Okmetic supplies tailored, high value-added silicon wafers to be used in the manufacture of sensors as well as discrete semiconductors and analog circuits. Okmetic's strategic objective is profitable growth driven by a product portfolio designed to meet customers' current and future technology needs. The core of the company's operations is being genuinely close to the customers and understanding their needs and processes.

Okmetic's global sales network, extensive portfolio of high value-added products, in-depth knowledge of crystal growing, long-term product development projects, as well as efficient and flexible production create prerequisites for achieving the strategic targets. The company's headquarters is located in Finland, where the majority of the company's silicon wafers is manufactured. In addition to in-house manufacture, Okmetic has contract manufacturing in Japan and China. Okmetic's shares are listed on Nasdaq Helsinki Ltd under the code OKM1V.
