## Live Baccarat Squeeze heads Evolution's all-new Baccarat line-up

**Evolution Gaming, leading provider of Live Casino solutions, will today go live with its first Live Baccarat Squeeze table at William Hill's recently opened Macau online brand ([macau.williamhill.com](http://macau.williamhill.com)).**

The new game will be streamed live to William Hill players from a multi-camera studio installation at Evolution's Riga studios. In this Baccarat immersive experience, 17 HD cameras will capture all the action and suspense of the game known for being the most popular table game found in Macau's numerous land-based casinos. The highlight of Evolution's online Live Casino version of the game is the live squeeze of the cards captured in a series of close-ups.

This William Hill Live Baccarat Squeeze launch heralds the introduction of an all-new, greatly improved range of Evolution Live Baccarat variants for all player types. The range includes: single-camera Live Baccarat, across mainstream shared and VIP shared tables; new Multi-Camera Live Baccarat and new Live Baccarat Squeeze. All game variants, and all new features such as extra side bets and roads, are available on desktop, tablet and smartphone.

The new generic Live Baccarat tables available for all Evolution licensees are scheduled to go live by the end of January 2016, including the Live Baccarat Squeeze table which will be showcased at the ICE exhibition.

Richard Hadida, Evolution co-founder and Creative Director, said: "With this comprehensive upgrading of our entire Live Baccarat offering we have created a totally authentic live gaming experience. All of our Baccarat variants feature bean-shaped tables, cards dealt face down and our new User Interface. These elements, combined with additional side bets and a choice of roads, make the whole experience just like playing at the VIP Baccarat tables in Asia."

Hadida added: "For many players, the most absorbing and thrilling aspect of Baccarat is the ritual of the squeeze. With Live Baccarat Squeeze, the squeeze is recreated in crystal-clear close-ups to take the realism of online Live Casino to a whole new level."
