

Nederman receives an order in the Americas for SEK 34 million.

Nederman has received an order for four (4) Thin Film Dryers that will be used in a Green Energy process in a production facility in China. The order has a total value of SEK 34 million.

The Nederman solution consists of state-of-the-art drying technology, which was proven through an on-site demonstration to be more efficient than the customer's existing system. Nederman's close working relationship with the customer led to the success of this project. The US organization will deliver the order and therefore the order will be booked in the Americas.

The order will be booked in the first quarter of 2016 and is expected to be delivered and installed during Q4 of 2016.
