

AMG ADVANCED METALLURGICAL GROUP N.V. ANNOUNCES APPOINTMENT OF NEW CHIEF FINANCIAL OFFICER

Amsterdam, 11 January 2016 (Regulated Information) --- AMG Advanced Metallurgical Group N.V. ("AMG", Euronext Amsterdam: "AMG") announced today that it has appointed Mr. Jackson M. Dunckel as Chief Financial Officer ("CFO"), effective 1 February 2016. Mr. Dunckel succeeds Ms. Amy Ard, who will resign effective 31 January 2016, to pursue other professional opportunities. Ms. Ard will assist in an orderly transition of her responsibilities to Mr. Dunckel.

Mr. Mike Connor, head of controlling at AMG, has been promoted to Senior Vice President and Corporate Controller effective immediately. Mr. Connor is a Certified Public Accountant, since 2005, and completed his MBA in 2003 at LaSalle University.

Mr. Dunckel joins AMG from the Macquarie Group Limited where he has served as Managing Director and Head of Chemicals since 2010. Prior to this, Mr. Dunckel held various senior level positions at JP Morgan Chase since 1995, including Vice President, Global Chemicals and Executive Director, Investment Banking Coverage.

Mr. Dunckel graduated, Cum Laude, with a Bachelor's degree in European History from the University of California and completed his MBA in International Finance at the Leonard Stern School of Business in 1995.

"Amy Ard has been essential in the formation of AMG, the IPO in 2007 and the building of a strong corporate finance and controlling structure," said Dr. Heinz Schimmelbusch, CEO and Chairman of the Management Board. "All of us greatly appreciate these significant contributions to AMG over the past 10 years. We wish Amy the very best in her future endeavors."

About AMG

AMG is a global critical materials company at the forefront of CO₂ reduction trends. AMG produces highly engineered specialty metals and mineral products and provides related vacuum furnace systems and services to the transportation, infrastructure, energy, and specialty metals & chemicals end markets.

AMG Critical Materials produces aluminum master alloys and powders, titanium alloys and coatings, ferrovandium, natural graphite, chromium metal, antimony, tantalum, niobium and silicon metal. AMG Engineering designs and produces vacuum furnace equipment and systems used to produce and

upgrade specialty metals and alloys for the transportation, automotive, infrastructure, and energy markets.

With approximately 3,000 employees, AMG operates globally with production facilities in Germany, the United Kingdom, France, Czech Republic, United States, China, Mexico, Brazil and Sri Lanka, and has sales and customer service offices in Russia and Japan (www.amg-nv.com).
