

IT – Nasdaq Nordic Primary Data Center Relocation Project Update (23/16)

We are now in the process of migrating the first current production environments to our new VASBY data center, as communicated in previous IT Notices.

This migration is transparent and no action is required on the customer side. The web URL:s and IP addresses will remain the same.

The following web-based systems will be migrated on the 26th of March:

- Nordic Workstation
- Web trade
- Clearing Workstation 2
- CMS web
- CGW
- FDS
- FTP
- CNS
- Directors Desk
- IR Nordic
- Member Portal
- AMS web
- CAM web
- NFM web
- Track web

Please visit Data Center Relocation website for the latest information regarding the project:
