have business relations when it is a major supplier or service provider (inclusive of financial, legal, counselling and consulting services), major client or organization receiving significant payments from the company or its group; 6) He/she is not and has not been, during the last three years, partner or employee of the current or former external audit company of the company or associated company; 7) He/she is not an executive director or member of the board in some other company where executive director of the company or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) is non-executive director or member of the supervisory board, he/she may not also have any other material relationships with executive directors of the company that arise from their participation in activities of other companies or bodies; 8) He/she has not been in the position of a member of the collegial body for over than 12 years; 9) He/she is not a close relative to an executive director or member of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) or to any person listed in above items 1 to 8. Close relative is considered to be a spouse (common-law spouse), children and parents. 	<p>No</p>	<p>At the General Meeting of shareholders the persons were elected to the members of the Board, who are independent and acting with an aim for the benefit of the Company; however, they do not correspond to the recommendation on independence of this code.</p>
--	-----------	--

3.8. The determination of what constitutes independence is fundamentally an issue for the collegial body itself to determine. The collegial body may decide that, despite a particular member meets all the criteria of independence laid down in this Code, he cannot be considered independent due to special personal or company-related circumstances.		
3.9. Necessary information on conclusions the collegial body has come to in its determination of whether a particular member of the body should be considered to be independent should be disclosed. When a person is nominated to become a member of the collegial body, the company should disclose whether it considers the person to be independent. When a particular member of the collegial body does not meet one or more criteria of independence set out in this Code, the company should disclose its reasons for nevertheless considering the member to be independent. In addition, the company should annually disclose which members of the collegial body it considers to be independent.	No	The Company did not use Board members' independence evaluation and disclosure practice.
3.10. When one or more criteria of independence set out in this Code has not been met throughout the year, the company should disclose its reasons for considering a particular member of the collegial body to be independent. To ensure accuracy of the information disclosed in relation with the independence of the members of the collegial body, the company should require independent members to have their independence periodically re-confirmed.	No	The Company did not use Board members' independence evaluation and disclosure practice.
3.11. In order to remunerate members of a collegial body for their work and participation in the meetings of the collegial body, they may be remunerated from the company's funds. The general shareholders' meeting should approve the amount of such remuneration.	No	The remuneration is not paid to the Board members of the Company.
Principle IV: The duties and liabilities of a collegial body elected by the general shareholders' meeting		
The corporate governance framework should ensure proper and effective functioning of the collegial body elected by the general shareholders' meeting, and the powers granted to the collegial body should ensure effective monitoring of the company's management bodies and protection of interests of all the company's shareholders.		
4.1. The collegial body elected by the general shareholders' meeting (hereinafter in this Principle referred to as the 'collegial body') should ensure integrity and transparency of the company's financial statements and the control system. The collegial body should issue recommendations to the company's management bodies and monitor and control the company's management performance.	Yes	The Chief Executive Officer of the Company at least once in a month reports to the Company's Board and receives its recommendations. The Board of the Company confirms the annual report prepared by the Chief Executive Officer.
4.2. Members of the collegial body should act in good faith, with care and responsibility for the benefit and in the interests of the company and its shareholders with due regard to the interests of employees and public welfare. Independent members of the collegial body should (a) under all circumstances maintain independence of their analysis, decision-making and actions (b) do not seek and accept any unjustified privileges that might compromise their independence, and (c) clearly express their objections should a member consider that decision of the collegial body is against the interests of the company. Should a collegial body have passed decisions independent member has serious doubts about, the member should make adequate conclusions. Should an independent member resign from his office, he should explain the reasons in a letter addressed to the collegial body or audit committee and, if necessary, respective company-not-pertaining body (institution).	Yes	Members of the Company's Board act in good faith for the benefit and in the interests of the Company. They try to maintain own independence in making decisions.

<p>4.3. Each member should devote sufficient time and attention to perform his duties as a member of the collegial body. Each member of the collegial body should limit other professional obligations of his (in particular any directorships held in other companies) in such a manner they do not interfere with proper performance of duties of a member of the collegial body. In the event a member of the collegial body should be present in less than a half of the meetings of the collegial body throughout the financial year of the company, shareholders of the company should be notified.</p>	<p>Yes</p>	<p>Board members perform their functions properly: actively participate in the Board meetings and devote sufficient time and attention to perform their duties. Board meetings are attended by all members.</p>
<p>4.4. Where decisions of a collegial body may have a different effect on the company's shareholders, the collegial body should treat all shareholders impartially and fairly. It should ensure that shareholders are properly informed on the company's affairs, strategies, risk management and resolution of conflicts of interest. The company should have a clearly established role of members of the collegial body when communicating with and committing to shareholders.</p>	<p>Yes</p>	<p>The Company follows this recommendation.</p>
<p>4.5. It is recommended that transactions (except insignificant ones due to their low value or concluded when carrying out routine operations in the company under usual conditions), concluded between the company and its shareholders, members of the supervisory or managing bodies or other natural or legal persons that exert or may exert influence on the company's management should be subject to approval of the collegial body. The decision concerning approval of such transactions should be deemed adopted only provided the majority of the independent members of the collegial body voted for such a decision.</p>	<p>Yes</p>	<p>The transactions between the Company and its shareholders, Supervisory Board or management bodies or other natural or legal persons that may have influence on management of the Company are confirmed according to the Articles of Association of the Company.</p>
<p>4.6. The collegial body should be independent in passing decisions that are significant for the company's operations and strategy. Taken separately, the collegial body should be independent of the company's management bodies. Members of the collegial body should act and pass decisions without an outside influence from the persons who have elected it. Companies should ensure that the collegial body and its committees are provided with sufficient administrative and financial resources to discharge their duties, including the right to obtain, in particular from employees of the company, all the necessary information or to seek independent legal, accounting or any other advice on issues pertaining to the competence of the collegial body and its committees.</p>	<p>Yes</p>	<p>The Company's Board has financial resources and does not depend on the Company's management.</p>
<p>4.7. Activities of the collegial body should be organized in a manner that independent members of the collegial body could have major influence in relevant areas where chances of occurrence of conflicts of interest are very high. Such areas to be considered as highly relevant are issues of nomination of company's directors, determination of directors' remuneration and control and assessment of company's audit. Therefore, when the mentioned issues are attributable to the competence of the collegial body, it is recommended that the collegial body should establish nomination, remuneration, and audit committees. Companies should ensure that the functions attributable to the nomination, remuneration, and audit committees are carried out. However, they may decide to merge these functions and set up less than three committees. In such case a company should explain in detail reasons behind the selection of alternative approach and how the selected approach complies with the objectives set forth for the three different committees. Should the collegial body of the company comprise small number of members, the functions assigned to the three committees may be performed by the collegial body itself, provided that it meets composition requirements advocated for the committees and that adequate information is provided in this respect. In such case provisions of this Code relating to the committees of the collegial body (in particular with respect to their role, operation, and transparency) should apply, where relevant, to the collegial body as a whole.</p>	<p>No</p>	<p>The Committees of Nomination and Remuneration are not established because of the structural simplicity of the Company's management. Question regarding establishment of nomination and remuneration committees will be solved in the future after analysing situation, evaluating financial expenses and other factors, implementing best practices in the market. The compliance with the requirements for the preparation of the set of the consolidated financial statements, internal control and financial risk management systems, legal acts regulating the preparation of the set of the consolidated financial statements is supervised by the Audit Committee established on 16 September 2013.</p>

<p>4.8. The key objective of the committees is to increase efficiency of the activities of the collegial body by ensuring that decisions are based on due consideration, and to help organize its work with a view to ensuring that the decisions it takes are free of material conflicts of interest. Committees should present the collegial body with recommendations concerning the decisions of the collegial body. Nevertheless the final decision shall be adopted by the collegial body. The recommendation on creation of committees is not intended, in principle, to constrict the competence of the collegial body or to remove the matters considered from the purview of the collegial body itself, which remains fully responsible for the decisions taken in its field of competence.</p>	No	<p>The Committees of Nomination and Remuneration are not established because of the structural simplicity of the Company's management. The compliance with the requirements for the preparation of the set of the consolidated financial statements, internal control and financial risk management systems, legal acts regulating the preparation of the set of the consolidated financial statements is supervised by the Audit Committee established on 16 September 2013.</p>
<p>4.9. Committees established by the collegial body should normally be composed of at least three members. In companies with small number of members of the collegial body, they could exceptionally be composed of two members. Majority of the members of each committee should be constituted from independent members of the collegial body. In cases when the company chooses not to set up a supervisory board, remuneration and audit committees should be entirely comprised of non-executive directors.</p>	No	<p>The Committees of Nomination and Remuneration are not established because of the structural simplicity of the Company's management. The Audit Committee of Vilniaus Baldai AB consists of 2 members, one of them is independent.</p>
<p>4.10. Authority of each of the committees should be determined by the collegial body. Committees should perform their duties in line with authority delegated to them and inform the collegial body on their activities and performance on regular basis. Authority of every committee stipulating the role and rights and duties of the committee should be made public at least once a year (as part of the information disclosed by the company annually on its corporate governance structures and practices). Companies should also make public annually a statement by existing committees on their composition, number of meetings and attendance over the year, and their main activities. Audit committee should confirm that it is satisfied with the independence of the audit process and describe briefly the actions it has taken to reach this conclusion.</p>	No	<p>The Committees of Nomination and Remuneration are not established because of the structural simplicity of the Company's management.</p>
<p>4.11. In order to ensure independence and impartiality of the committees, members of the collegial body that are not members of the committee should commonly have a right to participate in the meetings of the committee only if invited by the committee. A committee may invite or demand participation in the meeting of particular officers or experts. Chairman of each of the committees should have a possibility to maintain direct communication with the shareholders. Events when such are to be performed should be specified in the regulations for committee activities.</p>	No	<p>The Committees of Nomination and Remuneration are not established because of the structural simplicity of the Company's management.</p>

<p>4.12. Nomination Committee.</p> <p>4.12.1. Key functions of the nomination committee should be the following:• Identify and recommend, for the approval of the collegial body, candidates to fill board vacancies. The nomination committee should evaluate the balance of skills, knowledge and experience on the management body, prepare a description of the roles and capabilities required to assume a particular office, and assess the time commitment expected. Nomination committee can also consider candidates to members of the collegial body delegated by the shareholders of the company;</p> <p>1) Assess on regular basis the structure, size, composition and performance of the supervisory and management bodies, and make recommendations to the collegial body regarding the means of achieving necessary changes;</p> <p>2) Assess on regular basis the skills, knowledge and experience of individual directors and report on this to the collegial body;</p> <p>3) Properly consider issues related to succession planning;</p> <p>4) Review the policy of the management bodies for selection and appointment of senior management.</p> <p>4.12.2. Nomination committee should consider proposals by other parties, including management and shareholders. When dealing with issues related to executive directors or members of the board (if a collegial body elected by the general shareholders' meeting is the supervisory board) and senior management, chief executive officer of the company should be consulted by, and entitled to submit proposals to the nomination committee.</p>	No	The Committees of Nomination and Remuneration are not established because of the structural simplicity of the Company's management.
<p>4.13. Remuneration Committee.</p> <p>4.13.1. Key functions of the remuneration committee should be the following:</p> <p>1) Make proposals, for the approval of the collegial body, on the remuneration policy for members of management bodies and executive directors. Such policy should address all forms of compensation, including the fixed remuneration, performance-based remuneration schemes, pension arrangements, and termination payments. Proposals considering performance-based remuneration schemes should be accompanied with recommendations on the related objectives and evaluation criteria, with a view to properly aligning the pay of executive director and members of the management bodies with the long-term interests of the shareholders and the objectives set by the collegial body;</p> <p>2) Make proposals to the collegial body on the individual remuneration for executive directors and member of management bodies in order their remunerations are consistent with company's remuneration policy and the evaluation of the performance of these persons concerned. In doing so, the committee should be properly informed on the total compensation obtained by executive directors and members of the management bodies from the affiliated companies;</p> <p>3) Make proposals to the collegial body on suitable forms of contracts for executive directors and members of the management bodies;</p> <p>4) Assist the collegial body in overseeing how the company complies with applicable provisions regarding the remuneration-related information disclosure (in particular the remuneration policy applied and individual remuneration of directors);</p> <p>5) Make general recommendations to the executive directors and members of the management bodies on the level and structure of remuneration for senior management (as defined by the collegial body) with regard to the respective information provided by the executive directors and members of the management bodies.</p> <p>4.13.2. With respect to stock options and other share-based incentives which may be granted to directors or other employees, the committee should:</p>	No	The Committees of Nomination and Remuneration are not established because of the structural simplicity of the Company's management.

<p>1) Consider general policy regarding the granting of the above mentioned schemes, in particular stock options, and make any related proposals to the collegial body; 2) Examine the related information that is given in the company's annual report and documents intended for the use during the shareholders meeting; 3) Make proposals to the collegial body regarding the choice between granting options to subscribe shares or granting options to purchase shares, specifying the reasons for its choice as well as the consequences that this choice has. 4.13.3. Upon resolution of the issues attributable to the competence of the remuneration committee, the committee should at least address the chairman of the collegial body and/or chief executive officer of the company for their opinion on the remuneration of other executive directors or members of the management bodies.</p>		
<p>4.14. Audit Committee. 4.14.1. Key functions of the audit committee should be the following: 1) Observe the integrity of the financial information provided by the company, in particular by reviewing the relevance and consistency of the accounting methods used by the company and its group (including the criteria for the consolidation of the accounts of companies in the group); 2) At least once a year review the systems of internal control and risk management to ensure that the key risks (inclusive of the risks in relation with compliance with existing laws and regulations) are properly identified, managed and reflected in the information provided; 3) Ensure the efficiency of the internal audit function, among other things, by making recommendations on the selection, appointment, reappointment and removal of the head of the internal audit department and on the budget of the department, and by monitoring the responsiveness of the management to its findings and recommendations. Should there be no internal audit authority in the company, the need for one should be reviewed at least annually; 4) Make recommendations to the collegial body related with selection, appointment, reappointment and removal of the external auditor (to be done by the general shareholders' meeting) and with the terms and conditions of his engagement. The committee should investigate situations that lead to a resignation of the audit company or auditor and make recommendations on required actions in such situations; 5) Monitor independence and impartiality of the external auditor, in particular by reviewing the audit company's compliance with applicable guidance relating to the rotation of audit partners, the level of fees paid by the company, and similar issues. In order to prevent occurrence of material conflicts of interest, the committee, based on the auditor's disclosed inter alia data on all remunerations paid by the company to the auditor and network, should at all times monitor nature and extent of the non-audit services. Having regard to the principals and guidelines established in the 16 May 2002 Commission Recommendation 2002/590/EC, the committee should determine and apply a formal policy establishing types of non-audit services that are (a) excluded, (b) permissible only after review by the committee, and (c) permissible without referral to the committee; 6) Review efficiency of the external audit process and responsiveness of management to recommendations made in the external auditor's management letter.</p>	<p>Yes</p>	<p>The compliance with the requirements for the preparation of the set of the consolidated financial statements, internal control and financial risk management systems, legal acts regulating the preparation of the set of the consolidated financial statements is supervised by the Audit Committee established on 16 September 2013.</p> <p>The main functions of the Audit Committee of Vilnius Baldai AB are:</p> <ol style="list-style-type: none"> 1. to advice for the Board on the selection, assignment, repeated assignment and dismissal of the external audit company and on the conditions of the agreement with external audit company; 2. to observe the process of external audit; 3. to observe if external audit company and its auditors keep the principles of independency and objectivity; 4. to observe the process of preparation of financial statements; 5. to observe the efficiency of internal control and risk management systems and to evaluate the need of internal audit functions once per financial year.

<p>4.14.2. All members of the committee should be furnished with complete information on particulars of accounting, financial and other operations of the company. Company's management should inform the audit committee of the methods used to account for significant and unusual transactions where the accounting treatment may be open to different approaches. In such case a special consideration should be given to company's operations in offshore centres and/or activities carried out through special purpose vehicles (organizations) and justification of such operations.</p> <p>4.14.3. The audit committee should decide whether participation of the chairman of the collegial body, chief executive officer of the company, chief financial officer (or superior employees in charge of finances, treasury and accounting), or internal and external auditors in the meetings of the committee is required (if required, when). The committee should be entitled, when needed, to meet with any relevant person without executive directors and members of the management bodies present.</p> <p>4.14.4. Internal and external auditors should be secured with not only effective working relationship with management, but also with free access to the collegial body. For this purpose the audit committee should act as the principal contact person for the internal and external auditors.</p> <p>4.14.5. The audit committee should be informed of the internal auditor's work program, and should be furnished with internal audit's reports or periodic summaries. The audit committee should also be informed of the work program of the external auditor and should be furnished with report disclosing all relationships between the independent auditor and the company and its group. The committee should be timely furnished information on all issues arising from the audit.</p> <p>4.14.6. The audit committee should examine whether the company is following applicable provisions regarding the possibility for employees to report alleged significant irregularities in the company, by way of complaints or through anonymous submissions (normally to an independent member of the collegial body), and should ensure that there is a procedure established for proportionate and independent investigation of these issues and for appropriate follow-up action.</p> <p>4.14.7. The audit committee should report on its activities to the collegial body at least once in every six months, at the time the yearly and half-yearly statements are approved.</p>		
<p>4.15. Every year the collegial body should conduct the assessment of its activities. The assessment should include evaluation of collegial body's structure, work organization and ability to act as a group, evaluation of each of the collegial body member's and committee's competence and work efficiency and assessment whether the collegial body has achieved its objectives. The collegial body should, at least once a year, make public (as part of the information the company annually discloses on its management structures and practices) respective information on its internal organization and working procedures, and specify what material changes were made as a result of the assessment of the collegial body of its own activities.</p>	No	There was no such practice.

Principle V: The working procedure of the company's collegial bodies		
The working procedure of supervisory and management bodies established in the company should ensure efficient operation of these bodies and decision-making and encourage active co-operation between the company's bodies.		
5.1. The company's supervisory and management bodies (hereinafter in this Principle the concept 'collegial bodies' covers both the collegial bodies of supervision and the collegial bodies of management) should be chaired by chairpersons of these bodies. The chairperson of a collegial body is responsible for proper convocation of the collegial body meetings. The chairperson should ensure that information about the meeting being convened and its agenda are communicated to all members of the body. The chairperson of a collegial body should ensure appropriate conducting of the meetings of the collegial body. The chairperson should ensure order and working atmosphere during the meeting.	Yes	This provision is adopted in the Company by collegial management body – the Board.
5.2. It is recommended that meetings of the company's collegial bodies should be carried out according to the schedule approved in advance at certain intervals of time. Each company is free to decide how often to convene meetings of the collegial bodies, but it is recommended that these meetings should be convened at such intervals, which would guarantee an interrupted resolution of the essential corporate governance issues. Meetings of the company's supervisory board should be convened at least once in a quarter, and the company's board should meet at least once a month.	Yes	Meetings of the Company's Board are arranged at least once in a month.
5.3. Members of a collegial body should be notified about the meeting being convened in advance in order to allow sufficient time for proper preparation for the issues on the agenda of the meeting and to ensure fruitful discussion and adoption of appropriate decisions. Alongside with the notice about the meeting being convened, all the documents relevant to the issues on the agenda of the meeting should be submitted to the members of the collegial body. The agenda of the meeting should not be changed or supplemented during the meeting, unless all members of the collegial body are present or certain issues of great importance to the company require immediate resolution.	Yes	The Company follows the provisions listed in this recommendation.
5.4. In order to co-ordinate operation of the company's collegial bodies and ensure effective decision-making process, chairpersons of the company's collegial bodies of supervision and management should closely co-operate by co-coordinating dates of the meetings, their agendas and resolving other issues of corporate governance. Members of the company's board should be free to attend meetings of the company's supervisory board, especially where issues concerning removal of the board members, their liability or remuneration are discussed.	No	The Company cannot implement this principle, because the Company only has a collegial management body, i.e. the Board.
Principle VI: The equitable treatment of shareholders and shareholder rights		
The corporate governance framework should ensure the equitable treatment of all shareholders, including minority and foreign shareholders. The corporate governance framework should protect the rights of the shareholders.		
6.1. It is recommended that the company's capital should consist only of the shares that grant the same rights to voting, ownership, dividend and other rights to all their holders.	Yes	The Company's capital consists of ordinary shares that grant the same rights to all their holders.
6.2. It is recommended that investors should have access to the information concerning the rights attached to the shares of the new issue or those issued earlier in advance, i.e. before they purchase shares.	Yes	The Company fully follows the provisions listed in this recommendation.
6.3. Transactions that are important to the company and its shareholders, such as transfer, investment, and pledge of the company's assets or any other type of encumbrance should be subject to approval of the general shareholders' meeting. All shareholders should be furnished with equal opportunity to familiarize with and participate in the decision-making process when significant corporate issues, including approval of transactions referred to above, are discussed.	No	The Company does not follow this provision because of the established routine practice, which resulted from the faster and timely decision-making process. The Company's Board adopts decisions on these matters.

<p>6.4. Procedures of convening and conducting a general shareholders' meeting should ensure equal opportunities for the shareholders to effectively participate at the meetings and should not prejudice the rights and interests of the shareholders. The venue, date, and time of the shareholders' meeting should not hinder wide attendance of the shareholders. Prior to the shareholders' meeting, the company's supervisory and management bodies should enable the shareholders to lodge questions on issues on the agenda of the general shareholders' meeting and receive answers to them.</p>	<p>Yes</p>	<p>All the shareholders of the Company are informed about the date, venue and time of the General Meeting. Prior to the General Meeting of Shareholders all the shareholders have possibility to receive information related to the agenda of the General Meeting.</p>
<p>6.5. It is recommended that documents on the course of the general shareholders' meeting, including draft resolutions of the meeting, should be placed on the publicly accessible website of the company in advance. It is recommended that the minutes of the general shareholders' meeting after signing them and/or adopted resolutions should be also placed on the publicly accessible website of the company. Seeking to ensure the right of foreigners to familiarize with the information, whenever feasible, documents referred to in this recommendation should be published in English and/or other foreign languages. Documents referred to in this recommendation may be published on the publicly accessible website of the company to the extent that publishing of these documents is not detrimental to the company or the company's commercial secrets are not revealed.</p>	<p>Yes</p>	<p>The Company discloses the documents prepared for the General Meeting, including draft resolutions of the meetings via the information disclosure system of AB NASDAQ OMX Vilnius Stock Exchange. The information is e-mailed to each shareholder on request. This information is also publicly accessible on the website of the Company.</p>
<p>6.6. Shareholders should be furnished with the opportunity to vote in the general shareholders' meeting in person and in absentia. Shareholders should not be prevented from voting in writing in advance by completing the general voting ballot.</p>	<p>Yes</p>	<p>Shareholders of the Company can implement the right to participate at the General Meeting of Shareholders either in person, or through the representative, if a person has the duly issued Power of Attorney. The Company also provides the possibilities for the shareholders to vote by completing the general voting ballot.</p>
<p>6.7. With a view to increasing the shareholders' opportunities to participate effectively at shareholders' meetings, the companies are recommended to expand use of modern technologies in voting processes by allowing the shareholders to vote in general meetings via terminal equipment of telecommunications. In such cases security of telecommunication equipment, text protection and a possibility to identify the signature of the voting person should be guaranteed. Moreover, companies could furnish their shareholders, especially foreigners, with the opportunity to watch shareholder meetings by means of modern technologies.</p>	<p>Not applicable</p>	<p>Until now the Company has not had any need to implement this recommendation. Shareholders of the Company can vote through the authorized person or completing the general voting ballot.</p>
<p>Principle VII: The avoidance of conflicts of interest and their disclosure</p>		
<p>The corporate governance framework should encourage members of the corporate bodies to avoid conflicts of interest and assure transparent and effective mechanism of disclosure of conflicts of interest regarding members of the corporate bodies.</p>		
<p>7.1. Any member of the company's supervisory and management body should avoid a situation, in which his/her personal interests are in conflict or may be in conflict with the company's interests. In case such a situation did occur, a member of the company's supervisory and management body should, within reasonable time, inform other members of the same collegial body or the company's body that has elected him/her, or to the company's shareholders about a situation of a conflict of interest, indicate the nature of the conflict and value, where possible.</p>	<p>Yes</p>	<p>The Company follows these recommendations.</p>
<p>7.2. Any member of the company's supervisory and management body may not mix the company's assets, the use of which has not been mutually agreed upon, with his/her personal assets or use them or the information which he/she learns by virtue of his/her position as a member of a corporate body for his/her personal benefit or for the benefit of any third person without a prior agreement of the general shareholders' meeting or any other corporate body authorized by the meeting.</p>	<p>Yes</p>	

7.3. Any member of the company's supervisory and management body may conclude a transaction with the company, a member of a corporate body of which he/she is. Such a transaction (except insignificant ones due to their low value or concluded when carrying out routine operations in the company under usual conditions) must be immediately reported in writing or orally, by recording this in the minutes of the meeting, to other members of the same corporate body or to the corporate body that has elected him/her or to the company's shareholders. Transactions specified in this recommendation are also subject to recommendation 4.5.	Yes	The Company follows these recommendations.
7.4. Any member of the company's supervisory and management body should abstain from voting when decisions concerning transactions or other issues of personal or business interest are voted on.	Yes	The Company's Board members are acquainted with these principles and must follow these recommendations.
Principle VIII: Company's remuneration policy		
Remuneration policy and procedure for approval, revision and disclosure of directors' remuneration established in the company should prevent potential conflicts of interest and abuse in determining remuneration of directors, in addition it should ensure publicity and transparency both of company's remuneration policy and remuneration of directors.		
8.1. A company should make a public statement of the company's remuneration policy (hereinafter the remuneration statement). This statement should be part of the company's annual accounts. Remuneration statement should also be posted on the company's website.	No	The Company does not prepare a statement of the remuneration policy. The Company publishes in the annual information the amount of the remuneration of chief management and the averages of the remuneration of the Company's administration and workers. The above mentioned information is presented in compliance with the procedure set out by the legislation of the Republic of Lithuania and at the Company.
8.2. Remuneration statement should mainly focus on directors' remuneration policy for the following year and, if appropriate, the subsequent years. The statement should contain a summary of the implementation of the remuneration policy in the previous financial year. Special attention should be given to any significant changes in company's remuneration policy as compared to the previous financial year.	No	The Company does not prepare the remuneration statement, because the majority of the points of Principle VIII are not relevant to the present structure of the Company.
8.3. Remuneration statement should leastwise include the following information: <ul style="list-style-type: none"> • Explanation of the relative importance of the variable and non-variable components of directors' remuneration; • Sufficient information on performance criteria that entitles directors to share options, shares or variable components of remuneration; • Sufficient information on the linkage between the remuneration and performance; • The main parameters and rationale for any annual bonus scheme and any other non-cash benefits; • A description of the main characteristics of supplementary pension or early retirement schemes for directors; however, remuneration statement should not include information which should not be disclosed for commercial reasons. 	No	The Company does not prepare the remuneration statement, because the majority of the points of Principle VIII are not relevant to the present structure of the Company.
8.4. Remuneration statement should also summarize and explain company's policy regarding the terms of the contracts executed with executive directors and members of the management bodies. It should include, inter alia, information on the duration of contracts with executive directors and members of the management bodies, the applicable notice periods and details of provisions for termination payments linked to early termination under contracts for executive directors and members of the management bodies.	No	The Company does not prepare the remuneration statement, because the majority of the points of Principle VIII are not relevant to the present structure of the Company.

<p>8.5. The information on preparatory and decision-making processes, during which a policy of remuneration of directors is being established, should also be disclosed. Information should include data, if applicable, on authorities and composition of the remuneration committee, names and surnames of external consultants whose services have been used in determination of the remuneration policy as well as the role of shareholders' annual general meeting.</p>	No	The Company does not prepare the remuneration statement, because the majority of the points of Principle VIII are not relevant to the present structure of the Company.
<p>8.6. Without prejudice to the role and organization of the relevant bodies responsible for setting directors' remunerations, the remuneration policy or any significant change in remuneration policy should be included into the agenda of the shareholders' annual general meeting. Remuneration statement should be put for voting in shareholders' annual general meeting. The vote may be either mandatory or advisory.</p>	No	The Company does not prepare the remuneration statement, because the majority of the points of Principle VIII are not relevant to the present structure of the Company.
<p>8.7. Remuneration statement should also contain detailed information on the entire amount of remuneration, inclusive of other benefits, that was paid to individual directors over the relevant financial year. This document should list at least the information set out in items 8.7.1 to 8.7.4 for each person who has served as a director of the company at any time during the relevant financial year.</p> <p>8.7.1. The following remuneration and/or emoluments-related information should be disclosed:</p> <ul style="list-style-type: none"> • The total amount of remuneration paid or due to the director for services performed during the previous financial year, inclusive of, where relevant, attendance fees fixed by the annual general shareholders meeting; • The remuneration and advantages received from any undertaking belonging to the same group; • The remuneration paid in the form of profit sharing and/or bonus payments and the reasons why such bonus payments and/or profit sharing were granted; • If permissible by the law, any significant additional remuneration paid to directors for special services outside the scope of the usual functions of a director; • Compensation receivable or paid to each former executive director or member of the management body as a result of his resignation from the office during the previous financial year; • Total estimated value of non-cash benefits considered as remuneration, other than the items covered in the above points. <p>8.7.2. As regards shares and/or rights to acquire share options and/or all other share-incentive schemes, the following information should be disclosed:</p> <ul style="list-style-type: none"> • The number of share options offered or shares granted by the company during the previous financial year and their conditions of application; • The number of shares options exercised during the previous financial year and, for each of them, the number of shares involved and the exercise price or the value of the interest in the share incentive scheme at the end of the financial year; • The number of share options unexercised at the end of the financial year; their exercise price, the exercise date and the main conditions for the exercise of the rights; • All changes in the terms and conditions of existing share options occurring during the upcoming financial year. <p>8.7.3. The following supplementary pension schemes-related information should be disclosed:</p> <ul style="list-style-type: none"> • When the pension scheme is a defined-benefit scheme, changes in the directors' accrued benefits under that scheme during the relevant financial year; • When the pension scheme is defined-contribution scheme, detailed information on contributions paid or payable by the company in respect of that director during the relevant financial year. 	No	The Company does not prepare the remuneration statement, because the majority of the points of Principle VIII are not relevant to the present structure of the Company.

<p>8.7.4. The statement should also state amounts that the company or any subsidiary company or entity included in the consolidated annual financial statements of the company has paid to each person who has served as a director in the company at any time during the relevant financial year in the form of loans, advance payments or guarantees, including the amount outstanding and the interest rate.</p>		<p>The Company does not prepare the remuneration statement, because the majority of the points of Principle VIII are not relevant to the present structure of the Company.</p>
<p>8.8. Schemes anticipating remuneration of directors in shares, share options or any other right to purchase shares or be remunerated on the basis of share price movements should be subject to the prior approval of shareholders' annual general meeting by way of a resolution prior to their adoption. The approval of scheme should be related with the scheme itself and not to the grant of such share-based benefits under that scheme to individual directors. All significant changes in scheme provisions should also be subject to shareholders' approval prior to their adoption; the approval decision should be made in shareholders' annual general meeting. In such case shareholders should be notified on all terms of suggested changes and get an explanation on the impact of the suggested changes.</p>	<p>Not applicable</p>	<p>Schemes anticipating remuneration of directors in shares, share options or any other right to purchase shares or be remunerated on the basis of share price movements are not used in the Company.</p>
<p>8.9. The following issues should be subject to approval by the shareholders' annual general meeting:</p> <ul style="list-style-type: none"> • Grant of share-based schemes, including share options, to directors; • Determination of maximum number of shares and main conditions of share granting; • The term within which options can be exercised; • The conditions for any subsequent change in the exercise of the options, if permissible by law; • All other long-term incentive schemes for which directors are eligible and which are not available to other employees of the company under similar terms. <p>Annual general meeting should also set the deadline within which the body responsible for remuneration of directors may award compensations listed in this article to individual directors.</p>		
<p>8.10. Should national law or company's Articles of Association allow, any discounted option arrangement under which any rights are granted to subscribe to shares at a price lower than the market value of the share prevailing on the day of the price determination, or the average of the market values over a number of days preceding the date when the exercise price is determined, should also be subject to the shareholders' approval.</p>		
<p>8.11. Provisions of Articles 8.8 and 8.9 should not be applicable to schemes allowing for participation under similar conditions to company's employees or employees of any subsidiary company whose employees are eligible to participate in the scheme and which has been approved in the shareholders' annual general meeting.</p>		

<p>8.12. Prior to the annual general meeting that is intended to consider decision stipulated in Article 8.8, the shareholders must be provided an opportunity to familiarize with draft resolution and project-related notice (the documents should be posted on the company's website). The notice should contain the full text of the share-based remuneration schemes or a description of their key terms, as well as full names of the participants in the schemes. Notice should also specify the relationship of the schemes and the overall remuneration policy of the directors. Draft resolution must have a clear reference to the scheme itself or to the summary of its key terms. Shareholders must also be presented with information on how the company intends to provide for the shares required to meet its obligations under incentive schemes. It should be clearly stated whether the company intends to buy shares in the market, hold the shares in reserve or issue new ones. There should also be a summary on scheme-related expenses the company will suffer due to the anticipated application of the scheme. All information given in this article must be posted on the company's website.</p>	<p>Not applicable</p>	<p>Schemes anticipating remuneration of directors in shares, share options or any other right to purchase shares or be remunerated on the basis of share price movements are not used in the Company.</p>
<p>Principle IX: The role of stakeholders in corporate governance</p>		
<p>The corporate governance framework should recognize the rights of stakeholders as established by law and encourage active co-operation between companies and stakeholders in creating the company value, jobs and financial sustainability. For the purposes of this Principle, the concept "stakeholders" includes investors, employees, creditors, suppliers, clients, local community and other persons having certain interest in the company concerned.</p>		
<p>9.1. The corporate governance framework should assure that the rights of stakeholders that are protected by law are respected.</p>	<p>Yes</p>	<p>The Company follows all the requirements provided by the laws, ensuring the rights of stakeholders. The Company's employees make an influence on the Company's management through the Trade Union; the relationships with the creditors, suppliers and clients are stipulated in the contracts established with them.</p>
<p>9.2. The corporate governance framework should create conditions for the stakeholders to participate in corporate governance in the manner prescribed by law. Examples of mechanisms of stakeholder participation in corporate governance include: employee participation in adoption of certain key decisions for the company; consulting the employees on corporate governance and other important issues; employee participation in the company's share capital; creditor involvement in governance in the context of the company's insolvency, etc.</p>		
<p>9.3. Where stakeholders participate in the corporate governance process, they should have access to relevant information.</p>		

Principle X: Information disclosure

The corporate governance framework should ensure that timely and accurate disclosure is made on all material information regarding the company, including the financial situation, performance and governance of the company.

<p>10.1. The company should disclose information on:</p> <ul style="list-style-type: none"> • The financial and operating results of the company; • Company objectives; • Persons holding by the right of ownership or in control of a block of shares in the company; • Members of the company's supervisory and management bodies, chief executive officer of the company and their remuneration; • Material foreseeable risk factors; • Transactions between the company and connected persons, as well as transactions concluded outside the course of the company's regular operations; • Material issues regarding employees and other stakeholders; • Governance structures and strategy. <p>This list should be deemed as a minimum recommendation, while the companies are encouraged not to limit themselves to disclosure of the information specified in this list.</p> <p>10.2. It is recommended that consolidated results of the whole group to which the company belongs should be disclosed when information specified in item 1 of Recommendation 10.1 is under disclosure.</p> <p>10.3. It is recommended that information on the professional background, qualifications of the members of supervisory and management bodies, chief executive officer of the company should be disclosed as well as potential conflicts of interest that may have an effect on their decisions when information specified in item 4 of Recommendation 10.1 about the members of the company's supervisory and management bodies is under disclosure. It is also recommended that information about the amount of remuneration received from the company and other income should be disclosed with regard to members of the company's supervisory and management bodies and chief executive officer as per Principle VIII.</p> <p>10.4. It is recommended that information about the links between the company and its stakeholders, including employees, creditors, suppliers, local community, as well as the company's policy with regard to human resources, employee participation schemes in the company's share capital, etc. should be disclosed when information specified in item 7 of Recommendation 10.1 is under disclosure.</p>	<p>Yes</p>	<p>The information about the Company, indicated in these recommendations, is disclosed in the following sources: in the consolidated annual report of the Company, financial statements, reports on the purchase/loss of blocks of shares, the reports on the essential events, announcing this information in the information disclosure system of NASDAQ OMX Vilnius AB Stock Exchange and on the Company's website.</p>
<p>10.5. Information should be disclosed in such a way that neither shareholders nor investors are discriminated with regard to the manner or scope of access to information. Information should be disclosed to all simultaneously. It is recommended that notices about material events should be announced before or after a trading session on the Vilnius Stock Exchange, so that all the company's shareholders and investors should have equal access to the information and make informed investing decisions.</p>	<p>Yes</p>	<p>The information on the information disclosure of NASDAQ OMX Vilnius AB Stock Exchange is presented in the Lithuanian and English languages simultaneously. The Stock Exchange announces the received information on its website and in the trading system, in this way ensuring the simultaneous presentation of the information to everybody. The Company strives to announce the information before or after a trading session of Stock Exchange. The Company does not disclose the information, which might have impact on the value of its shares, in any comments, interviews or other ways until such information is announced officially through the information system of the Stock Exchange.</p>

<p>10.6. Channels for disseminating information should provide for fair, timely and cost-efficient access to relevant information by users. It is recommended that information technologies should be employed for wider dissemination of information, for instance, by placing the information on the company's website. It is recommended that information should be published and placed on the company's website not only in Lithuanian, but also in English, and, whenever possible and necessary, in other languages as well.</p>	<p>Yes</p>	<p>The company sends the reports simultaneously to the Bank of Lithuania and NASDAQ OMX Vilnius AB Stock Exchange. In this way the independent and timely accessibility of the information is ensured. The information on the major events is presented in the Lithuanian and English languages.</p>
<p>10.7. It is recommended that the company's annual reports and other periodical accounts prepared by the company should be placed on the company's website. It is recommended that the company should announce information about material events and changes in the price of the company's shares on the Stock Exchange on the company's website too.</p>	<p>Yes</p>	<p>The Company announces on its website annual information and other periodic reports prepared by the Company, announcements about material events and changes of the Company's share prices on the Stock Exchange.</p>
<p>Principle XI: The selection of the company's auditor</p>		
<p>The mechanism of the selection of the company's auditor should ensure independence of the firm of auditor's conclusion and opinion.</p>		
<p>11.1. An annual audit of the company's interim and annual financial statements and report should be conducted by an independent firm of auditors in order to provide an external and objective opinion on the company's financial statements.</p>	<p>No</p>	<p>The independent firm of auditors conducts the audit of the annual financial statements and reviews the annual report to check whether there is no material inconsistencies between the financial information included in it and in the audited financial statements. The audit of the interim financial statements is not conducted.</p>
<p>11.2. It is recommended that the company's supervisory board and, where it is not set up, the company's board should propose a candidate firm of auditors to the general shareholders' meeting.</p>	<p>Yes</p>	<p>Company follows this principle. A candidate firm of auditors to the General Meeting is proposed by Board of the Company.</p>
<p>11.3. It is recommended that the company should disclose to its shareholders the level of fees paid to the firm of auditors for non-audit services rendered to the company. This information should be also known to the company's supervisory board and, where it is not formed, the company's board upon their consideration which firm of auditors to propose for the general shareholders' meeting.</p>	<p>Yes</p>	<p>Shareholders are informed about other fees paid to auditors for non-audit services, if such fees occur.</p>

Notes to the financial statements

1 General information

Vilniaus Baldai AB (hereinafter "the Company") is a public limited liability company registered in the Republic of Lithuania. The address of its registered office is Savanoriu Ave. 178B, Vilnius, LT-03154, Lithuania.

The Company is engaged in furniture production and trade. The Company was registered on 9 February 1993; its shares are traded in the Secondary List of the NASDAQ OMX Vilnius AB.

As of 31 August 2015 and 2014 the shareholders of the Group and the Company were:

	2015		2014	
	Number of votes held	Percentage	Number of votes held	Percentage
Invalda Privatus Kapitalas AB	3,342,160	86.00	3,342,160	86.00
Other shareholders	544,107	14.00	544,107	14.00
Total	3,886,267	100.00	3,886,267	100.00

As of 31 August 2015, the Company's share capital amounted to EUR 4,508,069.72 and it was divided into 3,886,267 ordinary registered shares. All the shares of the Company are ordinary shares with the par value of EUR 1.16 each and were fully paid. The share capital did not change in 2015 and 2014. The Company did not hold its own shares.

The holders of ordinary shares are entitled to receive dividends as declared from time to time and are entitled to one vote per share at annual and general meetings of the Company. All shares rank equally with regard to the Company's residual assets.

The Group consists of Vilniaus Baldai AB and its subsidiary ARI-LUX UAB (hereinafter "the Group"). ARI-LUX UAB information as of 31 August 2015:

Company	Registration address	Share of ownership held by the Company, %	Share capital	Profit (loss) for the reporting period	Equity	Main activities
ARI-LUX UAB	Savanoriu Ave. 178, Vilnius	100	3	2	24	Packaging of accessories

As of 31 August 2015 the number of employees of the Group and the Company was 724 and 673, respectively (as of 31 December 2014 – 671 and 629, respectively).

These financial statements include the consolidated financial statements of the Group and the separate financial statements of the Company.

The Company's management approved these financial statements on 16 November 2015. The shareholders of the Company have a statutory right to approve these financial statements or not to approve them and to require preparation of another set of financial statements.

2 Accounting principles

The principal accounting policies adopted in preparing the Group's and the Company's financial statements for the year 2015 are as follows:

2.1. Basis of preparation

These financial statements have been prepared in accordance with International Financial Reporting Standards (hereinafter IFRSs), as adopted by the European Union (hereinafter the EU). The financial statements have been prepared under the historical cost convention.

The preparation of financial statements in conformity with IFRSs, as adopted by the European Union, requires the use of certain critical accounting estimates. It also requires management to exercise its judgment in the process of applying the Company's accounting policies. The areas involving a higher degree of judgment or complexity, or areas where assumptions and estimates are significant to the financial statements are disclosed in Note 2.26. Although these estimates are based on management's best knowledge of current events and actions, actual results ultimately may differ from those estimates.

New standards, amendments and interpretations

The Group and the Company have consistently applied the accounting policies set out in Note 2 to all periods presented in these financial statements.

Accounting policy applied for these financial statements is the same as used for financial statements of period ending 31 December 2014.

Standards, interpretations and amendments to published standards that are not yet effective

A number of new standards, amendments and interpretations are effective for annual periods beginning after 1 January 2015, and have not been applied in preparing these financial statements. Those which may be relevant to the Group and the Company as well as management's judgements regarding the possible impact of initial application of new and revised standards and interpretations are set out below. The Group and the Company do not plan to adopt these amendments, standards and interpretations early.

(i) *Amendments to IAS 19 – Defined Benefit Plans: Employee Contributions (effective for annual periods beginning on or after 1 February 2015)*

The amendments are relevant only to defined benefit plans that involve contributions from employees or third parties meeting certain criteria. Namely that they are:

- set out in the formal terms of the plan;
- linked to service; and
- independent of the number of years of service.

When these criteria are met, a company is permitted (but not required) to recognise them as a reduction of the service cost in the period in which the related service is rendered. The Group and the Company do not expect the Amendment to have any impact on the financial statements since they do not have any defined benefit plans that involve contributions from employees or third parties.

(ii) *Annual Improvements to IFRSs*

The improvements introduce six amendments to six standards and consequential amendments to other standards and interpretations. Most of the amendments are applicable to annual periods beginning on or after 1 February 2015, with earlier adoption permitted.

None of these amendments are expected to have a significant impact on the financial statements of the Group and the Company.

2.2. Functional and presentation currency

Starting from 1 January 2015 the Company's financial statements currency is euro. Financial statements are prepared in thousands of euro.

The Company's accounting data expressed in litas as of 31 December 2014 (prior to EURo adoption) were recalculated into euro according to irrevocable litas and euro exchange rate – 1 EUR = LTL 3.45280.

2.3. Financial year

On 8 October 2014 the Extraordinary General Shareholders Meeting of Vilniaus Baldai AB has resolved to change the financial year, which earlier started 1 January and ended 31 December, to the financial year beginning on 1 September and ending on 31 August of the next year in order to coordinate the period of financial year of Vilniaus Baldai AB and its main customer. These Financial statements are prepared for transitional period from 1 January to 31 August, therefore the statements of profit or loss and other comprehensive income, changes in equity and cash flows are not directly comparable to the statements of the previous reporting period, which are for the 12-month period ended 31 December 2014. Hereinafter in the financial statements and in the notes "year 2015" or "2015" means the 8-month period ended on 31 August 2015 and "year 2014" or "2014" means the 12-month period ended 31 December 2014.

2.4. Principles of consolidation

The consolidated financial statements of the Group include Vilniaus Baldai AB and its subsidiary. The control is normally evidenced when the Group owns, either directly or indirectly, more than 50 percent of the voting rights of a company's share capital and/or is able to govern the financial and operating policies of an enterprise so as to benefit from its activities.

Subsidiaries are consolidated from the date from which effective control is transferred to the Company and cease to be consolidated from the date on which control is transferred out of the Company. All intercompany transactions, balances and unrealized gains and losses on transactions among the Group companies have been eliminated.

The consolidated financial statements are prepared on the basis of the same accounting principles applied to similar transactions and other events under similar circumstances. The financial statements of the Subsidiary were prepared for the same period as that of the Company.

2.5. Intangible assets

Intangible assets are measured initially at cost. Intangible assets are recognized if it is probable that future economic benefits that are attributable to the asset will flow to the Group and the Company and the cost of asset can be measured reliably. After initial recognition, intangible assets are measured at cost less accumulated amortization and any accumulated impairment losses. Intangible assets are amortized on a straight-line basis over the best estimate of their useful lives.

Software

The costs of acquisition of new software are capitalized and treated as an intangible asset if these costs are not an integral part of the related hardware. Software is amortized over a period not exceeding 3 years.

Costs incurred in order to restore or maintain the future economic benefits that the Group and the Company expects from the originally assessed standard of performance of existing software systems are recognized as an expense when the restoration or maintenance work is carried out.

2.6. Property, plant and equipment

Property, plant and equipment are stated at cost less accumulated depreciation and impairment losses.

When assets are sold or retired, their cost and accumulated depreciation are eliminated from the accounts and any gain or loss resulting from their disposal is included in profit or loss.

The initial cost of property, plant and equipment comprises its purchase price, including non-refundable purchase taxes and any directly attributable costs of bringing the asset to its working condition and location for its intended use. Expenditures incurred after the property, plant and equipment have been put into operation, such as repair and maintenance costs, are normally charged to profit or loss in the period the costs are incurred.

Depreciation is computed on a straight-line basis over the following estimated useful lives:

Buildings	10–66 years
Machinery and equipment	6–10 years
Vehicles	5–10 years
Other property, plant and equipment	2–6 years

The assets' residual values and useful lives are reviewed periodically to ensure that the period of depreciation is consistent with the expected pattern of economic benefits from items in property, plant and equipment.

Construction-in-progress is stated at cost. This includes the cost of construction, plant and equipment and other directly attributable costs. Construction-in-progress is not depreciated until the relevant assets are completed and available for use.

Borrowing costs directly attributable to the acquisition, construction or production of assets that are not stated at fair value and necessarily take a substantial time to get ready for intended use or sale (qualifying assets) are capitalised as part of the costs of those assets.

Capitalisation of borrowing costs continues up to the date when the assets are substantially ready for their use or sale.

The Group and the Company capitalise borrowing costs that could have been avoided if they had not made capital expenditure on qualifying assets. Borrowing costs capitalised are calculated at the Group's and the Company's average funding cost (the weighted average interest cost is applied to the expenditures on the qualifying assets), except to the extent that funds are borrowed specifically for the purpose of obtaining a qualifying asset. Where this occurs, actual borrowing costs incurred less any investment income on the temporary investment of those borrowings are capitalised.

2.7. Financial instruments – assets

Financial assets are classified as financial assets at fair value through profit or loss, loans and receivables, and available-for-sale financial assets, as appropriate. The Group and the Company determine the classification of their financial assets based on the nature and purpose at initial recognition.

Financial assets are recognised on a trade date basis where the purchase or sale process is under a contract, which terms require delivery of the financial assets within the timeframe established by the market concerned. Financial assets are recognised initially at fair value, plus, in the case of investments are not carried at fair value through profit or loss, directly attributable transaction costs.

The Group's and the Company's financial assets include cash, time deposits, trade receivables and other receivables and loans.

The subsequent measurement of financial assets depends on their classification as follows:

Loans and receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. Such assets are carried at amortized cost using the effective interest rate method. Gains or losses are recognized in profit or loss when such assets are impaired, as well as through the amortization process. Loans and receivables are initially recorded at acquisition cost (the fair value of the consideration given). Current receivables are subsequently carried at cost less impairment, and non-current receivables and loans granted – at amortised cost using the effective interest rate method, less impairment.

Loans and receivables are included in current assets, except for maturities greater than 12 months after the end of the reporting period. These are classified as non-current assets.

Trade receivables

Trade receivables are amounts due from customers for merchandise sold or services performed in the ordinary course of business. If collection is expected in one year or less (or in the normal operating cycle of the business if longer), they are classified as current assets. If not, they are presented as non-current assets.

Trade receivables are recognised initially at fair value and subsequently measured at amortised cost using the effective interest rate method, less impairment losses. Short term trade receivables are not discounted.

Cash and cash equivalents

Cash includes cash on hand and cash with banks and bank overdrafts. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash with original maturities of three months or less and that are subject to an insignificant risk of change in value.

For the purposes of the cash flow statement, cash and cash equivalents comprise cash on hand and cash with banks, time deposits held at call with banks with original maturities of 3 months or less and other short-term highly liquid investments.

Effective interest rate method

Effective interest rate method is used to calculate amortised cost of financial assets and allocate interest income over the relevant period. The effective interest rate exactly discounts estimated future cash flows through the expected life of the financial asset.

De-recognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a group of similar financial assets) is derecognised when:

- the rights to receive cash flows from the asset have expired;
- the Group and the Company retain the right to receive cash flows from the asset, but have assumed an obligation to pay them in full without material delay to a third party under a "pass through" arrangement; or
- the Group and the Company have transferred their rights to receive cash flows from the asset and either (a) have transferred substantially all the risks and rewards of the asset, or (b) have neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

2.8. Financial instruments - liabilities

The Group's and the Company's financial liabilities include borrowings, trade payables and other payables.

Borrowings

Borrowings are initially recognized at the fair value of proceeds received, less the costs of transaction. They are subsequently carried at amortized cost, the difference between net proceeds and redemption value being recognized in profit or loss over the period of the borrowings using the effective interest method.

Borrowing costs are expensed as incurred, unless they are directly attributable to acquisition, construction or production of a qualifying asset.

Interest paid is classified as cash flows from financing activities in the statement of cash flows.

Trade payables

Trade payables are obligations to pay for goods or services that have been acquired in the ordinary course of business from suppliers.

Trade payables are recognized when the other party fulfils its contractual obligations and are initially recognised at fair value and subsequently measured at amortised cost using the effective interest rate method.

De-recognition of financial liabilities

A financial liability is derecognised only when the obligation is discharged or cancelled, or expires.

An exchange between the Company and the same lender of debt instruments with substantially different terms or a substantial modification of the terms of an existing financial liability is accounted for as an extinguishment of the original financial liability and the recognition of a new financial liability, with the difference between their respective carrying amounts recognised in profit or loss.

2.9. Investments into subsidiaries in the Company's separate financial statements

Investments in subsidiaries are accounted at cost in the Company's separate financial statements. Cost of investment is decreased by impairment losses.

Impairment is determined by assessing the recoverable amount of the cash-generating unit. Where the recoverable amount of the cash-generating unit is lower than the carrying amount in the Company's statement of financial position, an impairment loss is recognized.

2.10. Inventories

Inventories are initially recorded at acquisition cost. Subsequent to initial recognition, inventories are valued at the lower of cost or net realizable value. Net realizable value is the selling price in the ordinary course of business, less the costs of completion and applicable variable marketing and distribution costs. Cost is determined by the first-in, first-out (FIFO) method. The cost of finished goods and work in progress includes the applicable allocation of fixed and variable overhead costs based on a normal operating capacity. Unrealizable inventory is fully written-off.

2.11. Share capital

Ordinary registered shares are classified as share capital. Ordinary registered shares are stated at their par value.

2.12. Dividends

Dividends are recognised in the Company's financial statements in the period in which the dividends are approved by the Company's shareholders. Dividends paid are classified as cash flows from financing activities in the statement of cash flows.

2.13. Leases

The Company and the Group are lessees

(a) Finance lease

Leases of property, plant and equipment where the Company and the Group have substantially all the risks and rewards of ownership are classified as finance leases. Finance leases are capitalised at the lease's commencement at the lower of the fair value of the leased property and the estimated present value of the minimum lease payments. Each lease payment is allocated between the liability and finance charges so as to achieve a constant interest rate on the finance lease balance outstanding. The corresponding rental obligations, net of finance charges, are included in long-term payables except for instalments due within 12 months which are included in current liabilities.

The property, plant and equipment acquired under finance leases are depreciated over the shorter of the asset's useful life and the lease term.

(b) Operating lease

Leases in which a significant portion of the risks and rewards of ownership are retained by the lessor are classified as operating leases. Payments made under operating leases (net of any incentives received from the lessor) are charged to profit or loss on a straight-line basis over the period of the lease.

The Company and the Group are lessors

(c) Operating lease

Payments received under operating leases (net of any incentives given to the lessee) are recognized in profit or loss on a straight-line basis over the period of the lease.

2.14. Employee benefits

(a) Social security contributions

The Company and the Group pay social security contributions to the state Social Security Fund (the Fund) on behalf of their employees based on the defined contribution plan in accordance with the local legal requirements. A defined contribution is a plan under which the Company and the Group pay fixed contributions into the Fund and will have no legal or constructive obligations to pay further contributions if the Fund does not hold sufficient assets to pay all employees benefits relating to employee service in the current and prior period. Social security contributions are recognised as expenses on an accrual basis and are included in payroll expenses.

(b) Termination benefits

Termination benefits are payable whenever an employee's employment is terminated before the normal retirement date or whenever an employee accepts voluntary redundancy in exchange for these benefits. The Group or the Company recognises termination benefits when it is demonstrably committed to either: terminating the employment of current employees according to a detailed formal plan without possibility of withdrawal; or providing termination benefits as a result of an offer made to encourage voluntary redundancy. Benefits falling due more than 12 months after the date of the statement of financial position are discounted to their present value.

(c) Bonus plans

The Group and the Company recognise a liability and an expense for bonuses where contractually obliged or where there is a past practice that has created a constructive obligation.

(d) Provisions for pensions and jubilee payments

According to the terms of the collective employment agreement effective at the Group and the Company, each employee is entitled to a pension benefit amounting to 2 or 3 months' salary payment when leaving the Group and the Company after reaching the pension age and a jubilee benefit. Actuarial calculations are made to determine liability for such payments. The liability is recognised at present value discounted using market interest rate.

The Group and the Company recognise re-measurements of the pension benefit obligation in 'Other comprehensive income that will not be reclassified to profit or loss'. These amounts recognised as other comprehensive income are accounted for under equity. Jubilee benefits and long-service benefits are accounted for by the Group and the Company within profit or loss.

2.15. Provisions

Provisions are recognized when the Group and the Company have a present obligation (legal or constructive) as a result of past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. The provisions are reviewed at each statement of financial position date and adjusted in order to present the most reasonable current estimate. If the effect of the time value of money is material, the amount of provision is equal to the present value of the expenses, which are expected to be incurred to settle the liability. Where discounting is used, the increase in the provision due to the passage of time is recognized as a borrowing cost.

2.16. Income tax

Income tax charge is based on profit for the year and considers deferred taxation. Income tax is calculated based on the Lithuanian tax legislation.

The standard income tax rate in the Republic of Lithuania was 15% in 2014 (15% in 2013).

Tax losses can be carried forward for indefinite period, except for the losses incurred as a result of disposal of securities and/or derivative financial instruments. Such carrying forward is disrupted if the Company change its activities due to which these losses were incurred except when the Company do not continue its activities due to reasons which do not depend on the Company itself. Starting from 2014 the amount of utilised tax losses cannot exceed 70% of taxable profit for the tax period calculated by deducting non-taxable income, allowed tax deductions and allowed limited amount deductions from income, except for tax losses of the previous periods. Starting from 2010, tax losses can be transferred at no consideration or in exchange for certain consideration between the Group companies if certain conditions are met.

The losses from disposal of securities and/or derivative financial instruments can be carried forward for 5 consecutive years and only be used to reduce the taxable income earned from the transactions of the same nature. The limitation (up to 70% on profit from transfer of securities) is not applied to losses on transfer of securities from previous tax periods deductible from profit on transfer of securities from the taxable period.

Deferred taxes are calculated using the liability method. Deferred income taxes reflect the net tax effects of temporary differences between the carrying amounts of assets and liabilities for financial reporting purposes and the amounts used for income tax purposes. Deferred tax assets and liabilities are measured using the tax rates expected to apply to taxable income in the years in which those temporary differences are expected to reverse based on tax rates enacted or substantively enacted at the reporting date.

A deferred tax asset is recognized in the statement of financial position to the extent the management believes it will be realized in the foreseeable future, based on taxable profit forecasts. If it is believed that part of the deferred tax asset is not going to be realized, this part of the deferred tax asset is not recognized in the financial statements.

Investment tax credit that arises from tax benefit amount carried forward qualifies for the initial recognition exception. Therefore, no deferred tax asset is recognised at the time the tax credit arises, but recognition occurs as a reduction of current tax as the credit is realised.

Deferred tax assets and liabilities are offset when they are related to taxes levied by the same tax authority and when there is a legally enforceable right to cover current payable taxes at net value.

Income tax and deferred tax for the accounting period

Income tax and deferred income tax are charged or credited to profit or loss, except when they relate to items included directly to equity, in which case the deferred income tax is also accounted for in other comprehensive income.

2.17. Revenue recognition

a) Sales of goods and services

Revenue is recognized when it is probable that the economic benefits associated with the transaction will flow to the Group and the Company and the amount of the revenue can be measured reliably. Sales are recognized net of VAT and discounts.

Revenue from sales of goods is recognized when delivery has taken place and transfer of risks and rewards has been completed.

b) Interest income

Interest income is recognised on a proportionate basis in profit or loss using the effective interest rate method. When a receivable is impaired, the Group and the Company reduce the carrying amount to its recoverable amount, being the estimated future cash flow discounted at the original effective interest rate of the instrument, and continues unwinding the discount as interest income. Interest income on impaired loan and receivables is recognised using the original effective interest rate. Interest income is classified as cash flows from investing activities in the statement of cash flows.

2.18. Expense recognition

Expenses are recognized on the basis of accrual and revenue and expense matching principles in the reporting period when the income related to these expenses was earned, irrespective of the time the money was spent. In those cases when the costs incurred cannot be directly attributed to the specific income and they will not bring income during the future periods, they are expensed as incurred.

The amount of expenses is usually accounted for as the amount paid or due, excluding VAT. In the cases when a long period of payment is established and the interest is not distinguished, the amount of expenses shall be estimated by discounting the amount of payment using the market interest rate.

2.19. Foreign currency transactions

Foreign currency transactions are accounted for at the exchange rates prevailing at the date of the transactions. Gains and losses resulting from the settlement of such transactions and from the translation of monetary assets and liabilities denominated in foreign currencies on the statement of financial position date are recognized in profit or loss. Such balances are translated at period-end exchange rates. Non-monetary assets and liabilities that are measured in terms of historical cost in a foreign currency are translated using the exchange rate at the date of the transaction. Non-monetary assets and liabilities denominated in foreign currencies that are stated at fair value are translated to euro at foreign exchange rates ruling at the dates the fair value was determined.

2.20. Impairment of assets

Financial assets

Financial assets are reviewed for impairment at each statement of financial position date.

For financial assets carried at amortized cost, whenever it is probable that the Group and the Company will not collect all amounts due according to the contractual terms of loans or receivables, an impairment or bad debt loss is recognized in profit or loss. Impairment of trade and other receivables is established when there is objective evidence (such as probability of default or significant financial difficulties of the client) that the Group and the Company will not be able to collect all amounts due according to the original terms of the receivables. Significant financial difficulties of the debtor, probability that the debtor will enter bankruptcy or financial reorganisation, and default or delinquency in payments (more than 30 days overdue) are considered indicators that the trade receivable is impaired.

The recoverable amount of receivables carried at amortised cost is measured as the present value of future cash flows discounted at the original interest rate (i.e. the effective interest rate calculated at the initial recognition of these receivables).

The reversal of impairment losses previously recognized is recorded when the decrease in impairment loss can be justified by an event occurring after the write-down. Such reversal is recorded in profit or loss under the same caption as impairment losses. However, the increased carrying amount is only recognized to the extent it does not exceed the amortized cost that would have been had the impairment not been recognized.

Non-financial assets

Non-financial assets, other than inventories and deferred tax are reviewed for impairment whenever events or changes in circumstances indicate that the carrying amount of an asset may not be recoverable. If any such indication exists, the asset's recoverable amount is estimated.

The recoverable amount is the higher of an asset's fair value less costs to sell and value in use. Whenever the carrying amount of an asset exceeds its recoverable amount, an impairment loss is recognized in profit or loss.

Reversal of impairment losses recognized in prior years is recorded when there is an indication that the impairment losses recognized for the asset no longer exist or have decreased. Reversal is accounted for in the same caption in profit or loss as impairment losses. For evaluation of impairment of assets the entire Group is considered as one cash generating unit.

2.21. Segment information

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision-maker. The chief operating decision-maker, who is responsible for allocating resources and assessing performance of the operating segments, has been identified as the Board of directors that makes strategic decisions.

2.22. Related parties

Related parties are defined as shareholders, employees, members of the Board, their close relatives and companies that directly or indirectly (through the intermediary) control or are controlled by, or are under common control with, the Group and the Company, provided the listed relationship empowers one of the parties to exercise the control or significant influence over the other party in making financial and operating decisions.

2.23. Contingencies

Contingent liabilities are not recognized in the financial statements. They are disclosed unless the possibility of an outflow of resources embodying economic benefits is remote.

A contingent asset is not recognized in the financial statements but disclosed when an inflow or economic benefits is probable.

2.24. Subsequent events

Events after the reporting date that provide additional information about the Group's and the Company's position at the statement of financial position date (adjusting events) are reflected in the financial statements. Events after the reporting date that are not adjusting events are disclosed in the notes when material.

2.25. Offsetting and comparative figures

When preparing the financial statements, assets and liabilities, revenue and expenses are not set off, except the cases when certain IFRS specifically requires such set-off. Financial assets and liabilities are offset and the net amount reported in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously.

2.26. Use of estimates in the preparation of financial statements

The preparation of financial statements in conformity with IFRSs requires management to make judgements, estimates and assumptions that affect the reported amounts of assets, liabilities, income and costs and disclosure of contingencies, at the reporting date and within the next financial year. Estimates and judgements are continually evaluated and are based on management's experience and other factors, including expectations of future events that are believed to be reasonable under the circumstances. Revisions to accounting estimates are recognized in the period in which the estimate is revised if the revision affects only that period or in the period of the revision and future periods if the revision affects both current and future periods.

Management also makes certain judgements, apart from those involving estimations, in the process of applying the accounting policies. However, uncertainty about these assumptions and estimates could result in outcomes that could require a material adjustment to the carrying amount of the asset or liability affected in the future.

Estimates and assumptions

The main areas where management is required to make significant and critical judgements and areas where estimates and assumptions might have significant impact for the preparation of financial statements are described below:

Property, plant and equipment – useful life

The key assumptions concerning determination of the useful life of property, plant and equipment are as follows: expected usage term of the asset, expected technical, technological or other obsolescence arising from changes or improvements in the production, legal or similar limits on the use of the asset, such as the expiry dates of related leases. Further details are given in Note 2.6.

Tax liabilities

The tax authorities have a right to examine the Group's and the Company's books and accounting records at any time during the 5 years' period after the current tax year and account for additional taxes and fines. In the opinion of the Company's management currently there are no circumstances which would raise substantial liability in this respect.

Related-party transactions

In the normal course of business the Group and the Company enter into transactions with their related parties. These transactions are priced at market rates. Judgement is applied in determining if transactions are priced at market or non-market rates, where there is no active market for such transactions. The basis for judgement is pricing for similar types of transactions with unrelated parties.

Pension and jubilee benefits

Key assumptions used in determining the provision for pension and jubilee benefits are as follows: employee turnover rate by age group, discount rate, and wage and salary growth. The Group's and the Company's management makes judgements in relation to these assumptions. See Note 14 for more details.

3 Segment information

Management of the Company has determined the operating segments based on the reports reviewed by the board of directors, considered to be the chief operating decision makers, that are used to make strategic decisions. Based on this it was decided that the Company and the Group have a single reportable segment, i.e. furniture production and trade.

Breakdown of revenue by the location where production is delivered:

	Sales			
	Group		Company	
	2015	2014	2015	2014

Net book value as of 31 December 2014	3,295	10,205	86	319	13,905

Depreciation charge for the year was recognised as follows:

	Group		Company	
	2015	2014	2015	2014
Cost of sales	1,173	1,715	1,173	1,715
Operating expenses	58	87	57	87
Inventories – finished goods	69	10	68	10
	1,300	1,812	1,298	1,811

Property, plant and equipment of the Group and the Company with an acquisition cost of EUR 4,465 thousand was fully depreciated as of 31 August 2015 (EUR 4,169 thousand and EUR 4,168 thousand as of 31 December 2014), and was still in active use. The major part of the fully depreciated property, plant and equipment consists of machinery and equipment.

The net book value of the Company's property, plant and equipment acquired under finance lease contracts amounted to EUR 41 thousand as of 31 August 2015 (EUR 80 thousand as of 31 December 2014). Property, plant and equipment acquired under finance lease contracts are classified as vehicles.

5 Property, plant and equipment (cont'd)

The Company's prepayments for non-current assets amounted to EUR 46 thousand as of 31 August 2015 (EUR 18 thousand as of 31 December 2014). Prepayments are classified as other property, plant and equipment.

As of 31 August 2015, the Company's property, plant and equipment with the net book value of EUR 10,089 thousand was pledged to the bank as collateral for loans granted (Note 12).

6 Investments into subsidiaries

Acquisition cost of investment of the Company in subsidiary as of 31 December 2014 and 2013 are presented below:

	2015		2014	
	Share capital	Acquisition cost	Share capital	Acquisition cost
ARI-LUX UAB	100%	5	100%	5
		<u>5</u>		<u>5</u>

Performance results of the subsidiary before elimination of related transactions in 2015 and 2014.

Statement of financial position

	As of 31 August 2015	As of 31 December 2014
Non-current assets	1	2
Current assets	63	31
Total assets	64	33
Equity and reserves	24	22
Non-current liabilities	-	-
Current liabilities	40	11
Total equity and liabilities	64	33

Statement of profit or loss and other comprehensive income

	2015	2014
Revenue	183	210
Cost of sales	(141)	(150)
Gross profit	42	60
Operating expenses	(40)	(50)
Profit (loss) before income tax	2	10
Income tax expense	-	-
Net profit (loss) for the reporting period	2	10

7 Inventories

	Group		Company	
	2015	2014	2015	2014
Raw materials	2,123	1,507	2,123	1,507
Work in progress	282	1,213	282	1,213
Finished goods	4,405	1,817	4,405	1,817
Goods for resale	-	3	-	3
	6,810	4,540	6,810	4,540

Raw materials consist of wood, accessories, plastics, chemical materials and other materials used in production.

As of 31 August 2015 and 31 December 2014 no write-down to net realizable value was recognised for inventories of the Group and the Company.

All inventories are pledged to the bank according to loan agreements (Note 12).

8 Trade receivables

	Group		Company	
	2015	2014	2015	2014
Trade receivables, gross	6,511	4,542	6,511	4,543
Less: impairment for doubtful receivables	-	-	-	-
	6,511	4,542	6,511	4,543

Trade receivables are non-interest bearing and are generally on 30 days payment terms.

As of 31 August 2015 and 31 December 2014 no impairment allowance was recognised for trade receivables of the Group and the Company.

The ageing analysis of the Group's and the Company's trade receivables as of 31 August 2015 and 31 December 2014 is as follows:

	Trade receivables neither past due nor impaired	Trade receivables past due, but not impaired					Total
		Less than 30 days	30-60 days	60-90 days	90-120 days	More than 120 days	
2015	5,955	546	4	4	1	1	6,511
2014	4,373	164	-	-	-	5	4,542

9 Other receivables

	Group		Company	
	2015	2014	2015	2014
Refundable VAT	714	353	714	353
Other receivables	98	21	81	18
	812	374	795	371

Other receivables of the Group and the Company were neither past due nor impaired as of 31 August 2015 and 31 December 2014.

10 Cash and cash equivalents

	Group		Company	
	2015	2014	2015	2014
Cash at bank	413	1,096	371	1,069
	413	1,096	371	1,069

The Company's cash balances in bank accounts denominated in foreign currency and euro, and future inflows to the accounts at Danske Bank A/S Lithuania Branch were pledged to the bank as collateral for loans granted (Note 12).

11 Reserves

Legal reserve

A legal reserve is a compulsory reserve under Lithuanian legislation. Annual transfers of not less than 5% of net profit are compulsory until the reserve reaches 10% of the share capital.

12 Borrowings

	Group		Company	
	As of 31 August 2015	As of 31 December 2014	As of 31 August 2015	As of 31 December 2014
Non-current borrowings				
Finance lease	26	32	26	32
Loans	-	3,552	-	3,552
	26	3,584	26	3,584
Current borrowings				
Current portion of non-current finance lease	29	36	29	36
Current portion of loans	2,129	3,550	2,129	3,550
Credit line	5,503	1,560	5,503	1,560
	7,661	5,146	7,661	5,146
	7,687	8,730	7,687	8,730

The Company's buildings and machinery with the total net book value of EUR 10,089 thousand as of 31 August 2014 (EUR 11,878 thousand as at 31 December 2014) and the current cash balances and future inflows to the Company's accounts at Danske Bank A/S Lithuania Branch and inventories were pledged as collateral for the loans granted.

12 Borrowings (cont'd)

Terms of repayment of non-current and current borrowings of the Group and the Company are as follows:

	<u>Group</u>		<u>Company</u>	
	As of 31 August 2015			
	Fixed interest rate	Variable interest rate	Fixed interest rate	Variable interest rate
2015	-	2,129	-	2,129
2016	-	5,503	-	5,503
2017	-	55	-	55
	-	7,687	-	7,687

	<u>Group</u>		<u>Company</u>	
	As of 31 December 2014			
	Fixed interest rate	Variable interest rate	Fixed interest rate	Variable interest rate
2015	-	5,146	-	5,146
2016	-	3,567	-	3,567
2017	-	17	-	17
	-	8,730	-	8,730

In February 2015 the Company signed amendments to the agreement on financing (crediting) services with Danske Bank A/S Lithuania Branch for the amendment to the terms and conditions of the agreement, to the loan amount and repayment terms. Based on the amendments, terms of the agreement were modified substantially, however resulting in no gain or loss to be recognized.

Actual interest rates are close to the effective interest rates. As of 31 August 2015 the weighted average annual interest rate on outstanding balances of the Group's and the Company's borrowing was 1.24% (1.61% as of 31 December 2014). In 2015 and 2014, the period of re-pricing variable interest rates on borrowings was 3 and 6 months.

The fair value of current and non-current borrowings approximates their carrying amount as the contractual terms of the borrowings are considered to be at market rates,

Weighted average interest rates of borrowings outstanding at the year-end:

	<u>Group</u>		<u>Company</u>	
	2015	2014	2015	2014
Credit line	1.14%	1.30%	1.14%	1.30%
Loans	1.49%	1.67%	1.49%	1.67%
Finance lease	2.28%	2.57%	2.28%	2.57%

Borrowings at the end of the year in functional and foreign currencies:

	<u>Group</u>		<u>Company</u>	
	2015	2014	2015	2014
Borrowings denominated in:				
EUR	7,687	8,730	7,687	8,730
	7,687	8,730	7,687	8,730

VILNIAUS BALDAI AB, company code 121922783, Savanoriu Ave. 178B, Vilnius, Lithuania
CONSOLIDATED AND COMPANY'S FINANCIAL STATEMENTS FOR THE 8-MONTH PERIOD ENDED 31-08-2015
(all amounts are in EUR thousand unless otherwise stated)

Finance lease liabilities are payable as follows:

The Company and the Group	Future minimum lease payments		Interest		Present value of minimum lease payments	
	2015	2014	2015	2014	2015	2014
	Not later than 1 year	29	34	1	1	29
Later than 1 year and no later than 5 years	26	32	-	1	26	32
Later than five years	-	-	-	-	-	-
	55	66	1	2	55	66

13 Trade payables

Trade payables are non-interest bearing and are normally settled on 30–60 days terms.

14 Provisions for employee benefits

	Group		Company	
	2015	2014	2015	2014
Provisions for pension benefits	292	243	292	243
Provisions for jubilee and other benefits	393	352	393	352
	685	595	685	595

Provisions for pension and jubilee benefits comprise amounts calculated in line with the collective employment agreement effective at the Company. Each employee is entitled to a jubilee benefit and a pension benefit amounting to 2 or 3 months' salary payments on leaving the Company after reaching the retirement age. Key assumptions used in determining the provisions for pension and jubilee benefits are as follows: employee turnover rate by age group, discount rate, and wage and salary growth.

The main actuarial assumptions used for the calculation of provisions for pension and jubilee benefits were as follows:

	2015	2014
Discount rate	3%	5%
Salary growth rate	5%	3%
Rate of employee turnover by age group:		
younger than 25 years	0–40%	30–50%
from 25 to 45 years	10–15%	10–25%
from 45 to 59 years	10%	10%
from 59 to 75 years	0–10%	0%

The following table demonstrates the sensitivity of the Group's and the Company's other comprehensive income to possible changes in actuarial assumptions with all other variables held constant:

2015	Impact on other comprehensive income	
	Increase / decrease, %	
Discount rate	+0.5%	(66)
Salary growth rate	+0.5%	68
Discount rate	-0.5%	70
Salary growth rate	-0.5%	(64)

14 Provisions for employee benefits (cont'd)

The movement in the provisions for pension benefits is as follows:

The Group and the Company	2015	2014
At 1 January	243	199
Growth in the current year	39	31
Payments	(3)	(4)
Re-measurements of pension benefits	13	17
At 31 August	292	243

The movement in the provisions for jubilee and other benefits is as follows:

The Group and the Company	2015	2014
At 1 January	352	282
Growth in the current year	41	70
Payments	0	0
Re-measurements of jubilee and other benefits	0	0
At 31 August	393	352

15 Other current and accrued liabilities

	Group		Company	
	2015	2014	2015	2014
Payroll related liabilities	1,525	1,131	1,488	1,122
Dividends payable	968	982	968	982
Operating taxes payable	21	35	18	33
Other payables and accrued liabilities	29	23	29	23
	2,543	2,171	2,503	2,160

Other payables are non-interest bearing and are normally settled on 15–30 day terms.

16 Revenue

	Group		Company	
	2015	2014	2015	2014
Sales of goods	43,894	61,707	43,894	61,707
Revenue from services	6	1	6	1
	43,900	61,708	43,900	61,708

In 2015 and 2014 sales of goods comprised sales of furniture, which accounted for approx. 99 per cent and 98 per cent respectively of total sales, while the rest were sales of raw materials and waste.

The main customer of the Company is IKEA Supply AG. Sales to this customer in 2015 amounted to EUR 43,351 thousand, i.e. 99 per cent of total sales (in 2014 sales amounted to EUR 60,615 thousand, i.e. 98 per cent of total sales). The Company is working with this customer on the basis of short-term agreements since 1998.

Deferred tax expense	(24)	(21)	(24)	(21)
Income tax expense carried in profit or loss	369	428	369	428

Deferred income tax asset and liability as of 31 August 2015 and 31 December 2014 was accounted using tax rate of 15%.

In 2015, the Group and the Company implemented the investment project by allocating new property, plant and equipment intended for the increase of output and labour productivity, expansion of the range of goods produced with new products and major change of the manufacturing process. The investment project covered investments of EUR 1,087 thousand related to the acquisition and installation of new production technological lines intended for the modernisation of existing production technological lines. The Group and the Company reduced taxable profit for 2015 by the investment tax credit of EUR 169 thousand (unused part of the investment project amounting to EUR 132 thousand was transferred from the year 2014).

21 Income tax (cont'd)

Income tax expense disclosed in the statement of profit or loss and other comprehensive income may be reconciled to income tax expense that would arise using an enacted income tax rate applicable to profit before income tax.

	Group			
	2015		2014	
Profit (loss) before tax		2,529		5,198
Tax calculated at a statutory 15% tax rate	15%	379	15%	780

22 Earnings per share

Basic and diluted earnings per share are calculated by dividing the net profit attributable to shareholders by the weighted average number of ordinary shares issued and paid during the year. There are no potential ordinary shares to be issued.

	Group		Company	
	2015	2014	2015	2014
Net profit attributable to shareholders	2,160	4,770	2,157	4,761
Weighted average number of shares (thousand)	3,886	3,886	3,886	3,886
Basic earnings per share (in LTL)	0.56	1.23	0.56	1.23

There were no changes in the share capital of the Company during 2015 and 2014; therefore, the weighted average number of shares equals the total number of shares.

23 Financial risk management

Financial instruments by category

The financial risk management has been applied to the line items below:

	Group		Company	
	Category – Loans and receivables		Category – Loans and receivables	
	2015	2014	2015	2014
Financial assets				
Trade and other receivables	6,612	4,564	6,592	4,560
Cash and cash equivalents	413	1,096	371	1,069
	7,025	5,660	6,963	5,629
	Group		Company	
	Category – Financial liabilities measured at amortised cost		Category – Financial liabilities measured at amortised cost	
	2015	2014	2015	2014
Financial liabilities				
Borrowings	7,632	8,664	7,632	8,664
Obligations under finance leases	55	65	55	65
Trade and other payables	5,265	4,588	5,268	4,588
	12,952	13,317	12,955	13,317

Liquidity risk

The Group's and the Company's policy is to maintain sufficient cash and cash equivalents or have available funding through an adequate amount of committed credit facilities to meet their commitments at a given date in accordance with their strategic plans. The Group's and the Company's liquidity (total current assets / total current liabilities) and quick ratios ((total current assets – inventories) / total current liabilities) as of 31 August 2015 were 1.03 and 0.56, respectively (the Group's and the Company's liquidity and quick ratio as of 31 December 2014 – 0.99 and 0.57, respectively).

The tables below summarise the maturity profile of the Group's and the Company's financial liabilities as of 31 August 2015 based on contractual undiscounted cash flows (planned payments and interest):

Group	On demand	Less than 3 months	3 to 12 months	1 to 5 years	More than 5 years	Total
Interest bearing loans and borrowings	-	934	4,331	3,615	-	8,880
Trade and other payables	982	3,606	-	-	-	4,588
Balance as of 31 December 2014	982	4,540	4,331	3,615	-	13,468
Interest bearing loans and borrowings	-	931	6,760	26	-	7,717
Trade and other payables	968	4,297	-	-	-	5,265
Balance as of 31 August 2015	968	5,228	6,760	26	-	12,982

23 Financial risk management (cont'd)

Liquidity risk (cont'd)

Company	On demand	Less than 3 months	3 to 12 months	1 to 5 years	More than 5 years	Total
Interest bearing loans and borrowings	-	934	4,331	3,615	-	8,880
Trade and other payables	982	3,607	-	-	-	4,589
Balance as of 31 December 2014	982	4,541	4,331	3,615	-	13,469
Interest bearing loans and borrowings	-	931	6,760	26	-	7,717
Trade and other payables	968	4,300	-	-	-	5,268
Balance as of 31 August 2015	968	5,231	6,760	26	-	12,985

Credit risk

The Group and the Company have significant concentration of trading counterparties. The main customer of the Group and the Company – IKEA Supply AG – as of 31 August 2015 accounted for approximately 99% of the total Group's and Company's trade receivables (as of 31 December 2014 over 98%). Also, the major part of the Company's sales is with this customer (Note 16).

The Group and the Company do not guarantee obligations of other parties. The maximum exposure to credit risk is represented by the carrying amount of each financial asset. Consequently, the Management of the Group and the Company considers that its maximum exposure is reflected by the amount of trade receivables recognised at the statement of financial position date.

With respect to trade and other receivables that are neither impaired nor past due, there are no indications as of the reporting date that the debtors will not meet their payments obligations since receivables balances are monitored on an ongoing basis.

The maximum exposure to credit risk of the Group's and the Company's cash and cash equivalents is equal to the fair value of cash and cash equivalents classified as cash and cash equivalents at the date of financial position statements preparation. The management of the Group and the Company considers that the risk arising from placement of cash and cash equivalents at bank accounts and other short-term financial instruments is not significant, as placements are made only in commercial banks in Lithuania which have high credit ratings.

Foreign exchange risk

Major currency risks of the Group and the Company occur due to the fact that the Group and the Company borrow foreign currency denominated funds and are involved in imports and exports. The Group's and the Company's policy is to match cash flows arising from highly probable future sales and purchases in each foreign currency. The Group and the Company do not use any financial instruments to manage their exposure to foreign exchange risk other than aiming to borrow in EUR.

Financial assets and liabilities stated in various currencies as of 31 August 2015 were as follows (stated in EUR):

	Group		Company	
	Assets	Liabilities	Assets	Liabilities
EUR	7,025	12,915	6,963	12,918
PLN	-	37	-	37
	7,025	12,952	6,963	12,955

23 Financial risk management (cont'd)

Interest rate risk

The Group's and the Company's borrowings comprise borrowings with variable interest rates, related to EURIBOR, which creates an interest rate risk. There were no financial instruments designated to manage the exposure to fluctuation in interest rates outstanding as of 31 August 2015 and 31 December 2014.

The following table demonstrates the sensitivity to a reasonably possible change in interest rates, with all other variables held constant, of the Group's and the Company's profit before tax (through the impact on floating rate borrowings).

2015	Increase / decrease, %	Effect on profit before tax
EUR	+1%	(77)
EUR	-0.1%	8
2014	Increase / decrease, %	Effect on profit before tax
EUR	+1%	(71)
EUR	-0.1%	9

Fair value of financial assets and liabilities

The Group's and the Company's principal financial assets and liabilities accounted for at amortised cost are trade and other receivables, trade and other payables, long-term and short-term borrowings.

Fair value is defined as the amount at which the assets or services could be exchanged or liability settled between non-related knowledgeable willing parties. Fair values are obtained from quoted market prices, discounted cash flow models and option pricing models as appropriate.

Trade and other receivables, trade and other payables. In the management's opinion, the carrying amounts of trade and other receivables, trade and other payables and borrowings approximate their fair values, as trade and other receivables, trade and other payables are current, and borrowings are subject to EURIBOR market based variable interest rates.

Credit quality of financial assets

The credit quality of financial assets that are neither past due nor impaired can be assessed by reference to historical information about counterparty default rates:

	Group		Company	
	Category – Loans and receivables		Category – Loans and receivables	
	2015	2014	2015	2014
Not overdue trade and other receivables	6,053	4,395	6,036	4,391
Cash at bank that have high* credit ratings	413	1,096	371	1,069
	6,466	5,491	6,407	5,460

* Credit rate A provided by Fitch Ratings Agency

The Group and the Company hold cash and make investments only in other short term investing instruments of commercial banks in Lithuania with high credit ratings.

24 Capital management

The Group's and the Company's capital includes share capital, legal reserve and retained earnings. The primary objective of the capital management is to ensure that the Group and the Company comply with externally imposed capital requirements.

The Group and the Company manage their capital structure and make adjustments to it in the light of changes in economic conditions and the risk characteristics of their activities. To maintain or adjust the capital structure, the Company may adjust the dividend payment to shareholders, return capital to shareholders or issue new shares. No changes were made in the objectives, policies or processes of capital management during the year ended 31 August 2015.

The Company is obliged to keep its equity at no less than 50% of its share capital, as imposed by the Law on Companies of the Republic of Lithuania.

The Group and the Company have externally imposed capital requirements from the bank. The following requirements are imposed to secure the repayment of bank borrowings and settlement of finance lease obligations:

- (a) ratio of equity (less amounts receivable from related parties and less loans granted to the Company by related parties) to total assets (less amounts receivable from related parties and less loans granted to the Company by related parties) should not be lower than 0.30;
- (b) ratio of net debt to EBITDA should not be higher than 2.00 for the last 12 months.

The management monitors that the Company is in line with both above mentioned capital requirements. No other capital management instruments are used.

The calculation of banks' covenants is presented below:

	Group		Company	
	2015	2014	2015	2014
Assets	27,105	24,814	27,049	24,787
Receivables from related parties	-	-	-	-
Total assets	27,105	24,814	27,049	24,787
Equity	11,888	9,735	11,869	9,719
Loans granted to the Company by related parties	-	-	-	-
Total equity	11,888	9,735	11,869	9,719
Equity to assets ratio	0.44	0.39	0.44	0.39

	Group		Company	
	2015	2014	2015	2014
Debt	7,687	8,730	7,687	8,730
Cash and cash equivalents	(413)	(1,096)	(371)	(1,069)
Net debt	7,274	7,634	7,316	7,661
EBITDA (for the last 12 months)	5,770	7,145	5,766	7,133
Net debt to EBITDA ratio	1.26	1.07	1.27	1.07

As of 31 August 2015 and 31 December 2014, the Group and the Company complied with all external requirements established to secure the repayment of bank borrowings.

25 Related-party transactions

The parties are considered related when one party has the possibility to control the other one or have significant influence over the other party in making financial and operating decisions. The related parties of the Company as of 31 August 2015 were: ARI-LUX UAB (the subsidiary), Invalda Privatus Kapitalas AB (ultimate shareholder) and all companies controlled by Invalda Privatus Kapitalas AB (as of 31 December 2014: ARI-LUX UAB (the subsidiary), Invalda Privatus Kapitalas AB (shareholder) and all companies controlled by Invalda Privatus Kapitalas AB).

Transactions of the Group and the Company with related parties during 2015 and 2014 and the balances as of 31 August 2015 and 31 December 2014 were as follows:

a) Sales and purchases of goods and services and year-end balances arising from these sales/purchases

2015	Purchases	Sales	Receivables	Payables
