Bilia starting an IT cooperation

Bilia has during the last years successfully centralised a number of functions. Functions that lowers cost, yield competence and quality improvements, which enables Bilia to focus on the core business. During the last years, Bilia have had requests from other car dealers asking if Bilia can provide solutions from centralised functions. Bilia has today signed a letter of intent to supply IT-solutions to Rejmes Bil AB in Halland and to another car dealer in Sweden. The advantages for Bilia and Bilia's customers, are quality improvements, economies of scale and a higher service level.
