### Description of main risks

### Interest rate risk

Interest rate risk is the risk that the interest rates of the Group's liabilities differ significantly from the market interest rates. The interest rate risk of AS Trigon Property Development is limited to the difference between the fixed interest rates of the Group's long-term borrowings and the market interest rates. At the time of preparing these financial statements, the market interest rates were higher than the interest rates of the Group's borrowings; therefore the fair value of the loan assumed by the Group is lower than its carrying amount.

### Operating environment risk

The Group is exposed to the risk of real estate prices and real estate rental prices. The Group is not exposed to the market risk arising from financial instruments, as it does not hold any securities or derivate agreements.

### Fair value

The fair values of accounts payable, short-term loans and borrowings do not materially differ from their book values. The fair value of long-term loans and borrowings is presented in Note 4.

### Management and Supervisory Boards and auditor

Management board of AS Trigon Property Development has one member - Aivar Kempi.

Supervisory Board of AS Trigon Property Development has three members: Ülo Adamson, Joakim Helenius and Heiti Riisberg.

Audits are carried out by PricewaterhouseCoopers AS.

The property valuation is based on estimates, assumptions and historical experience adjusted with prevailing market conditions and other factors which management assesses to the best of its ability on an on-going basis. Therefore, based on the definition and taking into account that evaluation is based on a number of presumptions, which may not realize in assessed way, the valuation can be subject to significant adverse effects. This could lead to a significant change in the carrying amount of investment property in future periods. The fair value of the investment property, which is assessed using the described model is essentially dependent on whether this project could be accomplished and appropriate financing found in compliance with the presumptions made and schedule used in evaluation model.

As at 30 September 2015 and 30 September 2014, investment properties were encumbered with mortgages for the benefit of Estonian Republic in the amount of 395 thousand euros. Mortgages were set as collateral for borrowing (note 4), which was repaid on May 20, 2015. As at 30 September 2015 the carrying amount of investment properties encumbered with mortgages was 2,270,248 euros and 30 September 2014 2,330,000 euros.
