Maconomy signs contract with Deloitte AS in Norway

Maconomy has signed a contract with Deloitte AS in Norway for the purchase and implementation of 700 licenses for the Maconomy Project Portfolio Management solution

Copenhagen, October 15, 2007. Maconomy has signed a contract with Deloitte AS in Norway for the purchase and implementation of 700 licenses for the Maconomy Project Portfolio Management (PPM) solution. The new contract includes functionality such as job cost, account receivables, account payables, CRM and AnalytiX, the Maconomy business intelligence suite.

Deloitte AS is a new audit and tax customer in Norway; however, Deloitte AB in Sweden is a long-time Maconomy customer and provided an important reference for the sale.

In their selection criteria it was central for Deloitte AS that Maconomy enable them to de-centralize functionality to support customer-centric work flows, improve the efficiency of their invoicing cycle and create reports and analyses that enable them to take pro-active decisions on the business. Once again, Maconomy AnalytiX was found to be among the best management reporting solutions on the market.

This announcement does not affect Maconomy's financial expectations for 2007.
